## State Police Patrol Intensified for Memorial Day

Intensified traffic patrols will be operated by the Michigan State Police over the 78-hour Memorial Day weekend.

There will be 104 National Guard members aiding the troopers, serving as second man on two-man patrols and on point control.

Patrol shifts will be increased to 10 hours from noon Friday, May 27, through midnight Monday, May 30, and pass days have been canceled.

Ninety-six Guardsmen will assist 32 Sheriff departments and one municipal police department.

Weather permitting, State Police planes will be used to report on traffic conditions.

"Thus far this month there has been a substantial saving in lives as compared with May a year ago," said Commissioner Joseph A. Childs. "We hope the good work continues over the weekend and it can be by drivers cooperating in following the rules of the road. Take it easy."

In the last five years Memorial holiday deaths have averaged one every four and three-quarters hours. Last year the 54-hour toll was 12 lives, in 1958 the longer 78-hour period claimed 13.

The highest Memorial toll in the past decade was 23 in the 78-hour period in 1952 while the low was four in 30 hours in 1950. The worst toll of any holiday period in the state was the 58 killed in the 102-hour Memorial weekend in 1941.

## Yacht Club Plans Sailing Races

About fifty families, both summer and year-round residents, of the Portage Lake area now hold membership in the Huron-Portage Yacht Club organized in 1955. The club holds races on big Portage Lake every Saturday and Sunday through the summer with special events for the children on Saturdays.

One of the many boats now on the lake is the National Rebel Champion, 603, which the Len Davis's bought from the Toledo Sailing club in April. They renamed the craft "BeaLine" and will race it against the local fleet as well as in this year's nationals.

Officers of the club for this year are: Commodore, Dr. Robert Bird, of Wayne; Vice commodore, John Bartlett, of Detroit; chairman of racing committee, Tom Ehman of Ypsilanti.

Each year the club plans to send two boys from the organization for National Jr. Championships. Trophies are awarded for all classes in addition to the Junior Trophy to the best young sailor.

## Named Interim Congregational Church Head

The Reverend Dr. Samuel Noble Oliver, of Muskegon, was named interim Superintendent of the Michigan Conference of Congregational Christian Churches to succeed Dr. Harold N. Skidmore, whose resignation from that office was announced on April 23.

The announcement of Dr. Oliver's appointment followed action taken by the Conference Board of Trustees in an early morning session last Thursday, and was made to official delegates representing more than 200 Congregational churches at the annual meeting of the Michigan Conference being held in the First Congregational Church in Battle Creek.

In his final address to a formal gathering of the Michigan Conference of Congregational Christian Churches, Dr. Harold N. Skidmore

## School Election To Add 2 Trustees

In the coming School Election June 13, 1960, the people of the Pinckney Community School district will vote for two extra trustees to the Pinckney Board of Education increasing it to a seven member Board. On another ballot they'll be asked to approve salary for these new members. Back in July 10, 1950, Annual School Election a given sum of \$525.00 was set as a total salary for the board members to be broken down as follows: Trustees, \$75., President \$100., Treasurer \$125., Secretary \$150. In an opinion handed down to the local Board by legal counsel of the State Board of Education, this question has to be re-voted because a given sum was set-up by the legal voters of this District instead of a separate salary schedule for each member. The following salary schedule as corrected by the legal council was suggested to the District for vote. President \$75., Trustees \$75., Treasurer \$125., Secretary \$150.

Some qualifications are necessary as at any legal election. To vote on the salary schedule only property owners whose property is assessed for taxes within the school district or be the lawful husband or wife of a qualified voter of the district having property so assessed be permitted to cast a ballot.

## High School Cheerleaders For 1960 Chosen

Tryouts were held May 17 at Pinckney High School to choose one Varsity cheerleader and six Jr. Varsity cheerleaders for the 1960-61 season.

A total of ten girls worked together for a period of six weeks learning various techniques of cheerleading. A point system worked out by the 1959-60 cheering squad and Mrs. Walton, girl's physical education teacher, was used by the six judges who were Mrs. Towsley and Mrs. Marjorie Miller of Pinckney; Miss Dunn and Mr. McCollum of the high school faculty; and Evelyn Hall and Carol Howell of the High School Student Council.

The following girls will be your cheerleaders next fall. Varsity: Barbara Baughn, Barbara Waterbury, Leslie McAfee, Janice Rose, Mary Kelly and Louise Basydlo. Jr. Varsity: Camile Buda, Scharme Baxter, Martha Mayne, Judy Darrow, Nancy Read, Mary Lee Ashenbrenner.

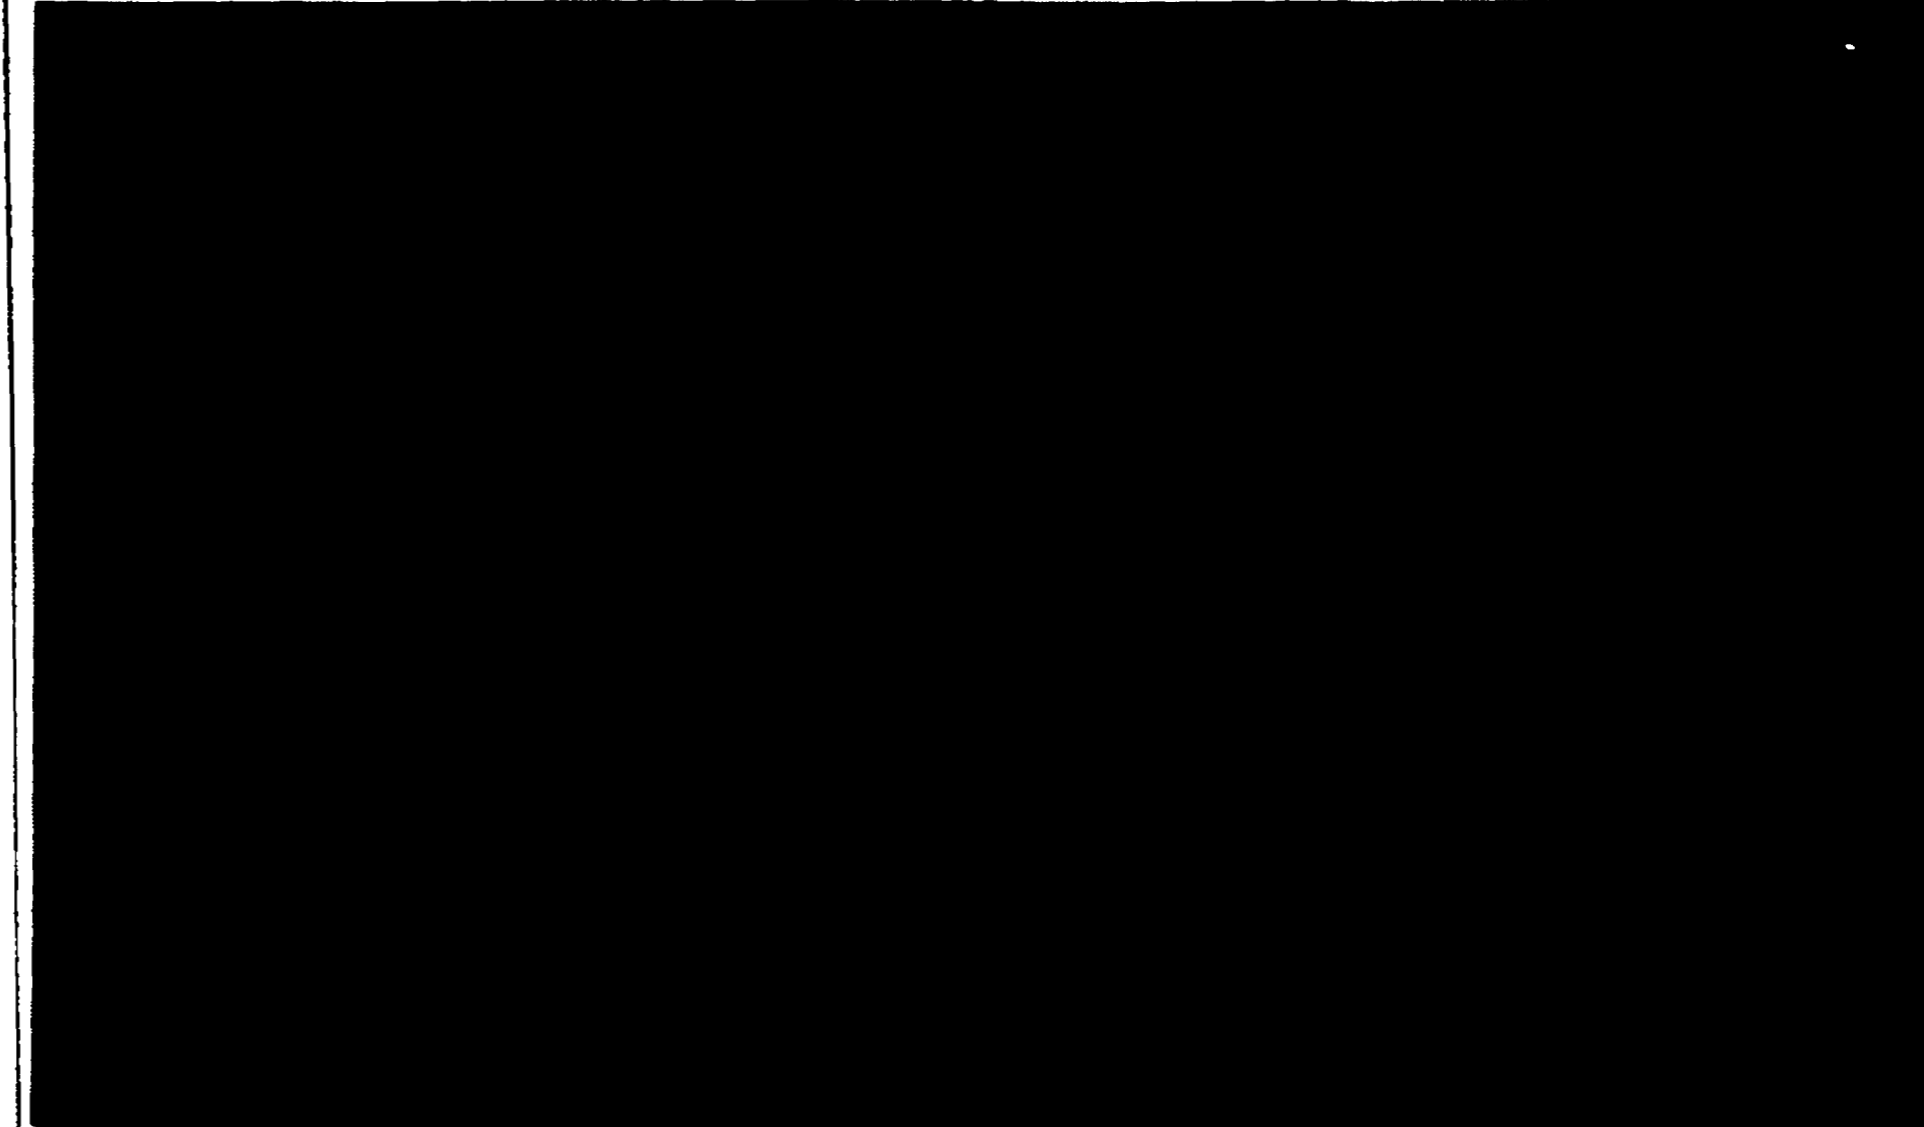

PFC Edward Egeler and Mrs. Egeler have announced the arrival of a son, Danny Joseph, at McPherson Health Center on May 16.

of East Lansing, retiring Superintendent of the Conference, emphatically supported the merger of the Congregational Christian churches with the Evangelical and Reformed churches across the nation.

Speaking to the one hundred eighteenth annual meeting of the Conference, Dr. Skidmore reported another year of unprecedented growth and development for the Congregational churches of Michigan. "This Conference is strong and vital," he said. "Its missionary parishes are handled in a fashion which bespeaks a partnership of all churches."

Reverend J. W. Winger of the Pinckney Community Congregational church and Mrs. Winger attended the Conference in Battle Creek.

## Memorial Day Program Starts with Parade

The Zal Grotto Band of Ann Arbor will be here again next Monday afternoon to march in the Memorial Day Parade. The parade will be ready to start its march from the elementary school at 2 p.m. sharp. All entrants must be there at 1:30 to take their places. John F. Burg is parade chairman.

Preparations for Pinckney's fourth annual Memorial Day program are nearing completion, but more organizations, as well as individuals, are still needed to join the parade. The high school band, in their first out-door appearance wearing the trim new uniforms, will lead the parade which will start at the elementary school at 2 p.m. The popular Zal Grotto Band of Ann Arbor has consented to be here again this year. Floats, bicycles, horses, antique autos, and marchers will take part in the celebration. The parade route will be the same as last year from the school to the village square where the laying of the wreath in tribute to the war dead will be made at solemn services.

The vacancy in the office of Prosecuting Attorney, by state law, is required to be filled by appointment to be made by the Circuit Judge. Attorney Charles B. Gatesman, of Howell, candidate for prosecuting attorney in the last several elections, will seek the appointment as Prosecutor. Mr. Gatesman has been Assistant Prosecutor since April 1959 having been appointed to that position by Erwin. The Howell City Council, at a regular meeting held on Monday, May 16th, appointed Attorney Erwin as Municipal Judge to fill the vacancy created by the resignation of Municipal Judge Francis E. Barron, whose resignation became effective on May 9th. Barron, now on a European trip has previously announced that he will run for the office of Probate Judge in the August Primary election.

A capacity audience witnessed the 25th public installation of the new officers of the Pinckney Rain-bow for Girls, Assembly 67, at the masonic hall Thursday evening.

In addition to the installation a new appointment was announced; that of Lynda Kay Gilbertson as Historian for the ensuing year. Mrs. Eva Engquist is Mother Advisor of the local chapter.

Kathy will join approximately 160 other Junior high and High school students, who have shown exceptional ability in their musical organizations, for a two week stay at the NMC from July 11 to July 24. The group will be under the direction of Mr. Fred Wiest, a well known Michigan band director, and are sponsored by the University of Michigan.

The selection of May 30 as the Memorial Day of the North may have been the inspiration of a Virginia woman of French origin. Cassandra Oliver Moncure, one of the first to celebrate the holiday, may have chosen May 30 because it is "The Day of Ashes" in France, commemorating the return of Napoleon Bonaparte's ashes to France from St. Helena.

Some foods for the freezer can be slightly undercooked if they are to be reheated before serving. Home economists at Michigan State University say this is especially important when preparing vegetables for stew.

## Servant of the People

Now, after Michigan Week with its emphasis on all of the things for which this great state of ours is famous, is a good time to consider the vital importance of the motor truck. . . Here is a servant of the people which does indeed serve everyone: the farmer, the business man, the retailer, the housewife, the vacationer, the boy or girl at school.

Everything you eat, wear, or use travels all or part of the way to you by truck. Yes, trucks are as much a part of Michigan as its vast productive capacity, its beautiful scenery, its great educational facilities, its fine people.

## No Canvases... No Canvas Troubles

### IN THE BIG-CAPACITY JOHN DEERE 30 COMBINE

There's no place for canvas troubles in a modern grain operation—and you do away with canvases completely with the big-capacity John Deere 7-foot 30 Combine. The 30 has an auger platform and steel feed conveyor to insure smooth, positive feeding no matter what the condition of your crop.

#### Even Feeding Pays Off

Even feeding means you combine more acres per day, and save more grain from every acre. There is far less slugging, you keep on the go at a steady, productive pace acre after acre. Even feeding also means that the cylinder runs at a constant speed at all times. There is no bunching to slow the cylinder speed just

when top speed is needed most—no heads going through the threshing unit buried in a bunch of straw.

#### Convenient Adjustments

You'll also like the easy-to-make, fine-line adjustments on the 30 Combine. You control cylinder speed by merely turning a crank on the grain tank. Cylinder and concave spacing is controlled from the outside of the combine, as are the chaffer, sieve, and air flow.

Come in the next time you're in town for complete details. Our John Deere Credit Plan makes ownership of the economical 30 Combine easy.

## Ann Arbor Area Parks Improved

Persons seeking a beautiful natural setting for their family picnic or outing during the Memorial Day week-end might well consider a trip to the new Hudson Mills Metropolitan Park.

This suggestion was made today by Kenneth L. Hallenbeck, director of the Huron - Clinton Metropolitan Authority, a five-county park and parkway agency serving Livingston, Macomb, Oakland, Washtenaw and Wayne Counties.

The authority has just increased facilities at the 600-acre Hudson Mills Metropolitan Park, located along the Huron River just 12 miles northwest of Ann Arbor near the junction of North Territorial Road and Huron River Dr.

### PINCKNEY DISPATCH Thursday, May 26, 1960

Cut flowers brighten a home during the summer but if they are not cut properly, the plant's growth and future flower yield will be reduced.

Horticulturists at Michigan State University say that flowers should be cut with sharp tools. Breaking or twisting off the flowers injures the remaining wood.

Take care not to cut off more leaves than are absolutely necessary. The plant needs the leaves to change energy from the sun to food material which the plant uses to produce more stems and leaves.

During the first season in bloom, flowers should be cut with very short stems only, advise M.S. U. horticulturists. Even when plants are fully grown, at least two leaves should be left between the cut and the main stem.

## Conservation Notes

More than 101,000 acres of state-owned lands will be offered for oil and gas leasing June 2 at a public sale to be held by the Conservation Department in Lansing.

Next month's sale, the largest since 1953, reflects heightened drilling interest spurred by production in Michigan's relatively new Albion-Pulaski-Scipio pool area which accounted for approximately 30 percent of the state's 1959 oil output.

With most of the lands in this southern Michigan area already leased, interest is spreading to other sectors of the state. Out-of-state drilling firms head the list of applicants seeking leases to lands in 32 counties of the lower peninsula.

Plagued by extremely bad trapping conditions in most areas of the state, Michigan trappers saw their take drop to 11,442 beavers and 750 otters during the past season. Both figures were below the 1959 harvest of 15,646 beavers and 836 otters.

Snow, high waters, poor roads and low temperatures — chief factors in holding down the 1960 take — seemed to be more than some trappers care to cope with and license sales fell from 3,852 last year to 3,501.

Adding one bright spot to the season was the marked boost in pelt prices. "Blanket" beaver pelts brought \$23-23 while otter hides ran as high as \$35. In 1959, "blanket" beaver prices ranged from \$13 to \$15 and otter pelts earned \$20-25.

Mr. John A. Hagman  
County Clerk, Court House,  
Howell, Michigan

Dear Sir:

I herewith submit my resignation as Prosecuting Attorney of Livingston County to become effective as of midnight May 31, 1960.

It is with sincere regret that I submit this resignation after having held this office since January 1, 1947. I have enjoyed the work as Prosecuting Attorney for these past years and it has been a sincere pleasure to be associated with yourself and the other County officers and the Board of Supervisors. However, Mr. Charles Gatesman, who has opposed me for this office for the past several years has announced that he intends to run for that office again and I do not wish to further oppose Mr. Gatesman in a contested election.

My reason for submitting my resignation prior to the expiration of my term of office is that an opportunity arose for me to receive the appointment as Howell Municipal Judge to fill out the three year unexpired term of that office. This appointment must be made by the Howell City Council prior to Jun 1, 1960. Inasmuch as the offices of Prosecuting Attorney and Municipal Judge are incompatible it was necessary that I submit my resignation as Prosecutor before I could accept the office of Municipal Judge.

I am sending a copy of this letter to the Honorable Michael Carland, Circuit Judge, for his information.

Yours truly,  
WILFRED H. ERWIN  
Prosecuting Attorney

Too much tillage really amounts to "un-plowing" a field, say Michigan State University soil scientists. Any system that leaves the soil loose, such as minimum tillage, is a step in the right direction.

One summer spraying will control the European pine shoot moth — if it's applied at the right time. One treatment will do the trick if it comes when about 50 per cent of all eggs have hatched, usually around July 4, say Michigan State University entomologists.

## New Business Nearing Completion . . .

Work is progressing rapidly on the Leonard Lee super service station at the corner of E. Main and Mill streets. Mr. Lee hopes to have the building completed by July 1st.

## Register Your Boat Now to Avoid Rush!

Warm weather, blue skies, and the approach of the vacation season has accelerated the flow of motor boat registrations to the Michigan Department of State. Applications have jumped from a few hundred to more than 2,000 a day and the number is increasing as June draws nearer.

Secretary of State James M. Hare estimates that about 200,000 of Michigan's half million watercraft owners have thus far failed to register their motor boats.

### Like Auto License Rush

"The situation is not unlike our annual vehicle rush at the end of February when everybody hurries in for his tab just before the March 1 deadline," Hare said.

"In anticipation of this accelerated flow of applications we have rented 5 additional IBM machines which, with our 5 permanent machines, will make it possible to double our daily capacity during the busy weeks ahead," Hare assured motor boat owners.

### Temporary Help Hired

The Department of State, as it does in February for the motor vehicle license rush, has hired 5 temporary machine operators and two additional clerks to take care of the mounting crest of applications. As soon as the motor boat registration rush is over and the flow is down to normal, these temporary employees will be released so that there will be no long-range or continuing expense to the State.

Under the new law, 289,585 watercraft have been registered. By the end of the week the State Department will be tooled to take care of 3,000 applications or more each day. Applications received on Monday will usually be out by Wednesday.

### Some Questions Unanswered

According to Hare the biggest difficulty stems from the fact that 20 per cent of the applications are sent in on obsolete 1957 application forms. Another is that all of the questions, asked on the new registration card are not always answered.

This causes needless delays. The Department must send all incomplete or outdated forms back to the motor boat owner at a waste of time and money for all concerned.

### New Forms Distributed

When supplies of new forms were distributed to watercraft vendors and others handling boat applications, the Department requested that all forms which were used before the 1957 Act was changed be destroyed.

The new and correct form can easily be identified. The reverse side lists excerpts from the boat numbering law, Act 245 P. A. 1959.

### Citizenship Status Asked

On the questionnaire side of the form the applicant is asked to state the citizenship of the motor boat owner. When this is not given, whether due to the fact that an obsolete form is used or due to the negligence of the watercraft

owner, State employees must take time and postage to correspond with each registrant.

Just as the Department of State experienced a three-year cresting of drivers' license applications after the three-year vehicle operator's law went into effect, they predict that they will have a high point every third year as the original avalanche of applications under the new law come up for renewals.

"We are also sure," Hare said, "that each Spring the coming of warm weather will accelerate boat sales and that we will have some seasonal upsurge every May and June."

## Michigan Bell Plans Building Program for '60

Michigan Bell Telephone Company today announced that its construction program during 1960 will reach \$103,000,000 — second highest in company history.

"A program of this magnitude means much to the economy of Michigan," William M. Day, company president said. "We are proceeding with it on the assumption that the economy will continue on its present upward trend, and in the hope that earnings on investment will permit the company to see the program through."

The \$102,000,000 to be spread throughout Michigan Bell territory this year compares with the company's \$83,000,000 construction program last year and the record \$105,000,000 in 1957.
