# The Happiest Kid on the Block

HE CAN BE—he will be—if you bring home the television set that he's wanted so long, that he'll use so much.

Laughter, music, adventure, magic—television at home means all that to a growing boy these days, but it means a lot more than just programs.

Now he'll be able to invite the gang over to his house for TV instead of having to slip over to the neighbors to see television himself.

Now he can choose his own programs, with you to help develop his tastes, instead of viewing the choices of someone else.

Now he'll spend a lot more time with Dad, watching ball games together and listening to Dad's stories about the very teams they're watching.

No wonder the happiest kid on the block will be your son when you make this year his "Television Christmas."

With TV
this magic world
is his to enjoy
every day!

TELEVISION is moving faster than you think.

New programs, new stars make their debut every week. The longer you wait, the more you miss! Here's just a partial list.

child performers—Talented singers, dancers, musicians, inspire your children to cultivate their own talents. They'll be more eager to learn—practice more willingly.

WORLD'S GREATEST athletic events— Fathers and sons follow their favorite teams together from a front row seat. Television helps teach your children sportsmanship.

THE WONDERFUL world of make believe enchants children for hours—is often both educational and entertaining. It sure helps Mom—especially on rainy days.

MUSIC DELUXE! Now you can see as well as hear your favorite orchestras, singers, instrumentalists! Yes, Television gets you right "on stage" seats, no money could buy!

LAUGHTER under your roof—the shared pleasure that binds your family closer. The greatest comedians of the entertainment world are in your living room every night on TV.

### Peter Capra

Executive Director of the Boys Club of New York, says:

Television is more than fun for boys. It is significant and true that since the inclusion of television in the Boys Club program, the Glee Club, Drama and Music Groups have improved tremendously in the number of boys participating. Television properly integrated in the over-all program of wholesome accreation will continue to make an increasing selection of the contribution by keeping growing boys informed, entertained and happy . . . essentice.

Ineir leader, a young Captain in the Venezuelan Merchant Marine, agreed to accompany them if the voyage could be arranged. The Scouts decided to try. They went to officially of the Grancolombiana Line which operates freighters between United States ports and Venezuela, Colombia and Ecuador. Line officials were enthusiastic about helping the Scouts in their training and offered to transport the group free of charge on a round trip between New York and Maracaibe

One of the line's most modern frieghters, the "Ciudad De Maracaibo," was chosen so that the Scouts could inspect the newest equipment. Under the guidance of their own leader, Capt. Melean, and ship's officers they learned how the equipment worked, and many shipboard duties landlubbers never learn. Their biggest thrill was locating another vessel by radar.

At the dock the Scouts were met by Antonio Davila Delgado, Consul General of Venezuela; Henry Kuhlmann, Grancolombiana's Director of Public Relations, and a delegation of

They attended a baseball game, placed a wrenth at the statue of South function's Liberator, Simon Bolivar; ittended a party in their honor, and even broadcast to South America over Yes Voice of America.

They had some trouble, because most of them spoke only Spanish. However, the Venezuelan consultate furnished each boy will an identification card. The plan worked, too, live of the Scouts were returned to their hotel in police hars.

Highlight of the stay was a party fiven by the Girl Scout Council of Greater New York. There the boys tearned American dances. Then they showed the Americans some Venezuelan cowboy dances and taught them South American songs—even their own version of Boogie-Woogie.

The Scouts made a big hit with everyone and their visit accomplished a double purpose. It was a valuable experience in Scout training and the Scouts had served as ambassadors of bod will between their country and

### **Balanced Soil Flam** Gives Top Yields at **Low Production Cost**

COLUMBIA, MO.—A five-point program to "balance the soil's needs" and obtain maximum crop yields per acre at low production costs, was outlined by O. T. Cole man, Missouri University extension soils specialist. Here are the steps Coleman sug-

1. Provide plenty of plant food in available form for the crops you are growing. Crops cannot grow without

nutrients.

2. Have your soil tested to determine whether the plant food supply is in balance. Growing crops need a balanced ration the same as do people and livestock.

3: Get the soil in condition so that crops can use the plant foods. This means a turnover of arganic matters and tilth, crainage and peration by growing well-tertifized feep-rooted legumes.

feep-rooted legumes. 4. Keep water, plant matrients and topsoil at home by conservation methods. Where needed, these may include terracing and containing to reduce runoff and erosion losses. 5. Follow a well-belanced crop-

ping system. Deep-rooted legumes for pasture and greez manure crops need to be rotated regularly with grains. Livestock is a "must" to properly handle pasture and rough-age crops in such a crop-balancing program. Tests have shown that where a crop is pastured of, about 75 per cent of the organic matter is returned to the soil. This is true of both legume and non-legume crops.
