There are two lines of thought in the state capital on getting ma of the dencit. The governor would do it by levying a corporation profits wax. The legislature would accomplish it without levying any new taxes but would do it at the expense of schools townships. counties and cines by taking tax money away, from them, they say the corporations would only pass a proni tax onto the people people by increasing prices.

The legislative plan would cut the cities and townships share of the liquor license money from 85 to 50 percen. This would give the state \$1,293,000 The second bill would take the 3 percent sales tax levied on liquor away from the schools and cities and give it to the state. The third bill would divert 3 percent of the gas and weight tax from the cities and counties. The latter need this money badly for road building and repair and will fight it.in tac all three measures will be hard hard fought as they mean higher local taxes.

Michigon factory workers earn ed an average of \$3.660 last year for a total of \$3.1 billion. This is 11.2 more than Ohio and 24.7 ov er the national average. 41 per cent of the Michigan people work in factories.
