Volume 72 THE PINCKNEY DISPATCH Wednesday, September 21, 1955 N. 38

MICHIGAN MIRROR

Republican legislators do not like the special session called by Governor Williams for next month for by its means they think he expects to put them over a barrel especially on mental health.The other subjects for consideration are traffic and aid to schools.

All these problems have been kicked around for years and the trouble is there have been too many solutions offered but none agreed on. The Republicans known if they stall during the two months special session they will be furnishing the governor with excellent campaign material for next year. So they will are demanding the governor furnish a specific program for all 3 issues.

Other groups are working on traffic. The Michigan Press has a committee working with traffic experts and state officials. Muskegon county has worked out a program which is being copied in many other parts of the state.

A program for mentally retarded children has been discussed for the past decade. At present there are 1500 mentally retarded children and there is no place to send them. Lapeer is full to overflowing and the move to convert some of the TB hospitas into mental hospitals has been blocked by the board of health. Gov. Williams wants new building and a new staff of doctors for them.

Education is a major state problem. Floods of new stutants are crowding the schools and creating a teacher shortage. Dr. Clair Taylor supt. of public instruction wants a $200 month raise or 50,000 teachers out of surplus funds. The governor would uee $10 million of the surplus for this.

Rep. John McCune of East Lansing wants beer and liquor advertising investigated especially one that urged motorists to stop along the road for beer on Labor Day.

CONSERVATION DEPT.

At present 60 miles of Michigan's 15000 miles of streams are restricted to tront fly fishing only.

Clinton county has a new public fishing site on the Looking Glass river 5 miles east of DeWitt where the dept. bought 924 acres of land.

The dept. has accepted the Tobico marsh, an 869 acre tract 8 miles from Bay City as a wild life area.

It is estimated 130,000 pergons will hunt ducks and geese in Michigan this fall.

75 people mostly commercial fishermen, attended a meeting at Bay City last week to discuss restocking the Great Lakes with white fish, trout and wall eyes.

82 fires burned over 86 acres last week.

The dept. is selling 22,000,000 board ft. of state timber valued at $90,000.90 percent of it is pulpwood.

19 million pine trees are now available for fall planting.

The Williamston hunting plan now includes 48 farms and 200,000 acres of farm land.

35,000 archers are expected to take to the woods Oct.1 to Nov. 1 in the deer season.

Deer hunters will receive ball type deer seals again this year.

APPRECIATION DINNER

Mr. and Mrs. Lester McAfeee opened their home Thursday eve for an appreciation dinnger given by the 4 Notes Quartette, Jolean Bagydie, Carol Gerycz, Barbara McAfee and Nancy Nash.

SCHOOL NEWS

LOSE TO LINDEN 12 TO 6

Don Winger Reporter

The Pinckney Pirates opened their 1955 football season Friday by losing to Linden high school there 12 to 6. Both teams were evenly matched. Pinckney's downfall came when they had several fifteen yard penaltys called against them the last 6 minutes of play.

In the first quarter Linden scored the first five minutes when Quarter back Lucas ran right end for the touchdown from the 4 yard line.The attempted conversion by Price hit the crossbar. Pinckney then started to move with Burns and Campbell hitting the line and Higgs running end and they had the ball on the Linden 12 when the quarter ended In the second quarter the first Pinckney play went awry and it was second down and 15 to go. On next play with fine protection,Higgs faded back and threw a pass in the right flat to Don Packer who made a beautiful catch of the ball 6 inches above ground and ran for the touch down. Dyer's bad pass from center spoiled Packer's conversion kick.

The teams played tight football until midway in 4th quarter when things began to happen. At this point Pinckney had the ball on their own 27 yard line after the teams had seesawed back and forth. At this point instead of kicking on 4th down with a yard to go they sent Chris Campbell through the line,He failed to make the necessary yardage by about a foot. Linden made a couple of gains through the Pinckney line and then Pinckney drew a 15 yard penalty putting the ball on Pinckney 2 yard line. Don Lucier went over for the Linden touchdown but Linden again failed to convert. Pinckney got a break when they recovered a Linden fumble on the Linden 29 but they drew another 15 yard penalty and on the next play someone got their signals mixed and the ball sailed through the backfield and Pinckney fell on it on their own 29 yard line. The game ended here.

Next week Pinckney plays Sand Lake on the home field at 8 p. m. Come out and support the team.

CURRENT COMMENT

Street cars in Detroit will soon be memory as a deal has been made to sell all the remaining ones to Mexico where they are still used. It was not so long ago that these cars were considered the last word in transportation and one of the thrills in going to the city was to ride on them. The many different cars all of which operated on different streets were confusing to one not familiar with the city and it took a wise man to get the right car. Detroit's first transportation were the old horse drawn cars which started back in 1863. They were drawn on strap rails by one horse and some times two. They had no seats and were unheated in the winter yet they were used until 1895 when the road was electrified. The old horse cars were hard on horses and the disabled ones were sold every year. Farmers eagerly bought them as they were usually young and after months on a farm restored them to health. In late years more and more busses have been replacing street cars. Their advantage is they require no track trolley or power house and can be moved anywhere.

In regard to horses the Detroit fire department used horses until World War 1. They were fine animals and were trained to go to their places when the fire bell rang. The harness was suspended in front of the engine they pulled and it was lowered on them. They travelled at a gallup and a horse drawn engine going to a fire was a sight never to be forgotten. Like the streetcar horses they eventually became pavement sore and had to be retired. I have seen many of them which had been purchased by farmers. The teams were matched and different fire houses had different colored horses .

Did you know there is nothing in a names which cannot be changed and that over 1000 people a year get their names changed in the probate court in Wayne county. It costs about $15. The requirements are simple. You must be 21 years old have a valid reason for changing it and the name your choose must be sensible and in good taste. Most of those who get name changes are foreign born who have long names difficult to spell or pronounce.

We read that a Chicago woman has started suit against 41 taverns there for $490,000 for making her husband a drunkard. She sued under the Illinois Dram Shop Act which maks a tavern responsible for acts committed by a patron while under the influence. Of course all these taverns are bonded and the bonding companies will foot the bill if the woman gets a verdict.

Maj. Gen. Roscoe Wilson, commander of the Third American Air force based in England says the bonds between this country and England are getting stronger and stronger and mentioned the fact that 250 marriages a month are taking place between American airmen and English girls. This of course holds true in most any foreign country in which American troops are based.

Th village of Utica in Macomb county was again without a water supply last week due to the presence of chromium waste in the Clinton River from which they get their water supply. The waste is dumped in the river by Pontiac industrial concerns. Last July the same thing happened and Utica village had to haul water in by tank cars. This time Utica is going to do something about it and has asked the prosecuting attorney to start suit against the City of Pontiac for allowing the waste to be dumped in the river We never could see this use of river water. It would be much safer to use water from deep wells as many other cities do.

The Jack Young, Kenneth Fry and Don Burns families spent Sunday with the D. Conklin family in Grand Rapids.

Mrs. Joan Fisher Falk and son, Michael of California who have been spending their vacation with her parents, the Owen Fishers of Portage Lake return to California this week.

130 people from Lane Hall, Ann Arbor attended the U. of M. Rendouvez at Patterson Lake Thursday, Friday and Saturday.

Billie Rowell, son of Mr. and Mrs. John Rowell of Patterson Lake who graduated from Pinckney high school last June and was a 3 letter man in athletics, has enlisted in the U.S.Marines and left for the marine base at San Diego, California last week.

Mr. and Mrs. Mark Holmes of Lakeland leave for Arizona this week. Mr. and Mrs. Al Dewey have closed their restaurant at Hi-land Lake and gone there also.

Mr. and Mrs. Don Goodremont have returned from California where they visited their daughter Mrs. Charlotte Hales and family at Oceanside for a month. They were all over California, San Francisco and Disney Land and saw Abbott and Costello, Lucille Ball, Victor McLoglen and others. California is a great place for young people but they like the old Chalker home at Patterson Lake best.

100 people and a plane searched for Neil Buchanan in a cornfield at Fitchburg Friday but did not find him. He is the negro convict wanted for the Herrick murders at Stockbridge.

Oscar Beck has been elected to the new county hospital board, the only one from Pinckney so honored.

Robert Twitchell has bought 150 feet of frontage on M-36 east of Oscar Beck and will build. It is on the old Plasko farm.

Howard Thayer, Rudolph Keppen and Rev. Winger attended the charter night at Charlotte last Wednesday of the Kiwanis club.

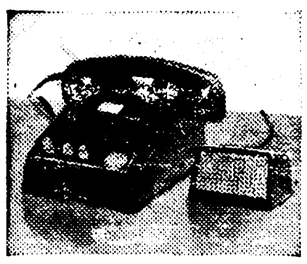
MICHIGAN BELL TELEPHONE lines

THIS IS THE FIRST in a series of columns written to keep you posted on new and interesting telephone items. Almost every day technical inventions appear on the scene and unusual stories about telephone service come along. We'd like to tell you about them. And then, too, we'd like you to get to know us better and the things we do to make sure that you get the best telephone service in the world.



HAVE YOU HEARD about the new "hands-free" Speakerphone? You can hear and talk to the person at the other end of the line without lifting the handset. It's done with a small microphone and a pint-sized speaker. This isn't just an experimental model. Hundreds of these telephones are in use in offices, hospitals and in homes, too. It only costs $6.60 a month extra, including federal tax.

HERE'S A QUIZ to try on your family. It's been found that most people guess too high when asked about Long Distance rates. What would you say the rate would be for a three-minute station-to-station call after 6 at night to Indianapolis, Toledo, Chicago, New York, San Francisco*? Here's a clue: Did you know that you can call any place in the United States for $2 or less?

*Answer

Indianapolis 60c, Toledo 40c, Chicago 60c
New York $1.05 SanFrancisco $1.90

From where I sit ... by Joe Marsh

...Makes a Man Healthy, Wealthy—and Tired!

Sandy Peterson's nephew Pete has gone back to college. He worked on Sandy's farm a couple of months last summer to get hardened up for football.

He seemed to enjoy farm life all right—but like most city kids it took him some time to get used to a farmer's schedule.

Sandy claims that when he went in to wake Pete—on the first morning—the boy looked up startled and asked what time it was. Sandy replied it was four-fifteen. "Gee," Pete murmured, "if we're going to do a day's work tomorrow *you'd* better get to bed!"

From where I sit, we must have heard a million stories like that. But they show how some people assume *their* customs are the only proper ones. To most city folks getting up at 4:15 seems odd, because *they* don't do it. Just like some people don't think enjoying a glass of beer is "right" . . . because *they* happen to prefer another beverage and haven't waked up to the fact that everyone has a right to his own choice.

Fertilizer 'Best Buy' Compared to Other Items Farmers Use

FERTILIZER is still in the "best buy" class on the farmer's shopping list, Michigan agronomists report.

These soils men point out that plant food has gone up less in cost than virtually any other commodity a farmer buys. Yet fertilizer is a production item that increases crop yields and profits and often returns $3 to $5 for every dollar invested.

R. L. Carolus, Michigan State College agriculturist, reports that the cost of fertilizer today is only 7 per cent above that of 25 years ago, whereas the cost of other farm supplies has increased by 125 per cent.

Since 1930, fertilizer use on American farms has increased from 5½ million tons to 21 million tons at present, the Middle West Soil Improvement Committee points out. As fertilizer use has risen, its crop-feeding power has steadily been increased by the manufacturers.

A number of the high analysis nitrogen-phosphate-potash fertilizers today contain twice as much plant nutrient as did the older, lower grade fertilizers 25 years ago, the committee says.

VANWINKLE & VANWINKLE
Howell, Michigan
Sept. 8, 1955

Mr. Stanley Dinkel
Pinckney Michigan
Dear Mr. Dinkel:

We have looked into the legality of setting up a police commission for the Village of Pinckney.

As we understand it, the proposal was that the Commission consist of a councilman and two electors to be appointed by the council. This commission was to have authority to hire and fire and control the Village Marshall and if necessary appoint such other policemen as necessary. They would also have the authority to require certain monthly reports.

After checking through the pertinent statutes which govern the Village of Pinckney, it is our opinion that such a Commission would not be permissable. According to the statutes, the President of the Village is given the power to appoint a marshall and the Council is given the power to authorize the President to appoint such other policeman as they deem necessary. In addition, the statutes already call for Marshall of the Village to make certain monthly reports to the Village Council. It would appear that the commission would be ursurping the powers of the President and Council and would therefore be illegal.

The statutes make the Village Marshall the Chief of Police of the Village. He is subject to the direction and control of the President and Council. He is required to keep a record of all arrests and the cause thereof, and shall enter therein within twenty-four hours after any person shall be arrested, the name of the person so arrested, the cause of the arrest, the age and nationality of the person arrested and if discharged without being taken before a Court the reason for such discharge, which record shall be the property of the Village. In addition the Marshall shall report in writing and on oath to the Council at their first meting in each month all arrests made by him and the cause thereof, and all persons discharged from arrest during the month, also the number remaining in confinement for breaches of the ordinances of the Village, and the amount of all fines and fees collected by him. All moneys collected or received by the Marshal unless otherwise directed in the statutes, shall be paid into the Village Treasury during the same week when received and the Treasurer's receipt therof shall be filed with the Clerk.

It would appear that the statutes rather clearly set out the law enforcement setup for a village such as Pinckney, and that the setting up of a police commission would be an unlawful delegation of autthority from the President and Council to the Commission.

Yours very truly
