The efforts to fight the recession are still in the talk stage at Wash-ington. A commentator says the Rep-ublicans list 15 steps they have

taken to do so. Half of them involve money we do not have yet and the other half keeping the Democrats from spending money we never will have.

Employment has picked up in some parts, mostly in the east but not in Michigan when 5 General Motors plants shut down to adjust operating schedules. Beyond seeking to extend unemployment insurance 13 weeks and increase it 50 percent the president has not recommended anything. He wants to wait it out and says if May reports are not rosier he will take action but he says there is nothing doing in the tax cut line especially the excise tax on autos and trucks. If this went into effect it would cut the purchase price of cars from \$150 to \$300. Reports say congress is aroused over this and may put through a 10 percent excise cut on cars despite the president.

From where I sit... by Joe Marsh

Grown-up "Kid Stuff"

The kids around here are sure pulling a lot of weight with local businessmen these days.

For instance, Monk McCarthy has collected and patched old lantern tubes all winter and pass them out for the swimming hole season—with this slogan on: "Courtesy of McCarthy Auto Service."

And Mr. Troy, over at the bank, has put in three new heavy high chairs for visiting bankers to park their kids in while a sign over the chairs reads:

now for a happy future."

From where I sit, I like the way people take to new ideas to make their business. It shows that they are open-minded. We can stand a little more of it in our personal lives, too. For example, you may prefer tea or buttermilk to my choice of a glass of lemonade if we're "open-minded" and accept the other fellow's choice.
