THE PINCKNEY DISPATCH Wednesday, February 26, 1958

No. 3

The Michigan Mirror

The political hatchet is buried while Michigan industrial leaders sing praises of the state in an effort to interest other manufacturers to settle in Michigan. Some 200 of them will go abroad in the land to point out what Michigan has to offer to industry. These factors are trained people, clean government, best educational system in the world, an improving road program and a wonderful supply of fresh water. The whole state gains when Michigan secures a new industry.

Michigan's economy will be the biggest issue in the 1958 election. Records show that thousands are out of work and the pinched decreased buying power is felt by business men. Republicans are trying to develop a policy which makes sense to them. They say when the people tighten their belts the government should do likewise.

Senator Porter of Blissfield says the state has 30,000 employees and the coffee breaks indulged in by them cost some \$15,000,000 a year. He would like to see them by not replacing those who retire.

There are many bills in the legislature to curb labor such as forbidding party contributions, secondary boycott, audit of funds and a right to work law. Most of them are expected to die as the Republicans do not have enough votes to get them over a veto.

Milk price fixing is also dead. At the recent Mich. Press meeting Dr. John Hannah, president of Michigan State University came to the defense of the Michigan educational system. It is the same one he said which made this nation the foremost one in the world. The records show he said that educators have long been asking more money for mathematics and science but the legislature and people have turned them down.

NEED FOSTER HOMES

Probate Judge Hiram R. Smith, states his office would like a list of a few homes in Livingston County which would be able and willing to care for a child or children occasionally when a temporary home is needed. Anyone interested may write Judge Smith, giving their address, phone number and facilities. Such applicants must have parental affection for children and not be interested solely in financial considerations, although reasonable pay is provided. To take and care for a little child when parental care and guidance is needed would be a worthy thing to do.

High School Athletics

ON DECK WITH THE PIRATES

Pinckney who broke the league record by scoring 84 points against Boyssville 2 weeks ago showed their usual reversal of form Friday night when Boyssville walked all over them 44 to 24. Like a famous prize fighter once remarked after an inglorious defeat, "I should have stood in bed." Pinckney has played like this all the year, one brilliant game and then the next one a washout. Apparently they can't stay in peak condition. We remember the late Coach Doyle had similar trouble during his time here and put a 9 p.m. curfew on the team. The Pinckney reserves played much better only losing by 4 points.

At Dexter Coach Whittaker said he would continue with his seniorless team. He put 2 seniors off the team and another one quit. His team is now 2 juniors and 3 freshmen.

The last home game is here Friday night with Manchester. In the tournament Pinckney plays Leslie in the Stockbridge tournament at 7:00 p. m. March 5. The winner meets Manchester.

CONSERVATION NOTES

Cold weather and snow drove most deer to the yarding areas last week and there will probably be some starvation.

The rabbit season ends on March 1 and the bobcat season March 15.

Cold weather and lack of food do not injure pheasants much as they can stand the weather and go a long time without food. North Dakota one of their coldest habitats has the most pheasants. The mechanical corn picker is their best friend. It leaves many ears on the ground and knocks down stalks with ears on them.

Three Saginaw men arrested for using a ferret to take 10 rabbits paid \$175 fine and \$23 75 in costs.

We wish to express our sincere thanks to our neighbors and friends for their many acts of kindness through flowers, food, cards, calls during our recent bereavement. To the O. E. Current Comments

The Republican old guard seems disposed to scuttle President Eisenhower's pump priming program. In a press release Senator Knowland, Republican floor leader said there will be no tax cut at the present time and no public building program until it is needed. He expects the depression to level off in a couple of months but said if things are not better by fall relief measures will be considered. In the meantime the auto industry is hard hit. Carl Fribley head of the National Auto Dealer's Ass'n. said in testifying before a senatorial committee said 2000 auto dealers quit last year. He assailed the practice of paying subsidies to dealers so they can sell cars in mass lots to governmental units at cut prices. Some of these subsidies he said run to \$600 a car. He added while the state of New York saves \$7,200,000 a year by these sales the 4,200,000 car owners in the state lost at least \$107,000,000 in depreciation on last year. He assailed the practice of the dumping of 1957 cars with only a few miles on them on used car lots.

Methods of pepping up the used car market continue. Joe Blauvelt, an Ypsilanti Olds dealer advertised to sell 3 used cars for \$1 each Saturday. A 1950 Olds, a 1950 Ford and a 1949 Chevrolet, all in good running condition. Also an English Ford for \$222. A Flint dealer 2 weeks ago sold 3 used cars for 99c each.

What is the proper retirement age? Judge A. R. Alexander, of Pittsburg, Mo., has just filed for his 4th term as judge of probate. He says he is in fine health, handles 80 cases a month and is in his office 6 days a week. His associates say they have to step fast to keep up with him.

The demand for parking space continues. It is announced that Montgomery Ward and Sears Roebuck are to build huge new stores between Ann Arbor and Ypsilanti where there is parking space galore. Their present stores in the cities do not have parking space. This need for parking space is one reason but the main one is the shift of population to the suburbs. You can hardly tell now when you leave Ann Arbor and enter Ypsilanti on Washtenaw.

The Methodist Church of Owensboro, Kentucky has returned a donation of \$1000 to the Keenland Foundation who own the Lexington race track where the Kentucky Derby is run because they do not accept money from gambling concerns. There is wide spread betting at the race track. They also rejected one for \$333 from the Fall City Brewing Co. This is an anomaly in Michigan where the chief support of the schools is derived from liquor and cigarette tax.

The rabbit is classed as the leading Michigan game animal but we wonder how long it will continue to be. Usually my friends give me one or two a year but I did not get any this as they did not shoot any. Clayton Carpenter says these modern shooting irons have cut the rabbit population to the vanishing points. We remember not so many years ago when they were so numerous in Kansas as to be a pest and they were using poison to get rid of them. We remember the time Square Deal Miller, the Detroit jeweller got a carload of frozen rabbits from Kansas as publicity stunt and sold them out to his customers at cost.

SHERIFF ERWIN KLAGER
Erwin Klager, sheriff of Washtenaw county died of a heart attack at Ann Arbor Sunday. He was deputy 22 years before being elected three years ago. Luther Klager of the Bridgewater chick hatchery is his brother. He was a 2nd degree Mason.

AMENDMENT TO LIVINGSTON

**COUNTY
BUILDING CODE**

The Livingston County Building Code Ordinance enacted by the Livingston County Board of Supervisors on May 21, 1957, shall be amended as follows and said amendments shall take precedence over the abridged building code, 1955 Edition, building Officials Conference of America, Inc., and Supplements 1 and 2 thereof:

Immediately following Article II, Section 104.51, the following Section shall be added:

Section 104.52 Application for Permit: No building or structure or part thereof shall hereafter be erected, converted, repaired, altered or enlarged until a building permit has been obtained by the owner or his agent. The application for a permit shall be made in writing on approved forms; and shall be accompanied by two (2) complete sets of dimensioned plans showing all habitable floors, basement, cellar, foundations, and sections, and by specifications describing the kind, size, quality and grade of all construction materials and service equipment. When a private water supply and/or disposal system is necessary the written approval of such systems by the Shiawassee-Livingston District Health Department shall be filed with the application as a conditioned precedent to the issuance of a permit. The building official may waive the requirement for filing plans when the work involved is of a minor nature and the building operation is adequately described in the application. All plans submitted for filing shall be prepared and signed as required by the statutes of the State of Michigan. Where compliance with state statutes governing building construction is required, the application shall be accompanied by a set of plans approved by the designated authority.

Article II, Section 104.91 — Required Inspections and Time for requesting same, — shall be amended to read as follows:

Section 104.91 It shall be the duty of the holder of every permit to notify the Building Official in writing, of the time when such building will be ready for inspection. Four such inspections shall be called for on all buildings except sheds and garages of less than eight hundred (800) square feet area, and one inspection shall be called for on such buildings.

(1) The first of these inspections shall be called for as soon as the foundations are complete, but before backfilling the earth around foundations, or proceeding with the superstructure.

(2) The second inspection shall be called for when the main structure shall be in place, but before covering same with lath or plaster or other covering.

(3) The third inspection shall be called for upon completion of the sewage disposal and water supply systems and before such facilities are covered.

(4) The fourth inspection shall be called for when the building is completed.

The inspection on small sheds and garages shall be called for as soon as the wall studs are in place.

Cards suitable for notifying the department of the time for such inspection shall be furnished by the Building Official to all persons receiving permits. Failure to notify the Building Official of the time for such inspection shall automatically cancel permit.

Before re-issuing such permit, the Building Official may require the payment of a second fee and require that earth foundations and lath and plaster on structural members be removed for proper inspection.

A notice calling the attention of the holders of permits to the requirements of this section shall be printed on all permits issued.

The Livingston County Building Code Ordinance as it exists shall remain in full force and effect except as amended herein. These amendments take effect sixty (60) days after adoption.

Passed by the Board of Supervisors of Livingston County, Michigan on this 18th day of February, 1958.

The Michigan banking crisis has passed and the banks have reopened. This was made possible by the Henry Ford family advancing the First National and Guardian Banks \$11,000,000 and he takes control of both. Still some banks are refusing to pay depositors their money. There are threats to test this out in court. Rev. Fr. Coughlin in his broadcast claims the two banks had to close because some \$42,000,000 in smart money was withdrawn. This was by depositors who had inside dope on the bank's condition.

Ironrite
AUTOMATIC IRONER

Mom will take a holiday from hand ironing drudgery for the rest of her life when she gets a wonderful new Ironrite. For thanks to Ironrite's two completely usable open ends and 100% all ironing points, Ironrite irons anything she can wash and cuts ironing time by two-thirds, too. Bring Mom in for a demonstration. You'll both be amazed at how simple an Ironrite is to operate... how it takes all the work out of ironing.
