Michigan Mirror

Michigan's state government received \$506.4 million in various operating funds in 1948-49 to finance the various programs which the state undertakes, according to a study just completed by the Bureau of Government Research, Detroit.

Such receipts were 67 per cent greater than those the state received in 1945-46.

Seventy two per cent of the state's revenue this past fiscal year came from taxes — such as the sales tax, cigarette tax, corporation tax, gasoline tax, weight tax, intangibles tax and many others.

Revenue from state enterprises, regulatory services, patents and convicts and miscellaneous sources accounted for 14 per cent of the total.

The remaining 14 per cent came from Washington in the form of "grants-in-aid" to help finance those programs which Congress has decided at one time or another that the state or local units should undertake.

With the exception of the charges that the state makes for certain services, all its revenue comes from taxes — direct and indirect — levied upon all of us as individuals, consumers or businessmen. In most instances the tax money goes to Lansing.

But \$73.1 million comes to Lansing via Washington. That money, nevertheless, is from the pockets of Michigan taxpayers.

Michigan state government paid to its local units of government 61.2 per cent of its total revenues in 1948-49. Most of the "aid" came direct from Lansing — having been raised by state-wide taxes. But a portion of such aid was funneled through Lansing from Washington to the local units of government. During the past four years well over one-half of the state's revenues are distributed back to local units.

Local units of government — cities, villages, townships, school districts, counties and other special districts — and many citizens, sometimes forget that this money which is "given" them by the state can come from only one source — TAXES.

TAXES regardless of what government collects them or which one in the final analysis receives them to expend are paid by all of us who receive an income.

Every dollar spent by government is a dollar the citizens does not have to spend for himself at his own choice.

MICHIGAN PRESS FORUM

This is the Michigan Press Forum conducted at the recent meeting at Lansing. Last week the first installment was published:

Schuyler Marshall as moderator or asked Highway Commissioner Ziegler if Michigan was losing aid due to the states low gasoline tax. He replied, as yet Michigan has lost no aid and will not until June 30, 1951. The state has to match every dollar of federal money it receives for highway aid. Since Sept. 1948, 8 million in federal funds has been held up because the state did not match it. 12 more million was held up last Sept. for the same reason.

Gov. Williams was asked about the plan of Dr. Henry Curtis for care of the aged and said he had not had time to go into it.

In regard to his recommendation for increased appropriations for U. of M., Mich. State and Wayne Universities the governor said the shortage of doctors is serious. Many counties have to depend entirely on osteopathic physicians.

In regard to the sales tax of 3 per cent on private sales of cars the governor said he thought the references was to a use tax. This he was opposed to.

When asked if it would be possible to run the state on 10 per cent less revenue the governor said if the people wished to harbor prisoners instead of sending them to prison it might be done.

Sec. of State Alger said the new system of sending out fill-in applications for license plates expedited their issuance. When asked if he still intended to run for governor, Mr. Alger said he had not decided.

Highway Commissioner Ziegler said he favored a Mackinac bridge but at the expense of highway construction in Michigan. As to railroad grade crossing Mr. Ziegler said he favored them in cases where traffic was heavy.

Terry Joe Rowell has a new puppy to take the place of the one that went away.

Masonic Lodge News

Livingston Lodge No. 76 F. & A. M. will dedicate her newly remodeled kitchen and dining room Saturday night with a question and vension banquet. The fire last December completely destroyed the kitchen and equipment and it has been entirely remodeled and new equipment installed. The two store rooms at the west end of the kitchen have been taken out making the kitchen about six feet wider. The ceiling over the kitchen has been dropped to a height of 8 ft. This has made the banquet hall about four feet longer. The kitchen has also been replastered and redecorated. New cupboards have been built on each side a ten burner gas stove installed and a large hot water heater. Two sinks have been installed, one in the middle of the kitchen and one on the west side. Inlaid linoleum has been laid on the floor and on the top of the cupboards. There will be two large serving windows on each side of the door in the kitchen leading into the banquet hall.

The hallways have been redecorated and also the lodge itself. The new furnace recently installed is now in working order. Livingston Lodge will hold their 12th Annual Guest Night and Vension Banquet at their hall on the night of

SATURDAY, FEB. 11 at 7:30 p.m. The kitchen and dining room have both been remodeled and redecorated since the fire. On this night each Mason may bring a Non-Masonic Guest. The program is as follows.

RETIREES AS OPERATOR

Mrs. Lucy Reason, retired as operator at the Pinckney Mich. Bell Telephone office last week Tuesday after working 7 1/2 years there. She has reached the retirement age. She works the night shift and when she came to work Tues. night the other four operators gave her a surprise party and presented her with a gift.

Mrs. Reason, the wife of M. J. Reason, stock buyer, is the mother of four children, all of whom are now grown up. She is a past marion of Pinckney O. E. S. Chapter 145, belongs to the Church Aid Society and has worked with civic groups. Her hobbies are flowers and needlework. A daughter-in-law, Mrs. Anna Reason is also an operator at the telephone office.

An operator in a small town has unique experiences. Often she gets a call for the stone house on the hill or the drug store on the corner. At Pinckney many calls are received for "Hell", the summer resort at Highland Lake some hundred years ago was known by that name and it still persists.

Mrs. Reason has been highly efficient and competent operator and her absence from the local telephone office will be missed.

PINCKNEY WINS FROM MANCHESTER

Pinckney defeated Manchester in an overtime game here Friday night 34 to 32. Pinckney was ahead all the way until the final minutes of the last quarter, when Manchester rallied and tied it up. They led 9 to 3 at the quarter and 14 to 8 at the half. At the end of the 3rd quarter they were still in the lead 24 to 17. With half a minute to go Manchester was only two points behind. Instead of freezing the ball Pinckney tried for more points, lost the ball and Lentz tied the score 30 all.

Pinckney was still unsettled in the overtime period and Dunny put Manchester in the lead with a field goal. Jack Jeffreys sank two free throws to tie it up again and with only seconds to go Joe Jeffreys got a field goal to win the game. Milton Mattison got 9 points for Pinckney, Albert Maffa and Joe Jeffreys 7 each, J. Maffa 6, Coyie 3 and Jack Jeffreys 2. Lentz led Manchester with 14.

Current Comments

This is the seventh week of the coal strike and as yet we have heard of none freezing to death. Ten years ago something of that nature might have happened but not in this day. Brew Pearson in a recent column analyzes the situation and says the coal industry is doing. He lists the ills: 1. Over capacity, 2. High cost, 3. Competition from natural gas and oil. He cites the railroads who used 135,000,000 tons during war years when oil was scarce. The past year they used but 70,000,000 tons. Although new residents and business places have been constructed at an amazing rate coal consumption by them has decreased as mostly oil and gas heat has been installed. New oil from the middle east and South America and the British embargo on American oil has increased oil surplus here. The truth is that a 5 day work week in the coal mine would pile up such a surplus that a price war between mine owners would ensue which the miners want to avoid by all means.

Last week it was announced that Percy Jones Hospital, Battle Creek was one of the 17 army hospitals to be closed. The reason was that although it can handle 1200 patients it has only 600 now. It will be 3 months before it is closed down and the patients sent to other hospitals. The army has plenty of hospitals in Mich. There is one at Camp Custer and a new one is being built near Ann Arbor. On the other hand, the state of Michigan has insufficient hospitals and an effort is being made to get federal government to turn over Percy Jones to them. The government says closing it will save them \$25,000,000 a year. Percy Jones specialized in amputees.

An effort is being made to abolish the electoral college which elects our president. We have always considered it a relic of revolutionary war days and a less appendix of government. Everyone knows the day after a national election who was elected president but the electoral college does not meet until some months later to go through the gesture of electing a president. The senate and house passed it by two thirds majority but now has to be ratified by three fourths of the state legislatures. Senator Vandenberg voted for abolition but Senator Ferguson voted against it. The latter with Senators Bricker and Taft of Ohio were among the die hards and said if it is abolished the Republicans will never win another election. Under the present setup a candidate who carries a state gets all the electoral vote. Under the new law he would only get the percentage that he carries the state by the balance going to the other candidate. The Republican majorities are small. In the south on the other hand Democrat majorities are as high as 90 percent.

Congress backed up the president last week on his decision to make hydrogen bombs nearly 100 percent. The cost is estimated at about two billion dollars a year. The consensus of opinion is that there is little choice. It is strictly a matter of self defense. If we do not have it we will be like sitting ducks for some nation who does. The hydrogen bomb is 10 times as deadly as the atomic bomb which killed 44,000 Japanese women and children. This was a massacre but it won the war for us and saved the lives of thousands of American soldiers.

Television had to withstand an assault from a school principal last week. This man made a survey in the cases of a number of pupils who failed in his classes and claims that in a big majority of the cases the parents of these pupils had television in their home. The action of the Boston City Council is barring the Japanese diet members from their country. This mission was sent here by Gen. MacArthur to study American Democratic institutions. The reason given by the Boston Council is that the Japs were here to spy mission is silly. A meeting is always held and no more government secrets come up before the body than do before the new common council.

Uncle Sam Says

Here's a good 1950 resolution: "I will start today taking advantage of the safe, sure way of saving by purchasing U. S. Savings Bonds. That is one habit I will adhere to, come what may." Start the new year of the 20th Century right by enrolling for the Pay-off Savings Plan where you work or, if self-employed, the Bond-A-Month Plan where you bank. In ten short years, 1960 to be exact, you will reap the harvest of \$4 for every \$3 invested today. Your future will be secure with U. S. Savings Bonds. U. S. Treasury Department

Uncle Sam Says

Placed wisely, the money you have this year of 1950 can be the seed that grows into dreams come true, a harvest of farm or ranch expansion, education for the children or the long vacation trip you've wanted. Invest every possible penny in U. S. Savings Bonds, then every \$3 you plant today will yield \$4 in 1960. Bonds are just as important a part of a well-managed farm as is land, livestock or machinery. With U. S. Savings Bonds, your financial reserves are in the safest possible form and readily available. Your bank offers a simple Bond-A-Month Plan for your convenience. U. S. Treasury Department

STATE OF MICHIGAN IN THE CIRCUIT COURT FOR THE COUNTY OF LIVINGSTON IN CHANCERY

MILDRED SCOTT, Plaintiff
vs.
HAROLD A. SCOTT, Defendant

ORDER OF PUBLICATION

Suit pending in the Circuit Court for the County of Livingston on the 17th day of January, 1950, at the City of Howell, in said County.

It satisfactorily appearing to the Court by affidavit on file that the defendant, Harold A. Scott, is not a resident of the State of Michigan, and that his present place of residence is unknown.

"My Ironrite helps me keep a young look"

says Mrs. J. J. Morse
30440 Franklin Road
Franklin Village, Michigan

1. "Many people can hardly believe it when I tell them I have a 20-year-old son and two teen-age daughters. It's because I have a youthful appearance. And, I feel that a lot of the credit for my young look goes to my Ironrite Automatic Ironer.

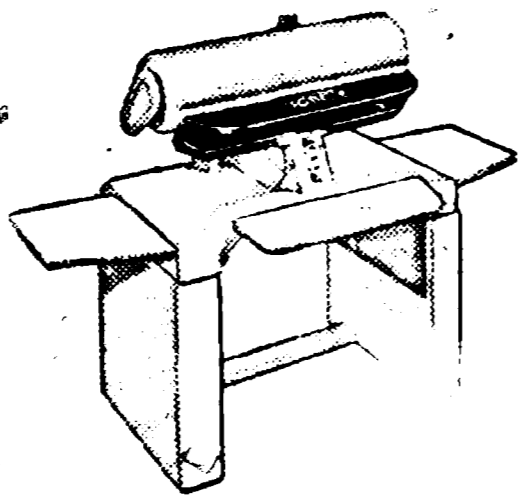

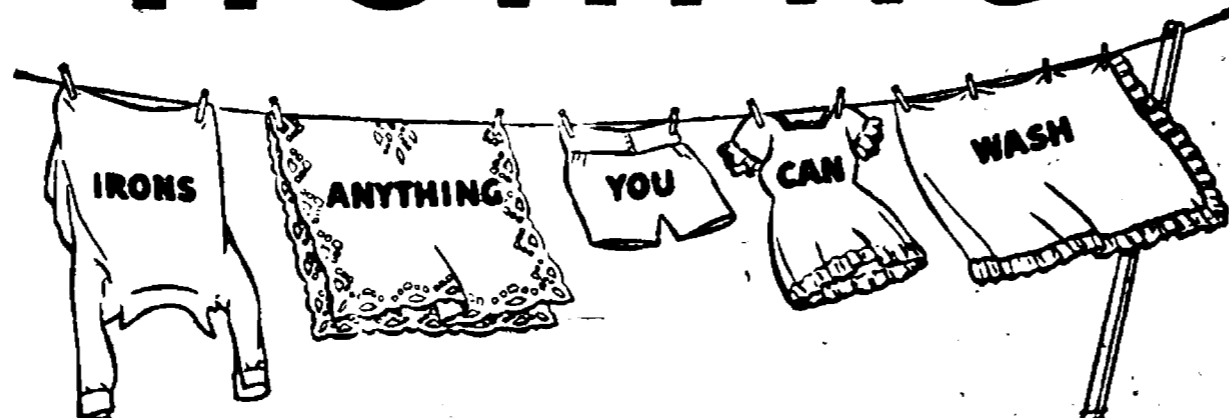

"I've had this wonderful machine for several years, and it's the greatest health- labor- and time-saver I own. In fact, my Ironrite would be the last appliance in my home that I would give up.

"My Ironrite eliminated long, painful hours of standing at an ironing board. It's simply a joy to sit down, just guide the clothes across the forming board and relax while I iron.

"The ironing is done in no time, and I'm fresh and rested when I finish.

Ironrite

More for your money in an Ironrite

Model 80. New, improved open-model Ironrite Automatic Ironer for the home laundry. Attractively finished in easy-to-clean white enamel. Also Model 85 (shown in main picture) closed-top Ironrite for laundry, kitchen or utility room.

Model 88. Smart, distinctive Ironrite Cabinet model with gorgeous warp-proof, hardwood top in choice of brown mahogany finish or honey blond finish. Harmonizes with finest furniture; at home in any room in the house.

2. "My Ironrite does everything quickly and beautifully." I save hours each week on shirts alone. Why, I can do one in 5 minutes where it took 15 by hand!

3. "With its two completely usable open ends, Ironrite will iron everything I can wash, from plain towels and handkerchiefs to frilly wash dresses, curtains and finest linens.

4. "My fine tablecloths and other large pieces can be ironed without folding or creasing. And the D-all ironing points make it easy to iron hard-to-reach ruffles and puffs.

5. "I've told lots of friends how Ironrite has saved me time and energy. It's helped me keep looking younger. My friends are looking at Ironrite today."

U.N. Drafts Traffic Convention

Teaching world road traffic problems, a U.N. conference has agreed on an international road traffic convention which eventually would help motorists in all countries. The convention suggests the adoption of a simplified international driving permit which would be honored everywhere. The above exhibit of driving permits issued by 40 countries shows the necessity of reaching some form of simplification and greater uniformity in driving permit requirements.

Educators Study Methods of Teaching About U.N.

Educators from 23 countries are teaching each other techniques in presenting to students the work of the United Nations as part of a seminar at Adelphi College, Garden City, New York. The international seminar is sponsored by U.N. and United Nations Educational, Scientific and Cultural Organization (Unesco). Seminar participants pictured working in the library are (left to right) Winifred Chalmers, Los Angeles, California; Margaret Simpson, London; Madeleine Mauriac, Paris; Faruk Caser, Kayseri, Turkey; and Osman Sidky, Kabul, Afghanistan.

Uncle Sam Says

Lots of you people today are tip-toeing around the edges of the proverbial soup bowl. Saving money has never been a cinch—but it's so much easier when you buy U. S. Savings Bonds the regular, automatic way. When you know that day in, day out, your savings are growing, you get a feeling of comfort and security, like on a "Magic Carpet", that can be had in no other way. Besides, you get back \$4 for every \$3 in ten short years. Enroll for the Payroll Savings Plan where you work or, if self-employed, the Bond-a-Month Plan where you bank.

Teamwork of All Plant Nutrients Needed to Make High Crop Yields

PLANT nutrients have to "play ball" together to make high crop yields possible, the Middle West Soil Improvement Committee points out. Each element has its work to do. Each reinforces the other. None can do the whole crop-feeding job by itself.

"All nutrients must be in balanced supply to give you top yields," the Committee says. "You can't increase crop production by adding only one plant food element when others are short. If your soil has plenty of phosphate and potash, but is short of nitrogen, you won't get good yields unless you supply that nitrogen. And the same is true of phosphate and potash, respectively."

"University of Illinois agronomists demonstrated that it takes the combined teamwork of lime, nitrogen, phosphate and potash to get maximum corn yields. They made their tests on nutrient-deficient soils at the Brownstown field.

"A plot that had no fertilizer yielded only 14.7 bushels of corn per acre. When nitrogen alone was added, the yield was 14.3 bushels. Adding phosphate brought the yield up to 24.8 bushels because the soil got some nitrogen from clovers in the rotation. When potash alone was added, the corn yield was 11.9 bushels per acre. Liming brought the yield up to 31 bushels. When lime, nitrogen, phosphate and potash all were added in balanced supply, the yield rose to 46 bushels per acre."

The modern 49'er doesn't have to travel overland to strike it rich. He can pile it up right at home—with U. S. Savings Bonds. You don't have to risk your life as did our forefathers. You can sign up for Savings Bonds during the big "Opportunity Drive", May 16-June 30. In ten short years every \$3 you invest now will grow into \$4. You will thereby be assuring a sound America and your own future security. THIS IS YOUR OPPORTUNITY—act now and the future will be yours—your cherished dreams will come true.

"Left-Handed Compliment"

See where a bank in Denver is putting in left-handed checkbooks. They figure their southpaw depositors deserve just as much consideration as the right handers.

Time was when it was believed that left-handed people had no right to exist at all. If a youngster showed signs of using his left hand, his parents were supposed to break him of the habit as fast as they could.

But today most doctors believe that changing a child's handedness causes more harm than good.

Stammering, left-handedness, orders often get their own way with children.

From where I sit, I believe a left-handed child should be allowed to use his left hand in business. It's not a matter of just habit, it's a matter of personality. I've seen many left-handed people who are successful in business because they use their own way of doing things.
