THE PINCKNEY DISPATCH

Wednesday, January 14, January, 1959

No. 8

The Michigan Mirror

Unparalleled challenges face Gov. Williams and his all Democratic administration and likewise his Republican opponents. Michigan is now broke and \$100,000,000 in the red. Both Democrats & Republicans admit the state must have more money but disagree on how much. The governor wants more services to handle the states growing population. The Republicans want to do it with existing funds and by cutting frills but they do not agree on what these frills are.

The proposed income tax will stay in the house.

The most critical needs are higher health and public welfare. Prisons are overcrowded. The new addition at Lonia is only half completed due to lack of funds.

The Republicans say the governor should present the tax program which so far he has not done. Two years ago he wanted a corporation profits tax and last year to double the intangible tax. The legislature turned both down.

The big trouble with the present tax structure is most funds are earmarked and the legislature has little to say how they shall be spent. The schools get 2 cents out of the 3 cent sales tax, the state 1 and the counties and townships 1. A similar situation affects other taxes.

Current Comment

In Barrien springs James Wayne was fined \$50, \$84 costs and given 60 days in jail for refusing to yield the right of way to an ambulance on an emergency call. The ambulance was taking David Nusbatal, 10 who was badly burned to the hospital. He died the next day. The ambulance driver testified every time tried to pass Watson he speeded up despite the flasher light and siren. In another county awhile ago a woman was fined for refusing to yield the telephone line to let a fire call go through. The house burned. She also appealed. Neither offender deserves any sympathy.

Anatol Mikoyan, assistant premier Russia visited Detroit by invitation last week where he toured the factories and was fetted and dined by industrialists. In some ways his visit was similar to the visit of Vice President Nixon to South America where he was greeted by a barrage of eggs and stones and was not able to finish his tour. Mikoyans tour was better managed and he made all his stops. At the Detroit airport he was met by 1000 hostile demonstrators but he and his escort took another route and circumvented them. The group carried signs reading "Mikoyan, Mass Murderer. Go Back to Russia. They followed him to the Detroit Club where the banquet was but were ejected by the 120 police on duty there. One egg hit one of his escorts. The group were mostly Hungarians and others from countries conquered by Russia. In the factories he spoke to several of Armenian extraction as he talks that language. His visit was in line with that of the Russian educators some time ago who visited University of Michigan.

The Los Angeles city council refused to pass the measure banning the sale of new cars unless they were equipped with exhaust disposal devices. They claim the new cars make most of the smog. They have received thousands of complaints against the exhaust fumes of cars and trucks. This seems peculiar to Los Angeles as we hear no complaints from other sections.

This session of the legislature will probably be tied up with proposals for more taxes and more funds for the universities and schools. Last year was election year and the legislators figured higher taxes would be unpopular so they evaded their responsibilities and schools and universities had to borrow money from the banks to operate. Now all sorts of proposals are coming up including one to have the state pay the interest on the money that schools had to borrow. We do not think the state will go for this as are also broke. The first business at hand is to come up with a tax measure they can pass. This is still up in the air. The Republicans favor income tax. The Democrats do not. There will be bitter debate and it may continue on until the closing days of the session.

There were upheavals in the Republican minority at Washington last week and former speaker, Joe Martin, a 47 year veteran lost his job as party leader by a close vote 74 to 70. This is said to Vice President Nixon and the presidential supporters were behind Cong. Halleck who won the post. In the senate they tried to do the same thing but the Taft conservatives were too strong for them and elected their candidate Senator Dirckson 20 to 14 over Senator Copper. The Nixon man. Dirckson is the one who blasted Gov. Dewey in the Republican convention in 1952. Cong. Martin is said to be sure and Nelson Rockefeller's chances for the presidential nomination in 1960 have gone up.

Michigan Intangible Tax

It is a pleasure to announce that our bank has again elected to assume the Michigan Intangibles Tax liability for all of its depositors. As a result, it will not be necessary for any of our customers to report any of their deposits with us on their Michigan Intangibles Tax return this year.

This tax, which we have paid for our depositors every year since it came into effect, is in the amount of \$.40 per \$1,000.00 of deposit. Our bank also pays the State of Michigan a tax on our capital of \$.50 per \$1,000.00 which brings our total payment under the Intangibles Tax to nearly \$10,000.00.

We are happy to be able to pay this tax for you. It is merely one of our additional services to you which sometimes go unnoticed.
