WORKS UP FINE BUSINESS
A year or more ago Don Hammer then employed on war work at Hudson Motor Co. Detroit, was stricken with a heart ailment. He spent considerable time in hospitals and was confined to his bed for three months last winter. Eventually he recovered enough to be able to get around. However the doctor refused to let him go back to work. Unaccustomed to idleness he looked about for something he could do and last spring started up a popcorn business. Gradually his business increased until he put up a stand of his own just south of the Gulf Oil Station. Now he has more business than he can handle especially on Saturday nights and free show nights on Thursday. Last Thursday night there was a lineup of 25 or 30 people waiting to get served. Despite the fact he usually has a large amount ahead to start with each night. He has added soft drinks and may put in a hot dog sandwich machine if he is unable to resume his job in Detroit this fall.

SOLDIER LETTER

Received by Mrs. Ella Dixon
Dear Ella: Today I shall write to you a little about the Hawaiian Islands. Censorship has been relaxed and now we can disclose where we are. The above address is a little town pronounced Eva on the island of Oahu which as you know is one of the Hawaiian Islands. It contains the city of Honolulu and the great Pearl Harbor which is quite close to my base. Yesterday was my liberty day so I and another fellow took the day off. His brother was on board ship so we visited him. When we started a tour of Honolulu. In peace time it was a fine summer resort but the people soon tire of everything here and we are glad to get home again. Remember Wakiki Beach. It is nice there. There is a swell surf and I imagine a moonlight night would be beautiful. Then we visited the Royal Hawaiian Hotel which as you know the navy has taken over. It is a work of art and very picturesque with its tall cocoanut palms, green lawns and beautiful tropical flowers which all contribute to its beauty and charm. Hawaii also has a large library which I believe is another Carnegie Institute. Besides there is also the university of Hawaii. Coming back to camp we passed through many small towns and villages with their beautiful flowers and scenery. Orchids grow wild here and so thick that they don't bother to sell them. Up in the mountains here are cactus plants like those in the desert and here it rains almost the year around. On the lower ground too we have our rainy season too. Sugar cane is the chief crop here. No matter where you go there is always a field of Sugar cane where they can get water to it. We have plenty to eat and they feed us good but I miss your cooking.

I attended Mass Sunday in the big cathedral and it is nice. You know we are nearer to God than a lot of people think.

I wish you would get Royal B. address for me. He may be quite close and I would like to see him. The Catholic papers you sent me reached me all right and I also got a Pinckney Dispatch a few days ago and enjoyed it very much.

My spirits are high, it is a swell day and I am feeling fine. Write me again soon, I am always grateful to you.

In Which the Use of Mackinac Island As Convalescent Home For Service Men Is Urged

MACINAC ISLAND-Five overseas battle casualties and three training camp casualties convalescent patients from the Percy Jones government hospital at Battle Creek sat on the floor of a partially fixed railroad baggage car. The Pennsylvania train, jammed with vacation bound civilians was leaving Grand Rapids en route to Mackinac City and intervening west coast resort cities.

No accommodations were available in the coaches.

It was the 1944 4th of July week and third national holiday since Pearl Harbor.

And this happened in Michigan.

At the Grand Hotel Mackinac Island where the eight men were the personal guests of Stewart Woodfill owner and president, we were shocked and angered when one of these valiant, Lt. Ray Marty, former artist of Detroit and New York City casually mentioned the fact.

"Don't misunderstand me," he hastened to explain. "We're not complaining. After what some of these men have gone through, the floor of a baggage car isn't so bad. It's just a bit messy on your uniform, that's all."

"The cheerful spirit of these wounded men is wonderful, yes marvelous. They're anxious, every man, to rejoin their old outfits."

Major Robert Acheson for instance was with the 504th Paratroopers, a Commando regiment in Italy. The men jumped from the sky and became surrounded by Germans. Ammunition ran low.

Acheson led a detail of ten men to fight their way through. The going was tough. Acheson an all around expert in handling weapons was wounded in the shoulders. Ahead was a German tank the last obstacle.

As Acheson ran toward a shell from tank took his arm off above the elbow. Instinctively he picked up the severed member and stuck it under his belt.

His orderly hushed by the murderous fire wiped out the crews of 6 Germans with hand grenades. Only Acheson and three others were alive when they managed to reach American lines.

For this valor in action, Acheson was awarded the Distinguished Service Cross and the Silver Star. He is quite a guy.

There is no doubt that historic Mackinac sold by the Indians to the English for \$25,000 in the Revolutionary war knows now it is in a war.

More than 300 years ago Jean Nicolet wearing a robe of Chinese damask first saw this rocky isle in the straits between Lake Huron and Lake Michigan while he was seeking the elusive Northwest Passage to China.

Capt. Patrick Sinclair a sturdy Scot moved the fort from below the straits to the island in 1781 at the very time George Rogers Clark was making history at Kaskaskia and Vincennes and menacing Detroit.

The bulldogged English stubborn as they are today held tight to Mackinac following the Revolutionary war and until 1796. During the war of 1812 they seized it from the American garrison without firing a shot.

PHILATHEA NOTES

The Philathea class is meeting on this Wednesday afternoon with Mrs. George Thompson at Hi-land Lake.

On account of the church business meeting on Sunday morning, there was no session of Sunday school. The advanced lesson for July 16 is "Successes and Failures of Israel". One significant fact in this lesson "And the children of Israel did evil in the sight of the Lord" is repeated several times.

In Isaiah 41:10 are found the inspiring words that served as the text of the morning message by Rev. Pearce who has consented to supply the pulpit for several Sundays. He and his wife are always welcome guests in our midst.

CARD OF THANKS

The family of the late Minnie Bullis wishes to express their sincere appreciation to the friends for flowers and especially to Mr. and Mrs. Swarthout who were so thoughtful and helpful at the time of her death.

NOTICE TO ALL CHERRY PICKERS

We expect to go north this week or next after cherries. Those who wish them get your orders in. Also furnish baskets if possible.

CURRENT COMMENT

By Yo Editor

It is well stated that "In Midst of Life There is Death." This was forcibly illustrated last week when some 200 people lost their lives in a fire which destroyed the Ringling Bros Circus at Hartford, Conn. A majority of them were probably trampled to death by the panic-stricken crowd. In a soft coal mine at Bensare, Ohio, 64 miners lost their lives in a cave-in. Official figures given a few weeks ago prove that more people lost their lives through accident in this country last year than were killed while serving in the armed forces. The nation has been aware of this for many years but apparently no successful way has been worked out to reduce the accidental death rate. A number of years ago a big "Safety First" campaign was put on and railroads and factories had their buildings and walls plastered with "Safety First" signs. Some how the practice has fallen into disuse.

The robot plane, Germany's secret weapon is apparently in its heyday and already 2,712 people in London have been killed and 800 wounded. In reality it is not a plane at all but a motor or rocket propelled bomb carrying 2200 lbs. of explosive. They are pointed in the direction of London and released. As a result schools, hospital and many non-combat places have been hit. They are now being released at the rate of 150 to 100 per day. Apparently the only way to stop them is to shoot them out of the air before they reach a strategic point. Their only advantage to the war effort is to the morale of the people and to withdraw a number of planes from war area to combat them.

Sam Caudry, 16, of Dearborn is in Henry Ford hospital as a result of calling Paul Laftis, 16, recently from the south a hill billy. Apparently then is fighting words where Laftis came from. Now just what is a hill billy? We believe the term became in popular use in early days of radio broadcasting when many jazz bands were advertised as hill billy bands. They popularized the term. Today anyone who comes from south of the Mason and Dixon line is called a hill billy. This is in error. Properly speaking a hill billy is an uneducated person living in the hills or mountains of the south who has had little contact with the outside world.

Old age retirement pensions are an established fact and undoubtedly here to stay. Old age pensions had tough sledding in Michigan. Both former Governors Green and Brucker declared themselves in favor of them but did nothing to get such a law enacted. Gov. Clegg got a pension law enacted but its enemies sought to force him to veto it by attacking the unpopular poll tax financing on it. He fooled them by signing it. In the mean time the sales tax had been enacted bringing new funds into the treasury and during the Fitzgerald administration the tax was repealed and the pensions have since been financed out of the general fund. Still the pensions were woefully inadequate until the social security law was enacted following 1936. Many other cities and enterprises have also adopted pension or retirement plans. Wayne county will now disburse \$748,000 annually to match contribution of 6000 employees. This will be paid to all who have completed 30 years of service, those over 65 who have completed 25 years those 70 who have completed 20 and those 75 who have completed 15. The pension scale will be graduated up to \$1800 a year. There is one hitch we find with this plan. We don't think anyone under the age of 65 years should receive a pension unless they are unable to work. Many persons who are receiving the board of 30 years service go out and get another job while drawing a pension at the same time.

In summing up the political situation in the Detroit Free Press last week Malcolm Ringay says President Roosevelt may face a hot political year for the first time in his career. He remarks that Hoover was a hollow shell in 1932, Landon, setup with round heels in 1936 and Willie a service, totally ignorant of politics in 1940. Dewey has had considerable training in a political way and the question is "Can He Take It?" This of course a lot of money. Circumstances and conditions played a big part in all three above campaigns. Roosevelt was always willing to gamble and take a chance while his three opponents played safe and dodged the issues. If Dewey binds himself by the terms of the Republican platform he will follow the same course as the three previous nominees.

THE OLD JUDGE SAYS...

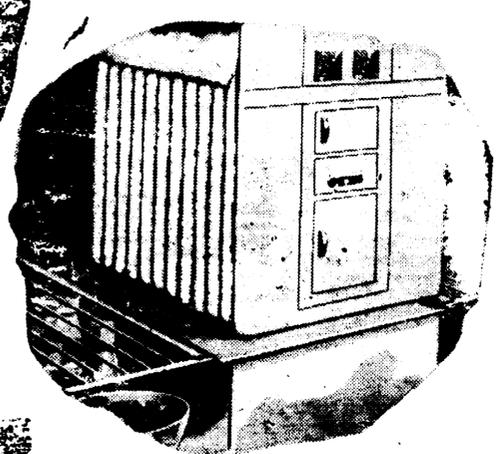

"Judge, I've had a lot of calls for that book you took out last week... 'Tell the Boys to Go Home'. How did you like it?"
"Fine, Sarah, fine... it's just the kind of book I like to get hold of... I enjoyed every word of it. Wish I could have been going with the author myself... actually going with the man right on the fighting front. He got mighty close to them and they certainly opened up their minds and their hearts to him."
"There were lots of new things in the book I hadn't seen in any other reports from front-line writers. But there was one question the men asked the author that I have seen time and time again in these stories. That was 'Are you going to put prohibition over on us soldiers again... and without getting our vote?'"
"I noticed that, too, Judge, and I think the least we can do for those fighting men who are doing so much for us is to respect their wishes on that subject."

Don't keep a "snow-man" in your refrigerator—

IT COSTS YOU MONEY!

Warm weather means an added burden on your refrigerator. The hotter the weather, the harder it works to keep things cool. If you notice a "snow-man" forming inside—heavy frost on the cooling coils—it's time to get busy and defrost the refrigerator. That layer of frost is costing you money: It means that the refrigerator must work overtime to absorb heat through a blanket of frost around the cooling coils. And for economical operation, the motor should run as little as possible.

It's only business to keep "putting-off" the chore of defrosting—especially in summer, when ice cubes are in big demand and you hesitate to have your refrigerator out of commission even for a few hours. But see that it is done regularly. Do not use an ice pick or a sharp instrument to remove ice; this sometimes punctures the refrigerating coils. After defrosting, wash the whole interior (coils, shelves, trays, etc.) with lukewarm water and mild soap. Unless the motor of your refrigerator is hermetically sealed, have it oiled and inspected periodically. Remember that your refrigerator must last for the duration. Treat it accordingly! DRIVE IT HOME!

"That's the way I like to see them," said Gen. MacArthur when he saw the rows of dead Japs in the Admiralty Islands. In this war—the costliest, cruellest war of all time—our boys must fight with savage fury. Kill or be killed! And on how well each plays his part depends the lives of many of his buddies.

That's why there's a Fifth War Bond drive on now, a drive in which you're needed to support the men on the fighting fronts who are facing the most treacherous forces Americans have ever met in combat. We on the home front can't let them down—and we won't. So resolve now to at least double your Bond buying in the 5th War Loan drive. This is the time to do better than your best.

Continued from First Page THE MICHIGAN MIRROR

Federal troops manned the fort during the Mexican war and the Civil war. The fort was a state park during the war with Spain and World War I. Today 89 of the islands population of 317 are in the armed services.

Major Acheson and his companions may not have been aware that Mackinac Island a historical shrine and for a good three quarters of a century a nationally famous summer resort, reflected a thoughtful and sober mood July 4th, 1944.

Members of the Michigan Tourist Council & the Michigan Agricultural Marketing council were concluding a three day conference on post war planning. Governor Kelly, Mrs. Kelly and the Kelly Kids as an island youngster called them were guests for a quiet rest at the only residence State of Michigan provides for its governor, a modest summer cottage adjoining the old fort that crests the hill by the Harbor. The John Jacob Astor house—head quarters of the American fur company century ago as been restored and is open to the public.

The Middle log house oldest building on the island was purchased recently by Frank McKay of Grand Rapids and will be restored by him as a personal contribution to the state.

The old Earley house famed for the medical studies of Dr. William Park Homey, has been purchased by the Park Homey company of Detroit and donated to the state as a memorial. Adrian N. Langrus state architect was to arrive this week to prepare plans.

At the Grand Hotel with its longest porch overlooking the straits the Casino night club was dark for the first time in years.

As the battle casualties from Percy Jones hospital stepped from a train white ferry boat the Mackinac Islander, they alighted upon a modern concrete dock.

This Wharf one of the finest on the Great Lakes is the product of the new park and harbor commission a utility of the city of Mackinac Island.

Near the Grand hotel is a public bathing beach three quarter of a mile long costing \$17,000.

These improvements as well as the Astor house restoration, were financed by a tax paid by steamship companies on their passages. Thus the tourists are making possible just as they have done at Bermuda for years a gradual rejuvenation of this quaint, secluded carefree island resort so rich in historical lore under three flags.

Among the wounded Yanks at Mackinac were Lt. Paul Harrison of Lansing member of the First Division who sustained a back wound from a bursting shell at Cassino; Lt. Harry Schuler Columbia army air base who got a broken arm when a B-26 skidded on the ice during a landing; and Lt. Charles Bolton of Niles 36th Infantry Division victim of a snipers bullet while on night patrol in Italy.

In addition to Lt. Marty who is an talented portrait artist were Lt. Russell L. Holcomb of the Military Police Corps and Lt. Rex Yocum of the 117th Field Artillery, 31st Division, both of whom were nursing training injuries a broken arm and a twisted back.

From Sicily and Cassino and now Normandy in France, to the quiet picturesque island at the straits is a long, long distance. Percy Jones patients are bridging that gap in small groups of eight men this summer.

They are giving to this health giving northland a new purpose and vibrant significance.

Hundreds of other soldiers at Percy Jones would welcome such a blessing. Here are the men who above all others should be accorded the privilege of enjoying the bracing, stimulating air of northern Michigan and its scenery of inspiring grandeur.

Mackinac at war is thinking of these men with chastened humility. And so are we.

Come On, America!

THIS is what we've been working for all along. This is the year to hit and hurt the enemy. This is the time when everything you do counts double. If we all get together and do all we can, we'll be over this hurdle and well on our way to complete and crushing victory. No question about the men in uniform—they'll go "all out." But can we count on you to back them all the way? Your quota is where you work—you've got to buy your War Bonds and then buy more, until every last loose

cent you have is fighting. Tough? Of course, it's tough—unless it is a sacrifice you're simply not doing your share!

Make the sacrifice now—buy more than the extra \$100 Bond your country counts on you for—winning the war is worth any sacrifice you make. Besides, you aren't giving, you're lending to America! You'll get back every dollar you invest in War Bonds, with interest.

An extra \$100 War Bond now is the minimum for everybody—can't we count on you for more?
