Next Thursday to Thanksgiving This heliday has a Beculiar he though the Pilgrims are credited with having the first Th giving (Maine and Virginia di this it was not an annual event and must of the states observed different dates it was not until 1863 when Fresident Abraham Lincoln signed a law making the 4th Thursday the national Thanksgiving that one date was celebrated and this did Lo happen until some years after that as it was wartime then. The character of the day has changed greatly over the years. In our youth it was distinguished by big public ban quets dances and big college feet bell games, It was on Thanksgiving day 1903 that Michigan undefeated for years lost the memorable game to Chicago 3 to 0 when Denny Clark, Michigan back ran the wrong way and was thrown over his own goal the for a touchback.

It seems as though the holiday see. on always brings tragedy. We refers to the sinking of the Albert Turner in Lake Superior last week in which but 2 of a 48 man crew were saved, No negligence has been shown. A huge freightt carrier hauling coment broke in two and sank A mass fune was held for 18 sailors Fuday in the Rogers City school, 15 bodies are not yet recovered. We remember number of holiday tragedies. The Iroquois Theatre Fire in Chicago, Hotel Wentworth Fire in Landing. Cocoanut Grove Fire and many train wrecks in some cases negligence was shown. We suppose that such things will always happen. From time immemorial those who go down to the sea ships have been taking chances

Bills have repeatedly been introduced in the legislature to in. crease this but have been voted down. The year they voted down a 3% in. crease which would have amounted to \$83,000 We remember an old legend that those in prisons and jails only got bread and water for food, We remember when we were in the reimary room a boy also in that room stopped in our yard enroute kome from school. He informed us (as a matter of pride) his father was in jail. He added he only had bread and water to as there. We beleived this for a long time and so did many others, In those days prisoners had to work. They shovelled snow, worked We are concentrating on finishing on roads, broke stone etc. In You anti a furmiture factory was opera. ed by convict labor. This has all been done away with as private industry claimedesthey could not compete with convict labor, Gov. Grosbeck sed convicts to pave Grand River and operated the Four Mile Lake cement plant with them. The corn. nt companies were all powerful and elected Fred Green governor on his promise to close the cement plant Green himself used convict labor in his prison factory.
