

Michigan Mirror

Gov. Williams will call no special session of the legislature this fall. This is the interpretation of the newspaper debate between the governor and State Treasurer and Earl Akin, and over the 1950 deficit.

Last May the governor announced he would call a special session for taxes. Recently he asked both the treasurer and auditor what action they would take on disbursements if the treasury should become empty? The auditor said he would issue warrants on the treasury only if the cash to pay them was on hand. Mr. Brink said he would delay payments on some bills, switch funds to pay others, even if they were earmarked, reduce the liquor inventory. This action was taken by Gov. Murphy when he was gov. and economize by cutting down number of employees and spending.

The deficit is not expected to exist until March 1950 when the state has to divert large amounts of revenue to schools, cities and townships. These will drain the treasury.

The question of the 1950 election will probably be "Who is to blame for the 1950 deficit?" The voters who took 78 percent of the sales tax collections? Of course not! It will be the legislature who declined to raise taxes on corp. or the governor who asked for more state aid for unemployed and old age recipients.

RUMMAGE SALE

St. Mary's Altar Society will hold a Rummage Sale and Bake Sale at the Pinckney Town Hall on Sept. 31 and Oct. 1, starting at 9:00 a. m. each day.

CONSERVATION NOTES

Commercial fisherman took 11,500,000 lbs of fish in Michigan Great Lakes the first 7 months of this year. This exceeded 1948 by 30,000,000 lbs. The trout catch declined while the whitefish catch was normal.

A black duck banded by this dept was shot at Hudson Bay recently. The majority of band ducks are shot the first year.

No pine cones for seed will be purchased this fall.

The use of prison inmates to improve state parks was a big success this year. It is planned to use as many as 2000 next year.

Oil companies and independent operators paid the state \$9,760 in bonus for oil and gas leases on 15,283 acres of state land last week. Highest bid was \$5 an acre, lowest 57c.

Only 2 forest fires last week are reported. They burned 3 acres.

Oil wells in Roscommon, Arenac, Crawford and Kalamazoo counties have been limited to 100 barrels a day, those in Oceola to 85.

The bobcat bounty of \$5 in the upper peninsula has been restored to be effective Oct. 1.

FOR DEMOCRATS

"PADDLE YOUR OWN CANOE..."

IN THE EARLY DAYS OF OUR DEMOCRACY, THE PIONEER OFTEN PUT ESSENTIAL TOOLS AND RATIONS IN A CANOE AND PROCEEDED UP RIVERS AND STREAMS, SEARCHING FOR A FARM SITE... PADDLING HIS OWN CANOE, HE FOUND THE LAND AND TIMBER THAT WOULD PROVIDE HIM AND HIS FAMILY WITH A HOME AND OPPORTUNITY.

TODAY, THIS EXPRESSION, IN COMMON USE SINCE PIONEER DAYS, STILL SYMBOLIZES INDIVIDUAL INDEPENDENCE AND INITIATIVE... IN MODERN USAGE, IT APPLIES TO THE OPPORTUNITY AND RESPONSIBILITY OF THE INDIVIDUAL, THROUGH HIS OWN FORESIGHT AND EFFORTS, TO PROVIDE FOR THE SECURITY AND WELL-BEING OF HIMSELF AND HIS FAMILY.

THE CLINE MURDER TRIAL
The Cline murder trial at How-
is expected to extend into next week. The prosecution has 45 witnesses and only about half have been called. The defense has not yet started to present its case. William English, the star prosecution witness, was on the stand 2 days last week and the defense failed to shake his story. He said he, the Andrus boys and Chevalier plotted the robbery. He went in first and offered a \$20 bill for a polo shirt so the old man would go to his cash box. How he and Don Andrus went in the store and committed the robbery. English has attempted suicide twice since his arrest.

Chevalier was on the stand Thursday and Friday. Called as a prosecutor witness he proved to be a hostile one. His confession as to his part in the crime was repudiated by him. He said Prosecutor Erwin and the state police got him out of bed at midnight and grilled him for 4 solid hours without giving him food and threatened to put his wife in jail as accessory to the murder if he did not sign a confession. He denied any knowledge of the crime.

Mrs. Chevalier was on the stand Mon. and supported her husband's story the pros. threatened to put her in jail.

Louis Columba chief defense attorney claims he expects to prove a complete alibi for the Andrus brothers.

HANGS SELF
The body of Ernest Harper, 21, of Stockbridge who had been missing 2 weeks, was found hanging from a tree in a thicket near his home Saturday. A month ago he robbed the Grand Trunk depot there and got 83c. He was put on probation. Brooding over this is thought to have caused his act.

The dead boy worked on the Umstead onion farm at Pinckney this summer.

ROBIN HOOD
The bow and arrow hunters are busy practicing here for the deer season. In a contest here Sunday with Norman Miller, C. H. McGorie and Ridge Shirey, Merlin Lavey put three of the arrows in the bulls-eye at a distance of 80 ft. He use a bow with a 85 lb. pull.

SCHOOL NEWS

OPENING GAME HERE FRIDAY, SEPTEMBER 23

Through a switch in dates Pinckney will open her football season here Fri. Sept. 23. It was set for Ann Arbor but no field was available so it will be played here.

The Ann Arbor high school reserve team always has a big, heavy team and will be prepared to give Pinckney a tough argument. Two years ago they beat Pinckney 13 to 12. The year before Pinckney won by the same score.

The game will start at 8:00 p.m. Game tickets will be on sale. The game should draw a big crowd.

BEAT GRASS LAKE 31 TO 0

Pinckney opened her season at Grass Lake Fri. afternoon and won in a romp 31 to 0. The Lakers failed to furnish much opposition and the Pinckney second team went in the second half.

Pinckney confined herself to straight football only using one or two passes. Jerry Heath made three touchdowns for Pinckney. Bill VanBlaircum one and John Packer made his after receiving a lateral pass.

The Grass Lake offense was feeble and the closest they got to the Pinckney goal line was the 40 yard line.

Heath made 2 touchdowns by running with the ball. On the 3rd he received a pass from Jettreys and went 15 yards to score. Grass Lake only made 4 first downs. They were guilty of numerous fumbles most of which were recovered by Pinckney.

The second team went in the 3rd quarter and finished the game. They held Grass Lake scoreless and scored one touchdown after a lateral pass from Hewlett to John Packer who went 15 yards to score after catching a pass.

The first team lineup was Mohlman and Mattison, ends; Cogswell and Hewlett, tackles; Schneider and J. Clark, guards; Enquist, center; Jettreys, quarter; Hedlin, Ware and VanBlaircum, halves.

The second team was Furman and VanSlambrook, ends; Hamel and Earle, tackles; Lavey and Marshall, guards; Hewlett, quarter; Coyle, Packer and Garbath, halves; White, center.

CHILD SAFETY APPEAL DUE TO ACCIDENT RATE

The current traffic safety campaign to protect children is the result of child traffic accident records according to Sgt. John Pennala of the Brighton post of the Mich. State Police.

The slogan, "Watch Out For Kids," that has been selected for this month in connection with the reopening of school just about tells the whole story," Sgt. Pennala said.

Last year nearly 6,500 children were killed or injured in traffic accidents in Mich. Of these 4,000 were child pedestrians or bicyclists. This tragic toll must be reduced and only way is for drivers to assume the responsibility of being extra careful whenever they are in an area where there may be children.

"Children are impulsive and they also forget. They'll dash out into the street or the highway and do other dangerous things without thinking. Certainly they're violating the rules of safety, but that isn't much consolation when there's an accident.

"With the arrival of Sept. more than a million Mich. children are crossing the streets and highways each way to and from school. It's up to the drivers to protect them from harm by being alert and cautious.

"In other words watch out for kids."

Schools, police agencies and various organizations have joined in carrying on the child safety program.

SPECIAL COMMUNICATION

Special communication of Livingston Lodge No. 78 F. & A. M. on Saturday, Sept. 24 at 8 p. m. to confer Third Degree. All the members of the Fellowship team asked to be present. Luncheon served after degree work.

Current Comment

For a small rural county with no large cities, Livingston county has had more than her share of murder trials. Nearly 50 years ago the Fitzsimmons murder trial took place about 10 years later the Lins murder trial and more recently the McNutt murder case followed by the Fiechett murder trial. This was probably the most sensational in this Frechett, crazed killer killed a man named Brown and took the body all the way to Calif. in the trunk of his car. Following this was the Bommarito murder trial, the Brewer murder trial and the White murder case. In addition there were several unsolved murders, namely the Monroe murder and the Davis triple murder in Tyrone. In all cases except the McNutt case convictions resulted.

257 years ago 21 people were found guilty of witchcraft in Mass. and hanged. This was in Salem in 1692. Witchcraft was afterwards pronounced a myth yet no actions were ever taken to clear these people until last week when Rep. Daniel Rudstein, D., introduced a resolution in the Mass. legislature to reverse the convictions of these people. Of course it is only a gesture and would benefit these people or their memories little. The only thing comparable to it was the action of King Chas. II of England. When he was restored to his throne he had the bodies of Oliver Cromwell and the other commissioners who had sentenced his father King Charles I. to be beheaded dug up and hanged in chains. They had been dead for many years before he regained his throne.

Chiefs of police seem to be very popular in Mich. and upheavals of city governments which they caused are numerous. Plymouth recently had a recall vote because they fired the chief of police. The new council as the first order of business rehired him. Lake Orion is also to have a recall election because the chief of police there got fired. Brighton elections have been hot the past 2 years all because Burton Miller, police chief was forced out and the issue of the How-
ell election last spring was over the ousting of a police officer who was a war veteran. The people evidently want police kept out of politics.

The negroes fight for equal rights put Okla. University on the spot last week. Julius Hill, a negro and war veteran, applied for admission to the college dormitory last week. On his questionair he specified his race as American, and was given a reservation. Okla. has a segregation rule and when he was found to be a negro the reservation was cancelled. He was, however, told he would be admitted to the new dormitory being built. Okla. only voted last year to admit negroes to their college and this only after a long court fight.

The sale of colored has been postponed a year until after the 1950 election by the filing of petitions at Lansing with enough names to once more put it to vote of the people. In 1948 the people approved the sale of colored oleo by a big margin. The dairy interests spearheaded by the Mich. Milk Prod. circulated counter petitions following this to stop the law from going into effect. Their argument among the farmers was that this sale would decrease the price of milk. This is bunk. Butter making among the farmers at any rate is a lost art. Most of them sell their milk in bulk, and if a main checkup was taken it would be found that most of them use oleo. Many who signed the petition claim it was misrepresented to them. We predict in 1950 the voters will again approve the sale of colored oleo but even then those opposed to it may stave it off again by circulating another set of petitions opposed to it.

We read with amusement the opinion given in Detroit papers last week following elections that Albert Cobo had the field for mayor because he promised a sound business administration economy and to cut taxes. Ever since Nese a was put, candidates have been getting elected on this platform and up to date not a single one of them has ever made good on it. The record of Lansing governmental cost which have been rising steadily the past 50 years or more, is every town and city, state and nation will have the same record.

WHY THE MISSOURI PACIFIC RAILROAD STRIKE?

Over twenty years ago, the Congress of the United States passed the Railway Labor Act. It was hailed by union leaders as a model for the settlement of labor disputes.

efficiently or economically if the leaders of the unions ignore agreements or laws.

Provisions of the Law which are Disregarded

There are five ways under the Railway Labor Act to settle disputes over the meaning of contracts:

- 1—Decision by National Railroad Adjustment Board.
- 2—Decision by System Adjustment Board for the specific railroad.
- 3—Decision by arbitration.
- 4—Decision by neutral referees.
- 5—Decision by courts.

The Missouri Pacific Railroad has been and is entirely willing to have these disputes settled in accordance with the requirements of the Railway Labor Act. Regardless of this fact, the union leaders have shut down that railroad.

Innocent Bystanders Suffer Losses and Hardships

There are about 5,000 engineers, firemen, conductors and trainmen on the Missouri Pacific. They are known as "operating" employees, and are the most highly paid of all employees on the nation's railroads, but their strike action has resulted in the loss of work to 22,500 other employees of the Missouri Pacific. In addition, they have imposed great inconvenience and hardship upon the public and the communities served by that railroad.

The Railway Labor Act was designed to protect the public against just such interruptions of commerce.

If these men will not comply with the provisions of the law for the settlement of such disputes, then all thinking Americans must face the question, "What is the next step?"

President Truman's Board Condemns Strike

There is an established legal method for handling disputes involving existing written contracts—just as there is such a method of settling any contract dispute which you may have in your daily life.

The President of the United States appointed a Fact Finding Board to investigate and adjust the Missouri Pacific dispute. This Board reported, in part, as follows:

"... It is with a deep sense of regret that we are obliged to report the failure of our mission. It seems inconceivable to us that a coercive strike should occur on one of the nation's major transportation systems, with all of the losses and hardships that would follow, in view of the fact that the Railway Labor Act provides an orderly, efficient and complete remedy for the fair and just settlement of the matters in dispute. Grievances of the character here under discussion are so numerous and of such frequent occurrence on all railroads that the general adoption of the policy pursued by the organizations in this case would seem result in the complete nullification of the Railway Labor Act...."

Obviously the railroads cannot be run

THE LEADERS of the Brotherhood of Locomotive Engineers, Brotherhood of Locomotive Firemen and Enginemen, Order of Railway Conductors, and the Brotherhood of Railroad Trainmen on the Missouri Pacific Railroad have refused to avail themselves of the peaceful means provided by this Act for settling their disputes. They insist that they be the sole arbiters of their own disputes over the meaning of contracts.

There is no Need for Strikes

With all of the available methods for the interpretation of contracts, there is no need for a strike or even a threat of a strike, but the leaders of these railroad unions have ignored the ordinary procedures established by law and insist upon imposing their own interpretations of their contracts by means of a strike.

The wheels have stopped rolling on the Missouri Pacific. They may stop rolling on other railroads at any time. Recently the Washburn Railroad was forced to discontinue operation for several days under similar circumstances.

What are These Strikes About?

These strikes and strike threats are not about wage rates or hours. They result from disputes over the meaning of existing contracts. They cover claims for a full day's work in less than a day's work, or for a full day's work in less than a day's work, or for a full day's work in less than a day's work.

OBSERVE 50th WEDDING ANNIVERSARY

Mr. and Mrs. Wm. Brown of Chelsea will celebrate their golden wedding Tues. Sept. 27 with a family dinner at noon and open house at the home of their daughter Mrs. Charles... of 315 Condon St. Chelsea.

Mrs. Brown is the daughter of Julia Fewlass and was born in Isco Township, Livingston County.

Mr. Brown was born and spent his early years on the family

farm at the east end of North Lk. in Dexter township. Mr. and Mrs. Brown were married by Rev. Joseph Reyerson in the log house where Mrs. Brown was born and after a short wedding they settled in Howell where Mr. Brown was employed at the time.

Three years later they returned to the Brown homestead at North Lake and Mr. Brown resumed farming. Three of their six children were born there. In 1910 Mr. and Mrs. Brown moved to a larger farm at the corner of Terr

and Dexter Town Hall Rds. Here the rest of the family were born. The family moved from the Terr farm to the Younglove farm in the spring of 1922 which was their home for the next twenty years. Upon retiring they purchased the residence at Chelsea where they now live.

Mr. and Mrs. Brown have twelve grandchildren and three great grandchildren and hope to greet all their friends and neighbors from 2-5 and 7-9 p. m. at the open house.
