

Michigan Mirror

Confronted with an unpleasant break in party ranks during a campaign year, Gov. Sigler and the legislature have patched up some of their differences for governmental reform.

The legislature passed the state dept. administrative bill but put the control in the hands of the dept. instead of the governor.

In turn Gov. Sigler and his Citizens' Committee called off their plan to initiate their reforms by constitutional amendment.

Such was the outcome of the tug of war between the gov. and the legislature.

It will mean one less amendment in Nov. It was doubtful if 167,000 signatures could be secured to put it on the ballot in Nov.

The compromise postponed the merging of the states 100 commissions into 18 depts. with control in the hands of the governor. Also the proposed 4 year terms for state officials and giving the governor power to appoint att. gen. and sec. of state.

John Perkins will become comptroller of the new dept. which will handle budgeting, purchasing, accounting, motor transport, building management and office service. His salary will be \$12,000 a yr.

If Perkins can reduce the cost of the combined agencies he will be able to demonstrate the efficiency many believe both will be achieved and economy of reorganization.

The attitude of the voters toward government at Lansing is that Lansing has too much money for its own good and local governments should get a larger share through increased sales tax diversions.

The legislature loaned \$5,000,000 to county road coms. for roads. It is supposed to be paid back out of the gas and weight tax when they are levied. Most legislators expect the loan to become a gift.

The legislature voted \$13,588,000 for capital improvements. The deficit this year is expected to reach \$14 million.

Will the voters take heed and vote the sales tax diversion amendment in Nov.? Gov. Sigler says "No" hence his efforts to get the amendment off the ballot.

Conservation Notes

Records show a slump in pike production in Saginaw Bay in the period ending April 1, from 128,919 lbs in 1947 to 64,349 in 1948. Smelt increased this year from 341,572 last year to 558,892 this year.

A demonstration of the use of radios and airplanes in conservation work will be staged June 9-14 at Higgins Lake.

The wet spring has made a big mushroom crop. Persons seeking them are warned to beware of the poisonous kinds.

The showy lady slipper, a beautiful wild flower, is said to be making a comeback after almost becoming extinct. They can not be picked without the permission of the owner of the land.

MASONIC GRAND LODGE

At the 104th annual convention of the Grand Lodge of Mich. F. & A. M. held at Detroit last week, Dr. Hazen Cole, Ithaca, was elected grand master. For grand marshal, the bottom rung of the ladder which leads to grand master, Horace White, A. & P. executive, won over Francis Dodge, Detroit attorney and Virgil Lake of Lansing. Whyte was born in Ireland and is a veteran of World Wars 1 and II. Clarence Hooper of Flint, grand master presided.

Few controversial amendments came up. One a territorial jurisdiction waiver, sponsored by Livingston Lodge No. 76, provoked an hours debate and failed by 5 votes to get the required two thirds majority. The other controversial measure, the deputy grand lecture amendment was finally adopted after a hot debate when the grand master got behind it. Plural membership was abolished and dual membership adopted.

A new ritual and monitor was authorized and will be available to Mich. Lodges soon. Money was voted for foreign relief, disabled war veterans, outside relief and emergency relief. Masonic Home stipends were raised in some cases. Lodges with membership of 100 to 200 pay \$1 a week; 200 to 400 \$1.50; 400 to 600 \$2 etc. The meeting next year is also in Detroit.

School News

ANNUAL COMMENCEMENT

The annual commencement exercises were held at the school last Friday night. The J. Hop decorations were left up and the 28 graduates, largest class in the school's history, clad in caps and gowns, marched to the stage and took their places on the stage. Mrs. Mildred Parks played the march. Rev. Allard gave the invocation and the different members of the class gave the parts assigned to them. All seniors took part, parts being split up for that purpose. David Aberdeen and Nell Baughn, the two highest in school academic standing had the valedictory and salutatory.

Solos were rendered by Lois Shirley and Gilbert Bailey, the latter of Adrian college sang "When You Come to the End of a Perfect Day" English awards for this year and past years were made to the graduates with the best 4 year average in English. These awards were started some 25 years ago in honor of his parents, Albert and Sarah Wilson. After his death it was allowed to lapse but was revived by Thos. Read Sons in honor of their parents. The first \$25 prize this year was won by David Aberdeen and the second of \$15 by Nell Baughn. The winners for 1947 were Marguerite Earl and Doris Ryan and 1946, Gerry Ledwidge and Pat Jeffreys.

This ended the program and another graduating class departed from Pinckney high school to be a part of the school's history.

ALUMNI BANQUET

The annual alumni reunion of Pinckney high school held at the school Saturday night was a big disappointment only about 100 tickets being sold. There was a fair representation of out of town grads but the Pinckney grads forgot to come. As a result the committee incurred a deficit which the \$90 surplus left from previous year was insufficient to wipe out.

Rev. Potter gave the invocation and a fine banquet was served by the White Shrine of Howell.

Jack Hannett, president, called the meeting to order and the minutes of last years meeting were read and approved.

The election of officers for next year resulted as follows: Pres., Ross Read; Vice Pres., Virginia Curver; Sec. Treas., Louise Zeigler.

The roll call of classes showed many missing. Only 11 of this years senior class were present.

Jack Hannett introduced Vincent Young jr. who acted as co-master. Neil Baughn responded to the welcome to the class of 1948 in place of Derrel Shirley, absent. Dick, Chris Campbell Billy Miller of the boys quartette sang several numbers, Jack Clark, the 4th member was absent. Lois Shirley played several accordion selections accompanied on the piano by Rosalie Nash. The Hartland Men's Quartette failed to appear.

This ended the program no old grads being called in for remarks, and the balance of the evening was spent in dancing to the Roland Service orchestra, Ann Arbor.

PETTYSVILLE SCHOOL

The Pettysville school closed their school last week with a program at the Pinckney school Monday night directed by the teacher, Eva Wenderlein and Mrs. Clifford VanHorn, music director.

The program consisted of a patriotic drill with Olin Darling as Uncle Sam and Peggy Smith a flag bearer, 3 rhythmic bands of different age groups with Dorothy Imus conducting a group and Barbara Ellie the primary unit, an Indian pow-wow by a group of boys, the Virginia Keel, a minstrel group and a ballroom dance by Barbara McAfee, a May-pole dance, piano solo by Donna Basydio, piano selections by Olin Robinson jr and a quiz contest by Mrs. Robinson. Clifford Van Horn was master of ceremonies.

WIN 7 TO 2

A couple of weeks ago Pinckney beat the City Service team of Howell 7 to 2 and last Thursday night they beat them again by the same score at Howell. Mutter, star of the old days started pitching for Howell and Pinckney scored 5 runs the first on Lavey's double, Ledwidge single, an error which put F. Singer on and Twitchell's home run. They got 2 more the second on a walk, hit and an error. Howell rallied in the 3rd and got 2 runs on 2 hits and an outfield fly. In the 4th they filled the bases but a double play Haines to Shehan retired the side. Again in the 5th they loaded the bases but the last two batters popped out. Arnold pitched the last three innings and was not scored on.

Current Comment

Supt. Dondineau of the Detroit schools has provoked a tempest there by giving an opinion that teachers of the City of Detroit are permitted to inflict corporal punishment on their pupils under certain conditions. Detroit has long boasted that corporal punishment was not permitted in her schools and this outburst of the superintendent was a shock to them.

P. T. A. and other organizations held indignation meetings and condemned the remarks of the supt. Finally someone calmed down enough to ask him what he considered these rare conditions were that warranted corporal punishment. He said such a case as where the pupil draws a knife on the teacher so the whole thing turned out to be a tempest in a teapot for the State of Michigan gives all persons the right to protect their lives when threatened and they do not need Mr. Dondineau's opinion to confirm it.

The Senatorial investigation of the conduct of Roscoe Huston, Detroit Postmaster, seems to have fizzled out. After holding public hearings for Huston's accusers and broadcasting testimony, Senator Langer, chairman, held private hearings for the Huston witnesses and the testimony was secret. Now he suddenly announces the investigation is closed. The charges made against Huston by a former inspector concern incidents which happened 16 years ago. Senator Langer says he finds Mr. Huston is a politician. What did he expect to find in the Detroit Post Office? Huston was not appointed to that job because he was the best qualified man available. He got the job because he could get out the vote and was one of the men who put Wayne County in the Democrat column. His predecessor, John Smith, Republican, was appointed for the same reason only the strength was among the Republicans. The post office appointments are the eggs in a nationwide machine whose labors are on behalf of the party to which they owe their appointments. It was always thus and always will be.

The feud being started in the south against President Truman is bunk and is being fanned to a blaze by certain politicians who want to feather their own nests. The President's utterance was only a posture to the Negro vote. He knows civil rights are unenforceable south of the Mason-Dixon line. There never was but one President who enforced civil rights in the south & this was President Grant. He declared martial law, sent in the army, and disenfranchised the white people of the South. This led to the election of Negro governors, senators, representatives, etc., and for a period of some eight years they ran the South and lorded it over the white people. When the vote was restored to the white people they cleaned house but the indignities suffered during the carpetbagger-negro regime were too deep and that is why the South is solid Democratic. So, the South has nothing to fear. Congress will never again send an army there to enforce equal rights.

The Arabs seem to have the upper hand, at present, in their struggle with the Jews for control of the Holy Land. They are receiving active aid from Great Britain in the way of arms and ammunition, while an embargo is still in force against shipment to the Jews. However the gallant fight waged by the Jews is winning them friends and Great Britain was very grateful last week over the report that President Truman had recommended a large loan to the Jews and would ask that the arms embargo be lifted. This was found to be premature and the President had made no such recommendation. Day by day the sentiment for the Jews is increasing and if they can hold out a while longer they will receive arms and munitions galore from well wishers here.

Three Mighty Important Ideas

Maybe you read, where a great encyclopedia has sorted all basic ideas into a few select groups. Under the letter "T" they have:

Temperance - Truth - Tyranny. Sounds like a funny combination. And to philosophize a little, notice that Truth is in the center—between Tyranny and Temperance.

Now and then you hear folks criticize temperate people who enjoy a moderate glass of beer... who talk about "two beers" getting some one into trouble, and claim: "There ought to be a law!"

Then Truth steps in between, and points out that two beers never got anybody into trouble—and that somebody's trying to distort the facts. No, there shouldn't be a law—There should be Truth.

From where I sit, these ideas are arranged just right. Temperance on one side, Tyranny on the other, and Truth in the middle—so that Tyranny never enjoys a glass of Temperance.

Dairy Farmers Open Modern Milk Handling Station

Michigan's most modern milk receiving station will be shown to the public when the members of the Michigan Milk Producers Association in the Detroit area hold "open house" at their new plant at Ortonville on June 5 and 6. The top picture shows the endless conveyor which handles cans as they are filled. The bottom picture shows the endless conveyor which handles cans as they are emptied. The cans then come through the sterilizer where they are washed inside and out, sterilized with live steam, dried, turned right side up and the cover clamped on tightly. They continue on the same conveyor back to the truck, the first empty can arriving as soon as the truck is unloaded, thereby eliminating any delays at the station. From the weighing tank the milk passes through stainless steel pipes to the "wing" cooler (at left in lower picture). This cooler reduces the temperature of the milk 25 degrees in any kind of weather. The milk then flows to the holding tanks which are refrigerated and equipped with agitators. One more tank is to be installed, giving the plant a holding capacity of 15,000 gallons. Many other modern features provide much of interest to the public who will be given an opportunity to inspect the plant at any time from 9 A.M. to 5 P.M. on the coming Saturday and Sunday. The station is located at the north edge of Ortonville on state trunk line M 15, nine miles north of the junction with U. S. 10, the Dixie highway.

WHO GETS THE BIGGEST VALUE IN WOMEN'S DRESSES???

2 hours and 22 minutes, that's how long the average American worker works for the price of a cotton dress.

How long do you think the average British worker works? And the average Russian worker?

The right answers whether you know them or guess them are British-7 hours and 30 minutes—more than 3 times as long; Russian-32 hours and 5 minutes—more than 13 times as long! This should make us feel mighty proud of the way we do things in this country.

The American way of banking is one of the many things that help make the American way of living the best way in the world.

Open House THIS WEEK END—SATURDAY AND SUNDAY JUNE 5th AND 6th . . . at ORTONVILLE

You are cordially invited to attend our open house this week end. Join with the Dairy Farmer Members of the Michigan Milk Producers Association in the inspection of their new, model milk receiving station... Come and visit us—see how your milk supply is handled—know more about the safeguards set up to protect your health and that of your children!

How to reach our new station

The station is located on M 15 at the northerly edge of Ortonville. As shown on the map, M 15 branches off from US 10 (Flint highway) just north of Waterford and 6 miles north of Pontiac. It is 9 miles from the junction of US 10 and M 15 to the station—through Clarkston and beautiful rolling country. WE WILL BE LOOKING FOR YOU.

U.N. Facts and Faces YUGOSLAVIA

Because of its strategic position and resources, the territory of Yugoslavia for centuries suffered various foreign invasions. With about 100,000 square miles and 15,000,000 people, Yugoslavia, embracing Serb, Croat, Slovenian, Macedonian and Montenegrin lands, was created as a monarchy after World War I. In World War II, she suffered heavily from German occupation, and after liberation, the monarchy was replaced by a Federated People's Republic. Predominantly agricultural, Yugoslavia is nevertheless the principal mineral producer of the Balkans, and has a Five Year Industrialization Plan. Her U.N. Representative is Dr. Joza Vilfan. Her flag is blue, white and red with a red star.

Women Delegates Take Part in U.N. Meetings

A group of women members of the United Nations General Assembly's Social, Humanitarian and Cultural Committee talk over the progress of their work before a meeting of the 57-nation body of the U.N. in New York. Left to right they are Mrs. S. Tasddaque Hussain of Pakistan; Mrs. Edith Begtrup of Denmark; Mrs. Florence Patten, M.P., of the United Kingdom; Mrs. Alice K. Cozma of Syria; Miss Sirris Al Khatib of Iraq; and Mrs. Ulla Lindstrom of Sweden.

U.N. Facts and Faces PARAGUAY

Paraguay, deep in the interior of South America, is still in many ways a frontier land, although her capital, founded in explorations 400 years ago, is one of Latin America's oldest. Most of land-locked Paraguay's 1,000,000 inhabitants live between the Paraná and Paraguay Rivers, which lead to the Rio de la Plata and the sea. Cattle raising, forest industries and agriculture on the rich red soil occupy most of her people. Still largely unknown is the Gran Chaco region in the north. Paraguay's delegation to the United Nations is headed by Dr. Guillermo Enciso, Ambassador to the United States. Her flag has horizontal red, white and blue stripes and the country's seal.

Indonesian Truce Trio Report to U.N.

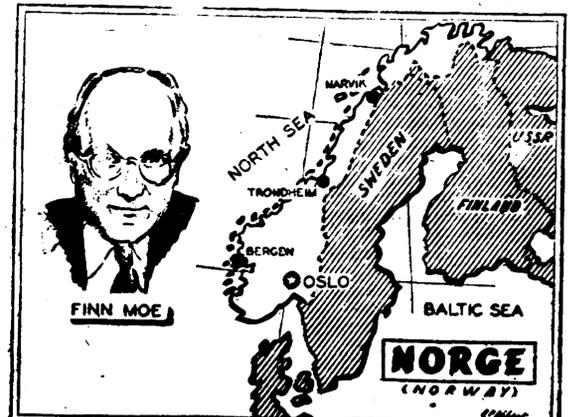

Having successfully helped to negotiate a truce in the recent conflict between The Netherlands and the Indonesian Republic in the East Indies, the United Nations Security Council's Committee of Good Offices is back at U.N. headquarters, writing its final report. Putting final touches on the historic document are (left to right) Dr. Frank P. Graham of the United States, Paul van Zooland of Belgium, Justice Michael C. Kirby of Australia, and T. G. Narayana, chief secretary.

U.N. Staff Gives Day for Children

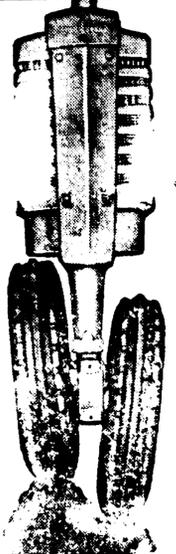

Leading the way, the entire staff of the United Nations has pledged one day's pay to the United Nations Appeal for Children (UNAC), which started its world-wide drive for contributions in February. Signing up are (left to right, front row), Assistant Secretaries General Byron Price (administration), Henri Laugier (social), Arkady Sobolev (security council) and (back row) Ivan Kerno (legal), David Vaughan (general services), Benjamin Cohen (information) and Aake Ording, Director of the United Nations Appeal for Children.

U.N. Facts and Faces NORWAY

Norway, a mountainous country extending from the frozen Arctic to the gateway of the Baltic Sea, is known all over the world by her merchant fleet. The sea, washing 12,000 miles of coastline, provides natural industry for Norway's 2,000,000 people, who are among the world's greatest sailors and fishermen. Her farmers live mainly along the famous fjords (inlets) and in valleys deep in the rugged mountains, which also furnish water power for electricity to run Norway's industries. The country is a Kingdom and gave the United Nations its Secretary-General, Trygve Lie. Its Parliament, Representatives of U.N. Headquarters is Finn Moe; its flag red with a white-bordered blue cross.

Only JOHN DEERE
"Knee-Action" Comfort
and Ease of Steering

with ROLL-O-MATIC Front Wheels

Driving a Roll-O-Matic-equipped John Deere "A" or "B" is an entirely new experience in tractor operation. There's no wheel sag... no creeping... less bouncing than ever before. You get smoother, safer, easier handling over rough ground... in furrows... on beds... along the contour... in almost any operating condition you can name.

Steering is much easier because the load is *always* balanced between the front wheels. Riding is greatly improved and safety increased because up-and-down movement of the front end is cut *exactly in half* as the tractor travels over rough ground. With just a guiding hand on the wheel, the tractor literally *climbs* out of furrows... *walks* over obstructions... *operates* over washboard roads with greater stability.

Only John Deere has Roll-O-Matic. It's just one of more than 20 advanced features which make the new John Deere "A" and "B" Tractors... leaders in modern design... as soon

Seeding time on the farm calls for the use of strong, pure seed able to meet weather and pest attacks and still come through with a good harvest. United States Savings Bonds are like good reliable seed. They grow a crop which can be left to full, rich maturity in ten years at the rate of \$4 for every \$1 invested. Take a tip from the wise farmer who is storing up a crop of security by investing now in Savings Bonds. He is growing more money, security for himself and his family and security for his country. Your security is America's security.

THERE'LL BE SOME CHANGES MADE

In a short time we will introduce a radical change for our checking account depositors.

When that time comes the pass books which have been for many years the receipts for deposits, will no longer be needed. Instead a machine validated receipt will be issued.

We believe this receipt will furnish our depositors a more accurate record of their deposits and will speed up the time required to wait on depositors at tellers windows.

A Savings Account can be opened with as little as a \$1 bill.
