One of the issues in the legislature is "should the secret primary be maintained?" At the present time the voter does not have to declare his party. He is given a ballot with the Democrat candidates on one side and the Republican on the other. He can take his choice.

Democrats who favor the secret primary claim the pressure against Democrats in small towns is too great for them to declare their affiliation. Republicans say it destroys party responsibility and in time will destroy the two party system.

Repeal of the two year lobby registration bill is being urged. Rep. Carrol of Mt. Clemens says real lobbyists are not being registered. That it tends to discourage people from talking to and advising their representatives. At present 246 lobbyists are registered.

This was a Sigler measure. Another Sigler measure seems to be given general satisfaction. Gov. Williams has good words for it. In many functions of the state government are combined.

Local self government came in for much praise at the mayors conference at Washington D. C. last week. Gen. Eisenhower said it was a fundamental of democracy.

The mayors conference also adopted a proposal for a survey of federal taxes and functions as they relate to cities along lines of the Hoover survey.

Price of milk could be cut two cents a quart according to the Mich. Agric. Conference if two dairy diseases, brucellosis and mastitis could be eliminated. These diseases deprive the people of 233 million lbs. of milk a year.

Gov. Williams is the 3rd highest paid governor in the nation. New York and California governors draw \$25,000 a year. he gets 22,500.

A drive is on to increase state aid to local health depts. from \$200,000 a year to 2,000,000. Michigan now ranks 30th in the nation in state appropriations.

READ WHY LANA TURNER LOST HER BABY

Dr. Herman N. Bundesen, pres. of the Chicago Board of Health, tells in The American Weekly magazine with this Sunday's (Apr 10) issue of The Detroit Sunday Times, how pure chance robbed this famous movie star of motherhood. Conservation Notes

W. Virginia will eliminate their combined hunting and fishing licenses on January 1, 1950.

Commercial fish production of 690,000 lbs. through the ice in Feb. is double the January catch.

Forest fire burned only 14,855 acres last year, the smallest loss since 1941.

The smelt started to run at Beulah on March 29. Perch runs are reported at the Saganing, Pine and Kawkawlin river on Mar 28.

Persons who start grass or brush fires should be very careful that conditions are right. Thousands of dollars of damage are done by these fires each year, and fire dept are kept busy. Sup. Henry Ross of Brighton twp. says these fires cost his twp. \$1083 last year for fire dept. runs.

Eighty percent of the deer hunters in Oregon have turned in their deer report cards. So far only 20 percent of the Mich. hunters have complied.

MAGIC LANTERNS

BECAUSE THE FAMILY UNIT IS THE BASIS OF OUR DEMOCRACY, WE HAVE ALWAYS RECOGNIZED THE IMPORTANCE OF A COMMUNITY OF INTEREST WITHIN THE HOME, THROUGH WHICH THE FAMILY GROUP DERIVES BENEFIT AND PLEASURE.

MANY OF US REMEMBER WHEN THE MAGIC LANTERN, WITH ITS REMARKABLE TRAVEL SLIDES, WAS A PRIZED POSSESSION IN THE HOME.

- LATER, HOME MOVIES CAME ALONG -

- AND TODAY, TELEVISION.

THUS, EACH GENERATION HAS ITS "MAGIC LANTERNS" - INTERESTS IN WHICH ALL MEMBERS OF THE FAMILY CAN SHARE EDUCATIONALLY, SOCIALLY AND CULTURALLY... ENRICHING OUR HOME LIFE, STRENGTHENING FAMILY BONDS - THE "MAGIC LANTERN" HAS KEPT PACE WITH THE CHANGING SCENES AND TIMES OF OUR DEMOCRACY.

FRED C. CAMPBELL DIES

Fred C. Campbell, 67, son of the late Charles and Mary Young Campbell of Pinckney died at St. Joseph Hospital, Ann Arbor April 2nd from injuries received when he was run over by a truck on McGregor Road, Portage March 21. He was born at Oak Grove April 11, 1881 but moved to Pinckney soon after with his parents. In 1909 he married Adelia Haab of Webster. The couple moved to Ann Arbor in 1910 where they resided until Mrs. Campbell died June 22, 1948. In January of 1949 he moved to Portage Lake where he has since lived. His only brother, Erwin, died several years ago.

The deceased was a member of Livingston Lodge No. 76 for nearly 40 years and prominent in the Cong'l. church in his early life. He later transferred his membership to Zion Lutheran Church, Ann Arbor.

The funeral was at the Muehlig Funeral Home, Ann Arbor Tues. afternoon. Rev. Howard Yeager of Zion Lutheran church officiating. Burial was in Bethlehem cemetery, Ann Arbor.

Mr. and Mrs. Wesley McAtee (Betty Lham) have gone to Arizona on account of his health.

Current Comment

Russia is now issuing a general claim that Russian scientists were responsible for the great inventions as much as 100 years before western scientists discovered them. It mentions the auto, the airplane, the radio and electricity and many other inventions which have revolutionized the world. Now the fact is that scientists in other countries undoubtedly worked on these inventions long before they were discovered in America. We believe a French scientist invented what was an early auto many years before the first one was assembled in America. This was before the day of the gasoline engine. The French car was very expensive, would only run short distances and broke down frequently. We believe it was powered by a steam engine. In fact it was never perfected and soon was forgotten. Undoubtedly scientists of other countries worked on the other great inventions but in no country but America were they perfected and improved until they became practical and in no other country were they produced by mass production which made it possible for the average person to own one. Russia may have experimented with all these things years ago but she never developed them to a point where they could be made practical for every day use.

Memphis, Tenn. dispatch states scientists there are now making paper from straw and grass, two waste products. Now this is no recent invention. Paper was made from straw 50 years ago. At that time farmers from here used to sell their straw to the paper mill on the Huron River at Hudson Corners on the Northwest Territorial road where it was made into paper. It was a coarse stiff brown colored paper used chiefly by butchers to wrap meat and carpenters to sheet houses. Eventually straw paper went off the market because it was claimed it could be made cheaper from spruce and poplar wood and the paper was of a better quality. At that time straw had some value. Now with the tractor replacing the horses on most farms, straw is valueless. Combine operated farms do not even cut it but plow it under as fertilizer.

There are said to be probabilities that the peace time draft may never be revived. The reason is that the voluntary enlistment has been so great that the ranks of the combat forces have been filled. There are three reasons for this. 1. The threat of the draft which caused many to enlist while they could shop around and get the most advantage out of it. 2. Lack of employment which made enlistment the only opportunity for many to gain a livelihood. 3. The advantages offered by the army and navy in increased pay, opportunity to learn a trade and financial benefit after discharge which will undoubtedly culminate in a good retirement pension. Of course, if we should get involved in another war the draft would again be in operation within 24 hours.

The City of Ann Arbor has been trying to get the bridge on U. S.-23 which goes over the New York Central Railroad tracks rebuilt or repaired. It has been allowed to fall into a state of disrepair and is dangerous. The state highway dept. refuses to do anything because they expect to re-route U. S.-23 to bypass Ann Arbor and at that time turn the old route back to Washtenaw county. But as the state highway still holds the bridge the county road commission likewise refuses any action on the project. It was over 20 years ago the City of Howell paved the Pinckney road to the city limits. Later the county blacktopped it to Pinckney but instead of joining onto the city road, it was a half a block away from it leaving a bare piece of road. This soon became a mudhole full of rut cars had to drive over. It remained in that shape for some 10 years when either the county or of Howell gave in and last fall was finally blacktopped.

U.N. Drafts Bill on Human Rights

Mrs. Franklin D. Roosevelt, Chairwoman of the U.N. Commission on Human Rights, talks with a group of students visiting United Nations Interim Headquarters during a meeting of the commission. An International Bill on Human Rights, which the commission recently approved, will be submitted to the next session of the Economic and Social Council in Geneva which in turn will refer it to the General Assembly of the United Nations for its final approval.

U.N. Facts and Facts ICELAND

Iceland, an island republic on the rim of the Arctic Circle in the North Atlantic, has the world's oldest parliament, the Althing, which was founded more than 1000 years ago by the first European settlers. Governed by Denmark during much of her history, Iceland severed the last ties to that Kingdom in 1944. Of great strategic importance during World War II, the volcanic island now is vital to aviation and shipping along the great circle routes. Her 152,000 people depend mainly on commercial fishing for a livelihood. Iceland's representation to the United Nations is Thor Thors. Iceland's national flag shows a red cross outlined in white, upon a dark blue background.

WORD OF THANKS

Words cannot express my sincere appreciation for the sympathy and many acts of kindness extended to me by relatives, neighbors and friends at the time of sorrow in the loss of a devoted husband, Bert M. Hicks.

Mrs. Merwin Campbell for the music, Rev. Ezra Beachy and Rev. D. D. Brady for their most comforting words for all these weeks.

Mrs. Bert M. Hicks
Mr. and Mrs. Burr W. Fitch

The township supervisors have had their raised from \$6 per day to \$8. The bill passed both houses and was signed by Gov. Williams last week. Now the supervisors have a strong lobby. They not only have a state wide organization which meets once a year but a large number of the members of the state senate and house are former supervisors. Taking all other things into consideration this wage boost is probably fair but in view of the power the body has control of we wonder why they did not get it long ago.

Mr. and Mrs. Irvin Kennedy were in Ann Arbor Saturday

Vincent Shields and family of Ann Arbor, Mrs. Mae Metz of Howell and Mrs. Steve O'Brien of Bunker Hill were Sunday dinner guests at the Lee Lavey home on the occasion of Dorothy's birthday.

Handicraft: Wm. Brady; Handicraft 2 Robert Meabon; Machinery: Don Carter; Canning, Lois Shirley.

SCHOOL MEETINGS HELD

Over 100 people from the Hudson Corners, Harris, Melvin and Hause school districts attended the school reorganization meeting held at the school Thurs. night. Supt. Reeder explained the reorganization plan and answered questions. Judging the tone of the meeting most of the people present favored it and there was no argument against it. All the questions asked were constructive and concerning details of the plan. One more meeting is to be held at which the Reeves, Sprout and Marble school districts will attend. Then the trial petitions will be circulated among the 15 districts. It is necessary that two thirds of the voters of the district sign these petitions or otherwise the school will not come under the reorganization plan and no election will be held in the district.

These four schools: the Harris Hudson, Melvin, and Hause have been closed for some time and send all their pupils to Pinckney.

THE SYRIA OUTBREAK

A bloodless revolution took place in Syria last week where the army ousted the government and took over control. An American educated Syrian was made premier. The cause is said to be the dissatisfaction in Syria with the peace treaty with Israel where by Israel get about everything they asked for. Still one of the first things started by the new government was a new peace conference with Israel. We see nothing to get excited about in this. Syria is smaller than the state of Minn. and has only 3,000,000 people and could never field a big enough army to cause much trouble. Undoubtedly there will be occasional raids against Israel by the Arabs but nothing of any consequence. The Arab nation is made up of many tribes who have never been able to agree and are jealous of each other. When they took the field against Israel this caused their defeat. The Arab overlords, made wealthy by their oil holdings are perfectly contented to enjoy what they have without going through the hardships of a long war.

STATE OF MICHIGAN

The Probate Court for the County of Livingston

At a session of said Court held at the Probate Office in the City of Howell in said County, on the 31st day of March, A. D. 1949

Present: Hon. Hiram R. Smith, Judge of Probate.

In the Matter of the Estate of William A. Silline, Sr., Deceased

I, appearing to the Court that the time for presentation of claims against said estate should be limited, and that a time and place be appointed to receive, examine and adjust all claims and demands against said deceased by and before said Court:

It is Ordered, That all of the creditors of said deceased are required to present their claims to said Court at said Probate Office and to serve a copy upon Stanley Berriman, Administrator of said estate at Howell, Mich., on or before the 10th day of June, A. D. 1949, at ten o'clock on that said day in the forenoon said time and place being hereby appointed for the examination and adjustment of all claims and demands against said deceased.

It is Further Ordered, That public notice thereof be given by publication of a copy of this order once each week for three successive weeks previous to said day of hearing in the Pinckney Dispatch a newspaper printed and circulated in said County.

A true copy Hiram R. Smith, Judge of Probate
Celestia Parshall, Register of Probate

**Deep down in his heart...
Every man wants the Best!**

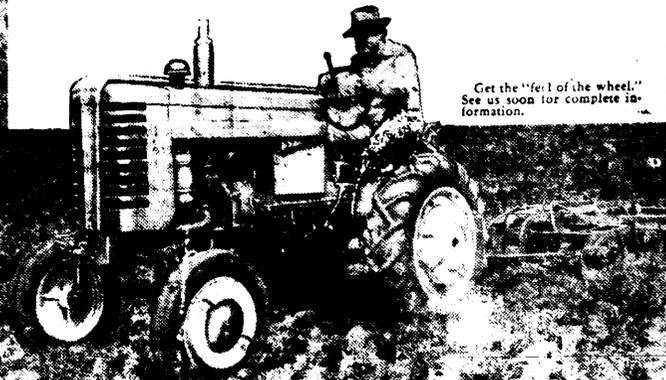

...and that's why so many farmers, who are unable to get immediate delivery, are willing to wait for their John Deere Model "M" Tractors.

The Model "M" is a tractor that represents all the "know-how" of 30 years of tractor-building experience. Only the best in modern design and construction could qualify to meet its engineering specifications. In addition, farmers from all sections of the country were asked what they wanted in this new postwar tractor.

The result is the John Deere "M" as you see it today—the one complete power farming unit—the one tractor with everything that's good. And that's why the "M," with its full line of hydraulically-controlled "Quik-Tatch" tools, is enjoying countrywide success on the smaller farms and as a "helper" on the larger farms.

True—there are cheaper tractors, but none that offers so many extra values in power... in performance... in operator's comfort and safety... in wide adaptability... in ease and economy of servicing... and in handy, practical working equipment.

So once again, in the Model "M," John Deere is proving that deep down in his heart every man wants the best of everything.

Get the "feel" of the wheel! See us soon for complete information.

ROAD TO SUCCESS

There is one mainline track on the road to success. It can be termed "Living within ones income."

To follow this track in business or in personal living is not always easy, for any deviation soon leaves the mainline far behind to turn back. The reserve fuel for the train becomes too near depleted.

Successful businesses build reserves or saving from current income. General Motors Corp could not employ a single man today had it not used its savings wisely to provide more facilities for production and thus employ more people.

Each dollar we save provides us with a growing fund which will work for us and work for others.
