SNOW IS FULL FOR THE kids. But it sure can be disappointing for grownups, especially when it means that trips to visit iriends and relatives have to be called off. Don't let the miles keep you apart when blizzard: blow and the weather ion't fit for man or beast. Get to-

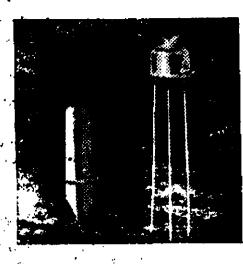

gether by telephone. Long Distance rates at a low and you can talk as long as you want. Remember when Old Man Winter spoils your trip, enjoy a visit the comfort able way—by telephone.

EVER THINK HOW

convenient public telephones are? They're your phone away from home. When you're out shopping or traveling, the public telephone is the best way for you to keep in touch. Call home if you've forgotten something or want

to check on the children. Call ahead to let folks know if you're going to be late. Public phones, whether in convenient outside booths or in the stores where you shop, are ready to handle your calls. Let them help keep your mind at ease.

THE TINY TRANSISTOR

The tiny transistor (shown here with a pen point to give you an idea of its size) is an electronic marvel. One of these days when you make a Long Distance call, your telephone operator will use transis-

tors like this to help put your call through. This tiny electronic device generates musical tones which will automatically connect you with the number you're calling. For inventing transistors, three telephone scientists working at Bell Laboratories were recently awarded the Nobel Prize.

Who Started The Christmas Tree?

A MINIATURE 200 hanging | children, since is was the only from a Christmas tree may be object on the stage. out of place there. Like many plays stepped, but people want-other Christmas spabols and led the Paradise trie and brought

When and where did Christ- (Adam and Bve. mas trees begin? Some say the | DUT DECEMBER 24 was also Christmas tree comes from the Christmas eve. From easily fines, ancient Yule tree and pagan to beautiful oustom was prec-fire customs. But Wis is more bleed on this day in all Christian guessing and doesn't fit the

facts. THE CHRIST. Mas tree is a combination of symbols, from medieval days,

religious plays used to be per-fermed in churches or outside that from the wooden pyramid in front of churches. One of ther and put them on the Paradise most popular of these "mystery" tree. The Christmas crib which plays" as they were called, washhad stood at the foot of the the Paradise play. It sold of the pyramid, was new put under the creation of man, the sin of Adams tree. The "star of Bethlehern" and Eve, and their expulsion from the top of the pyramid was from Paradise. This play closed new fastened on the tree. Thus with the consoling promise of our modern Christmas tree was the coming Saviour. For this born. reason the Paradise play was all

Christ. Eden was indicated by a fir tree No child should have to spend hung with apples, from which Christmas without learning the Eve broke the fruit and gave it religious meaning of his Christto Adam to eat. "This "Paradise imas tree, a reminder that Our tree" attracted the attention of Lord is his Light and the Light all enlockers, especially the of all the world.

By Bev. F. X. Weiser, author, THE CHRISTMAS BOOK

After a while : jac , mystery customs, the Christmas tree has it into their hemograph December a deep and spiritual significance. 24, the feast day in honor of

> "Christmas light" was burned as a symbol for Jesus Christ, the light of the world that started shining at Bethlehem. In Germany the Christmas

eandle used to be piaced sa tep of a wooden pyramid-like siructure, adorned with glass and the Paradise tree and the timest. But soon the puople Christmas light, and () began in metterd that the Paradist Red Hopic was a boautiful and sive From the eleventh contary on I pyramid. The next stop was to

"This leaves an annual deficit of 340,000 tons of nitrogen, phosphate and potash, or more than a million tons of complete fer-

tilizer that is removed from the seil without being replaced."

The Minnesota soils men report that the biggest nutrient loss comes in the form of nitrogen. Last year, crops took 259,-000 tons of actual nitrogen from the soil. Only 33,000 tons of ni-

the soil. Only 33,000 tons of nitrogen was applied last year.

Crops used up about 130,000 tons of phosphate and 107,000 tons of potash last year. Farmers put back 76,910 tons of phosphate and 43,000 tons of potash. Thus the soil was short 53,000 tons of phosphate and phosphate and 84,000 tons of potash. tons of phosphate and 64,000 tons of potash, the committee
