News and Items Concerning Our Boys Who Are Serving in the Armed

Pfc. Marcin Ledwidge has been transferred from Scott Field, Ill. to Geensboro, N. C.

Pfc. Ellsworth Kirtland and wife who have been at Muroc, California are now at Fresno, California.

Cpl. Jack Young who has been in Germany is home on 80 day furlough.

Capt. Tom Young and wife left for Fort Sill, Oklahoma by auto Sunday.

Pvt. Edward Drost who has been in the signal corp at Ft. Monmouth, N. J., has been transferred to the transportation corp at New Orleans, and left for there Sunday.

Pfc. Sam Lafata who spent a couple of days last week at the Gerald Reason home, has entered the veterans hospital at Dearborn for treatment. He informs us he expects to be married in two months to a girl from Sicily who will arrive here then.

Pfc. Gerry Eichman is now stationed at Stoneham in San Francisco Harbor.

Irving Reynolds has left California and is on board ship again.

Pvt. Winston Baughn of Scott Field, Ill., spent the week end here. While on his way home from there with his wife and 2 children and another soldier, who was driving, he wrecked his car near Chicago and had to leave it there.

Capt. James Lamb is now in Japan with the occupation army and Pfc. Gordon Lamb who was in Italy is stationed in the Panama Canal zone.

John Adams JSN stationed at Jacksonville, Florida, is visiting his uncle, Lester McAfee, at Rush Lake.

Junior Doyle has left Camp Elliott, California and is now on board ship in the South Pacific.

Pfc. Kenneth Bennett of Indianapolis, Ind., spent the week end with the DeBarr sisters and Mrs. Louisa Plummer. He was wounded in the Normandy invasion and had both legs amputated. Mrs. Amanda DeBarr went to Percy Jones hospital, Battle Creek with Miss Audrey Scheibel of Dexter some time ago to see a wounded soldier. Bennett was in the same ward and they got acquainted with him. Several times he has come to Pinckney to spend week ends.

Pft. Max Reynolds is now in Yokohama, Japan, with the army of occupation.

Jay Shirey USN sent us an account of the Norton Sound, the boat on which he has been stationed since Jan. 1945. On their opening cruise they went to Pearl Harbor where they unloaded fighter planes and supplies. Then to the Marshall islands, and Guam and Saipan. They arrived at Kerama Retwo, a small ring of island 20 miles from Okinawa in April when the battle was at its height and were there three months, witnessing all kinds of Hell. They saw the Terror, Pinckney, St. George, Curtis and Kenneth Whiting hit by Jap planes but escaped injury themselves. They were at battle stations 161 times for a total of 163 hours and 30 minutes and are credited with shooting down 4 planes. A liberty party went on shore to an island which they did not know was held by Japs. The commander was killed and one man was wounded. A rescue party drove off the Japs and removed the commanders body and the wounded man who died that night. The ship acted as flag ship for Admiral Price and later Admiral Perry. The air squadron VPB-26 which was stationed aboard the Norton Sound had an enviable record of sinking 13 enemy ships, damaging 31, destroying 3 shipyards, 2 docks and 3 radio stations. On July 15th they anchored on the east coast of Okinawa. Although they continued to be harassed by Japs they suffered no damages. They are all happy war is over but do not expect to be home right away as there is much work to be done there yet.

Jimmy Bell writes from Leyte, Philippines, that many from there have been transferred to Japan and China. He applied for transfer there but did not get it. Leyte is hot and dirty and the people live in grass houses.

Gerald Voder and wife are here from California. He is transferred to Chicago.

ESTABLISHES OFFICE HOURS
Guy Butler, chairman of the Veterans' Rehabilitation Committee has established regular office hours in the collecting service office starting at 2 p. m. 4 days a week. Telephone No. 426 for appointment.

H. McPherson Passed Away

Former Howell Banker and Financial Figure Died at Pontiac Thursday

Hugh McPherson, 83, died at his home in Pontiac Thursday. He had continued active in banking and financial circles until last June when he underwent an operation at St. Joe hospital, Ann Arbor. He apparently rallied from this and was able to return to Pontiac. Recently he bought a home in Howell and was preparing to move back to his old home town when the end came.

The deceased was born in Scotland and came to America when a young man to make his way. From 1890 to 1921 he was connected with the McPherson bank at Howell, most of the time as cashier. He joined Howell Lodge No. 38 F. & A. M. in 1888 and served as master in 1909-10. In 1918 he was elected grand master of the Masonic grand lodge of Michigan. In 1920 he was elected grand treasurer of that organization and held that office at the time of death. Gov. Alex. Grosbeck appointed him state banking commissioner in 1921 which office he held during the three Grosbeck terms. Following this he helped organize a Lansing bank. In 1930 he was appointed receiver of the closed Community National Bank at Pontiac which position he only recently relinquished.

He enjoyed a wide acquaintance all over the state and was a prominent figure at Masonic gatherings. Of the 15 past master night banquets of Livingston lodge since 1930 he attended all but 2, being present here at the one last March.

Surviving are his wife, the former Claudia White of Howell and three daughters, Mrs. Louis Peard of Ann Arbor, Mrs. Maurice Nichols of New York City and Mrs. Dorothy McPherson of Howell. The latter's two sons he adopted and raised at his own.

The funeral was held Saturday at 3:00 p. m. from the Howell Presbyterian church and burial was in the Lakeside cemetery, Howell. The Right Templars in uniform and Blue Lodge Masons acted as casket bearers. Funeral services at the grave were conducted by the Michigan Grand officers. Roscoe Burch, Benton Harbor, grand master and Roscoe Bonisteel, Ann Arbor, paid tribute to him at the grave. John Hawks of Lansing, past grand master delivered the Masonic funeral oration.

THE SOFT BALL TEAM

The Pinckney soft ball team has closed its season with a total of 32 games played. They won 17 and lost 15. Most of the losses were by one run. They finished second in the county league losing the championship by one game. They had the highest team batting average .267 and Zeke Ledwidge led the league in batting with .585.

Don Burns, high school junior, was the leading hitter in the 32 games. He hit .478 nosing out Zeke Ledwidge who hit .469.

WAR FUND DRIVE

The national War Fund drive starts in October. Calvin Gatesman is county chairman. This fund is for the 6 organization providing benefits for service men, including the U. S. O.

SERVICE MEN'S DANCE

The women of the Pinckney Service Men's Committee met last Wednesday night at the town hall and named the following officers:
Pres. Mrs. Carrie Griffith
Vice Pres. Mrs. June Popp
Sec. Mrs. Mary Eichman
Asst. Sec. Mrs. Clara Palmer
Treas. Miss Leota Reason
The committee plans to send Christmas boxes to the service men again this year. All interested in having a service man receive a box, please send his address to Mrs. Mary Eichman.

THE BROKEN ATOM AND OUR DESTINY

The atomic bomb has ushered in a new era for better or worse. Robert D. Potter tells the stirring story of how man mastered atomic power and what can be expected of the future. Series of articles starting in The American Weekly with this Sunday's (Sept. 30) issue of the Detroit Star.

S. M. Carr and wife are visiting Mrs. Addie Randall in Farmington. Conservation Officer Bowdish and Max Witte of Howell caught a female coyote in a trap on the Orville Nash farm in North Hamburg last Friday. It had been killing sheep. We believe that this is the 3rd coyote taken in this section. Friday Haines got one several years ago and two years ago Alford Drew of North Lake got one at Peach Mt. Postage Lake.

School Team Beats Brighton

Win Opening Game from BBrighton by 12 to 0 Score Friday

Pinckney opened her football season Friday at Brighton by winning there 12 to 0. The Pinckney team started with a bang and following a long pass to Gus Ledwidge, Jack Reid went through the left side of the Brighton line for a touchdown. They failed to pass for the extra point. From then on there was little action although most of the game was in Brighton territory as the result of numerous Brighton fumbles recovered by Pinckney. In the second half Pinckney recovered a Brighton fumble near the ten yard line and Charles Clark went over for a touchdown. Pinckney failed to kick goal.

The Pinckney team showed a lot of fight but has a number of rough spots. All of Pinckney's backfield of last year graduated and it was necessary to take three men out of the line to form the back field. This year's line has only three of last year's men in it and lacks experience. A few games should help to weld it together and develop the team work the boys had last year.

This week Friday Pinckney plays the Ann Arbor reserves there at Wines Field under lights at 8 p.m. Pinckney will be greatly outweighted and outnumbered. Ann Arbor had 40 men in uniform last year and won.

SCHOOL NOTES

Jane Amburgey, cheer leader par excellence, worked so hard leading the cheering and turning cartwheels in the Brighton game Fri. she injured her ankle.

James Allard is mgr. of the football team and has the drinking water situation well under control.

Here are scores of some of the high school games in this section last week: Howell 7, Fenton 6; Chelsea 20, Dexter 7; Dansville 7, Stockbridge 0; Fowlerville 13, Okemos 0; University 30, Dundee 15. University in the first football game that school ever played made a fine showing as Dundee usually has a good team. Leroy Wasmund of Lakeland is the star of University team.

The Pinckney high school classes have organized with the following officers:

MRS. MARGARET BELL

Mrs. Margaret, 85, died at her home in Dexter. The funeral was held Monday in the Gorman Funeral Home, Dexter, with burial in the Forest Lawn cemetery.
The deceased was the daughter of the late Sidney Thurston of Silver Lake and was first married to Peter McNally of Ann Arbor. After his death about 30 years ago she was married to Thomas Bell, contractor and fur buyer. Surviving are a sister, Mrs. Minetta Nordman, Dexter, three step-daughters and two step-sons.

FRANK SNAPP

Frank Snapp, 81, who has worked at the Beck summer resort at Portage Lake for a number of years, died at the Washtenaw county hospital, Friday. The funeral was held at the Swarthout Funeral Home on Sunday afternoon, Rev. Alfred Allard officiating. Burial was in the Pinckney cemetery.

JUDGE LEE CARR APPOINTED

Monday Gov. Kelly announced the appointment of Judge Leland Carr of Lansing to the supreme court to succeed the late Judge Howard West. Pinckney gets a little reflected glory by the honor given Judge Carr as he is an old Pinckney boy, being the son of the late Zachariah Carr who lived three miles west of Pinckney on Barton road, north of M-36. He graduated from Pinckney high school in 1900, Ross Road, being a class mate of his. He attended the Michigan State Normal and received his law degree in 1906 at the University of Michigan. He was supt. of Marine City schools and then assistant attorney general and attorney for the state highway dept. Gov. Grosbeck appointed him circuit judge in Ingham county in 1921 which position he has since held with great honor to himself and the state.

Michigan Mirror State News

In Which the Michigan Mirror Takes a Look at the Agricultural Side

Many of Michigan's 629,000 men and women in the military service are coming soon—and now at pace 110,000 monthly to a swarm of problems.

It's a new world, promised for so long, and with it a bewildering and confusing flood of new ideas.

Just as atomic energy is being hailed as the "greatest invention of all times," to quote the words of a University of Chicago scientist in the current issue of Survey Graphic, so some American leaders insist we are at the threshold of near Utopia itself. William Green, president of the American Federation of Labor, employed the phrase "new industrial revolution" in his Labor Day address this month. The implications are obvious.

A number of years ago Dr. Lloyd Douglas, the one-time Ann Arbor minister who attained fame as an author, pointed out that the history of civilization has been the graph of a series of plateaus or levels. He said we have been striving for centuries to free ourselves from the necessity of physical work and we have just about accomplished it to our own surprise, thanks to technological miracles of science.

Our latest ascent to a new plateau is sharp and difficult, he said. We must adjust ourselves to the surge upward or fall by the wayside.

There are historians who maintain that our current problems are the by-products of this new climb upward and the words they use to describe it are "social revolution". Certainly the staggering cost and waste of modern war, which has weakened England as never before are major factors in the current surge there from private enterprise to state socialism.

The veterans, once they have made their own readjustments into civilian life, will face the immediate choice of a continuation of the American free, competitive system which is responsible for the high living standard of today or a fling at state socialism with its Utopian full dinner pail, individual security, better health, all at the bounty of the government and thus at the expense of rich and poor.

There is some logic to argument that the cost of modern war, such as the 270 billions which have been piled on top of American national indebtedness may inevitably push the nation into state socialism. The private enterprise system, faced with such a challenge, is on trial as never before.

What will the veterans do? The decision will be fateful.

The Michigan veteran will come home to an agriculture which has experienced war-time inflation of the land prices.
More farm land changed hands in 1943 than in any previous year on record. Many farms have been sold at higher prices than their long time earning power justifies. Prices last year were 45 percent higher than in 1939. The spiral continues upward.

THE GASOLINE SITUATION

The strike of oil workers broke last week. It was well organized and by Sunday most of the oil stations were out of gas. Some had small supplies which they were selling only to essential users such as food trucks, doctors, nurses etc. We understand most bulk stations had a weeks supply on hand but were only letting it out in small quantities. As gas station after station closed it look as transportation would soon be paralyzed and people would have to learn to walk or go back to horse. The dear public as usual did their part to increase the shortage. At the first hint of it they flooded to the oil stations and not only filled their tanks but also barrels they brought in the back of their cars. Such a strike will probably be of short duration but while it does the "Fill 'Em Up" slogan is missing at most gas stations.

23 of the Cong'l. young people attended a party Monday night at the home of Mrs. Betty Bekker, Dean in Chilson.

Sunday guests of the Hoff Sisters were Mr. and Mrs. Wm. Loss and Mr. and Mrs. Wm. Curry of Flint.

Sunday guests of Mr. and Mrs. Earl Baughn were Robert Seefeld and wife and Capt. John Carver and family of Ann Arbor.

CURRENT COMMENT

In all accounts of the death of Judge Howard Weist of the supreme court last week, one episode in his life which made him famous was ignored and in fact the daily papers did not even mention the name of the man he indicted and sentenced.

This man was the late State Treasurer Frank P. Glazier of Chelsea and at that time prominently mentioned as the Republican candidate for governor. Glazier at that time owned about all of Chelsea including the stove works, bank, newspaper, the Ann Arbor News a daily paper, banks in both Dexter and Stockbridge and was the donor of the Chelsea Old Peoples home. At the time he was building a seven story office building in Ann Arbor. He was the political boss of Washtenaw county. When the panic of 1907 hit the nation he crashed and went into bankruptcy. The Stockbridge and Chelsea banks closed and went into receivership. The Dexter bank weathered the storm by means \$20,000 of undivided profits. Although there was evidence of illegality Washtenaw county refused to take any action against him. Judge Weist, then a circuit judge in Ingham county had no such scruples. He held a grand jury investigation into the affairs of the defunct Stockbridge bank and Glazier was indicted for misappropriation of state funds. Later he was tried on this charge and sentenced to 10 years in prison. He only served a short time when he was paroled on account of his health. He later died at his Cavanaugh lake summer home. This trial made Judge Weist famous. In 1921 he was appointed to the supreme court by Gov. Grosbeck. He served 24 years on the supreme court, a record. We met him several years ago when the Williamston Masonic temple was dedicated and thought him a kindly man. He lived near Williamston.

We listened to a radio broadcast the other day by Prof. Carr of the University of Michigan on the epidemic of strikes now taking place in the nation. He said the daily papers do not give a correct picture of the situation. That the editorials are pro-industrial and even their news reports on the situation are colored and they lose no opportunity to place the labor unions in an unfavorable light. As we understand it the cancellation of war contracts was followed by a drastic wage cut which workers are resisting. The 80 o/w wage increase they ask is for the purpose of keeping wages at a war time level. The labor attitude is best explained by a report sent by Walter Reuther, C.I.O. head to Wm. Davis, economic stabilization director. Reuther contended that the only way to get full production or employment was to force high wages and put industry on profits so small that they will have to operate 12 months a year at full capacity to make any profit. This has not been the practise in recent years, especially in the auto industry. They usually operate at full speed for about 6 months until they get a surplus and then slack down for an equal period. Much unemployment is always the result.

The recent non-stop flight of 3 B-29 Super Fortress planes from Japan to Chicago in 24 hours has knocked the last props out from under keep out the rest of the world build a high wall around this nation and keep out the rest of the world. The flight was intended to end at Washington but bad weather forced the planes down at Chicago. Eventually the 24 hours period will be shortened and the whole world placed at our doorstep.

Henry Keiser, wizard ship builder, and his associates have closed a 5 year lease on the Willow Run property with the federal government and will make two kinds of cars, a high priced and a low priced one. Production will be 1700 cars a day and 20,000 people will be employed there. A \$25,000,000 stock selling campaign will be carried out. Henry Keiser had first chance of Willow Run but let his option lapse Sept. 20. Keiser will put up \$12,000,000 and his associates a like amount until the plant gets on a paying basis. We wish him success but auto history shows that a vast majority of cars that started production in the past year are only memories and that the present car that's more or less mass produced by the Ford, Chrysler, Hudson and General Motors companies.

"I'm making homes out of houses"

ADVANTAGES OF THE ELECTRIC RANGE

Clean, controlled heat expresses
quickly the advantages of an elec-
tric range. The surface burners
have several heat units from "sim-
mer" to "high" that provide just
the right heat for whatever dish is
being cooked. The heat comes di-
rectly to the bottom of the vessel
and as clean as sunlight. In the
oven, a control regulates the heat
to an exact temperature and main-
tains it. An electric timer can be
provided to turn off the current at a
pre-set time, thus leaving the
housewife free to do all about the
oven. The broiler grille means to a
perfect toast, and the deep well
cooker is ideal for long, slow cook-
ing, such as soups, cereals or stews.

"It's a pleasure for a dealer to furnish a
house with an all-electric kitchen—for it
makes the house into a home. The electric
kitchen cuts down the housewife's time in
the kitchen . . . and gives a thrill to the
work she does there. The electric range
gives uniform results . . . provides auto-
matic operation, cutting down the amount
of attention necessary. Electric cookery is
the modern way . . . convenient . . . clean
. . . reliable. People have come to feel
about it the way they do about electric
refrigeration—that it is the only way. The
electric dishwasher, too, has proved itself
in thousands of homes as a time and labor
saver. I've sold many and never had one
returned. They normally save the housewife
a total of about a day's work every month.
. . . People are not so familiar with the
operation of the garbage disposal unit in
the sink drain. The convenience of throw-
ing waste right into the sink and washing
it away cannot be appreciated until used.
And the modern housewife also gets the
multiple assistance of all the smaller elec-
tric helpers—mixer, juicer, percolator,
toaster and others. I can't think of any in-
vestment that goes farther toward making
a house a real home than an electric kitchen."

Electric kitchen equipment is not generally available for sale
now. Some is being manufactured and distributed. It will be to
your advantage to have your name on your electrical dealer's list,
so that you will be able to get it at the earliest possible time.

HOW ABOUT A BUMPER CROP OF WAR BONDS?

WITH farm income higher than ever before . . . but with fewer and fewer things to buy, there was never a better opportunity in our history for farmers to make themselves financially strong and independent.

When the crop checks come in, put those surplus funds into War Bonds! They are the best investment ever offered the people of America. You never get less than you lend, and you get back \$4 for every \$3 at

the future, to re-equip our farms with new and more efficient machinery, to repair and rebuild and refurbish our homes. Part of it is . . . we can do both! Let's do it!

The farm needs reserves just like our armies in the field. By buying War Bonds, you provide reserves of tanks and guns and planes for our boys today while building reserves of cash for your own use tomorrow.

With bumper crops on every hand, we owe our boys and Uncle Sam a bumper crop of War Bonds. And we owe it to ourselves to save money against the uncertainties of

teams of horses. The same machine or one adapted for smaller acreage will enable the veteran to escape the insecurity of the city and attain a degree of independence from the rise and fall of employment.

Huge housing, and road construction programs, victory garden experience, new popularity of food in the city, these are additional trends to accelerate the trend from city to country.

The service industries in Michigan, such as transportation, retailing, resorts, professions, marketing and local government-offer opportunities to veterans.

In 1930 these service industries formed 47.6 percent of the national income as compared to 39.2 percent in 1939. On the other hand industry affects less than one-third.

Service industries dominate both manufacture and agriculture in American life today. To illustrate the Michigan resort business is second only to industry in annual dollar income. Like industry it is a service industry and needs no reconversion.

The veteran must solve the problem of national security as well as individual security. The atomic bomb, jet-propelled planes etc have shattered illusions of geographic security and insularity from world troubles.

Such was the thesis of Senator Vandenberg's appeal for American participation in the United Nations Council.

The end of the war, opening the floodgates of war-time responsibilities and restrictions, has already caused politicians advocate shirking responsibilities in Europe and the South Pacific.

"Bring the boys home! Let the British, French and Chinese do a better job than the veterans of World War I did and we served overseas with them. So give them a helping hand and hang onto your hat while we try the next curve in the post-war roller coaster that is just ahead.
