News and Happenings of the State Tensely Told From Lansing

The idea of May are here and the state legislature is still floundering in its fifth month of financial confusion.

Gov. Sigler believes it would be better to spread new taxes now but the legislature seems inclined to put it off until 1948.

Numerous sources of revenue have been recommended to get the state out of the threatened deficit. The governor favors a 2 mill property tax to finance the soldier's bonus to cost \$18 million annually. The legislature only wants a one mill tax.

A soft drink levy is proposed which would yield \$6 million, a year it would raise the price a cent a bottle.

Doubling the state tax on beer would yield another \$6 million.

A 2 cent tax on a package of cigarettes would yield another \$7 million.

All this would only bring \$27,000,000,000 leaving still \$33,500,000 of the \$66,000,000 deficit to be raised.

The governor would take away from the cities and counties the special taxes granted them last year consisting of liquor taxes, intangible taxes and liquor licenses amounting to \$20 million reducing the deficit to \$18 million.

Other proposed taxes are a 3 mill tax on manufacturers, a 1 percent tax on wholesale transactions and a 1 percent tax on net incomes.

The legislature has shown more zeal for cutting taxes than raising them. Senator Hittler's bill would make incomes joint, cutting income taxes from \$100,000,000 to \$207,000,000, a year. This would save \$76 on a \$5,000 income.

Underlying cause of the middle is inflation. Retail prices have soared since Feb. 1, 1947 about 31 percent. Meat is up 60 percent, soap 62, drugs 67, cotton goods 39, leather goods 68 and so on and the purchasing power has steadily declined. New taxes would reduce the purchasing power still more.

Conservation Notes

Cold weather will probably delay the trout season. Chilled water will discourage insect activity and few trout will be found feeding. Condition of backwoods roads have delayed the planting of the million legal size trout.

Last week 25 forest fires burned 225 acres.

A new system is being tried in pheasant planting this spring. 5 hens and a cock are being planted in groups to see if they will establish themselves.

15000 fish were winterkilled in Lower Crooked Lake in Barry county by heavy snow which cut off their oxygen supply.

The dept. will auction timber May 8-10 on 1760 acres of state land around Menominee, Oscoda, Grayling and Newberry.

The fin clipping of trout planted in Michigan streams is completed. This is done to check on the time success of plantings.

500 brush shelters have been sunk in 7 lakes as an experiment to see if they will increase vegetation and fishing.

ATHLETIC FIELD MEETING

At a meeting at the school Tuesday night Ed Bennett was given a contract to fill in and grade the field. Stanley Dinkel and Wesley Reader to build a soft ball diamond. It was voted not to use the fence on hand but to get cyclone fence. The sponsoring of all athletic activities was given to VFW who get 60 percent of receipts after all expenses taken out. Reader and Thayer were appointed a committee to work out a children's summer playground program.

Funds Depleted

The need for additional highway funds is being felt in Michigan. About \$7,000,000 was spent for removal of snow last winter seriously depleting highway funds. Repairing and replacing bridges destroyed last winter will cost about \$4,000,000 more. Michigan is still receiving the same revenue as in 1938 although construction costs have increased many times.

In Livingston county \$56,000 was spent last winter for snow removal. The cost of snow removal on township roads was \$39 a mile, leaving only a balance of \$19 a mile for the last nine months, 5 bridges were washed out and over \$50,000 worth of damage done to the roads. Increased costs depleted the maintenance funds the past 10 years.

In 1940 the county road commission had 60 men on its payroll at a cost of \$69,000 a year. Today the 40 employees draw \$103,000 a year. Material costs are from 40 to 300 percent higher. In 1942 gravel was 45 cents a yard now it is \$1.11, asphalt was 3 to 5 cents a gallon, now it is 7 to 8 cents, a grader was \$5,700 then, now it is \$8,400. So more funds will have to be provided county roads are kept up to par.

There is before the legislature a bill to increase the gas tax 2 cents a mile. 1 cent would go to the different county road commissions. While this alone will not solve all highway difficulties it would help. A card from you to your senator or representative would have much bearing on the matter.

Work started here Monday on the bridge on Mowers Road, this side of the Catholic cemetery which was washed out. The old foundation was dynamited.

JOHN R. MARTIN

John R. Martin, 74, died at the McPherson hospital, Howell Tuesday after a 3 months illness. Surviving are his wife, the former Beulah Black, a son, Lemuel and 2 daughters, Mrs. Beatrice Meyer and Mrs. Beulah Bortz.

LOSE TWO GAMES

Pinckney High School last week lost two games through their inability to hold a good lead. Wed they were ahead of the Little Pioneers at Ann Arbor 6 to 1 up to the 5th inning and Joe Burns pitching for Pinckney had allowed no hits. Then he lost control, walked 4 men allowed 2 hits and Ann Arbor tied the score. Jerry Clark relieved him but was also wild and Ann Arbor scored 7 runs that inning to take the game.

At Brighton Friday Pinckney also got a big lead but were overhauled by Brighton in the final inning and lost 6 to 5. Pinckney rallied the last inning but fell 3 run short of tying the score. Jim Meyer pitched for Pinckney.

Current Comment

In response to President Trumans plea for a downward revision of prices Newburyport, Mass., merchants have responded with a 10 percent cut in prices across the board with the result they claim that business in creased there 60 percent the first week. The idea has caught on and many other cities mostly in the west have followed suit. For some reason the response in Michigan has been weak. One city Otsago adopted the plan and later Hamtramack has decided to try it. The Detroit merchants association has come out against it and says nothing but disaster will follow if the plan is followed. Some one will have to give in at the state level between merchants and the buying public. With paychecks cut in two there is slight chance of a buying spree under the present conditions.

Lack of cash has also hit the liquor trade where liquor consumption has been cut as much as 50 percent. In Chicago it is claimed 600 taverns will not renew their licenses. The liquor trade blames buyer resistance caused by diminihed paychecks and the fact that autos, washing machines nylons etc are once more available to the buyer and there is not enough money to buy them and liquor too. There is also another reason. Too many taverns were licensed in the first place. They got by all right for the first few years when legalized liquor was a novelty and war wages were high. However with peace time and lowered wages there was bound to be a cut somewhere and liquor has always been classed as a luxury.

Two sold blooded murders were committed in Jackson county last week by two teen aged boys both of which had long criminals records. One murder netted \$14 and the other but \$5. Both men had served short sentences and been released on parole. They have both pled guilty and declined council. One of the murdered men, a taxi driver left several small children. Something is wrong with a penal system. A man is not supposed to be released on parole unless the board is satisfied that he has changed and ready to go straight. Also he must have employment. We wonder if these condition were complied with in this instance.

The state legislature continues in a generous mood. Last week it seriously considered a bill to abolish the state liquor control system which yield the state huge dividends and turn these profits over to needy persons. Next it started a bill to abolish pari-mutual betting at the horse races at the state fair ground. This is the result of a dispute with the Detroit Racing Ass. which has a 5 year lease on the grounds which the legislature is trying to break so it can boost the port. At a time when the state is facing a huge deficit just why should the legislature jeopardize the two large funds it is receiving.

Henry Wallace is expected back from Europe where he has been making speeches against the American foreign policy. A big meeting is being planned in this country for him. Strange to say we have heard many favorable comments for him, especially from returned service men and few unfavorable ones. The Detroit Free Press Friday in an editorial analysed the Greek-Turkish question. It said the main idea is to keep the Greeks and Turks well fed and healthy so they wont go communist. This first loan is only a starter Congress will be asked to granted more and more money, and as it continues refusal will be more difficult. Congress is gambling on the chance that if we stand up to Moscow it will back down. We should be in an awful mess if they dont.

Chilly corners can be warm as toast these cool spring mornings. A modern electric heater gives you instant warmth from your nearest outlet. Easy to carry, easy to operate. There is no cleaner more convenient type of heat. These new, low-priced heaters are ideal for warming baby's bath area, your dressing room, bathroom, or grandmother's favorite corner.

And It Costs Only A Few Pennies An Hour . . .

but unlimited use can cause high electric bills. For example, a thousand watt heater at residence rates costs only 17½¢ a week when used one hour daily for seven days. This same unit, however, when used 8 hours a day costs \$1.40 a week and will add \$11.20 to your two months' bill. Consult a reputable electric dealer who can recommend a heater of sufficient wattage to fit your particular needs. He can also tell you just how much it will cost to operate.

We Got to the Fish Fry After All

That community fish fry was sure a great success. There were plenty of appetizing extras, and Will Bentley did a right wonderful job of frying the fish—soft and flaky inside—brown and crisp around the edges.

But we didn't get to go. The fish was tired after working in the fryer, and we just didn't want to have any.

Then how did we know the fish was so good? Because the folks didn't get it. They just ate the bread and butter with the fish.

ing covered plates of fish, and a pitcher of cool, sparkling beer. And we finished them off in front of our own fire.

From where I sit, that's one of the things that makes our town so nice a place to live in: a spirit of share and share alike. That plate of fish and glass of beer weren't just great eating, they were symbols of the thoughtfulness that makes for better living!

Make Better Seedbeds and Till Close to Fences with a SEAMAN TILLER

Because the wheels of the SEAMAN TILLER are placed in front of the machine instead of at the sides, on all of the new, improved models... you can till the soil right up close to fences... and make a better seedbed at the same time. You actually increase your crop acreage by putting hitherto idle land into production.

The SEAMAN is the original farm size rotary tiller... service rendered over a period of more than ten years. It is supplied in a full range of power take-off and motorized models, from 36-inch to 60-inch tillage widths.

Let us tell you more about the SEAMAN TILLER and its practical applications to your farm and crop conditions. Come in and talk it over.

SCANDAL COLUMN

What was J.M.'s reason for hanging around the kitchen? Was it B. B. or Miss C.?

Why did M. Y. always get caught with the broom at the dance?

Why does R.N. ask about the new motor every day?

Why wasn't N. P. at the dance? We hear she was in Howell?

Did P. E. have a good time at the dance? We hope Beaver did?

Who did W. P. escort after the dance?

C. G. says the 8th grade is alright at least when it come to Thelma. Why is V. S. so cold to J. M.?

Is A. H. the reason that D. C. is not interested in Deyter? (Sure is) We see Miss C. has a new ring.

Most of the Junior girls bade good bye to P. H. S. last Thurs.

We see Jim B. and B. P. did not enjoy themselves at the dance.

Did D. Y. and T. C. have fun running away at the dance?

Who did L. D. H. escort to the dance? Could you tell us Marion?

Why does Fudge want to meet L. S.

Why did J. G. take so long to rive L. C. home from the dance? Boy, was J. M. worried, only of course for his ride home.

Why did B. B. stay in the kitchen in the dark last Friday night? Did T.L. have something to do about it?

What are these important letters that B. W. mails every day?

William J. boasts that his name has never appeared in the Pinckney paper.

Gerald Swarthout spent the week end in Detroit with Mr. and Mrs. Harold Gallup.

Eric Rose and family of Hi-land Lake spent Sunday with Mr. and Mrs. Mark Nash.

Mr. and Mrs. Bud Fisher of Detroit spent Sunday with Mr. and Mrs. Lester McAfee.

Mrs. Henry Liverance and daughter, Rowana, were in Detroit last Friday.

Housewives!!!

SAVE YOUR WASTE FATS

Overcome Soap Shortage

There is world wide shortage of all Animal Fats and Vegetable Oils. Last year Soap Makers only got one fifth of what they used in 1941. This also affects paints, textiles, leather goods, floor coverings etc. Without the help of the American Housewives there would have been little soap last year. One out of every nine cakes of soap made last year was made from waste fats saved from American kitchens.

Don't blame your grocer if he has no soap but save every ounce of fat you can and poll it to your butcher.
