SAVE YOUR WASTE FATS

Overcome Soap Shortage

There is world wide shortage of all Animal Fats and Vegetable Oils. Last year Soap Makers only got one fifth of what they used in 1941. This also affects paints, tentiles, leather goods, floor coverings etc. Without the help of the American Housewives there would have been little soap last year. One out of every nine cakes of soap made last year was made from waste fats saved in American kitchens.

So don't blame your grocer if he has no soap but save every ounce of fat you can and sell it to your butcher.
