Michigan Mirror State News

State Today Told from Lansing News and Happenings of the

MICHIGAN MIRROR ... HMH. Interlochen, Michigan. — The idea that was impossible—a National music camp for talented boys and girls—has become one of Michigan's outstanding tourist attractions here at Interlochen, near Traverse City.

It is the only place of its kind in the United States—and, indeed, in the world.

Talk about the United Nations! Here is a representative UN right in Michigan with an enrollment this summer of young people not only from 49 of our 48 states, plus the District of Columbia and the Canal Zone, but from the following foreign lands: Bolivia, Canada, Chile, Columbia, England and Peru. Here is a global Golden Rule.

TEEMING WITH ENERGY of youth from early dawn until lights-out at night, this camp is as fascinating to behold as is a bee-hive in a clover field.

Concerts are held in a lakeside bowl each Thursday, Friday, Saturday and Sunday evening at eight o'clock. The admission is sixty cents. The final concert of the season will be presented Sunday, August 25th, by an ensemble of approximately one thousand performers.

Each Sunday at 11:15 a.m. a religious service is held. Then there are daily rehearsals at 8 a.m., 12:40, 1:30 and 4:30 p.m. to which visitors are welcome to attend. On Tuesday and Wednesday evenings at eight o'clock are interesting demonstrations in music sight reading—also free.

STARTED IN 1927 with a modest short-term loan of \$15,000, the National Music Camp has grown to a half million dollar investment of land, buildings and equipment. Enrollment has climbed steadily from 115 in 1927 to more than 1,800 in 1946.

An indebtedness of \$30,000 in debentures, due in 1984, was prolonged ten years at reduced interest. Then in 1944 when the debentures were to be paid off, the entire debt was retired—thanks to a little guy by the name of James Caesar Petrillo.

Today the Michigan camp is enjoying its best season with an all-time high enrollment. A new auditorium, seating 1,800 people, will be ready for the 1947 season. The Kresge Foundation, financed by "five and ten" profits, is the donor. The Michigan Federation of Women's Clubs has contributed a fine arts building.

SENSING THE VALUE OF INTERLOCHEN to Michigan as a tourist attraction, the Michigan State Legislature appropriated \$6,000 each year to advertise the camp by natural color motion pictures and other methods.

Luncheon clubs everywhere began making for these films which tell the story of an impossible idea—a national music camp for boys and girls.

Interlochen's fame spread throughout the nation. A weekly magazine featured a feature, illustrated with color photographs.

And so it went—a rising tide of favorable public opinion which prompted Congress to outlaw the Petrillo debt and which inspired new and greater gifts of usefulness for the Michigan enterprise.

V-J Day Celebration

Howell Plans Big Celebration on August 14

The V-J parade in Howell on Aug. 14 promises to exceed that of a year ago in size, beauty, variety and display. Entries are still being made.

A fine display of fireworks will highlight the evenings thrills! There will be a square dance at the roller rink, music by Ross Barnes orchestra, Ann Arbor and ball room dancing at St. Joseph's hall, music by the Howlette's orchestra.

Out of town families should bring box lunches as restaurants will be taxed to capacity.

More than 60 floats have been entered in the afternoon parade. In addition there will be clowns, mounted units, decorated bicycles, antique autos, veterans organizations and Uncle Ezra and Aunt Carrie with old Dobbin and the buckboard. The floats will be classified as beautiful, humorous, historic, novel, patriotic and instructive. Plans will also fly over the city in formation.

Robert McPherson and a staff of photographers will take motion pictures of the parade which will be shown at a later date.

ANOTHER ROBBERY ATTEMPT

An attempt was made Friday night to break into the Towner Grocery in the former community hall building. Parkers' garage was entered and tools taken from there to make the entrance. These were found lying on the ground near a ladder raised to one of the side windows.

GEORGE BERNARD SHAW TELLS HOW TO LIVE TO BE 100

Is George Bernard Shaw right? That one shouldn't eat meat until he is 100? A vegetarian, he gets along happily and healthfully, and thinks the meat shortage will force people to give up meat. CURRENT COMMENT

The federal government has failed for the second time to convict Dr. William Koch and his brother, Julius, of mislabeling drugs falsely, claiming to cure cancer, allergies or infections. Both trials ended in disagreements although the last jury is said to have stood 8 to 4 for conviction. One juror became ill and the defense refused to go on with 11 jurors. These brothers run a clinic in Detroit and claim to have a cancer cure. The government states they will be tried again. They are well advertised and have had a number of patients in this section, cancer victims, eagerly grasp at every straw of hope and the Kochs have a large practice among this class. We called on a patient of theirs a couple of years ago and he was full of confidence of being cured but soon, time afterwards committed suicide.

Monsignor Edward J. Flanagan of Boys Town recently visited Eire of Free Ireland and on his return gave an interview in which he classed the juvenile reform system there as a disgrace to the country. For this he was severely taken to task by Jerry Boland, Eire minister of justice, and further visits of his to Ireland will probably be discouraged.

The lone expected bank indictments in the Ingham county grand jury investigation have been handed down at last and some 28 persons indicted, including Byron Ballard, partner of Ed Shields, John Stoddard, president of the National Bank, Charles Conn, head of the Conn Aluminum Company, etc. It is charged they gave or accepted bribes to defeat a bill prohibiting national banks from establishing branches. The bill passed but was vetoed by Governor Van Wagener. A following legislature passed it. Some of the indicted have turned state's evidence in order to get immunity.

The O.P.A. has been restored in a much modified form. All rent and price ceilings which were in effect on June 30th, last, are back, although some adjustments will be allowed to meet increasing cost of production. These ceilings are not yet worked out. This is the result of a mass campaign by the buying public and is in effect a general strike by them against increased prices. We understand landlords who boosted their rents will have to make refunds to tenants.

Just whether Judge Breakey of Washtenaw county will investigate the Cassidy Lake Camp for Wayward Boys seems to be undecided. He once announced he would, but Gerritt Heyns, head of the Michigan Corrections system, says no investigation is needed. This camp has some sixty boys, mostly first offenders, whom probate judges and prison heads believed could be rehabilitated. Recently some of them have run away and been picked up by police in various cities. The Cassidy Lake place is an experiment in reforming first-time offenders and has shops, schools, etc. Previously the state had no place for this class and had to throw them into prisons with long-time offenders.

KIM SIGLER LAST WEEK WENT FISHING at Copper Harbor.

His companion, George A. Averill, editor of a newspaper at Birmingham, had been giving Kim some fine advice about the art. George prides himself as being an expert. And then what happened? George didn't even get a nibble; Kim lands a 13-pound lake trout and Kim's daughter, Madeleine, gets the next largest—a ten-pounder. All of which provided the season's best joke for John W. Rice, genial publisher-editor of the Houghton Mining Gazette, who furnished us with the lowdown about it.

CURRENT COMMENT

THE MAN BEHIND THE IDEA
 is a story.
 James E. Maddy is the despair of the professional public relations counsel.
 J. Lee Barrett, Detroit's convention and tourist go-getter, once conceived the nifty notion of publicizing Maddy as a musical genius wearing a long flowing tie. Maddy snapped "Nonsense!" and continued to be the portrait of any boy's father—a chuckling, effervescent man who walks rapidly with a bounding gait, talks incessantly about his life dream, and devotes every waking moment of his day to the boys and girls at Interlochen.
 With his charming wife, Maddy holds receptions for students. He greets each one personally. His smile is infectious. It personifies the happy spirit of Interlochen—YOUTH!

AMONG THE FAMOUS MUSICIANS

 A Detroit automobile company recently donated a fleet of new trucks.
 There is a junior division for boys and girls, 8 to 14—new for 1940—featuring a symphony orchestra, band and chorus.
 The high school division, with separate dormitories, includes a symphony orchestra of 240 pieces, a 150-piece band, a 150-voice choir, and classes in drama, dance, arts, craft—all combined daily with wholesome outdoor recreation.
 When you are driving in the Grand Traverse region on Route 31, between Beulah and Traverse City, be sure to stop at Interlochen. Just a few miles from the main highway. It will be well worth your time.

\$122,000,000⁰⁰ FOR THE "GENERAL WELFARE"

Through the ten years ending with 1945, The Detroit Edison Company paid taxes totaling more than \$122,000,000. Those taxes were collected from us, under the authority of the Constitution, to "provide for the common defence and promote the general welfare."
 More than \$55,000,000 of that amount was paid to LOCAL units of government. That means it went to the cities, counties, villages and townships right here at home, in the territory which The Detroit Edison Company serves.
 The tiniest village has Edison taxes in its treasury. The little red schoolhouse got its share of the \$55,000,000. Edison tax payments were a major contribution to the funds necessary to meet the ever-growing governmental obligations of the City of Detroit.
 In 1945, Detroit Edison's local taxes passed \$6,000,000, for a new high, higher than our Federal taxes for the first time since 1940.
 There is no intent either to boast or to complain about this record of tax payments. The Detroit Edison Company prizes its position as a private citizen, and with that position goes the obligation to be a tax payer rather than a tax consumer.
 Let it also be made crystal-clear that you, the buyers of Edison power and light, paid that \$122,000,000.
 It was a part of your electric bill, but it was not a charge for electricity. It WAS a part of your cost of government.

Thrilling moment in the 20-year-old film DON JUAN, featuring John Barrymore. This was the first full-length sound movie.

The modern movie is 20 years old on August 6

Twenty years ago the movies added sound to sight. DON JUAN was the film. A year later came THE JAZZ SINGER, the first feature to use lip synchronization.
 Both were produced and presented by Warner Brothers. The equipment which made them possible was developed and made by Bell Telephone Laboratories and Western Electric Company. These two Bell System units have continued to apply their skills to improve sound reproduction. They have contributed greatly to the excellent sound in today's movies.
 Bell scientists were able to solve the talking picture problem because of their continuous study of every means to improve communication. The "talkies" came directly out of telephone research.
 The modern movie has grown so that it speaks in peace and war around the world. It has become one of the great agencies affecting the heart and mind of man.

EMERGENCY FOOD COLLECTION

on behalf of UNRRA

HENRY A. WALLACE, National Chairman

This advertisement was prepared by the Advertising Council for the Emergency Food Collection and is sponsored by

SOMEWHERE, halfway across the world, two little children cry bitterly from hunger. Children cannot understand the why of hunger—they know only the gnawing pain, the piteous weakness. A heartbroken mother listens helplessly.

Their only hope—and the hope of millions like them—is that Americans will not be complacent in a starving world . . . that you will share the abundance that is yours.

You are pledged to "Share a Meal Every Day," to help supply starving people with fat and wheat products. But the need for all foods is so desperate that you're asked to do more . . . to give money to buy food, or give food in tin cans, and to give generously!

Where the food you give will go. Contributions of canned foods will be distributed free in war-devastated countries on the basis of greatest need.

Why food must be in tin cans. Food in tin cans can be handled safely for distant shipments and travel over difficult roads.

Why the need is so desperate. The battles that brought us victory scourged most of the countries that fought as our allies. The worst drought in fifty years followed the war. Crops failed throughout Europe and Asia. 500,000,000 men, women and children are hungry and starving.
