THE PINCKNEY DISPATCH - Wednesday, March 13, 1957

No. 13

## Michigan Mirror

The milk question always a trouble some one in Michigan is to the front again. There seems to be no solution to this. 16,500 dairymen in Michigan belong to the Michigan Milk Producers Ass'n. They blame the part time farmers for the milk surplus. These are farmers who work at least 100 days a year off the farm. There are 1400 of them in Michigan. Most of them keep a few cows for price down recently Mich. Milk Pro. extra earnings. This forces the duers Ass'n, has accepted price cut on milk for its members from \$5.85 to \$4.90 cwt. This does not all go to farmers as hauling charges and MPA dues come out off it. The reason for the cut is to meet outside competition. Ohio farmers only get \$4.15, Illinois \$3.80 and Wisconsin is also lower than Michigan.

There are 2 other dairymen's associations, the Fair Share Bargaining Ass'n. and the Dairy Men's Co. Operative.

High gasoline prices are also being investigated. The legislature has a bill to cut the gas tax a cent a gallon. Combined state and federal gas taxes are now 9 1/2 cents.

In a drive for longer week ends Senator Swanson has proposed a bill to set 4 national holidays on Monday. Independence Day would be the first Monday in July. Thanksgiving the second Monday in November, Washington's Birthday the 3rd Monday in February and Memorial Day the 4th Monday in June.

## CONSERVATION NOTES

15 people were killed and 210 injured in hunting accidents during 1956.4 were killed in the small game season and 10 in the deer season. 1 was killed hunting out of season. Persons under 21 caused 71 percent of the accidents, most of which happened while persons were loading or unloading guns.

The commission is considering buying 640 more acres of land in Alcona, Iosco and Cheboygan counties. The state will establish a new forest area next to the Brighton recreation area. 60 acres of land will be bought.

There were 270 conservation arrests in January and 264 convictions. Fishing law violations accounted for 149 and illegal hunting 70.

## Fifth Grade, Mrs. Goulet

We had a test in geography. Most did good on our states. Richard Im is coaching our boys' baseball. Jose Steo has moved. After spring vacation we will start school earlier and get out earlier maybe.

## Current Comment

Vice President Nixon was the host or guest of the inauguration of the new state of Ghana last week on the Gold Coast of Africa. This is the last country to be bitten by the nationalist bug. It is inhabited in the interior by semi-savage people. In pre-civil war days the principal export of this country were negro slaves whom it secured by making war on neighboring tribes. Now their principal export is diamonds, a silken cloth used for robes. The ruler has 200 wives. A stormy outlook is ahead for the new kingdom as the tribal chiefs are not expected to bow to constitutional government. They have already asked this country for a loan.

The legislature is seriously considering putting the pictures of drivers on licenses. 25c would be added to defray the cost. The judges, sheriffs, police, tavern keepers and supermarket operators are all for it, the last two as a safeguard against check frauds. The Automobile Club is the only one to come out against it. Edward Rockwell of the club does not think drivers should be subsidized to protect merchants and tavern keepers. The secretary of states office suggests it be tried out on limited scale first.

Jackson has adopted a curfew ordinance with teeth in it. It provides that all under 16 must be off the streets by 10 p. m. except Friday and Saturday when deadline is 11 p. m. If they are not their parents are liable to a \$10 fine or 90 days imprisonment. Many cities and villages have curfew ordinances, but this is the only one with teeth in it. The others depend on moral persuasion and are only 60 percent successful.

Congress is engaged in a red hot battle as to whether to extend the training period of the National Guard units to 6 months. Now they only train 2 weeks in a year. National Guard heads Green and Guarnard are for it and deny it will cut enlistments. They say on the other hand it will make it an efficient organization. That it is impossible to maintain an efficient force with but 2 weeks training. That an effective force of 300,000 men would be better than an inadequate force of twice that size. The bill may be defeated now but like Banquo's ghost it will come back.

Robert Hendee, son of the late Lyle Hendee of Ann Arbor has been fired again. This is old stuff to him as he was fired last Sept. but reinstated when he started suit against Fraser school board where he is supt. of schools. The cause of his firing last Sept. was he charged the school board had made shady deal to connect the new school onto a private sewer for \$31,625. As the result of his expose the deal was settled for \$8000. Now the board has refused to renew his contract for 3 years at \$8,600 a year.

Secretary of Commerce Weeks says there is no plan under consideration by the Eisenhower administration to curb prices and wages. It all stemmed from a recent speech of the presidents in which he said unless business and labor showed restraint it might be necessary to use curbs on prices and wages. This he added would make for a different America than we now know.

There is a bill up in congress to abolish the serving of liquor on commercial air lines on the grounds it does not contribute to the safety of air travel and is only done to attract the liquor loving public. In the days of railroad travel no liquor was served in the day coaches but it was in the dining cars and parlor cars.

## Sixth Grade, Mrs. Taach

We have casted our play for the carnival and are rehearsing daily. It is "The Knave of Hearts". We had a class meeting and decided to go to the cinema in May. We will raise the money by a bake sale.

The John Boyers were Saturday dinner guests of the Pete Burgers of Ypsilanti celebrating Clifford Boyers birthday.

# MICHIGAN BELL TELEPHONE lines

**MANY HOUSEWIVES** are taking the "run" out of running their homes. Know how? By putting telephones wherever they need them—in the kitchen, in the bedroom, the living room, and down in the basement. Well-placed phones save countless steps and lots of time for the home "managers." And, of course, additional telephones bring better service to everyone in the family. The cost? Just a few pennies a day, plus the one-time installation charge. Order your additional phones from our Business Office today.

**HOW CAN** shut-in boys and girls keep up with their school work? In recent years Michigan Bell's School-to-Home telephone installations have proven to be one successful method. Telephone equipment, using special two-way speaker units, lets the child who must stay home, or even in bed, hear everything that goes on in his regular classroom. He can recite and ask questions just as though he were actually in school. This daily contact with classmates gives the shut-in child a sense of belonging; he is a real part of the class. We'd be glad to tell you more about School-to-Home telephones. Just call our Business Office.

**SCIENCE CAN GIVE** us great entertainment, as the Bell System's television Science programs show. These programs aim to bring you an understanding of scientific work and its importance to modern life. And, of real importance to our country's future, they are helping to interest young people in scientific careers. The second show in this new series, televised nationally, is the fascinating story of blood. It's called "Hemo the Magnificent" and will be on the CBS-TV network at 9 P.M., March 20.

## NO TRUCKS — NO HEAT

WHEN THE COLD WINDS blow and the snowflakes fly and you call on your furnace to keep your loved ones cozy and warm, remember —

If you burn coal trucks keep your bin full—if you've an oil burner, trucks see that your fuel oil tank is never empty

Yes it would be a long cold winter without motor transport—in more ways than one. Any way you look at it, you just couldn't live as you do without motor trucks, using Michigan's fine highway system to serve you night and day, to keep you and your family fed, clothed, warm and comfortable.

If you've got it a truck brought it.

## Extra Profits from Fertilizer Pay for Better Farm Living

**EXTRA** profits from fertilizer use can help farmers pay for comforts and conveniences they and their families desire, the Middle West Soil Improvement Committee points out.

Tests at agricultural colleges and field experience on farms, says the committee, show that fertilizer can return anywhere from \$2 to \$5 in increased crop production value for every dollar invested in plant food.

The extra dollars can help farmers buy new cars, tractors and equipment, new furniture, rugs and drapes, labor-saving electric kitchens, more plumbing or new refrigerators, the committee declares.

"That makes prosperity for local merchants and for business generally," says the committee, "and it all springs from intelligent use of fertilizer."

"When a farmer invests in crop-boosting items such as fertilizer, he cuts the cost of production for each crop unit and he increases his profit margin."

"Soil building investments usually pay back the very first year in increased crop yields. And after that, the farmer has carry-over profits in future years from bigger crop yields per acre on more fertile soil."

## Keep '56 Corn Profits High With Good Soil Management

Higher yields per acre from well-fed corn mean lower costs of production and more net return per acre.

**PROFITS** from 1956 corn crops can be kept high by good soil management including fertilizer use that enables farmers to get bigger yields per acre on fewer acres, reports the Middle West Soil Improvement Committee.

Higher yields per acre mean lower costs of production per bushel, the committee points out. This helps a farmer get more net return, even if prices decline.

"University of Missouri research indicates that by using fertilizer in teamwork with other good soil management practices, farmers of that state can cut the average cost of producing corn from 84 to 58 cents per bushel," says the committee.

"By accomplishing this, farmers could realize bigger profits from a smaller total corn production on fewer acres than

they now receive from a larger overall acreage."

The committee suggests these steps for farmers aiming at top corn yields per acre:

1—Keep fertility high by adding sufficient fertilizer containing balanced supplies of nitrogen, phosphate and potash to meet the peak demands of the corn crop during the growing season. A soil test can be a good guide.

2—Match the high fertility with a high stalk population, so the crop can make full use of all the nutrients and moisture the soil can supply. Plant proved, well-adapted hybrid seed.

3—Keep insects under control.

4—Where needed, use mechanical conservation methods such as contouring and strip cropping to keep moisture at home and cut down erosion losses.

## ANNUAL TAX SALE

STATE OF MICHIGAN  
IN THE CIRCUIT COURT FOR THE COUNTY OF LIVINGSTON  
IN CHANCERYIn the Matter of the Petition of  
Frank S. Szymanski, Auditor General of the State  
of Michigan, for and in behalf of said State, for  
the sale of certain lands for taxes assessed thereon.

NO. 4144

On reading and filing the petition of the Auditor General of the State of Michigan  
praying for a decree in favor of the State of Michigan, against certain parcels of land  
therein described, for the amounts therein specified, claimed to be due for taxes, interest  
and charges on such parcels of land, and that such parcels be sold for the amounts so  
claimed by the State of Michigan.It is ordered that said parcels of land be brought on for hearing and decree at the  
March term of this Court, to be held at the County of Livingston, State of Michigan,  
on the 11th day of March, 1957, at the opening of the Court on that day, and that all persons interested in such parcels of land, or any part thereof, wishing to  
contest the lien claimed thereon by the State of Michigan, for such taxes, interest and charges,  
or any part thereof, shall appear in said Court, at the time and place therefor then specified,  
and that in default thereof the same will be taken as confessed and a decree will be  
taken and entered as prayed for in said petition. And it is further ordered that in par-  
tance of said parcels of land described in said petition for which a decree of sale  
shall be made, will be sold for the several taxes, interest and charges thereon as deter-  
mined on said decree, on the first Monday in May thereafter, beginning at 10 o'clock  
a.m. on said day, or on the day or days subsequent thereto as may be necessary to  
complete the sale of said parcels of land, and every parcel thereof, at the office of the  
County Treasurer, or at such convenient place as may be selected by him at the  
county seat of the County of Livingston, State of Michigan, and that the sale then and  
there made will be a public sale, and each parcel described in the decree and sold  
separately, exposed for sale for the total taxes, interest and charges, and the sale shall be  
made to the person paying the full amount charged against such parcel, and accepting a  
conveyance of the smallest undivided simple interest therein, or if no person will  
pay the taxes and charges, and take a conveyance of less than the entire thereof, then the  
whole parcel shall be sold, and if any parcel of land cannot be sold for taxes,  
interest and charges, such parcel shall be passed over for the time being, and shall, on  
the succeeding day, or before the close of the sale, be reoffered, and if, on such second  
offer, or during such sale, the same cannot be sold for the amount aforesaid, the County  
Treasurer shall bid at the same in the name of the State.Witness the Hon. Michael Carland, Circuit Judge, and the seal of said Circuit  
Court of Livingston County this 8th day of January A.D. 1957.

MICHAEL CARLAND, Circuit Judge.

Countersigned,  
JOHN A. HAGMAN, Clerk.

## STATE OF MICHIGAN

IN THE CIRCUIT COURT FOR THE COUNTY OF LIVINGSTON  
IN CHANCERYIn the Matter of the Petition of  
Frank S. Szymanski, Auditor General of the State  
of Michigan, for and in behalf of said State, for  
the sale of certain lands for taxes assessed thereon.To the Circuit Court for the County of Livingston, in Chancery:  
Frank S. Szymanski, Auditor General of the State of Michigan, respectfully shows  
into the Court:1. That he is the Auditor General of the State of Michigan and makes and files  
this petition under, by virtue of and pursuant to the provisions of Act No. 206 of the  
Public Acts of 1893, as amended, and Act No. 126 of the Public Acts of 1933, as  
amended;2. That Schedule A annexed hereto is the tax record required by the act first above  
mentioned and contains the description of all lands in the aforesaid county upon which  
taxes, which were assessed for the years mentioned therein, have remained unpaid for  
more than one year after they were returned as delinquent, the description of all  
lands in said county heretofore bid out in the name of the State and then held, and  
upon which taxes which were assessed subsequent to the tax for which such lands were  
sold to the State have remained unpaid for more than one year after they were returned  
as delinquent, and the description of all lands in said county which are delinquent for  
any installment of taxes under the provisions of the act last above mentioned;3. That extended separately in said schedule against each description of said lands  
herein contained are (a) the total amount of delinquent taxes upon said description,  
(b) interest computed thereon as provided by law to the first day of May, next ensu-  
ing; (c) a collection fee of four percent and (d) \$1.50 for expenses, all in accordance  
with the provisions of the act first above mentioned;4. That all of the aforesaid taxes, interest and charges are valid, delinquent and  
unpaid, and have remained delinquent and unpaid for sufficient time to authorize and  
require, as provided by the foregoing acts, the sale of the aforesaid parcels of land  
against which they were assessed and are extended in said schedule at the next annual  
tax sale for the non-payment thereof, and that the said taxes, interest, collection fee and  
expenses are extended in said schedule against each parcel of land therein described cer-  
tified as therein and against which extended in favor of the people of the State of Michi-  
gan, the payment of which this court may enforce as a preferred or first claim  
upon such lands by the sale thereof.Wherefore your petitioner prays:  
A. That within the time provided by law this court may determine and decree that  
the aforesaid taxes, interest, collection fee and charges are valid and constitute a valid  
lien upon each of the said several parcels of land described in said schedule as therein  
extended;B. That within the time provided by law this court make a final decree in favor of  
the State of Michigan against each parcel of said lands for the payment of the several  
installments of taxes, interest, collection fee and expenses, as computed and extended in  
said schedule against the several parcels of land therein contained;C. That said decree provide that in default of the payment to be ordered of the said  
several taxes computed and extended against said lands in said schedule, the said several  
parcels of land, or such interest therein as may be necessary to satisfy the amount  
decreed against the same, shall severally be sold as the law provides;D. That your petitioner may have such other and further relief in the premises as  
to the court may seem just and equitable.

And your petitioner will ever pray, etc.

DATED: DECEMBER 28, 1956

FRANK S. SZYMANSKI,  
Auditor General of the State of Michigan,  
for and in behalf of said State.

### Michigan Farmers U. Fertilizer Use to Get Extra Yields per Acre

MICHIGAN farmers used nearly 800,000 tons of fertilizer last year to boost crops per acre, cut production costs and increase net profits, reports the Middle West Soil Improvement Committee, in a statement based on compilations of the U. S. Department of Agriculture.

The total of 500,821 tons of plant food used on Michigan farms in 1932, says the committee, was 16 per cent more than in the previous year and carried 19 per cent more plant nutrients.

The United States as a whole used 22,422,418 tons of fertilizer last year. This was 6 per cent more in tonnage and 10 per

### GOOD REASONS for BORROWING

- To meet your taxes.
  - To pay doctor or dentist
  - To defray school expenses
  - To get on your feet and make a fresh start!
- New-budgeted expenses have to be met (whether you see them coming or not). The cost is low because we make so many loans. Terms are adjusted to income. The transaction strengthens your credit here. Call any time.
