No. 27

MICHIGAN MIRROR

All is not harmonious among the 4 Republican candidates for the gubernatorial nomination for governor. At a rally held June 26 where they were to sign a peace pact to support the winning candidate, it was only 75% successful. Dr. Eugene Keyes of Dearborn and a former Lt. Gov. refused to go along with it. He said it was his duty to point out the weakness of his 2 rivals, former Police Commissioner Leonard and Owen Cleary. That as far as Brake was concerned he was not too bad. There are reports that Leonard and Cleary who seem to have plenty of money to spend are being backed by special interests. These primary wounds Republicans say have cost them the last 2 contests for governor.

This has caused renewed pressure to be applied to adopt the pre-primary plan of Harold Love, Detroit attorney which the Republican state central committee shelved. The Detroit News endorsed this plan. This does not stop anyone from being a candidate. All it does is to give the party stamp of approval to one candidate for office.

The new school plan sponsored by the Better Schools Committee will not be on the ballot in Nov. It has been withdrawn. It provided for a different distribution of school money where the cities would get more and the rural districts less. The Conlin plan will be the only one on the ballot. It changes the sales tax distribution whereby the rural districts get more money.

Meetings will soon be held at the seaport cities of Michigan to get them to improve their harbors for the St. Lawrence artery.

The proposal to legalize bingo will be on the ballot in November. Some think it should have been a local option affair whereby counties could vote whether they want it or not. The New York state law is that way.

A solution of an old quarrel between fishermen and outboard motor boatowners will be tried out at Silver Lake, 15 miles from Grand Rapids. The fishermen claim the boats scare fish. The owners will be asked to agree not to operate them after 5:00 p. m. on Mondays and Wednesdays.

CONSERVATION DEPT.

Four years ago work started on the Rifle River to stop erosion that made the stream cloudy and sluggish. \$200,000 was appropriated. The project was so successful that funds have been allocated to do the same with the Pine River in Oscoda and Lake counties.

1 wolf, 913 coyotes and 5339 foxes were bountied in May. The wolf and all but 27 coyotes were taken in the upper peninsula.

Due to rains no forest fires were reported last week. The first such week in 1954.

July and August are the months when most game animals are killed by autos on the highways. Heavy dew causes them to go to the highways to dry off.

The large gray flies buzzing in the north woods are beneficial to man as they kill off the tent caterpillars. The flies will be gone by the middle of July anyway.

Public auction sale of state owned land in northern Michigan will be held on July 22, 23. List of the land may be obtained from the Conservation Dept., Land Division.

The wild turkey experiment is being carefully watched. Three hen turkeys raised broods of young in the Allegan State Forest. Of the 400 eggs obtained from Pennsylvania 183 hatched.

A total of 9 inches of rain fell in Higgins Lake area in a 10 day period.

Three reports have been filed of deer damage to orchards in southern Michigan in Livingston, Oakland counties and Lake Odessa. Deer in the early days were plentiful in southern Michigan. Then as the land was cleared off they were exterminated and from 1890 to 1920 none were seen. Then they staged a comeback, protected by law and a developing range-of-state conservation land. They are much more healthy than northern deer and southern does have 2 fawns a year. Whether the increase will continue or not time will tell but if it does serious crop damage will follow.

13 100 YEARS OLD
Mrs. May Ella Caldwell of 7700 Gawley Road, Pinckney celebrated her 100th birthday June 30th at the home of her son, John. She formerly lived in Pinckney. SEEK STRANGER
Last Thursday afternoon an unknown man in a Chevrolet sedan with a Wastewick county license, pulled up to the curb in front of the John Schroeder home on West Main St. and tried to pull Ann Shirley Reason, 18 who was on her way home into his car. She broke away from him and ran on the Schroeder porch. He turned around and went back east. His car number was taken.

We are also informed that he had previously tried to get a Cavan and a Huhman girl in his car.

There seems to be a mixup on the number as the one given to the sheriff was not issued to Chevrolet car.

A car driven by Marshall Adams, 20, of East Ann Arbor, turned over Monday night at the curve at the Leo Davis farm on Patterson Lake Road. The persons in it, all from East Ann Arbor were injured as follows: Walter Page, 19, shoulder injuries; Joan Manor, 16, broken collar bone and Jean Manor, 14, head injuries. State police were called. The Pinckney kids played errorless ball but only got 2 hits off Dick Macken who had a fast ball with a break on it and control. Dick Higgs, pitching for Pinckney allowed 4 hits but walked 7 men. The Pinckney team made some very nice fielding plays. John Burg made a diving catch of a line drive, turned a scorsersal and came up with the ball.

CURRENT COMMENT

The more we hear about the Livingston election snarl the more confused it appears. In the first place candidates for office have never filed certificates of identity in this county until this year. This law has had a checkered career and was once ruled unconstitutional by the supreme court. It was first passed in 1941 and requested by Wayne county where many persons with the same name file for the same office. It only applied to counties with 600 000 population and the supreme court killed it. Another law was passed in 1945 applying the law to all counties irrespective of population. Few counties enforced it. This law has never been tested in the supreme court. The identification certificate gives your name, age address, states you are a citizen and have lived in the county long enough to be a candidate. Frank Bush, retiring register of deeds found out they were required but had never been filed by candidates and called it to the attention of the election commission who refused to bar the candidates from the ballot. Bush appealed to Robert Montgomery election commission at Lansing who ordered Haack and Gatesman, Republicans and all the Democrat candidates who had not filed certificates barred from the ballot. The other Republican candidates were tipped off and filed certificates just before the deadline. The candidates who were kicked off the ballot have started court action to get back on the ballot. Judge Carland set the trial for July 9. Stanley Berriman and Francis Barron are attorneys for Haack and Martin Lavan for the Democrat candidates.

Drive-in theatres seem to have appealed to the public and are getting their share of theatre patronage. Now Drive-in Church Service has been inaugurated. Beginning on July 1st 7:00 p. m. each Sunday night at Miller Road Bible Church at Miller and Rosedale Roads, near Lansing will inaugurate such service. Services of a like nature have been held out doors before but were never continued for any length of time. One minister here held Sunday evening services on the public square, in Dexter a minister used the park using the bandstand as a pulpit where a small organ was installed. They drew good attendance but ministers who followed them discontinued. Only recently Rev. Hainsworth another Dexter minister started preaching from the housetops but had to quit as housetops were too scarce.

The Republican party is still in awe of Senator Joe McCarthy who shows them around when he feels like it. The national chairman of the Republican party recently made a statement that the national committee was not planning to use Senator McCarthy as a speaker this fall. More recently Cong. Simpson of Penn., chairman of the campaign committee in a television broadcast contradicted this. He said Senator McCarthy will prove an asset to the Republican party and he will urge him to stump for all the G.O.P. candidates who so request it and that he is certain they can elect more candidates if they use McCarthy. We think he is all wrong and that there would not have been any such fissure as the Army-McCarthy hearing if they hadn't tried to appease McCarthy. We doubt his popular appeal.

The Maine election showed he had some there. Senator Potter of Michigan is the only senator in the inquiry, except the 3 Democrats who has dared to stand up to McCarthy. He wants all McCarthy inquiry aids fired which he will probably not get with his party in its present state of mind. Senator Ferguson of Michigan has refused to take a stand and has had several letters published in praise of McCarthy. We remember 2 who were made of sterner stuff.

When Teddy Roosevelt was president he was scheduled to speak at a big Republican meeting in Chicago. When he found Senator Lorimer of Illinois who was being investigated on charges he had bought his election was to be at the speakers table he refused to attend. Lorimer was later unseated. Back when Al Smith was scheduled to be nominated as governor of New York he was informed that the convention intended to nominate William R Hearst, the publisher as U. S. Senator on the same ticket. He said "Gentlemen if you do that get another candidate for governor as I absolutely refuse to run on any ticket with that SOB." They changed their plans and Royal Copeland, formerly of Dexter was nominated for senator and elected.

County Officials Ignore Law for Years

Now Seek To Use It To Control Election

John A. Hagman, County Clerk, on the advice of Wilfred Erwin, Prosecuting Attorney, has refused to certify all the Democratic candidates for county office, who have regularly filed petitions.

These gentlemen claim to be relying on a law which they, themselves, up to this time, have ignored although the prosecutor has been in office for nearly 8 years and the clerk for nearly 40 years.

We understand that some Republican candidates have also been refused a place on the ballot by these same gentlemen.

We understand that there is pending in the Circuit Court a petition for a writ of Mandamus against John A. Hagman, County Clerk.

We believe that Republicans and Democrats alike are not in sympathy with keeping competent, capable candidates of either political party off the Election ballot.

We believe that the Republican voters of Livingston County, AS DISTINGUISHED FROM THE REPUBLICAN OFFICE HOLDERS IN THE COURT HOUSE believe in and will insist on fair play.

The Democratic party will take whatever steps are necessary to give the people of this County an opportunity to VOTE against the Republican office holders now occupying the court house.

The Berry Patch

 Stop in at The Berry Patch and see the sheer charm of their many beautiful gifts. You'll agree that their wonderfully priced selection has just everything in eye-catching appeal. Gifts from this store means gifts of the utmost distinction. During one of my shopping tours I noticed the beautiful windows of this shop. I just had to see what was inside. Here, I found exactly what I expected to find — A PLEASANT PLACE TO SHOP — quiet, unhurried, and with the most fascinating selection of gifts. I found it to be the logical place to find that especially charming gift for an especially charming friend. I don't know everything — BUT I do know that you'll find the solution to your gift hunt at this delightful shop. Their selection is varied and beautiful.

CULLIGAN SOFT WATER SERVICE

2921 JACKSON RD. NO. 8-8522
 Before water conditioners were perfected, the only soft water available was when the housewife hoarded rainwater from one downpour to another. However, making soft water out of hard water is one of our finest improvements. It offers many ECONOMIES IN TIME, LONGER LIFE FOR FABRICS, and BETTER LIVING. We now have soft water the CULLIGAN WAY. Installation of a Culligan unit is a simple operation. It is connected to your water supply in your home. It provides you with clear, soft water from your tap. The unit is exchanged at regular intervals. Once a month you receive a bill. That's all there is to it. You buy no equipment and you have no maintenance work. SOFT WATER MEANS — your clothes last longer, there is no gummy curd or greasy film in sinks and bathtubs — cooking is EASIER and TASTIER. SO, FOR HEALTH and ECONOMY call the Culligan Soft Water Service and ask for information on their wonderful unit.

WILLIAM L. HAACK
 CANDIDATE FOR
REGISTER OF DEEDS
 REPUBLICAN CANDIDATE

Through no fault of my own I have been deprived of the right to have my name certified on the ballot as your candidate for the office of Register of Deeds in the Republican Primary to be held Tuesday, August 3, 1954.

The decision was made by the present County Clerk, John A. Hagman, a member of the Livingston County Election Commission who acted upon the advice of his legal advisor.

I have employed Counsel and taken legal action to have my name placed on the ballot. The date of the hearing has been set for Friday July 9, 1954 at 9:30 A. M. at the Court House in Howell, Michigan. I wish to announce that I am still a candidate for the Office of Register of Deeds on the Republican Ticket. Thus, with your help and support I hope to be on the ballot in the November election.

I earnestly solicit your support and vote.

Sincerely Your

WILLIAM L. HAACK

We're Ready For Tomorrow

Yesterday's railroads could not have done today's American possible. But today's railroads are doing what yesterday's railroads hardly would be possible. Today's railroads enabled America to become a single nation spanning a continent — our amazing America of today. Tomorrow's America will be as dependent upon railroads as it was yesterday. A greater America is urgently without railroads capable of caring for its vast, vital, growing traffic needs. By these railroads are preparing for tomorrow's task. They have poured billions into their plant — no adaptable mechanical, technical or scientific detail that can make them adequate for the nation they must serve has been left out. America and its railroads are marching hand-in-hand to meet tomorrow.

Mr. and Mrs. Desmond Walters farm about 90 acres in St. Clair County. They are general farmers with a milking herd of 12 cows. They also keep 200 to 500 laying hens, and raise 500 broilers a year.

The Walters keep their farm freezer packed with meats, fruits and vegetables, either home-grown or purchased. Mrs. Walters says she doesn't know how they would get along without it. She finds freezing easier than canning, and loves the convenience of always having tasty food at her finger tips.

You, too, can enjoy better meals and extra convenience the year round with a farm freezer. For full information see your Edison Home Service Advisor.

Good wiring is always important. So always ask your Farm Service Advisor for his recommendations.
