THE PINCKNEY DISPATCH

Wednesday, July 16, 1938

No. 28

## The Michigan Mirror

For the first time since 1948 Gov. Williams and his ticket have opposition in the primaries. Mr. Johnson of Ironwood was once a Democrat candidate for state treasurer, Frank Hoel once a congressman and Homer Martin, once a UAW head and a milk strike leader. Other are Michael Mohardt and Ted Fry, little known. As the Republican state candidates have no opposition in the primaries there is some talk the Republicans will vote the Democrat rump ticket in the primaries. It is even said they are financing it. If they are they are doing so sparingly as the rumps have little money or organization. They lost their suit in the supreme court to get Gov. Williams pictures off the ballot where it appears at the head of the ticket with Franklin D. Roosevelt.

The Gov. Williams ticket has on the other hand organized the state down to precinct and block level and provided recognition for those who ring door bells.

Gov. Williams is not worried as he leaves this week for Liberia where he is the chief speaker at the Independence Celebration Judge Cree, the only justice judge in Michigan whom he appointed goes with him. The rump's chief attack is on Walter Reuther and the labor unions whom they charge has taken over control of the party.

## Current Comments

Another rocket was launched last week with a live mouse in the cone but it failed to go into orbit, falling in the sea. The rocket was recovered but not the cone with the mouse in it. This caused a protest from humane societies but they were assured there were enough food capsules in the cone to sustain the mouse a week. Whether any important point was proved is not stated.

The attorney general has ruled that members of the legislature can not serve on school boards if they do they cannot draw pay as legislators or have their office designation before their name if they run for reelection. There are many legislators on school boards. This opinion was handed down in the case of Rep. Wurzel. There were 3 other candidates for the office and they objected to him being designated as incumbent.

The University of Michigan has dropped the Napoleon school from the accredited list of schools because it has refused to build a new school. It has been on the accredited list for 33 years, the last 2 years on condition they build a new school. Supt. Gordon Martin says architects are working on plans and a vote on a new school and bond issue and may be held in September.

The Bethany Tabernacle Church of God near Mt. Clemens has been cited in court for keeping the neighborhood awake. They hold revivals way into the night and disturb the neighbors by prancing, clapping, singing and shouting. The minister, evangelist and a church member were found guilty of disturbing the peace. Their defense was the Bible teaching reads "Make Joyful Noises unto the Lord."

Bernard Goldfine the free giving testie tvcon is still front page news more so since he has been cited for contempt for not answering questions. Then he found a microphone in his room and some one stole some of his confidential papers. He has explained most of his uncashed certified checks but \$375,000 worth are unaccounted for. He claimed up on Thursday and refused to answer questions and the contempt charge followed. He has also admitted paying the hotel bill for 3 senators, all Republicans. In the flurry Sherman Adams seems to have faded out of the picture.

In the old days the circus most ways had fat men and giants but we doubt they have ever had any who approached the size of Robert Hughes, 72, who died at Stirling, Ill, last week. He weighed 1041 lbs. He died of the measles and was kept in a trailer as he was too big to get in the hospital. His life was due to a gland injury. He weighed 300 lbs when 6 years old and kept on growing.

Rep. Cellers' investigation of slavery among big league ball players last week was a farce. The witness were Corey Stengel, highest priced manager in base ball and Micky Vernon and Ted William two of the highest salaried players. They said if base ball was slavery they were for it 100%. The principal object of attack was the reserve clause which binds a player to the club with which he plays and prevents him from shopping around to see which club offers most. We think this reserve clause is vital base ball. Otherwise the rich clubs would get all the star players. Rep. Cellers wants base ball put under the anti-trust laws as a monopoly.

## MICHIGAN BELL

IN LONDON, Mr. V. K. Zzzu has just won last place in the phone directory from one Lewis Zymbbla who had held it for years. Seems to us that as long as he keeps his phone and no Mr. Zzzzs move into town, Mr. V. K. Zzzu should be sure of his last place.

**SPEAKING OF DIRECTORIES** reminds us to remind you that the Yellow Pages is the world's best shopping list. Imagine, for instance, that you're traveling through a strange town, vacation-bound. Perhaps you need a dentist quickly or your car is acting up. Perhaps you want to replace that fishing reel you accidentally left home. Whatever you need, the quickest, easiest way of finding it is to reach for the nearest Yellow Pages. You'll be on target right away. It's so much better than driving haphazardly all over town.

**AND SAY, BEFORE YOU LEAVE** on your vacation trip, use Long Distance to plan it out. Call ahead to let folks know when you'll arrive and to make sure the motel or resort is expecting you.

**IN THE OFFICE**, they're talking about the new telephone assistant who reported to her supervisor that a man on the phone wanted help with a dead lion. Nothing in her training had prepared her for this particular emergency. The supervisor soon cleared up the matter satisfactorily. The gentleman calling was a Southerner. He was reporting a dead line.

**PARTING SHOT.** Beware of a half truth. You may have gotten hold of the wrong half.
