News and Happenings of the State Told from Lansing

The "no new taxes and no deficit" pledge of Gov. Kim Sigler is taken by many to mean he expects to resubmit the sales tax diversion to the voters in April.

If it is done by legislative resolution it must be done by Feb. 9th, the deadline. If the legislature fails to do so the only alternative is to circulate petitions, a mammoth job in so short time.

The governor is strongly against the sales tax diversion which he says would give the schools 116 million a year, a sum way in excess of their needs. Townships, villages and cities he added would also get big sums which they do not need.

State Treasurer Brake has warned school districts against granting wage increases in anticipation of huge sales tax diversion revenues.

The governor also called for better marketing and distribution of farm products. The greatest obstacle to this has always been the farmer himself, who has refused to submit to uniform state inspection, grading and marketing of farm products, such as potatoes.

There is no reason why Michigan potatoes could not be superior to those of Maine or Idaho under similar grading conditions and with as high powered an advertising campaign.

The Sigler grand jury spirit was manifested throughout his message by his references to graft among public service men. He would make them honest by raising their wages and forbidding legislators to act as attorneys for lobbyists and special interests.

More executive power was also asked by Sigler as a way of ending the power of the many commissions over whose rules and regulations the legislature has no control.

Ed. Shields Dies

Prominent Michigan Figure Dies at U. of M. Hospital Saturday.

Edmund C. Shields, 75, died at the U. of M. hospital, Ann Arbor Saturday from a blood clot. He was the son of Dennis Shields, Howell lawyer and graduate from U. of M. law dept. in 1896. While here he was rated the best college baseball player there and was offered big league contracts.

He started law practice with his father in Howell but enlisted in the army in 1898 and served as a

EDMUND C. SHIELDS

Lieutenant in the Spanish-American war.

He was elected prosecutor in Livingston county prosecutor in 1902 and reelected in 1904. His most famous case was Thomas Fitzsimmons murder case in Hamburg township. He convicted both men charged with the crime.

In 1909 he branched out into state politics and joined Edwin O. Wood, Flint insurance man in overthrowing Daniel J. Campau of Detroit Democrat national committee. Wood became committeeman of Shields, state chairman which he retained until 1916. Woodbridge N. Farris, Democrat, was elected governor twice during that time.

He had formed a partnership in Howell with his brother, Frank. He dissolved this in 1913 and moved to Lansing where he founded the law firm of Shields, Ballard, Jennings & Tabor. In 1936 he reentered politics and became national committeeman. He was appointed a regent of the University of Michigan and elected for an 8 year term in 1937.

He is survived by his wife, the former Mary Foley of Wisconsin, whom he met while a student at the University of Michigan. They have lived at the Olds Hotel, Lansing for many years. His brother, Frank, also survives.

The funeral was held from St. Mary's cathedral, Lansing Wednesday morning with burial in Deepdale cemetery, Lansing.

CHARLES DUANE MORRIS

Charles Duane (Barley) Morris, 81, died at Chelsea last Wednesday. He was the son of Charles and Mary Williams Morris and was born on the Marble farm at Anderson on April 9, 1855 where his father was a tenant. The family later moved to a farm on Parker Road, south of Dexter. The deceased had a barber shop in Dexter and was a member of the Dexter Masonic Lodge.

Surviving is his wife, Mrs. Ollie Johnson of Ann Arbor and several nieces and nephews. The funeral was held from the home Saturday with the Masons in charge. Burial was in Clemens cemetery on U.S.-12.

The deceased was a cousin of the Allison families of Putman township.

Fire Damages Masonic Block

Considerable Damage Done to Business Block Here Friday A. M.

Fire which started in the ceiling of the Cory Drug Store in the Masonic block here early Friday morning did several thousand dollars worth of damage. Vern ("Doe") Cory, proprietor of the drug store, who sleeps in the rear of the store, was awakened about 5:30 a.m. by smoke and discovered the ceiling above him on fire. He gave the alarm and the Pinckney fire department responded. The fire appeared to have started from defective wiring and excessive smoke handicapped the firemen at first and it took two hours to put out the blaze. The Unadilla township fire department was called to aid but the blaze was under control by the time they arrived, although the Pinckney firemen made use of their smoke goggles and masks.

The damage was confined mostly to the Cory Drug Store, where there was considerable damage from smoke and water and the Masonic banquet hall and kitchen above it, where the floor was burned through and much damage was caused by smoke and water. The Masonic lodge rooms are separated from the banquet hall by a fire door, but sustained some smoke damage. Notwithstanding the early hour, a large crowd gathered. Most of those who tried to enter the smoke-filled building were driven back as it was impossible to stay inside without a smoke mask.

The buildings and contents are both covered by insurance.

CARD OF THANKS .

We wish to thank all those persons who turned out at an early hour last Friday morning and helped save our buildings and equipment from destruction by fire. Especially the Pinckney and Unadilla township fire departments and to Howard Read and Merlin Lavey, who donned smoke-masks and worked in the smoke-filled building for over an hour.

Current Comment

Most of the New Year's editorials this year read very similar to those written last year and also the year before. They classed 1946 as the worst year ever. Everything that took place was wrong but they prophesied a vast improvement in 1947. They did this last year also, and it is in the rule to do so. We doubt that 1946 was any better or any worse than any year following a great war. Thousands and thousands of service men who had been taught to kill for three or four years were suddenly turned loose and left to shift for themselves. Some were able to quickly readjust themselves. Many others were not. Tuned up to the excitement of war, civil occupations failed to appeal to them and a crime wave swept the land. Crimes of violence, robberies, drunkenness, and divorces steadily mounted. Strikes were more numerous than in many years, railroad transportation was halted for a day or so and a coal strike threatened to paralyze the nation. However, re-adjustment will eventually come. It always has! An era of prosperity will ensue which will endure at least until the many unfilled civilian needs for manufactured goods is filled.

The Reverend Father Herman Fedawa, pastor of Saint Paul's Catholic Church of Owosso, recently preached a sermon denouncing the motion picture "The Outlaw," billed to show at Owosso, as immoral and fit only for morons. He called on city authorities to act. They appointed a committee of nineteen to see a preview of the picture, then reconsidered and finally did nothing. The result of all this free publicity was that both theatres there, the Capitol and Center, showed the picture to sell-out crowds. This picture has already been shown in Detroit and we have been told by some who saw it that it is only ordinary in scope and owes most of its drawing power to the immense publicity it has received. There is another method made use of occasionally by motion picture producers. That is to advertise a film to which no one under seventeen years of age can be admitted. Separate shows are usually given for men and women. The people always "eat" this up and turn out in flocks to see what otherwise would be a very ordinary show. This is the best advertising that a film can get.

Infuriated by the supreme court decision which caused the multiple patent to portal pay lawsuits to be started all over the nation, Columbian David Lawrence, who expresses the industrialist view, would do away with the life job tenure of supreme court justices, including those of the supreme court. This is a huge task and one that he will not be able to accomplish. The Constitution wrote the life tenure for federal judges in its provisions and there it has since remained since 1787. This was to make the courts free from political control and interpret the laws without any political pressure. To change this, both houses of Congress and the legislatures of all the states would have to adopt the proposal. There have been other criticisms of the supreme court, probably the most notable being back in Abraham Lincoln's time, known as the Dred Scott decision. Dred Scott was a negro slave who claimed he had become free, owing to the fact his master had moved into a state which prohibited slavery. The court ruled "once slave, always a slave." Chief Justice Tanner was burned in effigy and there were threats of impeachment, but eventually it died down. When an industrial administration holds power for many years, such as the Republican administration from 1896 to 1912, the supreme court becomes industrial. It was during this time this court reversed the \$129,000,000 fine against the Standard Oil Company. Now that the liberals have been in power since 1933, the court is liberal as enough persons have been appointed to the court in that time to make it so. As Mr. Dooley, the celebrated character once remarked, the supreme court follows the election returns.

12-Pinckney wins opening game in county softball league from Howell, 17 to 6. Hardball team beats Dexter and Brighton but loses to Fowlerville. Votes are set outside field Monday.

13-Kim Sigler wins nomination for governor. Helen Kennedy and Lloyd Van Rietman nominate. Senior class trips are canceled. William Branch sells business to Fred Ewald.

26-Erwin Campbell and Miss Mary Conroy die. Marshall team to Clinton, 9 to 5. Howell team to Howell, 10 to 2.

PUT ON BIG PROGRAM

Despite a critical material shortage last year the Mich. Bell Telephone Co. put through a \$39,000,000 construction program last year, reduced the list of those waiting for service from 113,000 to 70,000 and installed 400,000 telephones, 100,000 more than in any previous year.

The company used enough wire to reach 20 times around the earth. Installed enough office equipment to serve 160,000 more subscribers.

At the year's end there were nearly 1,380,000 telephones in the company's territory for an all-time high and 205,000 more than a year ago. Service was furnished to 20,000 more rural subscribers in 1946.

The volume of local calls averaged 7,250,000 a day, an increase of 1,250,000 over 1945. Long distance calls jumped to 160,000 a day compared to 128,000 a day in 1945.

One of the largest long distance projects was completed last year, a 250 mile cable between Detroit and Grand Rapids.

Many new buildings were erected and mobile telephone service instituted in Detroit and plans made to extend dashboard service.

Michigan Bell officials expect the year 1947 to be even busier providing ample supplies of material is available.

Conservation Notes

All sportsmen should mail in their game kill cards by Feb. 15.

The state conservation school will be held at Higgins Lake Feb. 3 to March 31.

A new motion picture film featuring skiing and snow shoeing is now available for schools.

The state parks accounted for 1,540,000 visitors last year. 2 1/2 million more than in 1945.

The state bought 95,000 acres land last year and sold 200,000. They now own 4,462,034 acres. 530,000 are leased for gas and oil for \$1,618,846. The state tax paid on these lands was \$371,554.

There are now 370 school or community forest covering 52,000 acres in the state.

Conservation officers now use 2 airplanes in patrol work.

40 % of the forest fire occurred last March. During the year 1,766 fires burned 23,144 acres.

1500 oil and gas drilling permits were issued in the last 2 years.

Two records were set in 1946 when 957,000 bought fishing licenses and an estimated 300,000 deer licenses. However increased costs caused a deficit and the legislature will be asked to raise fishing licenses to \$2 and deer licenses to \$3.50.

Of the 231 conservation employees in the services 138 have returned to their jobs.

Ever Hear of
& LAZY
LAMP BULB?

PROBABLY NOT. Every year, electric lamp bulbs are doing a better and better job.

But lamp bulbs are often overworked in winter—when the days are dark and the nights are long. In fact, the average lamp bulb in the home is lighted almost twice as long in January as in July.

To spare yourself needless bother, be sure you have plenty of spare bulbs on hand. Your dealer has them—in all sizes—and all modestly priced.

Remember, too, that you can exchange burned-out bulbs for new ones at any Edison office. There's no charge, of course.

SAVE YOUR WASTE FATS

Overcome Soap Shortage

LUX TOILET SOAP

LIFEBUOY

There is world wide shortage of all Animal Fats and Vegetable Oils, Last year Soap Makers only got one fifth of what they used in 1941. This also affects paints, textiles, leather goods, floor coverings etc. Without the help of the American Housewives there would have been little soap last year. One out of every nine cakes of soap made last year was made from waste fats saved in American kitchens. So don't blame your grocer if he has no soap but save every ounce of fat you can and sell it to your butcher.

"WHAT ABOUT 1947"

Farmers in 1947 will have much the same needs as they had in 1946.

The tractor, cultivator, harrow, plow or binder will need some new parts or perhaps general overhauling. The fences will need some mending. Some of the buildings will need repair. Livestock will have to be fed to bring the best price in the market.

McPherson State Bank is prepared to serve the farmers in these winter months when cash revenue is at its low point and time can be used to advantage in maintenance work.
