Volume 74 — THE PINCKNEY DISPATCH — Wednesday, February 13, 1957 — No. 6

MICHIGAN MIRROR

What happens to a town when a a main highway is routed around it instead of down the main street? This question will be raised with increasing frequency during the next few years when 800 miles of new multiple highways are constructed across Michigan.

Limited access highways will form a large part of the plan. They offer unequalled safety with divided multiple lanes, controlled entrances and by passes around towns and cities. But merchants and villagers are beginning to fear that bypasses will endanger their economics structure. Their fears may be limited. There are now 163 miles of controlled high ways and surveys made by the United States claim that towns they by passed were improved by them, especially in California and Texas. [illegible] no new business can be built along roads with limited access Motorists must turn off at some point to eat, find lodging or buy gasoline. Sturgis which was bypassed by 4 miles increased her motel and hotel business by 25 percent. Chelsea bypassed 9 years ago grew. Andy Nielsen, village president, said the merchants decided to be efficient. They decorated their places and erected 2 signs on the new highway costing $1500 each extoiling the merits of Chelsea. On the other hand Parma lost 25 percent of its bsuiness when by passed two years ago.

Michigan's one man grand jury will probably come under legislative scrutiny this year. Attorney General Kavanaugh is against it. He says it gives more power to one judge than was intended by the constitution.

A grand jury can only obtain evidence that can be used in a courtroom trial The key to its power is that it can grant immunnty against prosecution to a witness who testifies.

Michigan law [illegible] for a one man grand jury and a 22 panel grand jury Only the first has power to grant immunity. Kavanaugh wants the 22 panel jury given that power.

CONSERVATION DEPT.

The number of deer killed last year by highway traffic in Michigan was 3127, an increase of 22 percent over 1955. There were 1463 killed in 1953. 1240 were killed in the upper peninsula and [illegible] in the lower.

The number of small game hunters increased 22 percent last year.

Farmers who wish to make use of the National Soil Bank must sign up by March 15 This is expected to take 25,000,000 acres out of production and turn them into grass lands.

The mild winter is beleived to have reduced deer starvation..

ONCE LIVED IN HOWELL

Gary Taylor, 22, who has confessed to shooting 8 women around Royal Oak with a 22 rifle, formerly lived in Howell where his faher had a gent's furnishings store. This was formerly the Charles Adamse store. The family left Howell in 1951 when Gary got in trouble and went to St. Petersburg, Florida. Here Gary was arrested for assault but acquitted. Eventually the family came to Royal Oak. Gary spent one summer at the U. of M. Fresh Air Camp at Patterson. Lake. Gary has an older brother named Ted. We knew the family when they lived at Howell.

BASKETBALL GAMES

Pinckney put up a good game with South Lyon on Friday night and were ahead all the way until the last 3 minutes. At times their lead was 12 points. They changed their style of play and rang up a lead the first quarter and held it until the final minutes. Alvin Simonson was hot for Pinckney the first half and got 13 points. He did not get any in the last half. Capt. Tom Wylie* was high scorer with 14. In the final period Pinckney lost her stuff and only scored 3 points while South got 17. Pinckney again fell down badly on the free throw line only making 9 while South Lyon got 17, Poor work on the free throw line has cost the Pinckney team several games this year. They used to be good on free throws. Then they practised noons in the gym. Now the grade teams have the gym noons. The Pinckney Reserve team lost 81 to 22. Boysville plays 2 games here Friday nite.

The Pinckney girls won their 4th straight game last Wednesday by defeating Stockbridge there 31 to 9. For Pinckney Cathy Wiltse had 16, Della Davis 10, Midge Higgs 4, Donna Basydlo 4 Jolen Basydlo and Bonnie Lee each 2. The girls play at Hartland Thursday.

PINCKNEY SCHOOL BOARD

February 7 1957

Regular meeting of Pinckney school board held at high school at 7:00 p. m., Present: Hollingsworth, Russell, Kennedy, McAtee, and Bonner Absent: None.

Called to Order by Pres. Hollingsworth.

Committee on Pettysville school recommendd it be sold. The Secy. was instructed to ask legal advice on method of sale [illegible] that it must be approved by the electorate.

Motion by McAtee, supported by Kennedy that windows in Pettysville [illegible] be boarded to stop [illegible] of [illegible]. Carried.

Report on inspection of school by state fire [illegible] was read [illegible] several adverse findings [illegible] be corrected. The business manager was instructed to accept bids [illegible] and the extension of steam heat to the Art Room.

Supt. of Schools reported that the teaching staff is now complete with Mrs. Crawford, Mr. Bernhardt and Mr. Dangel joining our system,

An interim financial report was given by the Supt. , showing that our system is within the budgeted figures for operations but cannot, on present basis, reduce the obligations incurred in previous years. There were, in the main, capital expenditures for equipping the Elementary School and should have been bonded for the rapid rise in construction costs made the bond issue made [illegible] for this purpose and the income in the district since that time has not been sufficant to reduce this deficit.

The formation of a Citizen's Committee or Parent Teacher Ass'n. was recommended to the board to assist the system in a study of its problems and the best means of solving [illegible] an extension of past increase in enrollment shows that by Sept. 1960 the present number of class rooms will not accomodate our students.

A letter complaining of the bus service was read and referred to the business manager .

All bills were read and on motion by Russell, supported by Kennedy, were ordered paid

Meeting was adjourned.
Thomas R. Bonner, Sec'y.

Current Comment

We hear much of tax cuts as a panaca or cureall but nothing specific as each government dept. wants the cut to start with the other fellow. The arguement that if the people did not have to pay out so much money in taxes they would have more money to spend is a fallacy according to W. K. Kelsey. To hang the congressmen who voted to disarrange its economy in such way. If a big tax cut took place the nation would experience its biggest depression in history. and would create a demand for 531 telephone poles and 6000 yards of rope to hang the congressmen who voted for it. A great number of the nations factories are engaged in government work. They would all lose their contracts and there would be no money in the pockets of the millions of of people they laid off. These people would be unable to make their payments on the homes, cars etc, they have bought and the stock market would fall to zero. The security of a country depends on keeping the dollars moving Any such act as this would mean disaster despite the the speeches of Herbert Hoover, Senator Bryd and Secretary Humphreys to the contrary.

The State of Michigan needs more money and the legislature is said to be seriously considering increasing the sales tax one cent. This tax would be on the people as the other taxes under consideration such as coporation profits etc. are on big business. The Young Republicans meeting at Ann Arbor last week went on record as opposed to any increase in the sales tax This tax hits everybody. It was only a stop gap measure in the first place but has been on the books practically unchanged for 25 years. Back in 1932 when the 15 mill tax limit on property was adopted the state treasury was left empty. William Comstock then governor and a committee worked out the sales tax to refill the treasury until something better could be found. There was strong opposition to it and it was called the "Penny for Comstock Tax." It resulted in Comstocks defeat for reelection. Frank Fitzgerald who succeeded him promised to take the tax off food but never did. Rep. Gallade of Ann Arbor Young Republican leader has come up with a new idea. He would increase the tax on liquor 10 % to finance a college and hospital construction program of $200,000,000

There has always been dispute as to whether public funds could be appropriated or given to charitable organizations. The supreme court has just handed down an opinion in the matter. Their decision was that Felix Ramhat, chairman of the town board of Arthur and the other town board members must pay back the $1400 they voted the Red Cross and the salary increases they voted for themselves.

The barrage of ultimatums fired by the UN at Israel ordering them to give up the Gaza strip and the Gulf of Aquba to Egypt have had no effect and now they are threatening economicc penalties. That is the countries who belong to the UN will sell no food or supplies to Israel until she gives back the lands to Egypt. However it won't work unless this country agrees to go along. Secretary Dulles has said that under certain conditions this country might do so but we do not think that congress would ever support such a plan. The UN seems to have it in for Israel. So far they have taken no action on Russia's invasion of Hungary or India's seizure of Kashmir.

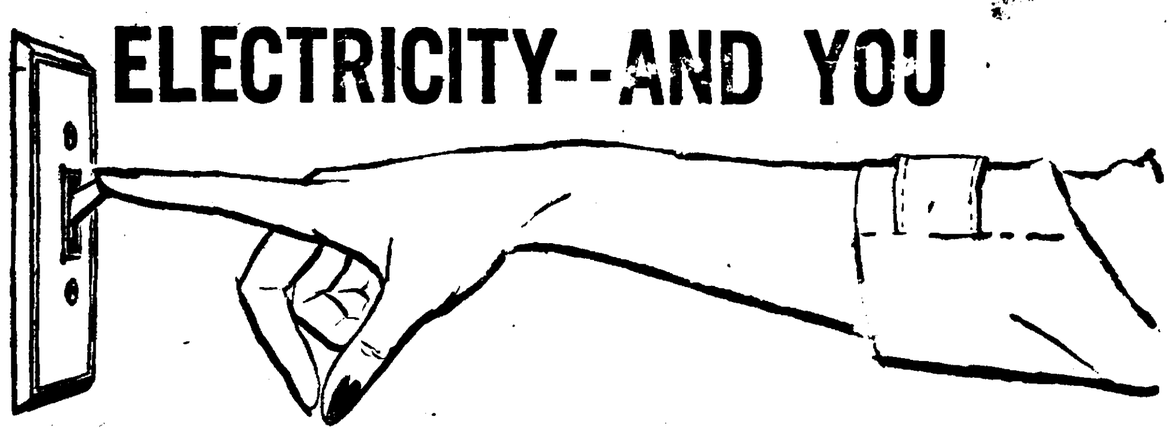
ELECTRICITY--AND YOU



You use electricity in increasing amounts to do the monotonous, the tiresome, the time-consuming household tasks. It makes life more enjoyable. But there is a problem related to this growing trend.

4 out of 5 homes, including the newest, have electrical systems incapable of supplying all the electricity needed for daily living. The solution is wiring modernization—fortunately, neither a costly nor an involved process. Benefits: a home that operates smoothly and effortlessly because electricity becomes available in efficient abundance. And a house that has greater re-sale value too.

There are electrical contractors especially well qualified to do this sort of work, the HOUSEPOWER Services Contractors. They tailor the mechanics of electrical distribution to your individual needs and living habits.

You seek plenty of horsepower in your car for maximum comfort, convenience and safety. For the same reasons you need plenty of HOUSEPOWER* in your home.

***HOUSEPOWER** is a simple, one-word way to say : : :*

plenty of electricity in the home, wherever and whenever needed, now and in the future

Any HOUSEPOWER Services Contractor will be glad to survey your home's electrical needs with you. The service costs nothing—doesn't obligate you.

If you do not know a HOUSEPOWER Services Contractor, just phone your Edison office

Lincoln On His Knees

By Bishop Fulton J. Sheen

THE UNITED STATES will never produce Abraham Lincoln's equal until another Kansas his trials, his defeats, and his trust in God.

Lincoln once said: "I have been driven many times to my knees by the overwhelming conviction that I had nowhere else to go. My own wisdom, and that of all about me seemed insufficient for that day."

IN ONE of his earliest campaigns for political office, Lincoln was attacked on the grounds of being an unbeliever. He vigorously denied the accusation, and went on to say, "I do not think I could myself be brought to support a man whom I knew to be an open enemy of [illegible] and a scoffer at religion."

Six years later after another defeat for the Senate, he consoled himself saying, "Though I now sink out of view, and shall be forgotten, I believe I have made some marks which will tell for the cause of civil liberty long after I am gone."

Added to political defeats were the personal sorrows in his married life. Nasty rumors about Washington that Mrs. Lincoln was a spy were so circulated as to be discussed at a Congressional hearing.

ABE'S GREATEST AND longest trial was the war between the states. He looked upon the war as a judgement of God and saw it as no other president has ever seen a war: "It is quite possible that God's purpose is something different from the purpose of either party."

Lincoln's last defeat was planned for Good Friday, 1865. Lincoln spent the afternoon signing pardons, and pleading for gentleness and mercy to those who had deserted during the war. That evening he fell by an assassin's bullet.

This great President, bearing a nation's sorrows, carrying the cross of national unity, and trying to heal the wounds of civil war, died on the very day and which the Saviour of the world died!

IN THESE DAYS when sacrifice and self-discipline are rejected as hindrances to "self-expression", it behooves the world to look back to a man in political life who exemplifies the great Christian law—that there must be a Good Friday in our lives before there can be an Easter Sunday.

Abraham Lincoln has risen in the memory of the American people to be the greatest patriot this country has produced. Lincoln's life teaches us that there must be a defeat before there can be a lasting victory. There must be a cross before there can be a crown.

ANNUAL TAX SALE

STATE OF MICHIGAN

IN THE CIRCUIT COURT FOR THE COUNTY OF LIVINGSTON
IN CHANCERY

In the Matter of the Petition of
Frank S. Szymanski, Auditor General of the State
of Michigan, for and in behalf of said State, for
the sale of certain lands for taxes assessed thereon. NO. 4149

On reading and filing the petition of the Auditor General of the State of Michigan praying for a decree in favor of the State of Michigan, against each parcel of land therein described, for the amounts therein specified, claimed to be due for taxes, interest and charges on each such parcel of land, and that such lands be sold for the amounts so claimed by the State of Michigan.

It is ordered that said petition will be brought on for hearing and decree at the March term of this Court, to be held at Howell in the County of Livingston, State of Michigan, on the 11th day of March A.D. 1957, at the opening of the Court on that day, and that all persons interested in such lands or any part thereof, desiring to contest the lien claimed thereon by the State of Michigan, for such taxes, interest and charges, or any part thereof, shall appear in said Court, and file with the clerk thereof their objections thereto on or before the first day of the term of this Court above mentioned, and that in default thereof the same will be taken as confessed and a decree will be taken and entered as prayed for in said petition. And it is further ordered that in pursuance of said decree the lands described in said petition for which a decree of sale shall be made, will be sold for the several taxes, interest and charges thereon as determined by such decree, on the first Tuesday in May thereafter, beginning at 10 o'clock a.m. on said day, or on the day or days subsequent thereto as may be necessary to complete the sale of said lands and of each and every parcel thereof, at the office of the County Treasurer, or at such convenient place as shall be selected by him at the county seat of the County of Livingston, State of Michigan; and that the sale then and there made will be a public sale, and each parcel described in the decree shall be separately exposed for sale for the total taxes, interest and charges, and the sale shall be made to the person paying the full amount charged against such parcel, and accepting a conveyance of the smallest undivided fee simple interest therein; or, if no person will pay the taxes and charges and take a conveyance of less than the entire thereof, then the whole parcel shall be offered and sold. If any parcel of land cannot be sold for taxes, interest and charges, such parcel shall be passed over for the time being, and shall, on the succeeding day, or before the close of the sale, be reoffered, and if, on such second offer, or during such sale, the same cannot be sold for the amount aforesaid the County Treasurer shall bid off the same in the name of the State.

Witness the Hon. Michael Carland, Circuit Judge, and the seal of said Circuit Court of Livingston County this 8th day of January A.D. 1957.

MICHAEL CARLAND, Circuit Judge.

Countersigned,
JOHN A. HAGMAN, Clerk.

STATE OF MICHIGAN

IN THE CIRCUIT COURT FOR THE COUNTY OF LIVINGSTON
IN CHANCERY

In the Matter of the Petition of
Frank S. Szymanski, Auditor General of the State
of Michigan, for and in behalf of said State, for
the sale of certain land, for taxes assessed thereon.

To the Circuit Court for the County of LIVINGSTON, in Chancery:

Frank S. Szymanski, Auditor General of the State of Michigan, respectfully shows unto the Court:

1. That he is the Auditor General of the State of Michigan and makes and files this petition under, by virtue of and pursuant to the provisions of Act No. 206 of the Public Acts of 1893, as amended, and Act No. 126 of the Public Acts of 1933, as amended;

2. That Schedule A annexed hereto, is the list required by the act first above mentioned and contains the description of all lands in the aforesaid county upon which taxes, which were assessed for the years mentioned therein, have remained unpaid for more than one year after they were returned as delinquent; the description of all lands in said county heretofore bid off in the name of the State and thus held and upon which taxes which were assessed subsequent to the tax for which such lands were sold to the State have remained unpaid for more than one year after they were returned as delinquent, and the description of all lands in said county which are delinquent for any installment of taxes under the provisions of the act last above mentioned;

3. That extended separately in said schedule against each description of said lands therein contained are (a) the total amount of delinquent taxes upon said description for the non-payment of which the same may lawfully be sold at the next annual tax sale, (b) interest computed thereon as provided by law to the first day of May, next ensuing, (c) a collection fee of four per cent and (d) $1.50 for expenses, all in accordance with the provisions of the act first above mentioned;

4. That all of the aforesaid taxes, interest and charges are valid, delinquent and unpaid, and have remained delinquent and unpaid for sufficient time to authorize and require, as provided by the foregoing acts, the sale of the aforesaid parcels of land against which they were assessed and are extended in said schedule at the next annual tax sale for the non-payment thereof, and that the said taxes, interest, collection fee and expenses so extended in said schedule against each parcel of land therein described constitute a valid lien upon each of the said several parcels of land described in said schedule as therein and against which extended in favor of the people of the State of Michigan, the payment of which lien this court may enforce as a preferred or first claim upon such lands by the sale thereof.

Wherefore your petitioner prays:

A. That within the time provided by law this court may determine and decree that the aforesaid taxes, interest, collection fee and charges are valid and constitute a valid lien upon each of the said several parcels of land described in said schedule as therein extended;

B. That within the time provided by law this court make a final decree in favor of the State of Michigan against each parcel of said lands for the payment of the several amounts of taxes, interest, collection fee and expenses, as computed and extended in said schedule against the several parcels of land therein contained;

C. That said decree provide that in default of the payment so ordered of the said several sums computed and extended against said lands in said schedule, the said several parcels of land, or such interest therein as may be necessary to satisfy the amount decreed against the same, shall severally be sold as provided by law;

D. That your petitioner may have such other and further relief in the premises as to this court may seem just and equitable.

And your petitioner will ever pray, etc.

DATED: DECEMBER 28, 1956

FRANK S. SZYMANSKI
Auditor General of the State of Michigan, for and in behalf of said State.

Soil Care Pays Off For New Corn Prince

DAVID LUX, 18, of Shelbyville, Indiana, the new Corn Prince, maintained an old family tradition when he won top honors at the recent International Grain and Hay Show in Chicago.

David is a third-generation champion in the family. His grandfather, Peter J. Lux, started it all back in the 1920's when he won the Corn King title four times. David's father Maurice, was Corn Prince twice and

David Lux, the new Corn Prince

his Uncle Frank, also a former Corn Prince, was named reserve grand champion corn grower at the 1956 international show.

The Lux family attribute their corn growing success to careful seed selection, good management and soil fertility.

This year, David's prize winning corn was grown on a 5-acre field he had entered in the 1956 Indiana 5-acre corn growing contest. The seed was an Indiana Certified Hybrid, No. 8-44-D.

Altogether, the Luxes had 115 acres in hybrid seed corn last season on the family's 400-acre farm in Shelby County, Ind. On most fields, the yields averaged better than 120 bushels per acre.

Over the years the soil fertility level has been built up and maintained by adding manure, crop residues and plenty of mixed fertilizer.

Last season, the fertility program included 400 pounds per acre of 4-16-16 plowed down before corn planting, plus 200 pounds added in the row at planting. In addition, 45 pounds per acre of 60 per cent nitrogen fertilizer was applied for the corn crop.

Winter Storage of Plant Food Assures Supplies for Spring

THE Middle West Soil Improvement Committee lists five suggestions for storing fertilizer on the farm this winter so it will be in good condition when it is needed for spring crop operations:

1—Keep the fertilizer bags off the ground or off concrete; 2—Store the fertilizer in the barn or some other dry building; 3—Put the bags on 2 x 4's or cribbing above the floor. Then the fertilizer won't soak up moisture and get lumpy; 4—Prevent caking by piling bags only seven or eight high; 5—Keep broken bags separate from the main pile. Loose fertilizer soaks up moisture.

"Buying and storing fertilizer on the farm now is particularly advisable," says the committee, "because of the tight situation on railroad freight cars needed to move phosphate and potash from the mines to fertilizer factories.

TRIPLE-ACTION RESERVE POWER! Simply nudge the accelerator beyond the ¾ mark and you "call out the reserves"! The J-2 Rocket then operates on three dual carburetors! J-2 is available now at a modest extra cost. Try it!

It's the most exciting engine development since the first Rocket was launched!

Engineers have dreamed for years of an engine that combined exceptional horsepower and torque potential with outstanding fuel economy in normal operation.

And today, Olds has it in the new J-2 Rocket.* You'll find *it's like two engines under the hood!*

In your day-to-day driving, you enjoy the smooth, alert action of the Rocket—with the fuel economy of dual-jet carburetion and a 10-to-1 compression ratio. But to *meet the* exceptional driving situation, just open the accelerator beyond the ¾ point and *two* additional carburetors automatically jet into action. There's an instant boost in torque and power. You'll appreciate the immediate response as another Olds contribution to your pleasure and safety at the wheel!

*370 h.p. Rocket T-400 Engine standard on all models.
**Fuel-Injected Engine, with 300 h.p., still special Rocket Engine, with up to 312 h.p., optional at extra cost.
