News Items of Boys in Service

News and Items Concerning Our Boys Who Are Serving in the Armed

Kenneth Lamont writes he is on board ship in the Philippines and has seen plenty of action there. He saw Edsel Meyer's boat pull out of a port there one day but did not see Edsel as that was the first he knew the boat was there. Received a Dispatch the other day with an account of the foot ball team. Would have liked to have been here to play football for Mr. Reader and yet the team he played on in 1940 did not do so bad.

Jay Shirey is now on board ship and gets his mail via fleet postoffice, San Francisco, California.

Sergt. Gerald Swarthout, tail gunner, who flew with his plane to North Africa is now in Italy.

Sergt. Frances Krupa writes from Italy he just received a bunch of Dispatches and read every line in them. It is very cold there. He would like Gordon Lamb's address as he has not yet seen any of them there he knows. The food is good and they have plenty of fresh eggs there but things are very high. Shoes are \$45, sweaters \$12 to \$15, a purse \$35, eggs 5 cents each, stockings \$5 to \$15. Most every one goes bareheaded there. He likes the service men's columns in the Dispatch.

A letter from Eli Aron jr. says he has been all over the South Pacific and was on Guam for a time. He is in the navy hospital corp. and has many interesting experiences. Has helped deliver babies for several Japanese women prisoners and native women. The natives come to the hospital for treatment. Tuberculosis is the prevailing plague there and most of the natives have it. He was initiated when he crossed the equator and is now a full fledged shellback. He describes his initiation which was strenuous and somewhat nauseating. Thanks the ladies gift com. for the Xmas gift.

Kenneth Ford has enlisted in the U. S. navy and left Monday for Great Lakes, Mich. His classmates at Pinckney High School gave him a fare well party at his home at Portage Lake Saturday night.

Gerald Vedder USN, is home from the South Pacific on a 31 day furlough.

Gerald Clinton who is studying for a pilot's ranking in Texas expects to finish about March 15 and will get a short furlough then.

Sergt. Grant Ward wounded in France and invalided home was home over the week end from Gardner General Hospital on furlough.

Albert Head S-1-c U. S. N. was in the invasion of Leyte and Luzon, Philippines, according to a letter received from him.

Sergt. Joe Morris was home from the army hospital at Galesburg, Ill. over the week end and PFC Merlin Amburgey was also home from Chicago hospital.

Mrs. Eloise Campbell and Mrs. Thelma Kingsley attended the German War Prisoners conference at the Masonic temple in Detroit Wed. The auditorium was packed. The prisoners lately released from German prison camps were on the stage and talked and answered questions. A representative from the provost generals dept. also spoke.

PFC Gayle Hendee according to his latest letter was still in Italy.

PFC Hollis Swarthout is now with the invasion army in France.

Pfc. Lawrence Baughn writes from Germany that he has just enjoyed a three day rest period after a spell of hard and constant service. Said it seemed good to get your clothes off and have a nights sleep for a change.

Sergt. Telesphore Bourbonnais has gone overseas to the South Pacific and has an APO San Francisco, Cal.

Lawrence Baughn, son of Mr. and Mrs. Earl Baughn who participated in the Normandy invasion has been made a corporal in the anti-aircraft gunnery division.

Private Edward Drost, who is a student in the army specialized training program at Ohio State University in Columbus Ohio spent the week-end at the Melvin home.

Paul Perry, son of Edward Perry of Anderson is home from the South Pacific after 3 years on furlough. He has been wounded twice. He is a marine. He has been in Guam, Saipan, and the Marianas.

Walter Kaiser who has been home from the navy on furlough returned to duty Monday.

PFC. Lee Lavey writes from the Philippines that he is living in a bamboo hut built by natives elevated 3 feet above the ground. The natives to bring chickens and eggs to them to sell but want four prices for them. The money used is sometimes worth half a cent and goes worth 22 cents.

THE MIDNIGHT CURFEW War director Byrnes has promulgated a midnight closing law for all recreation places except restaurants serving regular meals. This includes night clubs, dance halls, theatres and bowling alleys. This is not expected to inconvenience Michigan much except as to night clubs. Theatres and bowling alleys usually close by midnight and as Central Standard time goes into effect March 17 this would give beer gardens and taverns until 1:00 a.m. fast time to close. This edict goes into effect Feb. 26 next.

Michigan Mirror State News

State News Gathered from All Over the State of Michigan

The story of the Earle brothers, founders of 38,000 acre Blaney Park is typically the history of much of Michigan's Upper Peninsula.

It is the tale of a northland's evolution from a swaggering lusty exploitation of forests, only 50 to 75 years ago, to a 20th century era in which the natural resources of fish, fur and game and even climate have become overnight attractions for leisure-bent dollars of mid-west rites.

Between these two extremes of the cycle is agriculture, dependent upon soil and climate for its survival and growth, and hence inevitably limited to potential development.

"Tough Country", That's the upper peninsula which stretches from Ironwood to Sault Ste Marie and south to Menominee, according to one contemporary writer.

Here is a region long on sky-blue lure, the modest child of George Bishop's Upper Peninsula Development Bureau, but decidedly short on modern facilities to accommodate city wide tourists.

The blue sky so-called has served to keep up faith and courage of its natives and to attract curious travellers into its domain. Yet good housing and good restaurants are few and far between as any travel-experienced citizen will concede. In competition with other play areas this country has suffered much. It will continue to suffer until its resort-keepers or perhaps the state government introduce adequate facilities for the traveler's comfort.

In spite of this handicap the Upper Peninsula has managed to forge ahead. Everyone who visits the "tough country", air conditioned 52 weeks in the year by winds off the Great Lakes, will readily admit that the region possesses a promising future as well as an enriched present and a glorious crimson past.

"If we had known then what we know now, Blaney Park might never have been undertaken," said G. Harold Earle, president of the Wisconsin Land and Lumber Co., a midwest corporation which owns and operates the Blaney Park resort, midway between St. Ignace and Escanaba on U. S. 2.

The Brighton Argus is all het up because Henry Ford has bought the Brighton mill and water rights and in an editorial starts out "A dream has come true. Henry Ford comes to Brighton." Maybe, but if he does it will be when he gets ready but a minute before. Henry Ford bought the Dexter Mill pond and water rights 25 years ago and only last year started to develop them and remodel the old mill into a factory. He purchased the Pinckney mill and water rights about the same time. This was right after the big fire in which half the business block was destroyed. Mr. Ford visited Pinckney in person and talked with a number of people here. He bought more flowage rights along the creek, east of Pinckney then. He would only pay a certain price per acre. One man demanded more than this and refused to sell for less. Dr. L. Sigler and Floyd Reason, local business men, now both dead, bought this property and sold Mr. Ford what he wanted of it at his price. The project laid dormant until about three years ago or so when Ford men again came here and bought flowage rights to a point up the mill pond about three miles west of Pinckney. Once more they ran into difficulties as some owners refused to sell for what they offered. Again the citizens came across and by a house to house canvass raised the difference and Mr. Ford got his acreage. Again the project became dormant. The dam here went out in 1943. The village wrote the Ford Co. about repairing in order to give the people here bathing and fishing facilities. The company replied they did not care to do as they intended to build a bigger one in a different place. The village finally got permission to repair it, paying for material and labor out of the village treasury. The facts of the matter are Mr. Ford has bought water rights in many places and development of them is a project of a long period of years.

Marilyn Kaemmerle 22, of Jackson, Mich., made all the front pages last week by getting fired as editor of the "Flat Hat", the publication of William and Mary college of Virginia. In an editorial she wrote "The time should come when negroes could enter the college, join the same clubs, pin the same classmates and marry among us." This was too much for the steady southern school below the Mason and Dixon line and she was not only fired but the college is considering other disciplinary action. The trouble was geographical. Miss Kaemmerle had written this editorial north of Mason and Dixon line she would only have been laughed at and classed as another screw ball. This nation has been trying to solve the race problem ever since the civil war, an 80 year period, and has made little progress. Miss Kaemmerle would do this by absorbing them. We doubt if she will have the same viewpoint 25 years from now.

A number of officials of the Michigan Society have been indicted by Judge Carr's grand jury for bribery in getting a bill passed forbidding mental advertising. Such a law was enacted. One of the indicted officials has been treasurer of the society for more than 30 years. We don't like the practise of such organizations raising huge funds to influence legislation. The osteopaths of Michigan also had such a lobby of which the late Senator Hooper who was murdered was the head. The Michigan Medical Society at their last meeting assessed their members \$5 each to fight the Wagoner act. This association is made up of some of the outstanding men of the state but we don't like this side one of their. The temptation is too great.

It would take a 27 story building to house all the offices maintained by the State of Michigan. The state capital, once reckoned so spacious, only houses a part of them, the rest being in other buildings or rented quarters. The state expects to erect a new office building after the war. The state holds true for the counties. When the present county court house was built some 50 years ago it was felt that here was a building that would do for eternity. Now the county need cannot occupy a separate building and the welfare dept. and union hereby is rented quarters. When the new jail is built part of it will be used for offices. We hear much outcry in regard to construction of government but on one does anything about it and we are wondering if it is all inevitable and one of the phases of progress.

SOIL CONSERVATION RESULTS The soil conservation elections held last Thursday in Putnam, Unadilla and Iosco townships resulted in an overwhelming victory for the conservation forces. Only 4 votes were cast against the project in all four townships. In Putnam all 31 voters were for it 42 were cast in Unadilla 24 in Iosco and 25 in Marion. Hamburg previously had voted giving it a large majority.

DANCE NOTICE Pinckney O. E. S. will sponsor a dance at the high school on Saturday February 24 at 9:00 p.m. Ballroom and square dancing. Free refreshments. Invite your friends. Good time assured. Filian orchestra.

RED CROSS DRIVE Plans for raising Livingston County quota of the Red Cross War Fund will be completed at a luncheon meeting of workers at 12:00 Friday noon in the Masonic Dining room. All township and city war fund chairmen and their workers are requested to attend this meeting which will be in charge of Rev. Ralph J. Karney, newly appointed War Fund chairman in Livingston County.

The county quota is \$16,100 of the National War Fund of \$20,000,000. During the past three years Livingston County has promptly raised its assigned quota of the war fund. Chairman Karney states that he announces the chairmen and quotas of the various townships past week.

INVEST IN THE NEXT RAID ON JAPAN

IT TAKES PLENTY OF WAR BONDS TO BUILD B-29s

THE WAR in the Pacific is the most costly war America has ever engaged in. It's simple arithmetic. A mountain of special, costly equipment is needed. A B-29 Superfortress used in the bombing of Japan costs \$600,000 in War Bonds. And this is just one of the many extra costly implements of war needed to achieve final victory in the Pacific. That's why the 6th War Loan Drive is so important. That's why you must back it as generously as you have every other war loan drive. Invest in the next raid on Japan...

JP AUTO LAW AFFECTS ALL Automobile Owners

Michigan's semi-compulsory automobile insurance law enacted in 1943 but in litigation until the latter part of November is now in force according to Sec. of State Herman H. Dignam. Under the law, every driver involved in an accident involving death or injury, must make a written report within 10 days to the Secretary of State. If the owner carries liability insurance the matter ends there. If he doesn't he must either settle all personal injury claims within 30 days, deposit \$10,000 in cash with the Secretary of State or furnish a bond to such amount as the Secretary of State may prescribe. Failure to comply can result in suspension of the driver's license until he has paid all outstanding accident claims and has shown financial ability, either by proper insurance of cash bond, to pay for any future accidents in which he might be involved. The law does not apply where only property damage is done.

Insurance thru our agency will protect your right to own and drive a car.

THE MICHIGAN MIRROR

"In 1927 when my brother (Stewart E.) and I began Blaney Park, we were just ten to twenty years too soon. Consider the history of Blaney for a minute, and you'll get an idea of what I mean."

"In 1878 my grandfather, Charles J. Moyer, induced the Chicago and Northwestern railroad to lay tracks to a sawmill town which he named Hermanville after his younger son. At a cost of \$150,000 to \$200,000 he created his own timber empire. The IXL brand of flooring, tongued and grooved, became nationally famous."

"In 1888 my father, George Washington Earle (a native of New York state, met the daughter of Moyer and married her. A practicing physician, he came to Hermanville in 1889 for his health. When Moyers overexpanded holdings became squeezed by financial hard-times, father reorganized the company."

"In 1918 he made a deal whereby his cut-over land, then 22,000 acres, as large as a western ranch was purchased by cattle operators. This venture failed. Father died in 1923, leaving the entire property to Stewart and me."

"What could we do with it? We didn't know. Father had always said, 'Everything in nature had a use if you could find it. We decided to try to see if we could discover the secret. We acquired more land to round out our holdings, and then embarked on the creation of Blaney Park as a modern tourist resort."

The lumberjack house was transformed into a lodge for serving of meats and for administration offices. We converted small houses into tourist cottages; constructed a summer inn across the highway which old Capt. Blaney had sentimentally called Halstead St. and built a golf course, airplane landing field, outdoor swimming pool and even an artificial lake."

Open now year-around, both winter and summer, we cater to the better class of vacation trade. And still we don't make money although we about make our operating expenses."

What is the answer to the land brothers dream for profitable use of the north cut-over lands?

Harold Earle isn't sure. He is thinking today about a combination of land use whereby timber would be utilized efficiently to eliminate present costly waste, wild game and fish be conserved wisely for the use of tourists in recreation and food, furs would be cropped annually from beavers and other animals, and the health giving benefits of an invigorating climate would be utilized year-around by city dwellers on organized vacations."

This formula of timber-furs-food recreation may be the answer. If it is then the entire Upper Peninsula will be benefitted."

Symbolic Red Cross Emblem To Appear In Windows Again

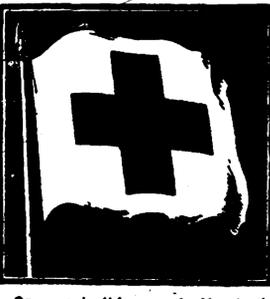

WASHINGTON, D. C.—Once again, next month, the scarlet emblem of the American Red Cross will appear in the windows of American homes, symbolizing the financial support of the nation in supporting the manifold services of that organization to American fighting men overseas.

In every nation of the world, this red cross has long been the symbol of universal humanitarianism, both in peace and in time of war. Today it is worn by medical corpsmen of all armies and navies serving the wounded. It protects hospital tents, ships, planes and trains. Painted on each of the international Red Cross ships bearing food parcels to prisoners of war and exchanged prisoners homeward, it is a guarantee of safety from acts of war.

To the giver doing his part to fulfill the \$200,000,000 goal of the American Red Cross in 1945, it represents his personal part in supplying the material things which add to the morale of the American serviceman whether hospitalized or able-bodied.

"The window sticker means more than dollars contributed to the Red Cross," Chairman Basil O'Connor declared. "It means service clubs, canteens, recreation rooms and clubmobiles for the men in war theaters."

To the American Red Cross, each window sticker is a family's request to the Red Cross to continue its responsibilities on behalf of the son in Italy, the neighbor's boy if a turn around the globe in the Philippines, and the brother fighting on the Western Front. It is the expression of faith of the American people that Red Cross will maintain the supplies of surgical dress-

Once again this year, in March, the world-known scarlet symbol of mercy will appear in windows throughout the nation, indicating that Mr. and Mrs. America are solidly behind the 1945 American Red Cross War Fund campaign.

ings, blood plasma and whole blood, kit bags and comfort articles to the battlefronts. It is a vote of gratitude for the millions of food parcels reaching American men in enemy prison camps.

Opening March 1, the third American Red Cross War Fund campaign for \$200,000,000—the same as last year—will continue throughout the entire month. More than 2,000,000 volunteers will distribute the familiar window emblems, conducting a home-to-home canvass to fulfill the 1945 quota. Along with the window emblem, each contributor will receive a lapel tab fastened after the Red Cross flag—the flag known to all as a sign of aid and comfort.

MONEY IN THE BANK

One often hears that expression in talking about some friend or acquaintance, "Why he has money in the bank."

It is an expression which conveys a meaning of substance. A condition to be desired.

Don't get us wrong. We do not think that money is everything but we see in many cases where ready cash can do so much and lack of it can often mean extra cares and worries.

Better join the ranks of those with "Money in the Bank."
