

Michigan Mirror

Here on Michigan's West Dutch 12 miles south of tulip famous Holland is Saugatuck, the artists summer capital of the Middle West. As you approach the village an illuminated sign, displaying an artists pallet, bright with colors welcomes you.

Landscape paintings are on display at the shops and an exhibit of paintings is open daily from 2 to 5 p. m. An artists ball is held in August.

Yet the people are not all happy. Taverns are numerous and vacationers are apt to imbibe freely. There is an air of Bohemian informality. Sloppiness prevails, sport clothes are vogue and mother dous daughter's blue jeans and jeans the sidewalk parade.

At night the cock tail bars and dance pavilions are thronged. On the sidewalk, if weather permits, M. Hasselbar puts on a mass production circus-like artist under bright lights. He rapidly daubs colors on a canvass. A sign "Direct from artist to you." He is a miniature Henry Ford, turning out canvasses to suit the customers purse. His method is unorthodox and unapproved.

Contrasted to Hasselbar who wins in Miami is Carl Hoernmann, Riverside, California, noted desert and sand dune painter. He travels to the dunes at 6 a. m. to get the perfect lights and shadows and again at 6 p. m. He calls those who paint from imagination "house painters." The varying lights he catches make a Hoernmann canvass a thing of joy.

The Chicago Art School sponsors a summer school of painting at Fishtown where the Kalamazoo river hits Lake Michigan. Oxbow Inn where the artists eat, is an ancient dilapidated building and so is the museum where they exhibit their pictures.

More than 100 years ago the town of Singapore flourished at the mouth of the Kalamazoo river. It boasted 3 lumber mills, 2 hotels, and several stores, 700 sailing vessels entered the harbor in 1870. Now it is a ghost town, marked by a drifting sand dune.

Conservation Notes

A minimum Pittman-Robertson wildlife restoration program for 1948-49 costing \$135,000 has been approved by state conservation com. This is financed by federal excise taxes on firearms and ammunition returned to the state by the federal government.

Applications are now being received to hunt antlerless deer in Allegan county Dec. 1-10.

Hunting clubs holding large blocks of timber for more than 40 years can cut timber if they desire. The average ground water level in June was higher than in 8 years of the preceding 13 years.

The total number of hunting licenses issued last year was 394,403. The four states at Isle Royale have been checked.

Wayne county sold the most licenses last year 112,260 fishing, 97,762 small game, 41,527 deer and 1104 archery. Kent was 2nd and Oakland sold the most trapping licenses 788.

Believe it or not Mrs. Hudson Robertson lost an earring at he Oden fish hatchery last year. Last week her husband caught an 11 inch fin clipped trout released from the hatchery in the Boyne river and found the earring inside.

Plane Crash

An airplane, a Piper Cub from the Gregory Airport, crashed in the cornfield on the Lee Lavey farm 3 miles west of town on M-36 about 7 p. m. Thursday night. The motor stalled and the pilot in trying to circle so he could land in a plowed field on the north side of M-36, east of Marble's Corners, was unable to clear the telephone wire. The tail of the plane caught in them tearing down a number of wires and breaking off a pole. The plane then went through a fence and nose dived in a cornfield a few feet from the road. The pilot, said to be Dick Bennis, Patterson Lake, climbed out unhurt and the plane sustained little damage. Men from the Gregory airport came down, removed the wings and towed it back to Gregory behind a car. Several planes from Gregory flew down but only one, a plane piloted by Edward Gilmore, landed in the plowed field across the road from the wreck.

HIGH PRICES

We understand that steak is due to rise to \$1.25 a pound this week. If it keeps on it only place you will find it will be museums. We can remember when round steak sold for 10 and 12 cents a pound. We fail to understand this unheard of rise in price. The excuse that so much meat is shipped abroad that there is none left for this country doesn't jell. During World War II when there were 100 soldiers abroad to every one there is now prices did not reach this peak. Again the old fallacy of the present Republican congress comes up, "Remove price controls and prices will adjust themselves." Well, they were removed but instead of any adjustment they climbed still higher until this month all ascension records were broken. Eating is in deed, getting to be a mighty serious business. There is a nigger in the woodpile, someone and someone is making a bunch of money out of the fact.

50 YEAR SERVICE RECORD

After the annual school meeting of District No. 4 Frl. Isoco and White Oak at which Vance Miller was selected moderator the 30 people there went to the Miller home to honor Lynn C. Gardner, who this year is completing 50 years of continuous service on the board as treasurer.

Games were played and a pot-luck luncheon enjoyed through the planning of Mesdames Vance Miller, Wayne Ellsworth and Robert Swert.

In behalf of those present Mrs. John Nichols presented Mr. Gardner with a pen and pencil set after which Mr. Gardner responded very feelingly.

OUR DEMOCRACY

by Mat

THRESHING TIME

VOLUNTARY COOPERATIVE EFFORT HERE IN AMERICA HAS BEEN AN IMPORTANT FACTOR IN THE GROWTH AND DEVELOPMENT OF OUR NATION SINCE ITS EARLIEST DAYS... ONE EXAMPLE, WARMLY FAMILIAR TO GENERATIONS OF OUR PEOPLE, IS THE THRESHING CAMP AT WORK—FARMERS JOINING TOGETHER TO PROVIDE MAN-POWER AND MACHINERY TO ACCOMPLISH IN A SHORT TIME A TASK IMPOSSIBLE FOR ONE FAMILY WORKING ALONE.

ONE OF THE GREATEST EXAMPLES OF VOLUNTARY COOPERATION IN AMERICA IS THE PROVISION WE MAKE, THROUGH LIFE INSURANCE, FOR FAMILY PROTECTION... WITH MILLIONS OF AMERICANS POOLING THEIR FUNDS AND SHARING THEIR RISKS, ALL ACHIEVE AN ECONOMIC SECURITY THAT FEW OF US COULD ACQUIRE ALONE.

Dam Situation

When this paper reaches you it will be about 10 days since the dam went out and to our knowledge no steps have been taken to replace it. A man came out from the road Co. last week Monday and looked over the damage but according to Roy Hannett who talked with no hint of the company's intentions.

We understood that a delegation of citizens were to attend a council meeting last Tuesday and ask the council to take some action to get the dam replaced but no delegation showed up. The council will not meet again until August.

The majority of people want the dam restored but wishing won't get it restored. What is needed is action. Village and property owners along the pond started the action that got the dam rebuilt the last time it went out.

The mill pond is an asset to the village. Not only for beauty, swimming, fishing and boating but for fire protection. To lose it through lack of action would be a poor advertisement for the town.

Notes of the Game

Pinckney teams won both games played here Friday night at the board table. The Pinckney Cubs beat the Brighton Flying Service in a night game 3 to 2 for their 14th straight win. The Pinckney team beat nighters of Howell in a Huron Valley League game 10 to 6.

It was scarce in the last game. Cubs scored twice in the first inning on B. Amburgey's walk, Jeffery's double and D. Amburgey's hit. Good scored their first run in the 4th on an error, a hit between and 2 hard outs.

Brighton got a run in the 1st on a hit between and an error and another in the 2nd on a walk and errors.

In the Huron Valley League game Bob Singer held back, threw out one hit and only 3 men reached first and none scored. Pinckney found Schaeffer easy at center field in the first inning, 3 runs, 2 hits and 2 errors in the 6th. Good Ludwig had a hard day getting 4 hits in 4 times up, 4 home, 3 double and 2 singles. Pinckney gave up 5 runs in the support only making one error. Some of the Pinckney players were missing and a new lineup was used which worked fine. Tom Goode promoted from the Cubs got 2 hits.

Current Comment

The Democratic convention is over and things happened as had been forecast. President Truman was re-nominated with only nominal opposition and his southern delegates staged their insubordination over President Truman's civil rights declaration and it was not nearly as big as had been anticipated. The Mississippi delegation was the only entire one which stayed out and parts of Alabama, Tennessee and Texas. They were not to be a candidate for president in a group convention and their split may take some of the solid South away from the Democrats. The second point of interest was the President's announcement that he would call a special session of Congress to convene the 80th Congress to enact some of his measures which they incorporated in their platform. The platform civil rights program, public control, health program, aid to education, help to a placed program and numerous other items. In effect, he intended to put them on the spot. However, it is to be doubted that any law will be enacted at a special session. By doing so, the public would play a strategy in the President's hand and also it is to be doubted that they are for any of the measures, except in the platform. They put them in their platform to get your with their intention of enacting them. The Democratic Party and publicans will have to conduct on the campaign in the light of the living. Still they probably consider that a better plan than being forced to enact President Truman's must legislation.

The average person is unable to understand the vast field over "Civil Rights". They think that has issue was settled by the Civil War in which National Rights vanquished the States. Real policy of the South. That is not true and if the bulk of the American population had remained in the South, you would have found the States Rights. However, since World War I, thousands of negroes who drifted north by high wages and a labor scarcity in the industrial cities such as Detroit, New York, Philadelphia, Chicago, etc., so that a large part of the negro population is now in the North. These negroes and many of the white members of the labor union and members of the labor union. Franklin Roosevelt led the fight in 1937 and in all of the years since that time of the great years. The negro who came to the big cities with the elections since the start of both parties to win the election by adopting civil rights plank in their platforms. The Republican and little to lose to the Democrats. The Democrats with the Negro vote on the platform the vast field over "Civil Rights" to the latter would cause a division in the South. For instance in Mississippi the negroes outnumber the white people and a large vote is allowed to vote and control the state and elect an address. The same would be true in other sections of the North. Now Congress will probably never pass any civil rights bill as the South has enough votes to block it to death. So the whole thing is a stalemate. It is just a gesture on the part of both parties to get the negro vote.

According to the press we are very close to a shooting war in Berlin, Germany, and apparently the only way to break the Russian blockade is by force which may mean war. Despite the big ultimatum issued, the American army of occupation in Berlin has their backs to the wall and must either get out of Berlin or break the blockade. The sending of the jet planes there last week from Selfridge Field was only a gesture. They are too slow to be of any assistance. The Russians are determined to get the occupation armies out of Berlin and Germany. The situation is growing more tense daily.

Gov. Stier's blast against political grand juries amuses us. If we understand rightly the governor, himself, rose to fame on a grand jury which he conducted into legislative graft and from a small town lawyer became a national figure almost overnight when the Michigan legislature tried to smother his investigation. Senator Homer Ferguson of Detroit also owes his rise to fame to his grand jury investigation into Detroit police graft in connection with gambling. However, how the shoe is on the other foot. The Michigan Auto Dealers, who the governor's opponent, Judge Skillman is investigating his friends, supporters and financial backers of the governor.

MICHAEL GARLAND

Michael Garland, for 17 years a prominent practicing attorney and a civic worker in Owosso and a long resident of Shiawassee county has announced his candidacy for the non-partisan nomination for Judge of the Shiawassee-Livingston Judicial Circuit.

The primaries will be held on September 14 and the 2 candidates polling the largest vote will compete in the November election. The winner in November will serve the unexpired term of the late Judge Joseph H. Collins, which runs to December 31, 1923.

Mr. Garland grew up in this county and attended the Corunna schools. While in high school, and later while attending the University of Michigan, he worked in the plants of the now Stokley Canning Co. and the Weather Proof Body Corporation in Corunna. While at Weatherproof, he worked under Don R. Mitchell, then Assistant Purchasing Agent and Sales Mgr. of the Weatherproof and now the president of the Ypsilanti Furniture Co., Ionia.

Mr. Garland entered University of Michigan in 1924 and financed his way through college by washing dishes, waiting on table and later by handling the sales for the A. & P. Co. to the fraternity houses of Ann Arbor.

Mr. Garland graduated from law school of the university in 1931 and started the practice of law in the office of the late Leon F. Miner. Two years later he became associated with Pulver & Bunn, then the leading law firm in the county. That fall he was appointed District Counsel for the Home Owner's Loan Corp. with headquarters in Saginaw and served in that capacity until May 1935, when he returned to Owosso and formed a partnership with the late Seth Q. Pulver, after the death of Walter M. Bush. Mr. Pulver died in 1943 and Mr. Garland took over the practice.

Mr. Garland has served 7 yrs. as City Attorney of Owosso and has also served in the same capacity for Corunna and Perry. He is a member of the Owosso Rotary Club, and served one year as President of the Chamber of Commerce and two years as Exalted Ruler of Owosso Lodge No. 713 B.P.O.E. U.L.S.

During the 17 years he has practiced here, Mr. Garland has demonstrated his outstanding legal ability by the manner in which he handled highly important cases and is regarded by those in his profession as one of the top lawyers of the state. Many business and industrial firms have recognized his legal ability by retaining Mr. Garland as their attorney.

Mr. Garland is 42 years old, is married and has 3 daughters.

There's a **FACTORY**
on your Old Back Forty

Mr. Modern Farmer is chief executive, production superintendent, and engineer of a food-producing factory. And by using factory methods—letting electric power and equipment do the heavy, time-taking farm chores—he's reducing production costs, increasing output... a sound business formula used by all successful manufacturers.

A call to your nearest Edison office will bring a Farm Service Advisor to your farm. He can give you expert, impartial advice—impartial because he has no equipment to sell. On hay drying, feed grinding, gutter cleaning and a dozen other jobs, the Edison man can help you pocket more profits from that factory on your old "back forty."

THERE'LL BE SOME CHANGES

The Anniversary of our Declaration of Independence is just passed. The men who formulated that document spoke for the many people who left Europe to escape from regimentation and wanted the opportunity of a free choice of endeavor and religion.

How can we best manifest the Spirit of '76? As bankers we feel that independence can be found partially at least in having a bank account. Saving a portion of our earnings creates a freedom from the worries of every day living obligations in no other way.

A Savings account can be opened with as little as a \$1 bill.
