Volume 71 — THE PINCKNEY DISPATCH — Wednesday, July 14, 1954 — No. [illegible]

MICHIGAN ★ MIRROR ★

The do or die period in the primary campaign. is at hand. The big news of the week was the offer of 8 Democrat senators from Washington to come into the state and campaign for Blair Moody, Democrat candidate for U. S. senator who is ill in a Hancock hospital with virus pneumonia, unable to campaign. His opponent, Patrick McNamara saw an opportunity for publicity and sent each of them bristling telegrams demanding they stay out of the state and let Michigan run her own affairs. He also sent former President Truman and Adali Stevenson similar telegrams although they had indicated no desire to campaign for Moody.

Actually McNamara is not conceded much of a chance to beat Moody. While Gov. Williams has not declared himself for Moody there is little doubt that he will support him. Moody can do no campaigning but will address the voters over a state wide television hookup July 29.

Williams is seeking to disown George Fitzgerald who has bolted the party in the past and is now opposing Phillip Hart, Williams choice for lt. governor.Except for Dr. Gene Keyes of Dearborn a candiate for gov the Republican primary is running smoothly although the same arguement is being used against Hale Brake, another candidate for governor as the one that proved so effective against Senator Robert Taft in 1952- "If he is nominated he cannot be elected." Leonord and Cleary seem to be favored and the other candidates do not seem to have the war chest they do.

Both Republicans and Democrats are taking credit for the fact Michigan is out of the red and in the black for the first time in years.The corporation and business receipts tax are responsible for this.

While the primary battle may get hot the final weeks, the big battle is expected in November as Michigan is considered a vital state.

TWO GAMES FRIDAY NIGHT

There will be 2 soft ball games at the Pinckney lighted field Friday night. At 7:30 Dick Kennedy's Teeners will play St. Joseph's team of Howell. This team has not lost a game. John Kennedy, Dick's cousin is the star left fielder on it. Pinckney must get a new pitcher as Dick Higgs who pitches for them got his hand caught in a door, breaking the bones in it.

In the 8:30 game Pinckney will play the Howell City Service. They were rained out in their first game. The team has been strengthened by the addtion of Joe Jeffreys and Gus Ledwidge.

Remember the boys need enough patronage to pay for the lights.It is now planned to put on the old timers game July 29. Don Swarthout and Stanley Dinkel will be captains. Complete lineup later .

Pinckney play at Cassidy Lake on Monday, July 19. Leave Pinckney at 6:00 p. m.

Are Placed on Ballot

In circuit court at Howell Friday Judge Mike Carland of Owosso granted a writ of mandamus requested by William Haack, Republican candidate for register of deeds and ordered his name put back on the ballot from which it was deleted by order of the county election commission. He also extended the order to include Charles Gatesman, Republican candidate for prosecutor and the entire slate of Democrat candidates who were likewise deleted by election commission

The trouble started several weeks when Frank Bush, retiring register of deeds called the attention of the election commission: Judge Hiram Hiram Smith,JohnHagman and Mrs Jennie Eastman to the fact that few of the candidates had filed the two identification affadavits requred by a 1945 law, seldom used in the rural counties. It was requested by the county of Wayne where many candidates with the same name sometimes run for the same office. The election commission refused Bushe's request so he went over their heads to the state. election commissioner Robert Montgomery who ordered the names of all candidates left off the ballot who had not filed the affadavits.The legal action followed.

Ye editor attended the trial with Supervisor Stanley Dinkel, chairman of the board of supervisors, most of whom were present. The court room was well filled. Attorneys Stanley Berriman,Francis Barron and Harry Mead of Milford represented Haack. J. Munsell, Gatesman and Martin J. Lavan, the Democrat candidates. Prosecutor Erwin who appeared for the election commission was assisted by Assistant Attorney General Russell Searles.Robert Montgomery,state election commissioner was also present.

The depositions read by the attorneys showed that both Hack and Gatesman asked the county clerk when they filed their petitions if anything further was required and were told no. That of the candidates who were certified that only Erwin, candidate for prosecutor and Frank Gould for register of deeds filed the affadavits of identification before the 4:00 p. m. deadline June [illegible] others certified filed 45 minutes after the deadline. That such certificates had never before been filed in this county. That the county clerk had been personally acquainted with William Haack for 28 years and there was no question as to his identity. .

In rendering his decision Judge Carland confined his ruling to constitutionality of the law. He ruled that the state constitution prescribes the oath all public officials must take and no other qualifications can be imposed and read some decisions to that effect. He also ordered the county clerk to have the ballots printed at once. They are late now as they are supposed to be in the hands of the township clerks 30 days before the election which is August 3 to allow time for absent voters ballots. The prosecutor talked of an appeal but by the time an appeal was filed and acted on the election would be over. The supreme court is now in recess. Frank Bush who started the preceedings was not present. It was said he had left Howell Tuesday morning.

At a court session Tuesday Judge Carland ordered the names of Floyd Munsell, Republican candidate for drain commssioner and Clay Gordon county surveyor off the ballot. The petitons they filed were not signed by persons who circulated them as the law requires.

CURRENT COMMENT

We were surprised that the Republican centennial at Jackson last week did not arouse more interest and enthusiasm. Livingston county had a float but it was made in Jackson and did not pass through the county. The 50th anniversary in 1904 got much more publicity. Then there were many men still alive who helped organize the party and the papers published lists of those who had voted for General John C. Fremont,conquerer of California and the first Republican candidate for president in 1854. He was not elected. One of the causes of lack of appeal of the centennial was the absence of President Eisenhower who elected to spend the week at a Maryland summer resort. One would think that honoring the birth of his party would transend all things but he did not think so and the gathering had to be satisfied with Vice President Nixon. He stressed party unity in his speech which caused the Detroit Free Press to remark that the 2 things most stressed at all political gatherngs are party unity and more ice from room service. Some Republican big shots still maintain that the Republican party was born in Ripon, Wis. and the first convention held in Michigan.

With the fall of Indo-China to the Communists this country has lost her leading position in foreign affars and lieing awake night for fear that Communist China will be admitted to the United Nations. On Winston Churchill's recent visit here he hinted such a move might be forthcoming. France is also said to be willing to compromise with China. Both give as their main reason that China trade is vital to them. This has caused fireworks in the United States Senate and several resolutions have been introduced to the effect that United State withdraw from the U. N. if Communist China is admitted. President Eisenhower and Secretary of State Dulles are against this. They say there is time enough for this if China is admitted and such a move now would be regarded as a threat and attempt to put pressure on the U. N. Failure to make good on our bluff is primarily responsible for our loss of prestige in foreign affairs. Time and again the president, Secretary Dulles and other senators stated we would never let Indo-China fall to the Communists but when the fatal moment came we did nothing. We agreed to a cease fire and peace conference in Korea. No peace has been arrived at and will probably will not be. In the meantime the Communists are taking over the country.Senator Knowland Repubican party leader recently accused his party of having no fixed foreign policy.

We are amazed with the ease by which school bond issues go over by big majorities. It is seldom one is voted down Fowlerville has just approved a $550,000 one. It was not always thus. 25 years ago Stockbridge voted on their high school bond issue several times before it was approved. The same thing happened 25 years ago when Brighton built their school. Then voting was restricted to property owners.Now those sending children to school can vote. The voting population has also changed and those who got their education in the little one room school are few.. The people who have movetd out here from the cities are used to modern school facilities and demand them.

Gov. James Brynes of South Carolina in a press release came out against the Anti-School Segregation decision of the supreme court which he has stated his state will not conform to. He says it will lead to mongrolization and indiscriminate intermarriage between the whtes and blacks. We wonder on what he bases hs assertion. In the north, take Michigan for example, the negroes and whites have mngled in the schools since the civil war and there there has been no great amount of intermarriage between the races.Segregation in the schools is unknown in this state. One southern woman has a solution. She would let the 2 races mingle in the grades but segregate them in high school.. This however would violate the supreme court decision.

ELECTRICITY

ENDS THREE-YEAR SEARCH FOR EFFICIENT GRAIN and BEAN DRYER

For three years, Harold Gremel, Huron County farmer, searched for a better way to dry his beans and small grains. Then, with some help from Edison Farm Service Advisors, he successfully developed this electrically powered system that enables him to dry six to seven thousand bushels of beans and grain per season. Result: He can harvest when his crops are ready and cut down weather losses. This means higher prices on the market.

Mr. Gremel farms 370 acres of land—100 in beans, 80 in small grain, 35 in beets—and milks a herd of 13 cows. As do many Michigan farmers, he is each year finding new ways to put electricity to work to lighten his load and give him greater security. For further information on farm electrical equipment, see your Edison Farm Service Advisor.

Good wiring is always important. So always ask your Farm Service Advisor for his recommendations.

From where I sit ... by Joe Marsh

What's New with Cows?

Catching up on my reading, I noticed three news items you might like to know about.

First, a farmer whose milk had a trace of garlic flavor is feeding his cows chlorophyll to sweeten their breaths.

Next, a college agricultural station has trained a herd to get milked when they are called by number. Seems 75 out of 80 cows learned their numbers in a few days. Guess the "dumb" five couldn't count that high. Final item—cows are getting "nose-printed" for identification.

From where I sit, I hope there is as much progress being made with humans . . . especially in regard to tolerance. Whether it's a choice of a political party, a basketball team, or a favorite beverage, let's learn to live and let live more. You may ask for a soft drink after a hard day's work—I'll choose a refreshing glass of beer. But let's not try to "cow" the other fellow into our way of thinking!

We're Ready For... Tomorrow

Yesterday's railroads made today's America possible.

Without today's railroads tomorrow's America hardly would be possible.

Yesterday's railroads enabled America to become a single nation spanning a continent—our amazing America of today.

Tomorrow's America will be as dependent upon railroads as it was yesterday. A greater America is unlikely without railroads capable of caring for its vast, vital, growing traffic needs.

Today these railroads are preparing for tomorrow's task. They have poured billions into their plant—no adaptable mechanical, technical or scientific detail that can make them adequate for the nation they must serve has been left out.

America and its railroads are marching hand-in-hand to meet tomorrow.

178 years ago the Declaration of Independence was adopted by the Continental Congress... This document set forth the purposes of men dedicated to freedom ever since.. It was here that the dignity and importance of the individual was first recognized in an official document of a government.

In all lines of American business the part the individual plays is a reaffirmation of the Declaration of Independence.

As a bank we are the custodians of the funds of many individuals of our community. We honor this trust and reaffirm the principles so clearly declared on July 4, 1776.

ATTENTION VOTERS!

The Livingston County Democratic Committee placed a political advertisement in this paper last week concerning the action of the County election officials in refusing to certify certain candidates to the ballot for the August 3rd Primary Election. The advertisement as published gives a false impression in that it does not tell the entire matter. The facts are as follows:

Sction 6.141 (1) Michigan Statutes Annotated states that an affidavit of identity must be filed by a candidate within three (3) days after the last day for filing nominating petitions. The last day for filing the affidavits of identity was June 18th. This has been the law for many years. None of the Democratic candidates in this county filed the necessary affidavits. Two of the Republican candidates failed to file the affidavits. The law says further that the County Clerk cannot certify any candidate to the ballot unless the affidavit is filed within the time prescribed. Criticism has been directed toward Mr. John A. Hagman, County Clerk, for not certifying the candidates who failed to file this affidavit. If Mr. Hagman had certified the candidates, he himself would have violated the law. Frank D. Bush, Register of Deeds, by letter of June 26th, reported to the Secretary of State, that County Clerk Hagman had ordered proof ballots printed including the names of all candidates, both Republican and Democratic and that some of the candidates had not filed the required affidavits. Mr. Bush pointed out to the Secretary of State that it was the duty of that office to investigate such matters. On June 28, 1954, Mr. Hagman was advised, in writing, by Mr. Robert Montgomery, Director of Elections for the State of Michigan, that he should not certify any candidate to the election commission unless that candidate had filed the required affidavit. Mr. Montgomery further advised Mr. Hagman that the Attorney General of Michigan concurred with him in this matter and would take action against Mr. Hagman if he did certify the candidates who had not filed the required affidavits. After the County Clerk had received this word from the State Director of Elections he consulted with Prosecuting Attorney Wilfred H. Erwin who advised him that he should follow the directions given by the State Director of Elections.

For the above reasons it is unfair to criticize Mr. Hagman or any of his advisors, for his action in refusing to certify the candidates to the ballot. If anyone wishes to direct criticism in this matter they should direct it at the legislature for requiring an affidavit of identity in a county where all of the candidates are obviously well known to the election officials.

Some of the candidates who were not certified filed mandamus actions in the Livingston County Circuit Court to ask that the County Clerk and the election commission be ordered to certify them to the ballot. These cases were heard by Circuit Judge Michael Garland on July 9th at which time Judge Garland held that the state law requiring the filing of the affidavits of identity was unconstitutional and invalid and thereby ordered all petitioning candidates certified to the ballot.

No Republican candidate sought to control the election in this county as is most unfairly inferred in last weeks advertisement. They were merely following the state law which has since been declared invalid by the Livingston County Circuit Court. The attorney general's office has indicated that they may appeal Judge Garland's decision in order to obtain a decision of the Michigan Supreme Court in the matter.

We urge every registered voter to go to the polls at the Primary Election on August 3rd and vote for the candidate of his choice.
