Ford Tractors

IN THIS COMMUNITY!!!

There must be reasons
and here they are

POWER

Talk about power... ask for a demonstration on your own farm—see how the Ford Tractor handles a 12" or 14" two-bottom plow. This power is available through a four-speed forward transmission.

ECONOMY

Weight and traction are added to the Ford Tractor through the implements it carries. No need for excess built-in weight in the tractor itself. This saves you money on both light and heavy jobs!

LONG LIFE

Treat the Ford Tractor right and it will "stay with you" a long while. Part tolerances are very close... and the Ford Motor Company knows how to keep them that way!

EASY HANDLING

Ford Tractor Hydraulic Touch Control takes the hard work out of manipulating implements. Automatic type steering and duo-serve brakes make the Ford Tractor an easy tractor to handle.

CONVENIENT SERVICING

The Ford Tractor is a convenient tractor to service and overhaul. Parts are reasonable. What's more, our mechanics are specially trained to work on Ford Tractors.
