Local Team Win 7th Game

Takes An Easy Contest From Dexter by a 35 to 0 Score. Meets Dansville, Tri-County Champions Here Friday to Close the Season.

The Pinckney high school football team continued their march of triumph last Friday by defeating Dexter 35 to 0. Dexter did not provide much opposition and Pinckney could probably have increased the score considerably if they had cared to. As it was the second team got in and played a good part of the second half.

Dexter made three first downs the first quarter but Pinckney solved their attack and stopped them and hereafter they never got into scoring position. In this quarter Ross Lamu broke loose and carried the ball to the five yard line when he took it across in two tries. Gus Ledwidge got a pass over the goal line for the extra point. In the second quarter after a march of some 50 yards Garth Meyer went through the line for the second touchdown and Lamb kicked the goal for the extra point.

In the last half Pinckney made three more touchdowns by Ledwidge, Jim Reid and Meyer and made all the extra points. Here the second team took over and while they failed to score they kept Dexter away from the goal line.

This victory gives Pinckney 7 wins out of 8 starts, the best season they have experienced in many years. This week Friday they face their supreme test when they meet Dansville, the Tri-County League Champions who have won every game and have not been scored upon. They took Stockbridge 44 to 0 and Fowlerville 36 to 0. Pinckney will encounter tough opposition but our advice to you is to put your money on Pinckney. The game will be played here.

U. S. O. DRIVE

On the U. S. O. Drive \$9,130 of the \$12,85,000 asked has been raised \$3,230 is still needed to put the drive over the top. Conway, Mich. State San., Brighton twp., Fowlerville, Brighton City and Howell township have already raised their quotas. The other townships have only turned in partial collection.

Pinckney Village went over the top in their quota of \$290.00 as they collected \$325.00 in the township their quota was \$340 but so far only \$73.50 has been collected.

CARD OF THANKS

I wish to thank all my old friends and neighbors in Pinckney and vicinity for their fine support given me at the polls Nov. 7. The Putnam majority was one of the biggest I received in the county.

Sheriff Irvin J. Kennedy

Michigan Mirror State News

BY THE PRESS-GAZETTE CO., Editor of the State of Michigan

The one-man grand jury system, as authorized by the Michigan legislature in 1916, constitutes a powerful and effective weapon for prevention of corruption in government. If the grand jury is not hampered by restrictions as to adequate funds, sufficient time and utmost secrecy it will achieve results where other methods fail.

Senator Homer Ferguson, who spoke these words in a personal interview ought to know.

As Detroit's famed racket buster who obtained the indictment conviction of approximately 150 persons a few years ago, including such top crims as mayor, police superintendent, prosecuting attorney and sheriff — the law enforcement machinery itself — he has had considerable first-hand experience in the operation of a one-man grand jury.

Join us at the breakfast table as Senator Ferguson discusses the subject.

It took three years time to get all the evidence necessary to bring the grafters to trial in Wayne county. The interview took place at the Detroit Golf club off Palmer road. It was about 9 o'clock, when we sat down for coffee and coffee.

"The public must be patient," he continued. "A successful investigation takes time.

"In the first place you must have adequate funds at your disposal and you must be trusted to use the money properly pending final accounting when the task is finished. My disbursements in Detroit were counter-signed by Chester P. O'Hara chief attorney.

Second you must get the best talent available. I hired fifteen young attorneys each man anxious to make a name for himself for \$1 a year. O'Hara did a brilliant job. All members of my staff worked without stint and they deserve highest praise. I tried to get Purvis as my chief investigator and offered him \$20,000 a year to come to Detroit. I went to New York to consult with Thomas Dewey then a successful prosecutor of graft cases.

"You can't reveal who you are hiring as investigators for an testimony must be received in utmost secrecy. Your personal convictions don't mean a thing until you get the actual proof itself. And that takes time.

"You must have new quarters. For if witnesses are seen others will know how close you may be to a solution. I have taken testimony in taxicabs, private homes, hotel rooms and almost any place except my own offices.

The one-man grand jury is just that. For example there was the Herman Gardens housing case. We worked five or six months without even cracking the case. Suddenly a casual remark by one suspect led to the first definite evidence of wrong doing. The pay-off man the connecting link in the conspiracy, received immunity after I had taken him to Chicago to obtain the evidence. Three city councilmen were indicted and convicted. But it took half a year to solve this case — don't forget that."

"Now this matter of granting immunity to a key witness is important. Immunity is essential to success of the one-man grand jury. The law says that a man does not have to testify against himself. It is his constitutional right to refuse to answer any questions that may tend to incriminate himself.

"Now you can't give immunity to everybody. The witness must be an important link in the crime. Usually he is one of the biggest rogues. In grant

We can't see why all the abuse was piled upon the C. I. O. and their political Action Committee. They perfected a perfect working organization for getting the voters registered and giving them transportation to the polls on election day and lo and behold when election day rolled around they made good. The press and radio and all public men have been exhorting the people for months to register and vote. Now when an organization appears which does just that very thing — all it gets is abuse. Can it be that these people who have been crying for a big vote were talking with their tongues in their cheek and did not mean what they said.

COMMENT

The big question in this vicinity is what happened Nov. 7 in Putnam township, which has been the Democratic oasis in Livingston county for the past 100 years and could always be depended upon in a national election to turn in a majority for every Democrat candidate from president on down. Only once before (1928) has Putnam failed to go Democratic. Occasionally a Republican supervisor is elected but that is due to local or personal issues. The reason is that the farmers do not consider they are getting high enough prices for their produce under the OPA price ceilings. They consider that labor, especially war workers are greatly favored by the administration. Now let us look at the situation. During the last few years a mighty nationwide labor organization has been perfected and is now working smoothly. This has been greatly aided since the war by a labor scarcity. When this organization asks for anything it usually gets it for it can deliver a tremendous vote on election day. When they demand a certain wage scale they usually get that too. The farmer has no organization to match this. There are a number of farm organizations such as the Grange, Farm Bureau and Mich. Milk Producers Assoc. but so far they have had little success in getting the prices the farmers want. The entire trouble is that the farmers are the only class on earth which let the buyer set his price. He raises beef, pork, milk, wheat etc and takes it to the market and asks "What will you give me for it?" This procedure is ridiculous and always has been. How long would Henry Ford or any other business man for that matter last if they let the buyer set the selling price. Yet in the past all attempts to organize the farmers into a workable organization have failed. Until such an organization is perfected we can see little relief for the farmer.

Once again the different newspaper polls on the presidential election all missed the train for the reason that as usual they all leaned toward the Republican candidate. The Crossley poll was closest. It forecast 354 electoral votes for Roosevelt which was about 100 too few. The Gallup poll only gave him 292. The biggest trouble with these polls is they can be manipulated and as they're nearly all published in anti-Roosevelt papers the temptation to give these papers the kind of polls they want is strong.

A number of things stand out in the campaign just closed which undoubtedly led to the successful bid for a 4th term by President Roosevelt. One was the abusive and violent attacks made on him by such papers as the Chicago Tribune, the leading isolationist organ. All polls of Illinois put it in the Dewey column but when the votes were counted it had gone to Roosevelt by double the majority he got there in 1940. The people of Illinois could not see any sense in the Tribunes attacks on Great Britain and Russia who are our Allies. Gov. Dewey underestimated the intelligence of the voters. His charges that the reelection of Roosevelt would turn the country over to the Communists failed to register. Just how a party who casts only a few hundred thousand votes in a national election could take over he did not explain. His assertion that the president intended to demand unconditional terms were preposterous and causing huge American losses. He did not come out openly in favor of a soft and easy peace for Germany, the only alternative, as he knew the people would not stand for it. Somehow we feel that Gov. Dewey did not measure up and will not be the Republican nominee in 1948.

Although President Roosevelt has apparently carried Michigan, Edward Fry, Democrat candidate for governor lost to Harry Kelly by more than 200,000. There were various reasons for this. The Democrats put up a weak slate of candidates, most of whom were unknown. They let their state organization go to pieces, especially the county ones and failed to have tickets in over 20 counties. Gov. Kelly is also popular and his prominence as a member of the Notre Dame alumni and the Knights of Columbus gives him added strength. He is also friendly to union labor.

CONSERVATION NOTES

The number of deer hunters going North can be estimated by the fact that a mile of cars a mile long was waiting to get across the Straits at St. Ignace Monday morning. Four ferries were in operation which carry 100 cars a trip.

16 people were killed and 100 wounded during Michigan's pheasant season. 11 of the 16 killed were under 18 years of age.

Michigan's forest fire loss exceeds that of 1943. 20,914 acres burned in 55 fires.

The United States mint used 46,000 tons of copper annually for pennies. Michigan produces 91,358,000 lbs. of copper a year.

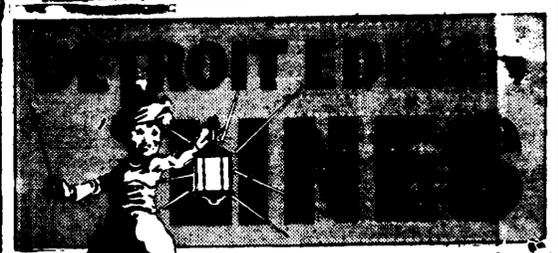

One out of every three hunters got a deer last year.

Deer hunters who bring Christmas trees back with them must obtain bills of sale. There is a penalty for the unauthorized cutting and transportation of such trees.

216,065 acres of state lands in Michigan are leased to oil companies. This is 20246 acres more than last year.

Hunters and trappers took 71,859 raccoon last year and 999,443 muskrats.

900 archers will hunt deer in Michigan this year from Nov. 1-30.

... Timely items of interest and value ... helpful suggestions about cooking, lighting and appliances.

KEEP 'EM ROLLING ... The rolling mills in the plant of one of our large customers ground to a halt recently when a 2,000-kilowatt motor generator set broke down. Thousands of man-hours and much vital war material would be lost, for necessary repairs would take *seven weeks!* But luckily Detroit Edison could help. We located a large motor generator which had been dismantled and removed from one of our sub-stations—and Edison employees from many different departments worked continuously to reassemble the machine and install it in the customer's plant. The mill was back in operation and sheet steel was again being produced *within seven days.* A month and a half of war production had been saved.

You save coal, transportation and manpower when you save electricity

OUR PART ... The Detroit Edison Company has converted 26 oil-burning units in Company buildings to solid fuel, thereby saving 118,000 gallons of fuel oil for war uses.

SUGAR-SAVER ... Our Home Service Department highly recommends this:

Victory Spice Cake

- | | |
|--------------------|-------------------------|
| 1/2 cup shortening | 3/4 cup dark corn syrup |
| 3/4 tsp. salt | 2 eggs, unbeaten |
| 1 tsp. cinnamon | 1 tsp. baking powder |
| 1/2 tsp. cloves | 1/2 tsp. soda |
| 1/2 tsp. allspice | 2 cups sifted flour |
| 1/2 tsp. nutmeg | 3/4 cup thick sour milk |
| | 1/2 cup sugar |

Blend shortening, salt and spices. Add sugar gradually and cream well. Add corn syrup gradually, mixing well. Add eggs singly, beating well after each addition. Sift baking powder and soda with flour three times. Add flour alternately with sour milk, mixing until smooth. Bake in a 14x9x2-inch pan (greased) in a moderate oven (350°F.) for 35 to 45 minutes.

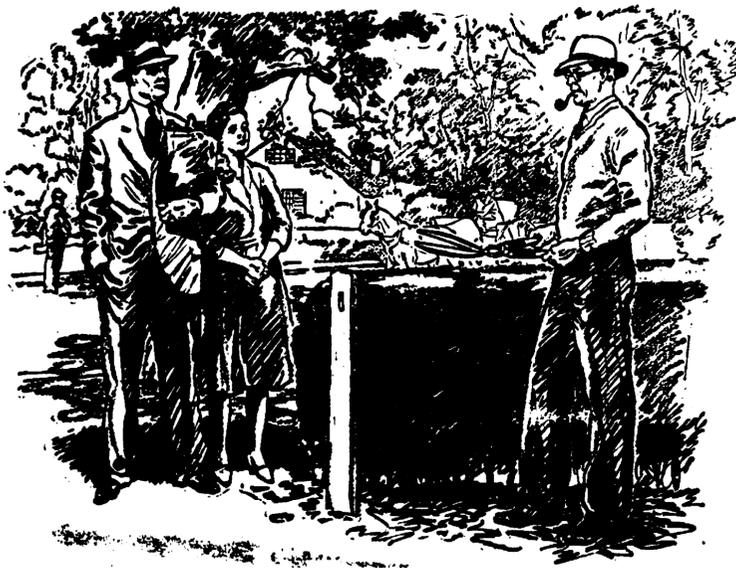

YOUR PART ... Battles are never won cheaply. Victories are purchased at the cost of blood—the blood of our fighting men. Current triumphs mean an unprecedented demand for blood plasma. Are you helping to make up this drain on the plasma supply? If you have not made a blood donation during the last ten weeks, call your local Red Cross today.

THE OLD JUDGE SAYS ...

"Mary and I were just saying, Judge, how lucky we are here in America that we have so many natural resources to help win the war."
"That's right, Jim. When war broke out we had oil, we had steel, we had food, lumber, aluminum...practically everything we needed. There's one thing we didn't have...rubber. The enemy had that."
"But that didn't bother us for long. Soon American brains and industry had synthetic rubber by the tons rolling out of plants. That filled a critical need...you can't win a war without rubber."

"I was very much interested the other day in reading a statement made by a high government official on synthetic rubber. In it he said 'It is fair to regard the rubber manufactured to date as being almost solely the product of the beverage distilling industry.'
"He also said that, in his estimation, the tremendous contribution of distillers' industrial alcohol to the synthetic rubber program had not received the recognition which it deserves."
"We certainly learned something today, didn't we Mary?"

BUY WAR BONDS

BE SAFE... BE SURE... WITH WAR BONDS!

NO turn in the weather can wash out your investment in War Bonds. No cut-worm or borer or other insect pest can get to them. No market fluctuation can alter their value from day to day. They're one "crop" that never fails!

We Americans pride ourselves not only on knowing how to make a penny now and then, but also on how to keep one. So we get double pleasure out of our War Bond purchases. First, we're backing our men in uniform who are fighting all over the world to keep America safe and free. Second, we are building a financial reserve to meet the inevitable emergencies of such a business as farming. And third, when those Bonds mature, we will have the cash for new equipment and machinery and buildings to help maintain the efficiency and earning power of our farms.

Yes, if you're looking for a "crop" that never fails, you'll put in an order today for more War Bonds... even if you have to go without something else to pay for them!

5 REASONS FOR INCREASING YOUR WAR BOND PURCHASES

1. The tempo of this war is hitting its highest point. Government expenditures for war are at the peak. MORE MONEY IS NEEDED... NOW!
2. In proportion to WHO HAS THE MOST MONEY, individuals are not buying their share of War Bonds. America must correct this situation.
3. War Bonds provide the farmer and rancher with the financial reserve he must have to survive the ordinary ups and downs of farming as a business.
4. Money will be needed urgently at a future date to replace and repair farm equipment, machinery, and buildings. War Bonds will provide it.
5. War Bonds are the safest investment in the world, return a good rate of interest, are easy and convenient to buy... from bank, post office, rural mail carrier or Production Credit Association.

For America's Future, for your Future, for your Children's Future

How Shall We Observe Christmas?

MANY today are asking: How shall we observe this Christmas? Shall we prepare for the usual festivities? Others usually pray for courage and grace to bear the prospect of a broken family circle. Aggressive suggestions of separation, loneliness, nostalgic remembrance of other happy seasons, or fearful uncertainty about the future may present themselves, in spite of human misgivings, here is the best reason for genuine joy at Christmas. God and His universe are still the same. Reverence and humility fill the heart as one ponders the sacred Scriptural record of the first Christmas. The beautiful, true story which Matthew and Luke relate, is untouched by time, indifference, or self-centered plans and pastimes. One marvels at the spiritual readiness of the unlearned shepherds and those who were counted wise men of their day. Scriptural prophecy and earnest longing had prepared their hearts and minds for the message of angels and the star of Bethlehem. No pride, fear, or stolidity hindered the divine impulsion which led them to the manger. Don Hammer went deer hunting Monday with Stanley Dinkel, Orville Smith and Reynolds Wylie.

Continued from First Page THE MICHIGAN MURDER

ing immunity the judge must decide whether to grant it to a public official or a private citizen I always felt that the official was the worst criminal of the two for he had violated his sacred oath of office. I would rather grant immunity to a private citizen.

"It is my personal conviction that were it not for the device of immunity for key witnesses, we would have continual corruption in government. Senator Ferguson recalled how he had to wait until 12:01 a.m. one Monday to receive testimony as the law prohibits the taking of evidence on Sunday. He merely engaged the witnesses in conversation until the clock indicated at midnight the arrival of Monday.

"Again I want to emphasize it is important for the grand jury to have enough funds to do the job. If you don't do the job well, you had better not try at all."

As an illustration of the value of the one-man grand jury to good government, Senator Ferguson cited the Michigan State Police and the Federal Bureau of investigation. "These agencies not only solve crimes they prevent crimes he pointed out. "Thus they are well worth their annual cost. "The one-man grand jury is a 24 hours a day crusade in which life itself may be at stake. My own life was threatened repeatedly. But crooks are cowards at heart and I knew it."

As for the one-man grand jury investigation at Lansing Senator Ferguson indicated he had been following its progress through the press. These remarks of mine were prompted by my own personal experience as a one man grand jury. I feel definitely that the system itself is sound. It is cheap insurance for good government."

Be Prepared when the Solicitor Calls upon You for your Subscription for War Bonds in the Sixth War Loan Drive

We do not have to tell you about the safety and desirability of owning all the War Bonds you can possibly buy.

Perhaps we can help you to pick the best buy for your individual case. There are eight different types of securities, each one offered to fill a particular need.

There is the Series "E" Bond for individuals only, available up to a total of \$5,000 per year. Then there is the Series "F" Bond for individuals, corporations, societies, etc. available up to \$50,000.00 in any one year.

The Series "G" Bond is sold to individuals, corporations and pays two and one half percent per annum but must be retained to maturity to receive the 2 and one half per cent rate. The series "C" Bond is a three year Bond to be used to take care of taxes or other obligations which might arise during this bond life.

All four of these series, "B", "F", "G" and "C" are what are called definite value bonds, that is they have a predetermined value if cashed at any time during their lives and are not subject to market fluctuations.

The other four issues are what are called market issues. These are quoted daily and, if one sells before maturity, he may get a premium or loss depending on the market. These are intended for business men, corporations, insurance companies, etc. and the rates range from seven eighths per cent for one year certificates to one and one fourth for two year and nine months notes, or 2 per cent for eight to ten year bonds, or 2 and one half for twenty-one to twenty-six year bonds.

We shall be happy to help you decide on the best bond to suit your needs.

CIRCUIT COURT NEWS

Judge Colline held a one day session in Howell Thurs. Hiram Smith, representing Fred Server asked restoration of the latter's driving license. It was restored on condition that Server consult a doctor regularly and take insulin treatments.

The judge returns Nov. 21 when he will hear the case of the Citizen's Mutual Auto Ins. Co. vs. Dorris Frisbee. The Hamburg school bus case is also slated to come up in circuit court. It seems Hamburg only has an 8th grade school and the Brown-McClaren Co. there purchased a bus to transport the children to Ann Arbor to high school. Thomas Themly, a Brown-McClaren worker desired to have his son, Nicholas, a 7th grader attend University high school. Ann Arbor, so that he might take a chemical course. He offered to pay the boys tuition at Ann Arbor, \$1.50 a week fare on the bus and the boys share of the school tax to the Hamburg school. The Hamburg school board refused to let the boy ride on the bus. Themly sr. engaged Martin Lavan, attorney and at a subsequent school meeting it was agreed to refer the matter to an open school meeting. At the open meeting, attended by some 25 persons, mostly Brown-McClaren employees it was voted unanimously to allow the boy to ride on the bus.

During this time an opinion was received from Stanley Beriman, prosecuting attorney that the school board had the right to grant the boy permission to ride on the bus. The attorney general was asked to give an opinion on the matter but refused, thereby affirming the prosecutors opinion.

Following the open school board meeting the Hamburg school board again met. Wayne Jury, school board member resigned which was accepted. On the motion to approve the decision of the open meeting. Charles Bennett and O. Hollenbach of the school board voted yes and James Hayner and Lester Sharp did not vote. This killed the motion, and the case went to circuit court. James Featherly has since been appointed to the board to succeed Wayne Jury.

MARRIAGE LICENSES

SCANDAL COLUMN

By The Scoopers
What sophomore football player disobeyed a rule Sunday night by missing fifteen minutes of the sleep which is so important to a star? Maybe one of the freshmen cheer leaders should take a little more interest in the welfare of the team instead of one particular player.

Two senior boys attempting to date two of the feminine classmates from Gregory Sunday night and meeting success with only one decided they would share her and were off to the show in a little green ford. She charmed them so, it was the wee hours of the morning before the spell was broken and she was taken home. After losing his remaining companion at the Main St. and Dexter Corner the driver safely guided the car into his own yard.

The foremost question of the week is -Who will win a certain lass? We're anticipating a stiff battle between the milk truck brigade from Pinckney and the Air Corp. from Texas.

Standing behind the counter of a soda fountain surely doesn't hinder a girls chances. For our little blond seemed to have reached to the midst of her costumers and grabbed a monopoly on the navy. When this story spreads around a new wing might be needed on the drug store to accommodate the prospective employees.

It seems that the entertainment at Friday nights dances didn't satisfy some of the younger students so they later arranged entertainment which they thought was far better. Need we say more.

There were several "Sadie Hawkins" trying to secure themselves some men to take to the dance Friday night. The dance was a big success and the greatest share of the "Sadies" were good to their partners. The ninth graders should sponsor a number of dances if the girls foot the bill, eh boys? Each class was to give some talent toward the entertainment. The Juniors produced a play entitled "Hot News", which was very good. The other grades had questions except for the seniors, who at the last minute sang some songs and had an act put on by their favorite entertainer Robert Carr.

SERGEANT STEVE GERYCZ

By Technical Sergeant Joseph L. Alli, of 503 Massachusetts Avenue, Buffalo New York, a Marine Corps Combat Correspondent, formerly of the Buffalo - Courier Express.

Peleliu Islands (Delayed) Marine Sergeant Steve Gerycz of Pinckney Michigan described by his commanding officer as one of the coolest men I have ever seen under fire knocked out three enemy pillboxes and helped silence several others here before he was wounded and evacuated.

The Guadalcanal and Cape Gloucester veteran suffered a shrapnel wound in the shoulder on the fourth day during an attack on Suicide Ridge. But even that didn't stop him. He went on behind a Sherman tank and helped knock out an enemy emplacement with hand grenades.

Shortly after he was trapped on the side of the ridge and spent, an anxious hour under mortar and machine gun fire.

"When he finally got down we talked him into turning in at the aid station", said Corporal Henry N. Edwards, 21, of 905 Eight Street, East St. Louis, Ill.

According to Captain Edward Tiscornia of 645 Stockton Street, San Francisco, California, Gerycz accounted for his first pillbox a few hours after our assault forces had landed here under a hail of enemy mortar shells.

"The pillbox was right on the beach," he said "and was giving us sorts of trouble, Steve got up along side of it, threw in a smoke grenade and then sprayed the inside with Tommy gun fire he also tossed in a few grenades."

During the Marine advance across the air field a Japanese machine gun had pinned down Sgt. Abraham L. Hill, of 2023 Ohio Avenue Southgate California. "Steve went around to the side of the gun and stopped it with hand grenades." Sergeant Hill said "There were four Japs in the emplacement."

Once during the third day of action Sergeant Gerycz, Corps. Edwards and Private First Class Elmer R. Basely of 113 Willis Avenue Ashland, Wis. were pinned down by enemy fire.

"Steve spotted a Jap cave," Basely related. "We went inside and looked around. There were no Japs. We stayed there until the shooting had let up."
