No. 29

Michigan Mirror

The 1950 national convention of Outdoors writers will be held in the upper peninsula of Michigan, Clay Perry, writer for the *Saturday Evening Post*, calls said peninsula a "Sportsmen's Paradise," with fishing and hunting unexcelled. The convention will be at Escanaba where the invitation of the chamber of commerce has been accepted.

There are more deer in the upper peninsula than anywhere else in the United States. There are the Seven Wonders of the Upper Peninsula. Among them is the famous Big Spring, Kitchikippi, near Manistique, the Pictured Rocks at Munising, all of the beautiful shores of Lake Superior and Michigan, Mackinac Island, historic, scenic, luxurious as its Grand Hotel, no automobiles allowed, only horse-drawn carriages and bicycles.

Your trip west should include a day to visit the Tahquamenon River falls near Newberry, accessible either by boat from Soo Junction or by highway. At Munising be sure to take a boat ride to the Pictured Rocks. Thence west to Marquette for a view of the high ore loading docks. Iron deposits were discovered in 1849 near Negaunee by Wm. R. Burton, north of Marquette are the Huron Mountains, undeveloped as a future scenic center, similar to the Porcupine Mountains.

Continuing west you arrive at L'Anse and Houghton, entrance to the picturesque Copper Country. This is the land of the beautiful Keweenaw Peninsula and the one-time center (1889) of the greatest copper producing region in the United States. The Calumet and Hecla Company financed with \$10 million capital, produced over \$160 million in dividends from the most productive and richest mine in America.

Drive out the Keweenaw Peninsula to Eagle Harbor, take the Brockway Mountain Scenic Drive to Copper Harbor, visit Fort Wilkins State Park, and return by the central route back to Houghton. Thence to Ontonagon and Silver City where you can drive to the Porcupine Mountain State Park and climb by easy trail to an escarpment giving a breath-taking view of the Lake of The Clouds. If time permits, continue west to Ironwood and visit the falls along Lake Superior. Other wise, you can go southward to U. S. 2 and go back eastward to the iron ranges at Iron River, Crystal Falls, and Iron Mountain.

On your way back to sure to visit the Big Spring, Kitchikippi near Manistique at Indian Lake. Thence eastward over the U. S. 2 Shore Drive to St. Ignace. This stretch of pavement is new and it affords one of the most beautiful views of Lake Michigan in the entire Upper Peninsula.

We would not suggest that you attempt such a circle tour in only one week's time, two weeks would be ideal. We will quarantee that having made the circle from the Sault to the Copper Country and thence southward by way of Escanaba to St. Ignace, that you will join Clay Perry in an acclaim for Michigan's vast North Country, beyond the Straits of Mackinac.

In Oct. another draft will dig deeper in Michigan's pool of 47,000 eligible men.

No Cause for Action

The popcorn stand damage suit involving The Pinckney Dispatch was tried in Judge Yelland's court in Howell last Friday and resulted in a "No Cause for Action" verdict.

In June 1949 when we bought the lot on 114 S. Howell Street, where we have since built a printing office, a popcorn stand stood on one corner of it which had been operated the previous year by the Brandon White family. Although asked to remove it a number of times the owners failed to do so and it was pulled out the lot by means of attaching a truck to it by the Gentile Bros. who erected the Dispatch building, so that they could build the foundations. This was June 30, 1949. The owners claimed damages and started suit for \$250 in the name of Mrs. White. The suit was first started in the court of Justice Cronnenweitt of Howell but dismissed when they found he had no jurisdiction, that it would have to be tried in Putnam or an adjoining township. The legislature later changed this law and suit was again started in Justice Cronnenweitt's court. Then the dispute started and this court was declared illegal. When Judge Yelland's court was set up the suit was started there but numerous postponements took place and it was not tried until last Friday. Francis Barron was attorney for the Whites and Van Winkle & Van Winkle for the Dispatch. The jury was Mike Daniels, foreman, David Murningham, Ralph Walker, Mrs. Wilson Howlett, Mrs. Coye Hoover and Mrs. Erma Wright.

In his charge to the jury Judge Yelland ruled ownership of the popcorn stand had not been established, the Dispatch was not obliged to give notice to the popcorn stand owners to move it for 1948 and that no evidence had been introduced establishing the value of said stand before it was moved or afterwards. The jury was only out a short time before bringing in the verdict.

The witnesses were Mr. and Mrs. White, Brandon White Jr., Howard Thayer, Ken Kellenberger, George VanSkiver, Douglas Smith who sold the lot to the Dispatch, Sam Gentile, Ross Read, Ed Parker, M. J. Reason and ye editor, Kellenberger later bought the popcorn stand, VanSkiver helped move it, Thayer took pictures of it and Read, Parker and Reason testified to the condition of the building before and after it was moved.

OUR DEMOCRACY

by Mat

FREE MAN

IN A COUNTRY THAT WAS TO DEDICATE ITSELF TO FREEDOM, IT IS SIGNIFICANT THAT THE FIRST PIECE OF PRINTING IN AMERICA WAS THE "FREEMAN'S OATH"—A BROADSIDE ISSUED BY STEPHEN DAY, PRINTER, IN 1639.

AS THE AMERICAN IDEA PROGRESSED, THE PRINTED WORD BECAME A GREATER AND GREATER FORCE IN EDUCATING THE PEOPLE IN THEIR PRIVILEGES AND DUTIES AS CITIZENS OF THE NEW REPUBLIC—AND LATER, THEIR NEW RESPONSIBILITIES IN AN INCREASINGLY COMPLEX WORLD... AND YET — "FREE MAN" IS THE SIMPLE STANDARD BY WHICH WE ALWAYS HAVE MEASURED—AND ALWAYS WILL MEASURE TRUE DEMOCRACY.

Current Comment

Many, many attempts have been made to start third political parties in this nation but they have all flopped. The Republican party was the last new party to elect a president and that was back nearly 100 years ago. In a sense they were not a third party as the Whig party, one of the two dominant parties, had about disappeared and never was heard of after the civil war. Two years ago the Dixiecrat Party was launched in the south with a great blaring of trumpets and much publicity. In the election they carried a couple of states but failed to dent the Democrat majority to any great extent. Their platform was white supremacy. Their candidate was Gov. Thurmond of South Carolina. Now he has just gone down in defeat before former Senator James Byrnes, a Roosevelt stalwart who was supreme court justice, secretary of state and assistant president under the late F.D.R. Thurmond's Dixiecrat party probably went down with him. The Dixiecrats' desertion of the Democrat party resulted in their losing the patronage of their states and it is hard to hold a party together without it.

The Fair Employment Practices

Bill of Equal Rights for Negroes has again been killed in Congress by a combination of Republican and Southern Democrat votes. The vote to kill the filibuster and bring it to a vote was 55 to 23, nine short of the required 64. 22 Democrats and 33 Republicans voted for it and 27 Southern Democrats by the aid of 6 Republicans killed it. This issue has been a political football for ages. Both Democrat and Republican parties usually have planks favoring it in the platforms but no effort was made to enact until President Truman declared for it. We refuse to get het up over it. We do not believe it would ever be enforced in the south any more than prohibition ever was in Hamtramack.

This is now the third week of the Korean war and it seems to be the same old kind of war as was waged back in Revolutionary War, Civil War and World War I and II days. Much holes, fox holes, bridgeheads with infantrymen and marines fighting in them and airplanes streaming over head. We were given to understand the next war would be a machine war with atomic bombs and guided missiles released by merely pressing a button and in a very short time with no loss of life the war would be won entirely by machinery. This has not come to pass. Some are inclined to blame Gen. MacArthur because he has no troops to send into battle. This is silly. We were lulled to sleep by the push button war talk and anyway we did not want war, and were easily sold on the idea that we could arm and train the illiterate Koreans to do our fighting for us. This has not worked out that way. The Russian trained Koreans are greater in numbers much better equipped and trained than those of the south. We have no replacements for the South Koreans and it will take months to set up the proper machinery to get them. In the meantime we will be extremely lucky if we can hold beachhead in Korea. This is the same story of the civil war and World War I and II. We were unprepared in all three conflicts.

It is most probable that in a very short time the reserves and national guard will be called into the service. The statement that volunteer system will be tried out to see if that will fill the ranks is only window dressing. He never has yet. In Detroit last week out of 200 recruits who applied for enlistment only 70 were accepted, by the army. The navy got 25 and the marines 10. They enlisted for not less than 6 months or more than a year. The coast guard are also seeking enlistments for 3 years of former coast guardmen. This age bracket is 20 to 45. President Truman has restored the wartime privilege of free mailing to all troops fighting in Korea.

U.N. Drafts Traffic Convention

Tackling world road traffic problems, a U.N. conference has agreed on an international road traffic convention which eventually would help motorists in all countries. The convention suggests the adoption of a simplified international driving permit which would be honored everywhere. The above exhibit of driving permits issued by 40 countries shows the necessity of reaching some form of simplification and greater uniformity in driving permit requirements.

Rural Tele-news

WORKING DOLLARS: Americans in all walks of life, who invest their savings in telephone securities, make it possible for us to give you more and better telephone service. Their money is used to expand the telephone system... increasing the value of your telephone by providing more telephones that you can call.

VOICES WITH A SMILE - Many Michigan Bell operators have attended meetings recently to hear themselves talk - in wire-recorded conversations with other girls who took the part of customers. They've learned that the tone of their voices often can make a big difference in the quality of telephone service. Perhaps you've already noticed an improvement in your service as a result of these meetings.

MORE JOBS - Twelve years ago, only one-tenth of the telephones on Michigan Bell's rural lines were dial. Today, more than two-thirds of the rural-line telephones are dial. And yet Michigan Bell now employs more than twice as many operators as twelve years ago.

HOW BIG IS A BILLION

DOLLARS

An excerpt quoted from a Hudson Motor Car Company news letter gives us some idea of just "how big" is a billion dollars: "If everyone in the United States cashed in all his life insurance policies, the total would amount to \$44 billion - not quite enough to run the government for one year. If every city and town owner in this country sold his home, the total would amount to \$30 billion - enough to run the government for eight months. If every farmer in this country sold his farm, farm equipment and the livestock, the resulting \$25 billion dollars would not run the government for seven months"
