The justice of peace operation has leen controversal before, usually as to whether the justices were qualiried to administer their jobs,

In his letter to the state bar president, J. Comisky. Barron took issue of the fact that some justices seem to make too good a living persueing the duties of their office. He singled out 2 Oakland county justices, Willis Leturgy of Waterford township and Allen Ingle of Farmington township. Both earned over \$25,000 in fees ast yesi.

The Automobile Club of Michigan has charged Waterford with opera... ting a speed trap. Last year Waterford got \$100,000 from traffic tick. ets and Lefurgey's share was \$33,202 10 Barron also said a justice in Liv ingrton county who is a retired state police officer gets nearly all the traffic cases in the county.

The State Library is starting a progreen to preserve biographys of prom inent Michigan residents, On the list are Julie Harris, Edgar Guest, Governor G. Mennen Williams. Some 1000 blographys are now on file, They are prepared by the person him self or herself on a form sent to them,

It started 2 years ago. First it was only state officials.then authors, Now permisent persons, If you know of any writes Mrs. Eather Laughlin, State Library, Lausing,

Postmaster Geeral Summerfield

has laid down an ultimatum to som. giers who has turned own his ra. quest for \$47,000,000 appropriation to keep the postal dept, running. In . stead they offered him \$17,000,000. and told him that was all he woulded get. This amount would all go to wage increases for postal employees which have been voted. Ever since Summerfield took office he has been aking congress to raise postal rates but without much success. He did met one raise a few years back but it all went for wage increases, He has an other rate increase bill, It peases the house but is bottled up in a con. ate committee who will not report has a new pony, Nick Marsh saw a it out. Southern senators control he does not get the \$47,000.00 crease he will close all postoffices. on Saturday, curtail all deliveries. cut busiess deliveries in cities to che a day and close the money order with dows This would mean a wage cut for postal employees. There are two lines of thought on the postoffice propositon. One line says it should charge high enough rates to make their way. The second line that it is a public service like the police. Mrs dept. and DPW and should be subsidized. The second line of the has always prevailed as the post. office has always finished in the re each year since it was started hask is the days of George Washinston in case you do not know it the told rate pony express the first the same mail service the Pacific come paid expenses and only fundi short time. WATER-HEATING SERVICE

Bath time is fun time with lots of hot water

1957 electric water heaters, built to Edison's rigid specifications, give you all the hot water you want!

New Detroit Edison has joined with leading electric water heater manumotorers to bring you the most adwenced electric water heating method at down-to-earth cost. With Edinas's non Super-Supply Plan you get much more hot water then ever before for saly ponuies a day. No waiting for mater to heat. No hot water shortenes.

you large quantities of hat water autometically. The increased wattages. In fact, because they are designed to supply hotter water faster, you can get more than twice the supply from the same size tank. And operation is completely automatic.

What is Edison's Super-Supply Plan?

To make these 1967 electric water heatem more economical, Edison is offering a new plan. The new Suner-Supply Plan provides much more hot water than ever before, at a surprisingly low flat-rate charge. This means you have plenty of hot, hot water on tap all of the time to meet all of your family's needs.

Why Buy an Mastrill Water Heater?

Electric water limites are the safest water heaters ever-built. And these new models offer other advantages, too. There's no soot to clog heaters. No flues to limit where the heater must be installed. Put your new electric water heater where you want it. even in the kitches or utility room. There's no flame to corry about. No edor from fumes. And insulation makes them eool, and they're noiseless. You can put your confidence in an electric heater built to Detroit Edison's risid specifications for years of trouble-free specifics.

NOTICE

Readers — Residents — Voters — Taxpayers The series Michigan Nursery Industry has gone on record as opposing the building of another nursery in Southern Michigan by the Michigan Conservation Department, Forestry Division, for the following reasons: Commercial nurseries in the same temperature zones can and will produce all the stock needed - without spending one cent of tax money! Michigans Conservation nurseries already sell over 75% of the stock pro-

duced by them to the public - some 30 million. Private nurserymen feel it is a waste of money for the state to increase production enerthird or to 40 million. The cost of a state built nursery is too high; \$181,000 of Soil Bank money thru the Clarke-McNary Act will be granted and government payrolls will be expanded. Businessmen claim they can build the same production facilities for

approximately 25% of the amount wanted by the state and some nursery. men can expand for \$10,000.

All the nurserymen want to do is to stay in business without government competition, while paying taxes.

If you don't feel you should help your neighbor plant trees with your

tax money, write to your Representative, c/o The House, Lansing, Michigan and your Senator, o'The Senate, Lansing, Michigan. A postcard will Behalf of: Michigan Seedling Growers and the Nursery Industry in
