High School Football Team To Be Honored at Big Banquet Dec. 8

The annual football banquet will be held at the school Saturday night. It will be a roast beef dinner and the tickets are \$1.00. It will start at 7:00 p. m.

The team this year won 6 games, tied 1 and lost 2. While not having the power and offense of last years aggregation they had lots of fighting spirit which showed strong in the game at Dexter where that team made 14 first downs to Pinckney's 4 and got inside the Pinckney 10 yard line 6 times. Pinckney only had one scoring chance which they made good on to take the lead 7 to 6.

No scoring was done the last half, Pinckney devoting all her time to defending her goal line in which they were successful.

Following the banquet there will be a banquet with John Burg, former teacher as toastmaster.

Song ..... High School Girls Remarks ..... 6 Senior Team Members Gus Ledwidge, Jack Reid, Pat Jeffreys, Don Burns, Bud Ford and Charles Clark.

Song ..... Dick Campbell, Jackie Clark and Chris Campbell.

Response by ..... Mothers Response by ..... Fathers Old Grads ..... Sergt. Lloyd Hendee

Following this a few others including old football stars will be called on.

The balance of the evening will be spent in dancing with the Finlan orchestra furnishing music.

Tickets may be obtained of Howard Thayer, J. Burg or Murray Kennedy.

**WORDEN C. HENDEE**  
Worden C. Hendee, 78, son of the late William and Lucy Swarthout Hendee, passed away at his home in this village Saturday after a severe illness of several months. He was born on the Hendee farm in Putnam township and his entire life has been spent in this community where he established an enviable reputation for sterling citizenship, contributing generously to the best interests of religious, educational and civic affairs.

The deceased leaves his wife, Mrs. Rose Nash Hendee, four sons, Lynn, Pinckney, Lyle, Ann Arbor, Clare Portland, Oregon and Dr. Cecil Hendee of Lansing and two daughters, Mrs. Blanche Clark, Pinckney and Mrs. Marjorie Parkinson, Ann Arbor. **20 MILLION CANS OF FOOD**  
A campaign to collect twenty million cans of food for the war stricken of Europe and the Far East will be conducted for one week starting Sunday, Dec. 9 and ending Dec. 17. This campaign which will be held in the parishes, missions and churches of the United States is under the leadership of the Archbishop, Bishops of the country. The Holy Father, Pope Pius XII is vitally interested in this drive and has already sent a Special Apostolic Blessing to all who help in this great corporal work of mercy. The need for this help can not possibly be exaggerated or over-estimated. First hand information from Europe emphasizes that starvation and extreme want face millions of people this winter unless food is provided for them. Those suffering most will be the children and mothers driven from their homes and separated from their families. Hundreds of thousands in Europe wander in dismay from place to place in search of food and clothing. These people are our Brothers in Christ, deemed alike as you and I, by the blood of Our Divine Savior. Mised, deluded and fooled by rapacious leaders, they are now disillusioned, beaten and left to die from hunger, starvation and disease. The foodstuff received in this campaign will be distributed to the war devastated countries of Europe and Far East as a Christmas gift from the members of all the parishes of America. Help will also be sent to the Philippines.

Each family or household in the diocese is requested to contribute 5 to 6 cans of any kind of food. All kinds of milk, evaporated, condensed, powdered, chocolate and formula for infants, strained or chopped food or vegetables. For adults, all kinds of canned food are welcome. All disposed to donate are requested to call one of the committee or leave the food at one of the following places: Pinckney-Murray Kennedy's; Gregory, Guy Kuhns. Also it may be left at the rectory.

Mrs. Lee Lavey is chairlady. She will be assisted by Mrs. Murray Kennedy, Mrs. Dea Swarthout, Mrs. Lucille Doyle, Mrs. Mary Eichman, Mrs. Clara Miller, Mrs. Norman White, Mrs. Wm. Jeffreys, Mrs. Stanley Binkal, Mrs. Guy Kuhns, Mrs. Vincent Young, Mrs. Jack Young, Mrs. Marion McKahn. Rural sections, Mrs. Sheehan Coyte, Keiser, Spears, Harris, McClear, Cooper, Stackpole, Donnan, Melvin, Johnson, Dimes, Burns and Gibney.

**DANCE AT GREGORY**  
There will be a dance at the Gregory town hall Sat., Dec. 9 for the benefit of the Youngsters school. Dance for young and old. Music by Mass orchestra.

## Michigan Mirror State News

News and Happenings of the State Tereley Told from Lansing

Assuming that there are two sides to everything—even to the Michigan automobile strike—the Michigan Mirror this week undertakes the difficult task of appraising the wage controversy between Michigan automobile companies and U.A.W.-C.I.O. union.

First, we assume also that it is a proper and fundamental duty of the press to report facts objectively. This in itself, is not easy to do. Eye-witnesses to an accident often tell different stories. A jury consisting of 12 individuals, not just one is a safeguard against miscarriage of justice.

Second, we assume that an enlightened public opinion—created by both emotional declarations of the 2 parties and by the facts as others see them—will be the major and final factor determining outcome of the Michigan strike.

The Michigan automobile business dates back to 1899 when the Olds Vehicle Co. which had moved from Lansing to Detroit, began regular production of automobiles. In 1901 the newly formed General Motors Corp. took over the Olds work. In 1901 Henry Ford produced his first car; the company, a family corporation was chartered in 1919.

This new industry resulted in a boom for Detroit whose population jumped from 25,704 in 1900 to 1,586,662 in 1930—the span of a single generation. Other cities—Flint, Saginaw, Pontiac, Lansing and Grand Rapids experienced similar growth.

Because the automobile industry employs mass production methods, labor demand has been largely for unskilled workers. Highly skilled mechanical jobs are few. One industrialist said a farm boy could become an auto worker in 30 days and if he was very good, in three days.

Because of this the auto industry drew labor from the mid-western states, Michigan, Pennsylvania, Kentucky, Tennessee and the deep south and as a result much of it has been transient and marginal.

Another characteristic of the industry has been its periodic fluctuations of employment. New models. A change may lay off thousands. When Ford changed from the Model T, some 60,000 workers were laid off for many months.

The unskilled nature of the work, plus periodic layoffs, did not make for a steady income. The NRA study of wages showed that 48 percent of the workers received an annual income of less than \$1,000.

Here you have a new industry, employing unskilled workers subject to a periodic loss of income.

It seems inevitable that labor unrest would breed in such fertile soil. Remember 1937 and the sit-down strikes in Michigan? Here was evidence that the pendulum had swung far to the left. The United States supreme court declared the action illegal.

It is significant to note that the C. I. O. labor movement in Michigan is less than decade old in experience. Here is also a new development.

The newness of the U.A.W.-C.I.O. in fact, is perhaps its greatest strength and also its greatest weakness.

Led by the Reuther brothers, the union has boldly demanded straight 30 percent increase in the workers hour rate—or 18 hours pay for 40 hours work. Further than that, the union insists that the corporation's profits are a matter of proprietary interest of the workers.

General Motors offered to increase the hour rate 10 percent and to assure a 45 hour week. The present hour rate is \$1.12 to \$1.15. The new rate would be \$1.26. The pay allowing for absenteeism would be \$57.30 a week. Last June it was \$55.64.

The struggle is akin to David's combat with Goliath. The General Motors financial position as reported by the New York Times is 2.2 billions in assets and 1.1 billions in liquid assets. The unions resources, if distributed to all members would be about \$36 each.

If the union is successful in getting anything like a 30 percent boost in wage rates the effect will be wide spread. Prices must be adjusted upward.

**CARD OF THANKS**  
We wish to thank all friends and neighbors for the many acts of kindness shown us during our recent bereavement, to Rev. McClucas and Rev. Allard for their kind words and thoughtfulness.  
May you all have such sincere aid in time of need.  
Mrs. W. C. Hendee and Children

**NEWS FROM THE CHURCHES**  
Mrs. Lavey is cleaning up his lot at Main & Street and expects to build soon.

## CURKE COMMENT

During the presidential terms of the late Franklin D. Roosevelt he was classed as a despot, dictator etc by the opposition who charged that he usurped the functions of congress and made a rubber stamp of them.

There were loud cries for congress to assert itself and perform the duties it was intended to. Despite the clamor the late president usually got his legislation enacted and very little of it died in committees. When President Truman took office he was disposed to show a conciliatory attitude toward congress for which the press showered praises upon him and said he was restoring to congress its rightful function of which it long had been deprived. Now all is changed and the press is calling upon the president to exhibit real leadership and get the urgent legislation enacted, nearly all of which is stalled in committees while congress spouts off about Pearl Harbor, conscription, the atomic bomb etc. If the president had a program and congress another one, directly opposed this division of authority might work. Such is not the case. Congress has 40 different plans depending on the district from which the congressmen come. This makes for a stalemate and it has always been necessary for the president to cajole, use pressure and pull wires etc to get his measures enacted. This may not be an ideal way of doing business but it always has been the American way.

The state liquor commission is becoming interested in the huge increase in the resale of liquor licenses which in some cases are selling as high as \$50,000. The state only gets \$500 a license. In most cases very little improvement has been made on the property and the big prices are apparently for the license and trade. Some licenses have changed hands half a dozen times in the past year, each time at an increase in price. Most of these resales are taking place in Detroit where brokers are said to be reaping huge profits. As no new licenses are granted there it is necessary to buy an existing business in order to break in. The liquor control commission also suspects that the underworld is getting control of the liquor business by means of stooge owners.

We are watching with interest the movement in Flint started by Lt. Jack Packard, a discharged air force man who saw no overseas service to form an organization of war veterans opposed to union and strikes. He was once a CIO member but dropped his membership. For a long time the press has claimed that the majority of service men were opposed to the union and the agony column letters signed "Disgusted Service Men" have been appearing in large numbers. We were inclined to take this with a grain of salt as the bulk of the service men came from the labor class, the sons of the well-to-do usually being able to get commissions. After World War I, the veterans exerted enough pressure to compel most of the states to pay them a bonus and then they staged their famous march on Washington and eventually got a national bonus from congress. This procedure may be repeated when all the boys get back. Gov. Kelly in his first campaign came out in favor of a state bonus. Little has since been heard of it but there is liable to be considerable later on.

The troubles of China are now much in the limelight. During the war China was featured as the 4th great world power and placed in the top ranking with United States, Great Britain and Russia. We were inclined to think this was far fetched.

China, although one of the oldest nations in the world is the most backward. Its illiteracy rate is the highest and it has more poverty than any other country. Starvation is one of the principal causes of death there. Years ago they surrendered their principal seaports, mines and oil fields to other countries to operate. Many of the millionaire families of New England made their fortunes in China and the famous "Clipper Ships" of a hundred years or more ago were built for the China trade of this country. For over 100 years the religious organizations here have been sending missionaries to China to show them the light and the work is still far from done. The outside nations show no disposition to give up their rich China concessions and until they do and China becomes self-reliant it is hard to see how she can be ranked as a top world power.

Mrs. Florence Sullivan and infant daughter, Mary Ellen, of Jackson spent the first of the week with her mother, Mrs. Mary Murphy.

To the People of this Community

"For the last time, America, buy extra bonds." "They finished Their Job. Let's Finish Ours."

How well you have responded only you can truly answer. The drive totals, national and local published in today's editions, reveal your record. Your future personal well-being is most affected by how many extra Victory Bonds you have purchased. But is your bond buying job done even if you have gone the limit of your present income and resources? The job of investing new savings wisely is never finished. Thrift is just as vital in peace as in war. Keep buying your government's savings bonds. THE EDITOR

CONSERVATION NOTES

The accidental list of deer hunters this year is now 28.

17 deer were killed by archers in Michigan this year.

Permits are being issued this year to trap on the Pointe Mouille marshes near Monroe.

Michigan has 262 Mud Lakes. Illegal kill of antlerless deer below the straits may be 80 percent more than last year. The first five days of the hunting season conservation officers recovered 282 illegally killed deer and one elk.

The state has received a check for \$3060 for sand pumped from the middle channel of the St. Clair river.

Refresher schools for conservation officers at Higgins Lake, closed since the war will be reopened.

November ground water levels are 1.28 ft. higher than a year ago. October bounty payments totalled \$12,168. There were 4 wolves, 686 coyotes and 148 bobcats.

A pheasant banded and released in St. Joseph county was shot near Howe, Ind.

Fish are the principal food of the American bald eagle.

Tommy and Sis, They Can't Miss

Through his profits as a junior street salesman of a Kansas newspaper, nine-year-old Tommy Jovalls is the proud possessor of a \$100 and a \$50 War Bond. But he doesn't own them alone. He asked the man at the post office to make them out in his name with his two-year-old sister, Frances, as co-owner. He presented them to her on their joint birthday last month.

Tommy has been "in business" since last July. Every afternoon after school, he piles his wares—up and down Kansas Avenue in Topeka. "It was his own idea to save his money," according to his father.

"As soon as he started, he began bringing his money home to his mother, and asked her to save it for him. He wanted to put it into War Bonds. He wanted to do something for his America."

Asked what he intended to use the bonds for, Tommy replied, "Some day I want to go to college, and I want Frances to go, too."

Dear Son

Here's the check for your college expenses... more money from the Victory Bonds we bought for your education.

Money from some of those other bonds we bought back during the war is now fixing up the kitchen for Macher and paying for the new barn. Certainly is helpful to get back \$4 for every \$3 we invested in Victory 6" Bonds!

Keep up the good work at school son.

Affectionately  
Dad

John J. Weakley and Gregory J. Weakley, Plaintiffs,  
Vs

William Gannon, James Gannon, Thomas Kelly, Thomas Gannon, John S. Foley and their unknown heirs, devisees, legatees and assigns, Defendants.

Suit pending in the Circuit Court for the County of Livingston in Chancery, at Howell, Michigan, on the 20th day of November, 1945.

It appearing from the sworn bill of complaint as filed in said cause, that the plaintiffs have not been able after diligent search and inquiry to ascertain whether the said defendants are alive or dead, or where they may reside if living or if they have any personal representatives or heirs living or where they or any of them may reside or whether the title interest, claim, lien or possible right of these defendants have been assigned to any other person or persons or whether such title, interest, claim, lien, or possible right has been disposed of by will by the said defendants.

And it further appearing that the plaintiffs do not know, and have been unable after diligent search and inquiry to ascertain the names of the persons who are included as defendants without being named.

Upon motion of Charles K. Van Winkle, one of the attorneys for plaintiffs, it is ordered that the above named defendants and their unknown heirs, devisees, legatees and assigns cause their appearance to be entered herein within three months from the date hereof, and that in default thereof said bill be taken as confessed by said defendants and each and all of them.

It is further ordered that the plaintiffs cause this order to be published within forty days in the Pinckney Dispatch, a newspaper printed, published and circulating in said County once in each week for at least six successive weeks.

## WANTED: "Elbow Room"

We're receiving telephone instruments in greater quantities now, but unfortunately they are not the only answer to the shortage problem. For we cannot connect them up unless spare central office switching equipment is available.  
This intricate apparatus must first be manufactured, then installed and joined into the system. This calls for millions of hand-soldered connections, made in close quarters where only a few men can work at one time. It's a job that

simply cannot be speeded up by putting larger crews to work.  
Michigan Bell is stepping up its 5-year \$120,000,000 expansion and improvement program each day as more materials and manpower become available. But where there is a shortage of central office equipment, it still will be many months before telephones can be installed for everyone who wants one.  
Meanwhile, if you are waiting for a telephone, rest assured we will serve you at the earliest possible moment.
