No. 33

Michigan Mirror

Former Attorney General Stephen Roth's outburst against Democratic Chairman Neil Stabler is taken to indicate that he expects to oppose Senator Blair Moody for the nomination next year. He thinks he was bypassed when Senator Moody was appointed.

The legislature will meet Aug. 20 to approve plans for the new \$6,000,000 office building which will be built with borrowed money. The state administrative board borrowed the money but the legislature must approve it.

The governor attended the 25th birthday of Detroit last week and with President Truman was the center of attraction.

Price news is fair. Papers are full of bargain and clearance sales. However price cuts take a long time to reach the consumer.

Defense Mobilization Wilson raps Detroit industry for failing out war contracts. This he says accounts for some of the unemployment. War contracts were expected to reduce unemployment.

Cass Hough of the Daisy Air Rifles says mental and physical apathy on the part of the people are to blame for our troubles.

The public relations dept. of the Michigan state highway dept. costs \$120,000 a year. All stories must be cleared through \$7,400 a year aide Elmer Hanna.

Archery is growing as a sport. Last year there were 14,650 residents archers and 815 no residents.

The Michigan pig crop is estimated at 106 million which is 5 percent more than last year.

The Michigan building contract awards for the first 6 months of 1951 were 6 percent over those of the same period last year. The June total was \$133,793,000. Six months total was \$442,377,000 against \$416,810,000 for the same period last year.

CONSERVATION DEPT.

The first selected cutting of planted red pine trees takes place at Roscommon this week. These pines were planted in 1941. 200 cords of paper stock will be cut and some rafted material. The first pine planting took place in 1902. Since then 206,000,000 acres of pine seedlings have been planted. Many more will soon be ready to cut. This cutting is necessary in order that the trees left may grow in to large ones.

The Bay City state park drew 771,400 visitors in July and the Holland park 770,000,000.

An 80 acre muck fire is burning east of Bay City. Last week 27 fires burned 123 acres.

18 new conservation officers will be selected from a service rated list of 50 August 15.

The first ruffed grouse survey by rural mail carriers in northern Michigan is underway.

The public fishing site user who has his own boat must have his name and address on it if he remains over night.

The 1951 state archery tournament is at Pontiac state park on Sept. 15th.

70 percent of the fish caught by fishermen are bluegills.

The angler in southern Michigan averages 2.09 fish per hr. and in northern Michigan 1.46.

ANNOUNCEMENT

The Ladies Aid of Congl. church will hold their annual pot luck picnic at the home of Mrs. Lucy Reason Thursday, Aug. 9 at 2 p. m. A large attendance requested. Sec.

WOMEN'S BOWLING LEAGUE

There will be a meeting of the Pinckney Women's Bowling League at the bowling alley Monday, August 13 at 7:30 p. m. All women who are interested be sure to come.

While working on his lot in the Pinckney cemetery last Wednesday afternoon, Myron Manning suffered a heart attack. Max Dyer who lives across from the cemetery saw him fall and took him to the Pinckney Sanitarium where he was obliged to remain a number of days. He lives in Ann Arbor but is here while his wife is undergoing treatment in an Ann Arbor hospital.

The William Brash Jr. family have moved to North Tazewell, Virginia.

Characters

PROF. WILLIAM KIRTLAND

Prof. William Kirtland was also a subdivider but unlike Gardner Lillibridge he played the game according to the rules and his village still exists. He is said to have been a small man, near sighted and well educated. When he got the western fever he was teaching in Oneida University, New York. I believe it is now Hamilton college. He married Caroline Stansbury of a prominent New York family. In general she overshadowed him. She was talented and wrote a number of books on pioneer life under the name of Mary Clavers. They may be still obtained in some libraries.

In 1836 the Kirtlands came to Michigan via the Erie canal. He bought land on the present site of Pinckney of Solomon Peterson and Sanford Marble who had settled here in 1828 and 1831. He built a grist mill, hotel and a cooper shop and a residence for himself. This was not a log house but a frame house and was still standing up to 25 years ago when it was torn down. Pinckney was platted in 1837 and named after Chas. Pinckney Kirtland, a brother of Prof. Kirtland and a famous New York lawyer. Charles Stansbury of New York, a brother of Mrs. Kirtland was the first probate judge in the county and had his office in Pinckney. Mrs. Kirtland wrote most of her books in Pinckney.

Conditions were pretty primitive here then and Mrs. Kirtland's books depict the trials they had to go through. Travel was on horseback or by horse and wagon. There were no roads or bridges and Mrs. Kirtland tells of the muddy Indian trails they travelled and the streams they drove through.

In 1843 the Kirtlands left Pinckney and returned to New York. A contributing factor is said to have been a book Mrs. Kirtland wrote satirizing the ladies of Pinckney. Mr. Kirtland became editor of the New York Evening Mirror and drowned in 1849 when he stepped off the dock at Newburg, due to near sightedness. Mrs. Kirtland established a girls school in New York and died in 1864. She left four children who became famous as authors and teachers.

The square was given to the village by Prof. Kirtland for a park. However they failed to make the necessary improvements and a speculator got quit claim deeds from the Kirtland heirs and took possession in the manner of mining claim jumpers. It cost \$1200 to fight him in court and get it back. This was raised by prominent citizens. The township who have always held title to the square, later reimbursing them by a vote of the people.

4-H AWARDS AT FAIR

The Hurry & Curry Livestock club, Pinckney, showed 10 head of cattle and a pair of rabbits at the Fowlerville Fair. They got the following awards:

Jerry Henry 5th on Hereford steer.

Junior Henry and Mick Frawley first and second on short horn steers.

Junior Henry and Mick Frawley first and second on Short-horn steers.

Jerry Frawley and Jeff Davis first and second with milking shorthorn heifers.

David Nash second with Holstein heifer.

Jimmy Campbell 6th with a Aberdeen Angus steer.

John Burg Jr. 3rd with a Hereford heifer.

Ronnie Darrow got first on his doe and second on his buck rabbit.

Raymond Wegener showed a Holstein heifer.

The boys stayed in the 4-H dormitory and had a fine time during the fair.

The club thanks Mr. Davis for the use of his truck and they have furnished for the cattle. Also Doc Hendee who has trucked their cattle the last 2 years.

NEW TREATMENT FOR HIGH BLOOD PRESSURE

Dr. Arthur Coca of New Jersey believes high blood pressure, in some cases may be caused by certain foods and inhalants and reports that by eliminating them from diets of patients he gets results. Read details in this week's (Aug. 12) issue of The American Weekly, exclusively with the Detroit Sunday Times.

Death Notices

JAY SHEHAN

Jay Shehan, 81, died at St. Joseph's hospital, Pontiac, Sunday. He was the son of Thomas and Anna McQuillan Shehan and was born in Hamburg twp. June 10, 1870. He was a telegrapher and was Grand Trunk agent at Pinckney back in the nineties. He was agent at a number of places. Of late years he has been Grand Trunk agent at Rochester where he retired 5 years ago but continued to live there. He followed railroading except for the time he was in the hardware business at Dansville with his brother, William. He married Thersa Reid of Dexter township. She died about twenty years ago. Surviving are a son, Clare, of Jackson, three brothers, William, Arthur and Louis and a sister, Mrs. Alma Harris of Pinckney.

The funeral was at St. Mary's church, Pinckney, this morning with burial in St. Mary's cemetery. Rev. Albert Schmitt officiated.

S. H. CARR

S. H. Carr, 81, died at the Stone Convalescent Home in Howell at 8:00 p. m. Tuesday night. He has lived in this section about 40 years, coming to Portage Lake from Ypsilanti and from Portage Lake here. For many years he was engaged in the ice business.

He married Lydia Smith. She survives with four daughters, Mrs. Irene Jack of Gulfport, Miss. Mrs. Gladys Lee of Lakeland, Mrs. Agnes Kettler of Jackson and Mrs. Dorothy Roberts of Martin. A daughter, Mary and a son, Clarence are deceased. The funeral is at the Swarthout Funeral Home Friday afternoon.

MRS. FRANCIS AGAN

Mrs. Francis Agan, 48, of Dexter died Sunday. She was the daughter of the late Henry Stein ball. Surviving are her husband, two married daughters and two brothers, Burr and Charles.

Notice

The Ladies Aid of the Congl. church is sponsoring a demonstration at the church parlors on Thursday, August 16 at 2:00 p. m. featuring the Key Paper Products with R. S. Beale of Birmingham as demonstrator. Everyone is invited. Come and bring a friend. Refreshments served after demonstration.

INCREASED POWER SUPPLY

Electric power supply in the metropolitan Detroit area last Wed. increased by 168 H.P. with the starting of the new turbine generator at Detroit Edison Co's. Conners Creek plant.

The new huge generator and boilers cost \$15,000,000 and is the second of two identical units placed in operation at Conners Creek this year and marks the completion of a 2 1/2 year construction program. Besides this Conners Creek installation two 168,000 H. P. generators have been put in service at the Edison Trenton Channel plant in Oct. 1949 and the second Feb. 1950. The Detroit Edison expansion plant carries through 1954. A new three unit plant now under construction between St. Clair and Marine City will provide 600,000 H. P. by late 1953 and plans for another new plant at the mouth of the River Rouge are under way.

P. W. Thompson, Edison vice president in charge of engineering says a large part of the output of the new Conners Creek plant will be taken up by defense production.

Guy (Gabby) Jameison of Dexter has been named an athletic coach at Albion high school. He played at Albion college and has been head of the Tri-County base ball league for some years.

The fire dept. made two trips with the pulmotor last week both of which were false alarms. One was to Hilland Lake where a child was reported drowned. The other to Portage where a woman fell out of a boat. She had been rescued before they got there.

Tuesday afternoon the fire engine was called to the Arthur Shehan farm where a fire ended her pine trees along the railroad track. They were saved.

Mr. and Mrs. Edward Fozanski and August Dammann and fiancée, Miss Stefani Chmiel of Detroit were week end guests of Mr. and Mrs. Donald McClellan of Hilland Lake.

Billie Clark, student at Lockport, in Detroit last week, has graduated and is working.

Wesley Reader and Ray Morality have rented the Hollis Wylie apt. on East Main St.

CARD OF THANKS

The family of Charles Neil Darrow acknowledge with grateful appreciation the kind expressions of your sympathy.

Softball Notes

BEAT BRUCE PRODUCTS 11-3

Pinckney played sloppy ball against Bruce Products Sunday night but managed to win out 11 to 8, although Bruce had the bases full in the 7th when the game ended.

Pinckney got 14 hits, including home runs by Burns and Amburgey, 2 triples by Ledwidge, one by Lavey, but made 6 misplays. Amburgey was off form and walked 7 men, 2 of these coming in the 7th.

Pinckney got 4 runs the first and were leading 8 to 3 up to the 5th when Bruce came close by getting 3 runs. Pinckney got 3 the fifth which proved to be winning margin as the Bruce rally in the 7th was 3 runs short.

CURRENT COMMENT CONT.
The Chicago mgr. with a team of castoffs by sheer fighting spirit stayed in first place most of the season. He was weak on reserves and when the grind wore his players down New York, a team heavy with reserves took over.

Current Comment

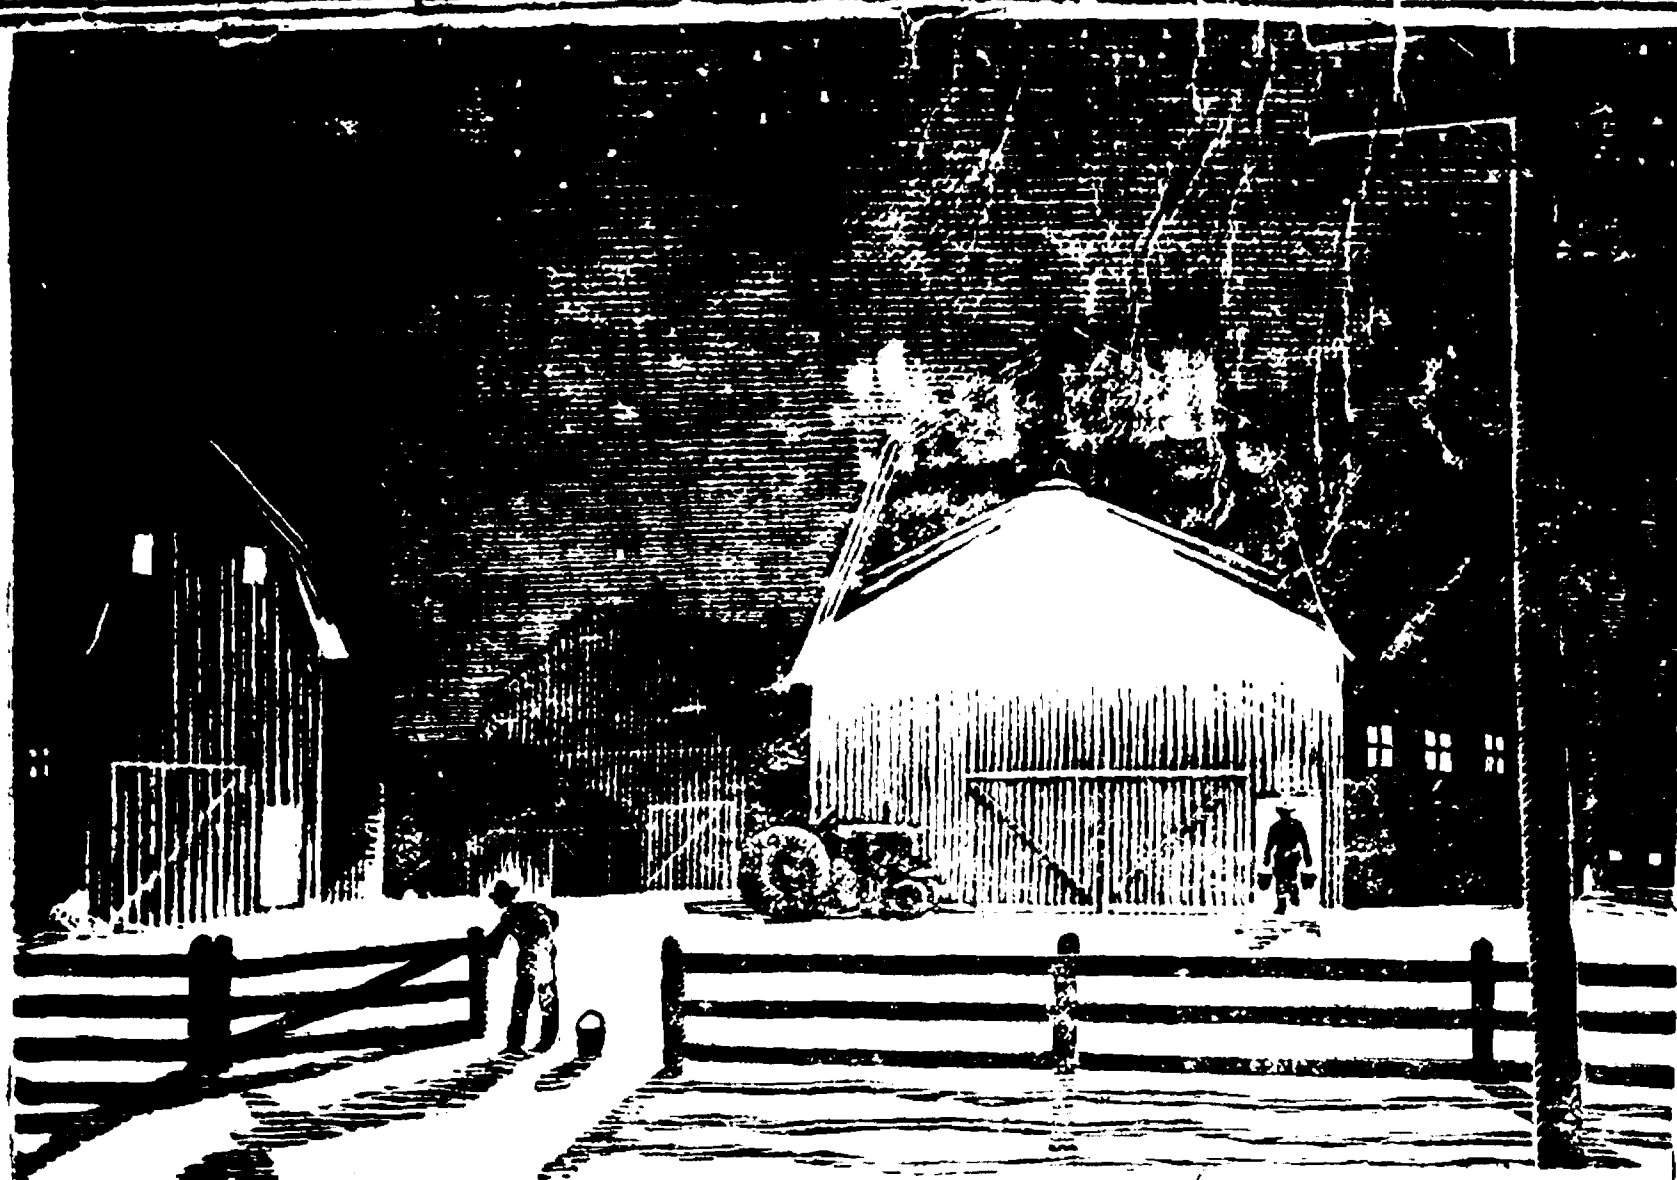

Brighton is still having dam troubles. After the dam went out they got permission from the owner, Lou Lppinger of Detroit to replace it. Thus they did. Then the dam went out in another place. Engineers now say the entire structure will have to be rebuilt which will cost up to the thousands of dollars. The owner is not interested. He says he bought the property, intending to start a fishing tackle factory but had a chance to get a building in Detroit and is no longer interested in it and will invest no more money in it. Several solutions have been suggested. Mayor Tom Leith wants to start court action and condemn the property. A mass meeting was to be held to decide on a course of action. In the meantime the famous maitres of Brighton have no place to go and are said to be roosting in trees.

We have heard Rev. Fifield, head of the National Council of Churches speak several times over the radio Sunday morning and his theme is always the same. That social security must be abolished. That is that in their struggle for security the people have allowed themselves to be enslaved and held helpless by the chains of social security. We can't follow him. By social security he undoubtedly means old age pensions & assistance and unemployment insurance. Is he against all these? In our opinion these two measures are the most humane and progressive laws ever enacted. They corrected two evils. In the old days the poor and penniless went to the poorhouse. Most of the poor houses were a disgrace and the board of health has recently put a lot of them out of business. Before social security factories had a habit of running full blast for six months until they got stocked up and then shutting down and laying off their men. This happened during the depression and some factory workers were unemployed for two years or more. Lost their homes and everything they had. Unemployment insurance has corrected this and the laid off man is now able to draw enough to live on. We are afraid that the reverend has absorbed the views of his wealthy parishioners. He says Ex Pres. Hoover and Gen. MacArthur commend his program. They would.

A private plane has twice dropped Communist literature, once on Detroit and once on Canada. Jet planes were alerted from Selfridge Field but flew too fast to overhaul the plane or identify it. The plane disappeared after its mission was completed. What puzzles us is why it was impossible to identify the plane? Does it mean that any other plane of this type could repeat the same performance and be sure of getting away with it?

The West Point expose where 90 cadets, mostly football players face expulsion for cheating at examinations leaves us cold. College teams have been professional for years especially since the colleges built their million dollar stadiums. These huge structures seat 70,000 or more and only a winning team will fill them. West Point was the best team in the nation for several years and the star players did not all get there by accident. Dire threats are made even to abolishing football at West Point and Annapolis. Nothing will come of it and next fall the millions will again swarm to the stadiums and the colleges will again do their utmost to supply the public demand for high class football.

The American League pennant race this year is a repetition of last year's race except that Chicago did the nose dive this year instead of Detroit. Last year Detroit was a leading contender and favorites to win as late as August. Mr. Balle was hailed as a miracle man and rampant optimism by every move he made. He needed. Then came the skid. Some of his players were injured and as there were no reserves they skidded fast. This year with same lineup Detroit is a second division team. Billy Evans in charge of their farm system was made the goat and fired. This year Paul Richards

ELECTRICITY NOW AVAILABLE TO NEARLY ALL U.S. FARMS

Power Companies Will Celebrate August 26 to Sept. 1 as "FARM ELECTRIFICATION WEEK"

Electricity now is available to over 90 per cent of America's occupied farms. And the nation's electric light and power companies are marking the virtual attainment of farm electrification with special ceremonies during the week of August 26 to September 1.

Evidence of the growth of farm electricity is in the record. In 1923, only about 200,000 American farms had electric service. Today, it is available to 4,990,000 of the country's 5,200,000 occupied farms as a result of the companies and local electric cooperatives working together.

The electric light and power companies pioneered in farm electrification. They

now serve nearly half of America's farms. Almost the entire remaining half are being served by the local electric cooperatives. The electric companies are proud of the privilege of furnishing, at wholesale rates, about half the electricity distributed by these local electric cooperatives to their customers.

As the job of bringing electric service to farms nears completion, the electric light and power companies will continue to cooperate with local electric cooperatives and with agricultural colleges and experiment stations to sponsor research to put electricity to work in more ways for farmers.

alone

FAST, ACCURATE TELEPHONE SERVICE

IS VITAL TO CIVIL DEFENSE

Warnings of approaching planes, coming from air raid spotters or military radar screens, are flashed over networks of Long Distance and local telephone lines to Filter Centers.

Telephone reports are quickly charted on Filter Center maps. Then waiting Air Force interceptor planes are alerted.

This is but one type of the many special telephone networks serving government and military forces to help protect our nation.

This great and growing telephone system was built to serve America in peace. But it is just as ready to serve in any emergency.

The value of this nationwide telephone network was never greater—never clearer—than it is today.

It must be kept strong. It is vital to a strong America.

To help speed your Long Distance call, please give the operator the out-of-town telephone number. • Telephone lines are busy with national defense.

MICHIGAN BELL TELEPHONE COMPANY

Volunteers are needed for ground observer stations. Apply by writing your State Office of Civil Defense, Lansing, Michigan.

You Can't Beat
the Harvest-Time
Security &
JOHN DEERE No. 12-A
Offers You!

The man who moves into the field with a John Deere No. 12-A Combine is assured of an easier harvest and a more profitable harvest in all combineable crops.

This outstanding performance is due, largely, to the straight-through, full-width handling of the grain which gives the No. 12-A amazing capacity, the ability to give more clean, uncracked grain per acre, its a light, compact combine that gets around easily in the toughest field conditions, has mighty low power requirements, gives you dependable, low-cost performance, year after year.

Come in soon and let us show you the many outstanding features of the John Deere No. 12-A. You'll agree—it's by far your best small combine investment.

CONDITION

Baseball, football, track and other sports require the players to keep in good physical condition. Many times the condition is the difference between winning and losing.

In the game of life good financial condition is a factor. This does not mean having a lot of money, but rather managing and planning the expenditure of what we have.

A Savings Account can be the balance wheel of good financial condition. Get in condition. Open a savings account today.
