"Good times" are due in 1948. Retail sales will increase 5 to 8 percent. Rural communities will prosper as farm prices will remain high.

As a curb against inflation the president's advisory council proposes to tighten bank credits. Inflation grows when there are too many dollars and too few goods.

Inability to get cash money at banks would put a brake on plant expansion, home building and to some extent employment.

There is a prospect of labor peace as strikes in the Detroit area alone have decreased 75 percent.

More inflation in 1948 is likely to bring increased pressure on the Michigan legislature for new taxes.

How to finance public services of government will dominate the special session which is to start in mid-March, 1948, at Lansing. County government spend 25 percent more money in 1946 than they did in 1945.

Leroy C. Smith, legislative chairman of the Michigan County Road Ass'n, warns that Michigan's highway system faces a complete breakdown unless counties get more money. He would raise more funds by adding two cents to the gasoline tax.

"The court may not direct or control legislative action", reminded the State Supreme court as it knocked out the legislature single school district plan for state educational needs. The ruling would divert \$836,000 more to public schools from the sales tax fund, 76 percent of which is returned to home governments including the schools.

If state legislators would decide to ignore the sales tax commission's annual report, as they have done constitutionally, apparently they could do so. However, the case is different. Rural areas fear legislative domination by urban areas. Hence re-portionment has been ignored by rural legislators who now control state legislation. The same rural areas want more money for home governments including the schools. It is not likely that legislators would dare to ignore the sales tax division amendment for this reason.

Governor Kim Sigler, who amazed capital observers by his new techniques of getting action from the legislature is due to recuperate in his resort operation before swinging into the 1948 campaign.

"AUNT CARRIE" SWARTHOUT

The death of Mrs. Silas Swarthout occurred at the family home Saturday morning following a long illness. In her passing, Pinckney has lost one of her best loved women. Her gentle graciousness of manner endeared to everyone, while her skillful hands and loving heart rendered a service to her home, her church, and her community which will never be forgotten. She was especially active in the women's societies of the Congregational Church of which she has been a member for many years. Here her loss will be felt keenly.

"Aunt Carrie" was a daughter of Harvey and Sarah Harrington and was born in Marion Township 32 years ago. At the age of 20, she was married to Silas Swarthout and her entire life was spent in or near Pinckney. Her immediate survivors are her husband; three sons, Fred and Lester of Detroit and Ward of Jackson; and two daughters, Mrs. Fannie Bradley of Flint, and Mrs. Radie Moran who has cared for her mother during her long illness. There are also 6 grandchildren and four great grandchildren.

Funeral services were held at the church on Monday with Rev. A. L. Allard officiating. Burial was in the Pinckney cemetery.

Eleven people have taken out applications to take the examination for postmaster at Pinckney.

Mr. and Mrs. Bonnie VanBlair, who started for Connecticut Tuesday in their new house trailer.

A dead cow was found on the Kelly farm west of here last week. It had been shot and died from infection.

All blood donated in Livingston County will be used by the Physicians in Livingston County Hospitals.

When a donor contributes his blood in Livingston County, he is not only helping his neighbors and friends but will receive a small blood-type card, with his blood-type and Rh factor on it, that may save his own life at some future time.

Blood Plasma, the life giving fluid now is being used extensively in Livingston County Hospitals to save the lives of local residents seriously ill or critically injured.

Because the need for plasma is great, everyone who has given blood in the past is being urged to give again and to bring a relative or friend with them to the Clinic to meet this need. Notes on the Game

PINCKNEY GIRLS VS BRIGHTON. Pinckney opened her basket ball season here Friday night when the high school team won 2 out of 3 from Brighton.

In the opening game between the two girls teams the score seemed from the start. Pinckney finally got ahead and stayed there winning 21 to 19. Mary Gentile was in fine form and got 17 of Pinckney's points. Barbara Haines got 2 and Susan Campbell 2. Phenix was high for Brighton with 9.

In the game between the two second teams neither had much scoring ability. Pinckney trailed 10 to 2 at the half, Dick Singer getting the lone Pinckney score. Pinckney rallied in the last quarter and was only a point behind when Brighton again went ahead. Final score 15 to 11 for Brighton.

The last game between the two varsity teams was fast and furious. Pinckney led 8 to 6 at the quarter but were behind 14 to 10 at the half and 14 to 19 at the end of the 3rd period. In the last quarter after Burns and Amburgey were put out of the game for roughness, the local team got hot and tied up the score just as the game ended. In the overtime period Brighton got a foul goal but Meyer took the game for Pinckney with a dog shot under the basket. Meyer was high man for Pinckney with 16 points. Amburgey got 4, Burns 2 and Don Clark, Jennereys each 1. Miller was high for Brighton.

A BLACKOUT. After flourishing for years undisturbed a crackdown on bingo, enforced by Gov. Sigler's edict to restore the gambling laws seem to have hit this county. A paper at Brighton which carried a bingo ad, was barred from the postoffice there last week and not admitted until the ad was blacked out. This is the first instance that we have heard of where postal authorities have cracked down on this sort of ad.

Most of the papers with which we exchange have been publishing the ads for months. We understand postal authorities will not act unless a complaint has been made direct to Washington.

TRIAL IS POSTPONED UNTIL DECEMBER TWENTYNINTH. The trial of Rev. Ezra Beachy of this place scheduled for Dec. 13 before Justice Eric Singer of Brighton has been postponed until Dec. 29 owing to the illness of Justice Singer. Rev. Beachy teaches the Hamburg school and punished a son of Frank Schaner there. The boys later got out a warrant for Rev. Beachy, posting security for each. Present or to be present against Rev. E. Beachy and VanWinkle & VanWinkle for the minister. We understand over 40 witnesses have been subpoenaed.

Current Comments

The papers are beginning to take notice of the increasing number of women who are patronizing cocktail bars, saloons. In 1946 women in every 11 drank. Now one in every seven. Why have our high school days before the advent of woman suffrage, when on that question were common one strong point of those in favor woman suffrage was that if women were given the right to vote, saloons would go, never to return. woman finally got the vote but nothing happened along the way. If the saloons are ever banished, it won't be by the vote of women. Judge Arthur Gordon in a lengthy interview in a Detroit paper last week said 9 out of 10 which come into his court are result of drinking. He blamed the main for introducing the wives and sweethearts to drink by taking them into saloons. He says he finds an amazing number of husbands and wives so intellectually undeveloped that they find their recreation in the saloons. His remedy is to remove all obstructions to a full view of the bar and make the women drink in full view of their friends and neighbors. Back in the old saloon days fully 50 percent of their patrons entered by the back door.

The state sales tax dept. always alert to take in the pennies are investigating weekly bingo games put on three times a week at Redford by the Good Neighbors War Men, Ass'n and War Council. They had to have the assistance of the police to get the books of these concerns and say if any selling has been done the full sales tax will be paid plus interest and penalty.

The papers last week carried pictures of the mothers of the two teenage killers Edward Small and Wm. Hungerford, kissing them good bye before the boys left for prison to serve 15 to 30 year sentences for killing Small's father. Their attitude, however, comes a number of years too late. According to the testimony at the trial the boys were allowed to run wild. Their school of badness was unsteady and they were frequently involved in petty affairs. This lack of discipline and restraint eventually led them to commit a murder.

A bad thing has happened in the little village of Washington in Macomb county. They have only a 6 room school there and it is sadly overcrowded. They have 10 grades there and 150 pupils the balance being sent to Romeo by bus. Two children from a welfare society who are staying at the Albert Kluge home have been denied admittance to the school on the grounds that it is overcrowded. The school board points to an opinion by Supt. of Instruction Elliott that 80 pupils is maximum capacity for a school room and also to the fact that he promised earlier in the year when they admitted two welfare children he would not make the request of them again. Welfare Director Ahrens who is leading the fight for the children threatens to take the matter into court. If he does he will probably win. In a similar case in Dexter Township a number of years ago there was no school in operation in the district. A family with children moved in. The board refused to provide them with schooling. The matter went into court and the board was ordered to do so.

80 percent of the people on relief or \$5,000 are unmarried. Their names which states that these names are a lien on the estates of the persons receiving them has cut the lien bar on relief somewhat. Suddenly their relatives are perfectly well they should be on relief as long as it does not cost them anything. The end.

We have heard quite a number of stories of people who have found their boys clothes in the laundry room at the school while they are pending on athletic teams. This was an epidemic of this sort of back biting culminated in the fall of 1946 in magazine money. Many Kennedy present yesterday then Deputy Sheriff asked the newspaper to call the sheriff in to investigate.

ARE YOU A SAVER

A Nationwide survey by the Federal Reserve Bd. reveals that there are three classifications in savings accounts

27 out of 100 fall into the group that always seem to be a little behind on their bills. The savings accounts in this group are active and steadily dwindle

8 out of 100 are in a status where their accounts remain stationary. No increase or decrease

65 out of 100 have accounts which grow continuously

These statistics indicate that the majority of savers are getting ahead. They treat a savings account like a bill to be paid. An amount in keeping with income is deposited each week or month

SAVE YOUR WASTE FATS

Overcome Soap Shortage

LUX TOILET SOAP **LIFEBUOY**

There is world wide shortage of all Animal Fats and Vegetable Oils. Last year Soap Makers only got one fifth of what they used in 1941. This also affects paints, textiles, leather goods, floor coverings etc. Without the help of the American Housewives there would have been little soap last year. One out of every nine cakes of soap made last year was made from waste fats saved in American kitchens.

So don't blame your grocer if he has no soap but save every ounce of fat you can use and use it to your butcher.
