## Michigan Mirror

A hard hitting political campaign for 1950 for Michigan is in prospect. Gov. Williams surprised but few when he accused the Republican legislators of being controlled by Big Business at the C. I. O. Convention where he spoke last week.

He charged special interests have been served and the people neglected by Republican domination at Lansing. He classed the legislature as a do-nothing one. He criticized their failure to enact a fair employment law, to correct inequalities in the unemployment compensation law, failure to act on public housing and their granting public utilities higher rates. Also their failure to balance the budget by not enacting a corp. profits tax.

The Republicans claim the special session was about 90 per cent window dressing for the governors campaign as the Republican party could be counted on to oppose any business tax. They did just that.

August Scholle, president of the C. I. O. charged the newspapers of Michigan are being controlled by big advertisers. All this sets the stage for a red hot name calling campaign.

The Republicans will be at a slight disadvantage as they will have no nominee for governor until the Sept. primary. The legislature will speak for them and they are not all in agreement.

The campaign will be fought on the Rich vs Poor issue. State G. O. P. Chairman Cleary calls the governors program one of intellectual dishonesty. The governor says he has blocked the Republican effort to impose new taxes on wage earners, farmers and small business men.

## Social Happenings

White snapdragons and branch candlelight flanked the altar in St. Peter's Evangelical Lutheran church, S. Clair, at 4:30 o'clock Saturday afternoon when Miss Audrey Ann Scott became the bride of Beryl Amburgey.

Rev. G. W. Lenz, pastor of the church, performed the ceremony before some 200 guests.

The bride, who is the daughter of Mr. and Mrs. Harvey Scott, S. Clair, was given in marriage by her father. She wore a white

gown of satin and chantilly lace. Long pointed sleeves distinguished her bodice and the skirt was styled with inserts of lace. Her jewelry was a single strand of pearls. She wore a fingertip veil held by a white satin headpiece. She carried a arm bouquet of white gladioli tied with streamers of satin and stephanotis.

Preceding the bride to the altar were her sisters, Miss Eileen Scott as maid of honor, and Miss Robert as bridesmaid. They wore identical crowns of light blue marigolds fashioned with a fitted bodice, cap sleeves and full skirt. Their headpieces were of pink carnations and they carried cascade bouquets of more carnations.

The bridegroom who is the son of Mr. and Mrs. Virgil Amburgey, Pinckney, Mich., was attended by his brother, Hollis Amburgey, also of Pinckney. Guests were seated by Newell Priestley, Harbor, brother-in-law of the bridegroom, and Robert Lassie and Harvey Parsons, St. Clair.

Mrs. Scott chose for her daughter's wedding a light blue dress, gray and white accessories and a corsage of pink and white carnations. The bridegroom's mother, Mrs. Amburgey, wore a brown and white figured dress, and brown and white accessories. Her flowers were also pink and white carnations.

A reception was held in the church parlors after the ceremony. Decorating the bride's table was a wedding cake and flowers.

Mr. and Mrs. Amburgey plan to live in St. Clair.

## DEXTER SCHOOL BOARD

572 votes were cast in the vote for the new Dexter Agricultural school board. There are 1400 voters in the district.

The winners were as follows: One year term - Earl Deletsky 475.

Three year term: Carl Bates 467, Neil Nixon 458.

Two year term: Munnis Kenny 405, Jack Bradbury 330, Gladys Davis 175, Wm. Urquhart 114.

The two year term was the only one where there was a contest. Mrs. Gladys Davis, wife of Dr. James Davis U. of M. professor, or made extensive campaign in newspapers and over the radio. Unfinished Behind. Munnis Kenny, Dexter bank cashier and Jack Bradbury, Lima farmer.

The Detroit Edison tree trimming gang cut down the two big poplar trees on the square last week and George Webb is working them up into wood. This about rids the square of poplars. Pinckney in the old days was partial to these trees and most of them were set out 30 or 40 years ago, being South Carolina poplars purchased of James White then in the nursery business. They were a fast growing tree but as septic tanks etc. were installed became a nuisance and most of them have been removed.

## OUR DEMOCRACY

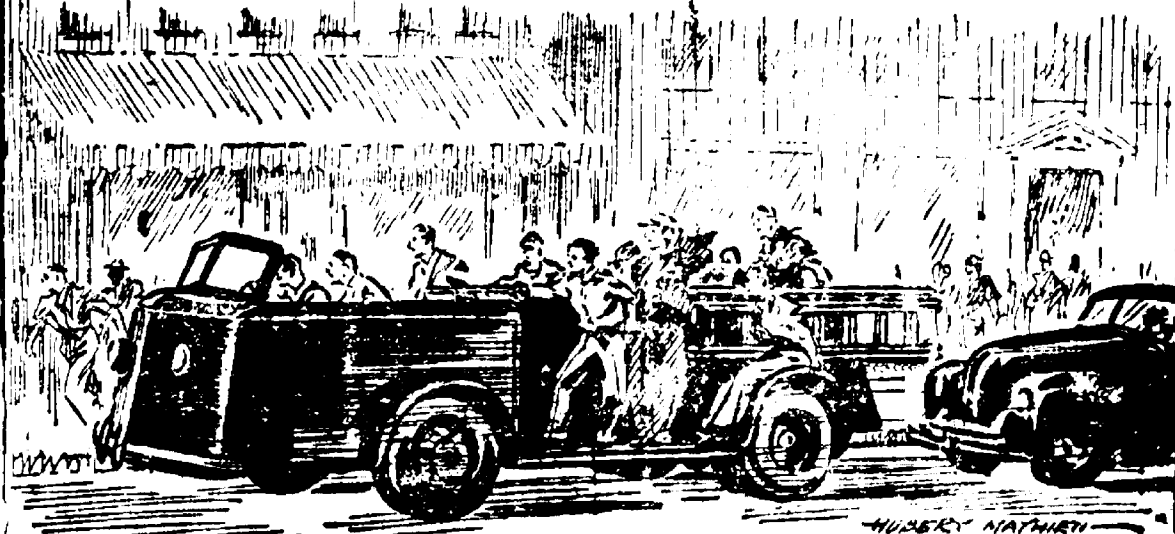

By Mat

### -ALL TOGETHER, NOW-

THE VOLUNTEER FIRE DEPARTMENT DEVELOPED IN THE EARLY DAYS OF OUR COUNTRY BECAUSE, IN CASE OF FIRE, ONE MAN ALONE STOOD SMALL CHANCE OF SAVING HIS PROPERTY - BUT A GROUP OF TOWNSMEN WORKING TOGETHER, MADE AN EFFICIENT FIRE-FIGHTING TEAM...

TODAY, VOLUNTEER FIRE COMPANIES STILL SERVE THOUSANDS OF COMMUNITIES IN AMERICA.

OUR HISTORY IS RICH IN EXAMPLES OF ACHIEVEMENT THROUGH VOLUNTARY COOPERATIVE EFFORT, OF THE AMERICAN "DO IT FOR YOURSELF" SPIRIT. ONE OF THE GREATEST OF THESE IS THE PROTECTION WE HAVE BUILT UP FOR OUR FAMILIES THROUGH LIFE INSURANCE - PROTECTION MADE POSSIBLE ONLY BECAUSE MILLIONS OF US ARE SHARING OUR RISKS AND POOLING OUR FUNDS.

## ANNUAL J-HOP

The annual J-Hop was held at the Pinckney school Sat. night at which latest style formal, orchids and gay colors predominated.

The hall was decorated in a park effect and had a drop ceiling with streamers & banners of blue and silver, the class colors.

The grand march was led by Don Coyne, junior Class President and his friend, Marilyn Clark. The Hugh Jackson orchestra of Ann Arbor furnished the music. There were the usual confetti showers and other events.

Mr. Thayer took pictures of the dancers during the festivities.

## FREE SHOWS WILL BE STARTED MAY 27th

The merchants of Pinckney and vicinity are sponsoring the Community Free Shows which will be shown by the Fireman of the Pinckney Fire Department using their new equipment and presenting as high a class of pictures as may be available so that they may be enjoyed by the whole family.

The first of these pictures will be "Honeymoon Lodge" a comedy drama, starring the ever popular and lovable Ozma and Hattie Nelson. A good picture to be sure to see! It will be shown on Saturday night, May 27, 1950.

These shows will be held on each consecutive Sat. night following that of the 27th. Let's have a good turnout and back our home town project. Only with your co-operation will it be a success and an enjoyable evening for the whole family.

Mr. and Mrs. Geo. Rouch on Dexter-Pinckney Rd. spent the week-end visiting their children and their families in Detroit. Roy of Oak and Ferndale who showed Mrs. Rouch with Mothers Day gifts and cards.

### PINCKNEY LOST AT DEXTER

Pinckney was defeated at Dexter Friday night under lights in a close game 5 to 4. The game was airtight up to the 5th inning being tied at 1 to 1. Then Hewlett lost control and walked 4 men which with 2 hits gave Dexter 3 runs. Pinckney got a run the 6th on hits by Jeffreys and Schneider and tied the score the 7th on a walk, a hit by M. Mattison and 2 Dexter errors. Curtis went in to pitch for Dexter. However Dexter was not to be denied and Howard opened the last of the 7th with a hit and scored on Gregory's outfield hit. Pinckney got 4 hits and Dexter 5. Hewlett issued 5 walks while Howard only gave one. Pinckney made no errors while Dexter made 3.

## Current Comment

It does seem that the life of Dominick Atleo of New York City might have been saved last week. He operated a car washing service and being forbidden to use water by the city due to the shortage, started to dig a well. He had gotten down 20 ft. when it caved in on him. Only his legs were caught. Attempts to dig him out failed. Cigarettes were passed to him and when he lighted one an explosion took place caused by the oxygen piped down to him. Atleo was burned badly. Finally after 27 hours another shaft was dug and a tunnel through to him but he was dead when rescued. Such an accident occurred here some 27 years ago. Harry Utchenik from Detroit bought the Nancy Beebe farm on Hinchey Rd. He went down a dug well there to repair it when it caved in on him. For several days the attention of the state of Michigan was focused on this and huge crowds gathered at the Beebe farm. A large stone kept the debris from falling on him and it was possible to lower food to him. The state police and U. of M. engineers took charge of the job and after 3 days completed another shaft and tunneled over to the imprisoned man. He was gotten out alive. Several attempts failed as the ground repeatedly caved in.

Back nearly 30 years ago agitation for a St. Lawrence waterway whereby ocean vessels could come to Detroit and Chicago started. The late Senator Charles Townsend of Michigan was one of the early boosters. He has been dead now for 25 years or more. Beyond surveys etc. the project today only exists on paper. Congress has again doomed it by sending the request for \$800,000,000 to start the work back to committee. To complete the project considerable dredging of the river would be necessary. The roads are the opponents of the measure as it would deprive them of considerable of their business. At the recent congressional hearing the American Federation of Labor who control most of the railroad employees refused to take a stand on the question.

Malcolm Binay of the Detroit Free Press plans the government program of destroying potatoes to keep the price up but like other critics has no remedy to keep the price of potatoes from falling to 10 or 25c per bushel. The trouble is that this country can always raise about twice as much food then she can consume or export. To throw it all on the market would be fatal. This was tried back in the depression days of 1932. Wheat fell to 30c a bushel. The farmers could not pay their debts and farm mortgage foreclosures and chattel sales became a regular epidemic. The farm price support program, although objectionable has prevented any of these things from happening.

Due to their ability to produce more food than can be consumed the farmers have had two strikes on them. They were always in debt and any measure which would double prices and cut their debts in two had their support. Both Democrats and Republican parties made them plenty of promises but seldom kept them. In the old days they supported the Greenback party, the Populist party, the Free Silver party, all of which sought to double prices. When these failed they sought to deliver their vote to the party which promised them the most. But these promises were not kept. Then the depression hit with its huge crop surpluses and low prices but this time the western farmers did something about it. When an attempt was made to foreclose on farmers who couldn't meet their obligations, their neighbors got out rifles and shotguns and kept the officers from dispossessing him or staged a 10c auction. This may have been anarchy but it made sense and the nation took notice of them. They flocked to Franklin Roosevelt and his price support program in 1936 and in 1948 their support meant victory for Harry Truman. It took a century to beat it into the heads of the people that if the farmer prospered the rest of the nation prospered likewise.

**Fall Pasture Fertilization Spreads Farm Work Boosts Meat, Milk Output and Cuts Feed Costs**

**Well-Fertilized Pasture Gives Cheapest High Quality Feed for Livestock.**

CHICAGO—Topdressing your pastures and grasslands this fall with phosphate and potash fertilizer will give your beef and dairy cattle extra grazing days next spring, cut down your feed bill, boost meat and milk output per acre and reduce production costs, declared the Middle West Soil Improvement Committee, in a statement made public here.

Fertilizer added in the fall helps deep-rooted alfalfa and sweet clover make a sturdier, denser growth, the statement says. The plants are better able to resist winter kill. They come through the winter months in better condition for vigorous early spring growth.

Earlier spring grazing means fewer days of barn feeding. It means a saving in the feed bill, for the palatable green pasture provides the cheapest high-protein feed your cattle can obtain.

The committee lists these advantages of fall fertilization of pastures, as recently cited by M. O. Pence,

Purdue University extension agronomist:

- 1—Spreading fertilizer in the fall spreads the work, too. Farmers have more time for such work in fall than in spring.
  - 2—Plant food added in the fall has a chance to get down into the soil where the roots are. Nutrients are then immediately available for the legume roots when spring growth starts.
  - 3—It is easier to spread lime or fertilizer in the fall when the turf is solid than in the spring when the ground is soft and wet.
  - 4—You don't have to work the fertilizer into the soil. Grass roots close to the surface take up the soluble plant food.
- "Farmers planning fall pasture improvement work," says the committee, "can get advice from their county agents or state agronomists on the kind and amount of fertilizer to use."

**Michigan Farmers Are Using More Fertilizer To Boost Per Acre Yields and Replenish Soil**

Money Invested in Fertilizer Pays Out in More Efficient Crop Production.

CHICAGO—Michigan farmers are using more fertilizer in growing their crops, according to the Middle West Soil Improvement Committee. Figures made available by the National Fertilizer Association show that approximately 417,401 tons of plant food were used on farms in the state last year, compared with 393,274 tons in the preceding year.

This was an increase of 24,127 tons or about 6 per cent over Michigan's 1947 consumption. It represented a 151 per cent increase over the pre-war year of 1940.

The 1948 fertilizer consumption for the entire United States topped the previous record year of 1947 by about 6 per cent or 15,956,289 tons against 15,039,376 tons.

The steadily increasing use of fertilizer in the past 10 years is attributed to these factors: 1—The desire of farmers to boost crop yields per acre and their readiness to apply

practices that will accomplish this; 2—Realization by farmers that plant food reserves in the soil are declining; 3—Heavier demands for plant food by new high-yielding crop varieties; 4—Recognition that pasture is a cash crop and should be fertilized.

Agricultural economists point out that fertilizer is a "good buy" at present prices, according to the committee. These research men say that money invested in fertilizer will pay out in a short time. It will get more efficient crop production — more bushels or pounds of crops per acre at little or no additional labor cost.

Fertilizer is most effective when it is teamed with a rotation that protects the soil and builds its physical structure and tilth. Well-structured soil is a better storehouse for plant nutrients and moisture. Such soil produces higher crop yields at a lower cost per unit.

A long-distance call from New Jersey, from her second oldest son, James, who had just arrived back in the U. S. was received just before noon. He had been stationed at Coburg, Germany with the Armored Division of the Air Force, for the past nineteen mos. He left Germany two months ago and has been on a boat, on special training during that time. His mother had not heard from him since early March and was worried but his call Sun. made her very happy. He will be home by Thurs. May 18 and rest a few days before returning to civilian life. His parents are planning a steak supper for him Thurs. which was his one request when he called.

Conservation of soil and water are vital, he said. On rolling cropland this may require one or a combination of practices such as cover crops, sod waterways, contour tillage, strip cropping, diversions or terraces. Where wind erosion is a problem, field strip cropping and windbreaks may be necessary.

He recommended further that crop residues be returned to the soil either as surface mulch or by plowing under. Manure should be carefully stored to reduce leaching and decomposition losses. Medium applications of manure to fields at frequent intervals, he said, are preferable to heavy applications less frequently.

## NOTICE OF SPECIAL MEETING OF THE QUALIFIED ELECTORS OF PINCKNEY COMMUNITY SCHOOLS SCHOOL DISTRICT LIVINGSTON AND WASHTENAW COUNTIES, MICHIGAN

To the Qualified Electors of Said School District:

Please Take Notice that a special meeting of the qualified electors of said School District will be held in the Putnam Town Hall in the Village of Pinckney in said District on the 25th day of May, 1950 at 8:00 o'clock, a.m., for the purpose of submitting the following propositions:

- I. Shall the limitation on the total amount of taxes which may be assessed against all property in Pinckney Community Schools School District, Livingston and Washtenaw Counties, Michigan, for all purposes, except taxes levied for the payment of interest and principal on obligations incurred prior to December 8, 1932, be increased, as provided by Section 21, Article X of the Constitution of Michigan, by nine-tenths of one per cent (0.9%) of the assessed valuation of all property in the School District for a period of twenty (20) years, from 1950 to 1969, both inclusive, for the purpose of providing a debt retirement fund to pay the principal and interest on bonds of the School District in the principal amount of One Hundred and Forty Thousand Dollars (\$140,000) to be issued for the purpose of erecting and furnishing an additional elementary schoolhouse and acquiring a site therefor and remodeling and refurbishing the present schoolhouse in the Village of Pinckney in said District?
- II. Shall Pinckney Community Schools School District, Livingston and Washtenaw Counties, Michigan, borrow the sum of not to exceed One Hundred and Forty Thousand Dollars (\$140,000) and issue its bonds therefor, for the purpose of erecting and furnishing an additional elementary schoolhouse and acquiring a site therefor and remodeling and refurbishing the present schoolhouse in the Village of Pinckney in said District?

Each person voting on the proposition to increase the total tax rate limitation must be a citizen of the United States, above the age of 21 years, and have resided in the State of Michigan six months, and in the School District 20 days next preceding the election.

Each person voting on the proposition of borrowing and issuing the bonds of said School District must be a citizen of the United States, above the age of 21 years, and have resided in the State of Michigan six months, and in the School District 20 days next preceding the election, and have property assessed for taxes within the School District or be the lawful husband or wife of such person.

I, Jennie M. Eastman, Treasurer of Livingston County, Michigan, find that as of May 3, 1950, the total of all voted increases over and above the tax rate limitation established by Section 21, Article X of the Constitution of Michigan, in any local units affecting the taxable property located in Pinckney Community Schools School District, Livingston and Washtenaw Counties, Michigan, is as follows:

NONE  
/s/ Jennie M. Eastman  
Treasurer, Livingston County, Michigan

I, William F. Verner, Treasurer of Washtenaw County, Michigan, find that as of May 2, 1950, the total of all voted increases over and above the tax rate limitation established by Section 21, Article X of the Constitution of Michigan, in any local units affecting the taxable property located in Pinckney Community Schools School District, Livingston and Washtenaw Counties, Michigan is as follows:

NONE  
/s/ W. Verner  
Treasurer, Washtenaw County, Michigan

The polls will open at 8:00 o'clock a.m., and close at 8:00 o'clock, p.m., Eastern Standard Time. Take Notice that the Board of Education has estimated the total expense of erecting and furnishing an additional elementary schoolhouse and acquiring a site therefor and remodeling and refurbishing the present schoolhouse in the Village of Pinckney in said District to be One Hundred and Forty Thousand Dollars (\$140,000), all of which it is necessary to raise by borrowing and issuing the bonds of the District.

This Notice is given by order of the Board of Education of Pinckney Community Schools School District, Livingston and Washtenaw Counties, Michigan.

Secretary, Board of Education

President Roosevelt's Board said—  
 President Truman's Board said—  
 Still the leaders of the Railroad  
 Firemen's Union say—

**NO!  
 NO!  
 NO!  
 "STRIKE!"**

This ridiculous strike is an affront to every citizen of the nation. It's not for more money. It's not because of hours. It's only for soft feather-bedding spots for additional unnecessary firemen to go along in diesel locomotives just for the ride. A leading liberal newspaper calls the demands of the union leaders "horse-feathers"!

The reckless leaders of the firemen's union want to force down the throats of the railroads and the public a ridiculous "make-work" proposal which has been twice ruled out by Presidential Fact Finding Boards duly appointed under the provisions of the Railway Labor Act.

This demand of union leaders for additional and unnecessary firemen to ride in diesel locomotives was rejected—after months of hearings—by a Board appointed by President Roosevelt in 1943.

It was again rejected in 1949 by a Board appointed by President Truman. Recent meetings with the National Mediation Board have brought no change in the attitude of the union dictators.

**Union Leaders Defy Intent of Law**  
 The union leaders helped write the Railway Labor Act. Yet in an attempt to jam through this scheme of pure

"feather-bedding" by leading the members of their union out on strike and threatening paralysis to large areas of the nation, they are defying the spirit and intent of the very law which they helped to create.

This strike is not for higher wages. It is a strike to force the railroads to employ many more thousands of firemen who are not needed! It would be an indefensible waste. The railroads have refused to place this additional and unnecessary burden on the public.

But more important than any other consideration, is the action of these few irresponsible union leaders in seeking to force a crippling strike upon the

**This strike is one of the silliest strikes in history!**

What are these reckless union leaders trying to do? They seek to cause thousands of their members to strike, and throw hundreds of thousands of other employes on and off the railroads out of employment, with loss of pay to them and their families, plus a severe blow to industry and the citizens of the nation.

What's the strike all about? If the union has its way—what happens? The present members of the union won't get one cent more pay. They will merely have been assessed for a costly and indefensible drive in an attempt to provide more dues-paying members for the union by creating "feather-bedding" jobs for additional and unnecessary firemen. This is certainly one of the silliest strikes in history!

nation for their own selfish purposes. There is no other possible answer to such a demand but "No!"

The railroads in making such a reply believe they have the whole-hearted support of the people in whose interest they are willing to fight this out, despite the loss and inconvenience that all will suffer.

It is time to put an end to such un-American demands.

 Abe Haines Labor on park and Streets 50.50  
 H. Haines Labor in Park and Streets 47.50  
 H. Haines Use of Truck 6.00  
 Carried.

Motion to adjourn Mildred Ackley, Clerk.

We admit we do not know the ins and outs of the railroad strike. The dispute seems to hinge on whether diesel locomotives need two firemen or one. In the old coal burning days the job of fireman was a back breaking job. He shovelled the coal into the engine and was a hard working, sweaty bearded man. When diesel engines were installed this ended. The present day fireman sets and watches air, water, oil and pressure gauges and the track ahead. The first diesels had no fireman. Then one was added. Now the unions demand two.

### NO APOLOGY IS NEEDED

When guests say "please pass the butter" they expect a good host or hostess to do just that without the necessity of offering apologies.

There is no better sign of good living than having plenty of butter on the table as well as in cooked foods. The best recipes call for butter. It's butter that adds zest and enjoyment to every meal for Nature has endowed it with an inimitable, delicious flavor.

And butter is chock full of nourishment for it is made entirely of the richest part of milk. Nature's Most Nearly Perfect Food. Four pints of cream go into every pound of butter.

Little wonder we all mean just what we say when we make the request:

## LOOKING TOWARD SPRING

Your farm plans, now in the making probably call for the use of bank credit. Why not come in at your convenience? We can look over your needs for the months ahead. Bank Credit is the best farm credit.

## FIRST NATIONAL BANK IN HOWELL

## McPHERSON State BANK

Established 1865 Incorporated 1915

HOW SAFE IS YOUR MONEY? When you deposit your funds in a bank your first consideration should be their safety. A bank provides safety for its depositors in several ways.

One way regarded as the most important is the accumulation, during prosperity, of capital in the form of surplus, undivided profits, and reserves for contingencies.

With \$1.00 of these for every \$10.00 of deposits regarded by the banking fraternity as being exceptional, we have added to care over the years tillas of April 24, 1950, we possess over 720 thousand dollars in these accounts as against 6 1/2 millions of dollars in deposits, or \$1.00 in capital to \$9.00 in deposits. This high percentage provides a protective cushion in times of stress which sound banking has provided in more prosperous periods.
