No. 15

Michigan Mirror

Michigan will start an aggressive campaign to stimulate the tourist and summer trade says Robert Fur long of the Michigan tourist council.

The plans call for 2 men from here to sell Michigan vacations. Members of industry, labor and travel agencies are prime prospects. Instead of waiting for them, Michigan will go to them. They now have agencies in Detroit and Chicago. Labor groups and dept. stores have vacation committees. Most of them never heard of a Michigan vacation. Groups outside the state will also be contacted.

Color has come to Michigan voting booths. Ballots of many colors will adorn Michigan voting booths next year. They are white for partisan elections, blue for non-partisan, red for amendments and green for constitutional proposals.

Retraining jobless workers is the brightest hope for relieving unemployment. 45 percent of the jobless only have an 8th grade education. They have not completed high school. A vocational training program and counseling program are under consideration. The cost would be \$550,000 which would come from the unemployment tax the excess of which now is returned to the state.

Fred M. Alger defeated as governor in 1952 and just replaced as ambassador to Belgium by President Eisenhower is being boomed to run for US Senator in 1960 against Pat McNamara. That's a long time off.

Work on the Mackinac bridge shut down for the winter has been resumed. Summer visitors will see the span completed but it will not be in use until November.

The legislature killed the bill to relieve overcrowding in schools by barring children 4 years, 9 months old. They now take this class.

YOUNG REPUBLICAN REVOLT

There were hints last week that the Young Republicans who revolted against the Old Guard at Lansing last year and voted for the governor's mental aid, highway improvement program were not going to accept the Old Guard Republican hold-the-line-tax-policy this year. At the Republican state central committee meeting at Lansing Saturday, Open revolt broke out. Dissent was anticipated when Rep. George Fallade, Ann Arbor, Young Republican leader rose to speak and said he would oppose their no more money for schools program but they were not prepared when Prof. Wm. Webber of the U. of M. also on the state central committee arose and backed him up. He read that part of the Republican state platform of 1956 that pledged full support to expansion of educational facilities and the needs of the state. He said the legislature was elected on this pledge. He received a surprising amount of applause. Both he and Fallade spoke in opposition to Senator Hutchinsons no new taxes speech. They were joined by Alfred Fortino, Gratiot county chairman who said taxes would have to be raised eventually and that the Republicans were accused of taxes favoring big business. The debate was still warm when Chairman Lindemere gavelled it into adjournment. Plevously a censure of President Eisenhower \$71.8 billion budget was voted down, a dollar a month dues plan & \$300,000 budget approved. Linda more voted a salary of \$21,000 a year. This is from an article by Will Muller in the Detroit Sunday News.

Current Comments

We wonder if this country is justified in turning down every offer of a conference or disarmament meeting advanced by Russia. The administration claims no effort will be ignored to maintain peace yet they accept no Russian overtures. Our diplomats in a conference should be smart enough to detect the true from the false. We recognize Russia and have an ambassador there. An effort is being made to break down the embargo against trade with Red China. We are the only country who has one. China was once our best customer. The embargo is being circumvented as many of the goods we ship to foreign countries eventually find their way into Red China.

This country has affirmed its support of the kingdom of Jordan and sent warships there to aid the king who is anti-Communist. They had a Communist premier whom the king fired and replaced with an anti-Communist one. He resigned and mobs took control and martial law is now in effect. Jordan is the tisiest of the Arab nations but outside of Saudi-Arabia the only one who has been for us. If we let her fall to the Communists other nations might follow suit.

Clifford O'Sullivan of Port Huron, a high Knights of Columbus official, has been named federal judge in Michigan. There were 12 applicants for the job. Retiring state chairman John Feigens was supposed to be lined up for the job but Postmaster General Summerfield, the big boss in Michigan don't like him and wanted Owen Cleary of Cleary College, of Ypsilanti. The Summerfield forces tried to defeat Feigens for re election in the convention 2 years ago but failed. O'Sullivan is the grand compromise.

A bill is up in the house at Lansing to allow bars to serve potato chips, pretzels, cheese and crackers free. Any free food now in a place where liquor is sold is forbidden. In the old saloon days the free lunches were pretty elaborate and featured corn beef and cabbage, pig hocks and sauer kraut, liver and onions, soups and hamburger sandwiches. The first pretzels we ever had were given us by a German blacksmith neighbor who usually stopped for a beer on his way home and seldom neglected to fill his pockets with pretzels.

The final chapter in the battle of Fort Ziegehardt near Lapeer was written last week when the surviving brother, Alfred, 78, died in a nursing home. Theirs is a story of a battle for principals regardless of costs. A farm mutual insurance company failed and the brothers were assessed \$280. They refuse to pay. They spent \$50,000 fighting it. Their farm, worth \$56,000, was sold at sheriff's sale for \$11,000. They spent 20 years staying off the law. They were evicted once but came back. A tenant moved on but left when he received a letter dynamite would be used. The final eviction was in 1954.

Ladingsburg has an old fashioned school board fight which has been carried to the state board of education. The board by a 3 to 2 vote fired Supt. Keith Reed. His contract has to 1961 to run. Recall papers were circulated against one of board who cast the deciding vote. The principal was named acting supt. until it was settled. Some 50 years ago the Pinckney school carried a dispute to supreme court. At the annual meeting the 8 incumbents were defeated. They refused to give up their offices, claiming John Teeple, the meeting chairman had presided in a faulty manner. The supreme court turned them down. The 3 bd. members who won were Dan Murta, Frank Johnston and Alfred Monks.

Seventh Grade, Mrs. Anderson

One way to keep the family in hot water—and enjoy every minute of it.

Plenty of hot water with DETROIT EDISON'S NEW ELECTRIC WATER-HEATING SERVICE

New, more efficient water heaters—built to Edison's specifications. New water-heating plan from Edison. Together they make the finest hot water service ever offered in Southeastern Michigan.

Completely new, completely different, the electric water heaters for 1937 are not only the safest kind you can buy—they're the most practical, too. Built to Detroit Edison's own rigid specifications, dollar for dollar these new electric water heaters last longer than any other heater you can buy.

What's so new about the new electric water heaters? Redesigned from top to bottom to give you more hot water for your money, the new type electric water heaters for '37 now include two

higher wattage heating units that operate completely automatically. As your hot water supply goes down, one unit automatically goes on—quickly heating up more water for you to use when you need it. No waiting, no worries. There's always plenty of hot water on tap. And because of this unique new design, you can get more hot water than ever before from the same size heater. Then, too, since it's built to Edison's own specifications, you know you can rely on the quality and depend on it to operate better, last longer.

For still greater economy—Edison's new Super-Supply Plan. To make the new electric water heaters even more economical, Detroit Edison has introduced its Super-Supply Plan. This simply means that now, for a surprisingly low flat monthly rate, you can get much more hot water than ever before for just pennies per day.

Safe . . . no flame, no gas. There's automatic safety always built into an electric water heater. No flame, no gas. It's even safe enough, and good-looking enough, to go right in your kitchen or utility room. Because of its excellent insulation, it's cool to the touch—top to bottom. And only electric water heaters are so clean, noiseless and odorless.

Here is now proof that you always live better, electrically.

Reddy Klawatt invites you to inspect these tremendous advantages of ELECTRIC water heating before you buy.
