## First Home Football Game For Pirates Tomorrow Night

The P. H. S. Pirates dropped the football opener last Friday night to Williamston, a non-conference opponent, 9 - 0.

The teams were actually pretty evenly matched throughout the game as to yardage gained but Bob Hollandsworth's 64 yard break-away in the second quarter was as good as a mile.

Williamston added the last 2 points in the last minutes of the fourth quarter when the Pirates tried a pass out of their end zone and the passer was brought down. Good defense and good

tackling were in evidence in this first game.

Tomorrow, the first home game with Manchester may find the Pirates without 3 veteran players. Backfields Bob Williams and Terry Rowell and end, Jim DeWolf are out with injuries but will be back for the Ypsi-Roosevelt game.

Fortunately, with the largest turn out of players in school history. Coach Reader will have plenty of men in uniform.

## Hospital Sponsors Admissions Study

The Bureau of Hospital Administration at the U of M has begun the study sponsored by the McPherson Community Health Center Board of Trustees and medical staff to determine the seriously ill and long term chronic care needs for this service area.

Hospital utilization is being broken down into a number of categories. The patient, township residence, age, sex, physician and method of payment are being taken into consideration. It is anticipated that the needs of the county service area by township will be projected into 1970 and 1980.

Currently, records of hospitals in the surrounding areas are being reviewed for admission of patients from the Livingston county area. Included in the review are Lansing, Owosso, Flint, Pontiac, Ann Arbor and Jackson.

Also being considered in this study is the projection of welfare needs. It has been determined that of 4400 admissions to the McPherson Health Center during the year 1959, 69 of the patients were social welfare cases. This 1 1/2 per cent of the total admission. As this study proceeds, additional information will be published.

Miss Janet Van Slambrook of Pinckney was recently named Queen of the American Hairdressers of Washtenaw County. She will represent Washtenaw in the state contest for "Miss Professional Cosmetology of Michigan" to be held in Lansing on October 29. Miss Van Slambrook is a graduate of the Guy Cari School of Ann Arbor and of Virginia Farrell's Advanced Hairstyling Academy, Detroit. She is a hair stylist for Marilyn Mark's of Ann Arbor. Jan is the daughter of Mr. and Mrs. Dan Van Slambrook of Darwin Road and a 1958 graduate of Pinckney High School.

month. This is the time of  
the year when many little  
folks start on a great adven-  
ture. Your responsibility as a

driver also increases this time of year. Remember  
— Watch for school buses and young people on  
bicycles. Be extra careful near school grounds.

## EVERYONE KNOWS

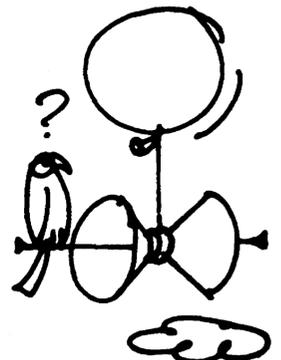

you can FIND IT FAST in  
the Yellow Pages . . . but you  
should see some of the things  
we find in the old, used  
Yellow Pages books when  
they're collected! Birth certi-  
ficates, wills, unmailed letters,  
and even dollar bills have  
turned up, tucked in between

the Yellow Pages and forgotten. So if you want a place  
to bury your "treasures," use the Yellow Pages . . . the  
right way! Look up Safe Deposit Boxes—or Safes—and  
make a prudent phone call!

## TURN ON TELEVISION

. . . "Let's see what's being  
broadcast from Europe."  
That day may be closer than  
you think. Last month the  
Bell Laboratories' engineers  
succeeded in bouncing a  
live conversation off the  
new balloon satellite, Echo,  
and another communica-  
tions frontier was opened.

The day when a whole series of balloon satellites may be  
spotted around the world to transmit broadcasts from  
continent to continent in seconds is just a little nearer.

# MICHIGAN MIRROR

**THE LONG REBUILDING JOB** to repair Michigan's reputation after the year-long 1959 cash crisis is well underway.

A giant stride was recently taken when Revenue Commissioner Clarence Lock told the 1960 annual conference of the National Tax Association in New York City that it was partisan disagreement and not something basically wrong with Michigan law or Michigan people that caused the disastrous stalemate.

"Michigan is a great state with tremendous assets," Lock told the tax experts.

"Yet despite all the plus factors, we permitted ourselves the luxury of horrible national publicity because of an unwillingness to compromise our differences," he said.

While there will still be differences, Lock predicted the state will never again allow it-

self to pass through evil days as it did last year because of these differences.

"Michigan is on its way back", he said.

"Both political parties now recognize our shortcomings and the areas in which our tax structure needs repair," the portly, balding Lock said in a paper he prepared for the New York meeting.

He called for a united effort to put Michigan back on the map as a healthy state with potential for almost unlimited growth.

"There is no excuse for a wealthy state like Michigan to sell itself short," Lock said. "The realization of the fallacy of such practices and the fact that we have learned much from our errors of the past augurs well for the future of Michigan."

"There is a lesson here for Michigan and her sister states."

FRANKLIN K. DE WALD, husky ney state personnel chief, has ordered a through look at Michigan's civil service system.

De Wald, long accustomed to working with huge work forces on the public payroll by virtue of service in Washington and elsewhere, said the aim of the Civil Service Commission actions was to insure that Michigan will develop a merit system operation that will attract and keep capable people in state service.

"From time to time there have been complaints the present system tends to create 'inbreeding' in state employment and prevents adequate opportunity for attracting capable new people," De Wald said.

The study will include a survey of state agencies' operation, a survey of employee opinion of the system, a survey of other public agencies and an analysis of the appointment and promotion practices under the present system.

the present system which will come under scrutiny is the practice of using a promotional list first.

Present regulations require state agencies to fill vacancies from among persons on a promotional list before going outside the list, if such a list is available.

Only after exhausting the list can a position be filled from another list compiled by examination of new recruits from the general public, De Wald said.

Many personnel experts hailed the evaluation program as a major step forward, he said.

**MORE AND MORE JUNE BRIDES** are fast approaching the November of life, according to the Michigan Conference on Aging.

Statistics show that in 10 years (1950-59) when population of Michigan had increased by 30 percent, marriages among persons 65 and over had increased by nearly double that amount, the conference said.

In the same period, marriages among people of all ages were decreasing by about 5 percent.

**THERE WERE MORE bridegrooms** than brides in the 65-and over age bracket, the conference said, indicating that perhaps more of the older men were marrying younger women.

## Michigan Citizens In Service Can Register by Mail

Michigan citizens, temporarily stationed in other states or overseas on governmental missions or bases, are eligible to register for and vote in the November presidential elections.

Secretary of State James M. Hare today urged service men and civilian personnel serving or in other states to write to their local election clerks at once if they wish to cast a ballot.

"Many soldiers and sailors who have turned 21 during the past year do not realize that they can register by mail," Hare said. "Families of all servicemen and civilians on overseas assignments should write to tell them that their being absent from Michigan does not cause them to lose their vote, if they act at once."

Hare recommended that persons currently away from their home community write to their local clerk to ask for their absentee voter ballot, and, if they have never voted before or have not voted in the past four years, to request a registration card.

Tuesday, September 27, is the deadline for county clerks to deliver general election absentee ballots to local election officials. If persons on foreign assignments write for their ballots now, there will be less danger that the voted ballots will not be returned from Asia, Africa,

Europe, or elsewhere in the world by the November 5, 1960 deadline for absentee voting.

The general election will be

held on Tuesday, November 8, the traditional "first Tuesday after the first Monday in November."

### Navy Sets Dec. 10th for Annual NROTC Exam

Adm. W. R. SMEDBERG, III, Chief of Naval Personnel, announced today that the 15th annual national competitive examination for the Regular Naval Reserve Officers Training Corps will be given to eligible high school seniors and graduates on December 10. Application forms are now available and

must be mailed by November 18.

Designed to supplement the officer output of the Naval Academy, the NROTC program makes it possible for a young man to earn a regular commission while studying at the civilian college of his choice which has an NROTC Unit. All tuition, fees and books are furnished by the Navy, and the student receives an annual retainer of \$600 for four years. During the summers the student goes on interesting training cruises as a midshipman. After completing the usual four year college course, he is commissioned in the regular Navy or Marine Corps and goes on active duty as a prospective career officer with the Navy's far-flung fleets. For those who apply and qualify, immediate assignment to flight training will open new careers in naval aviation.

High school seniors and graduates who have reached the 17th anniversary of birth and have not reached the 21st anniversary of birth on 1 July 1961 may apply for the NROTC aptitude test. Those who make a qualifying score will be given a rigid physical exam early in 1961. From the number of qualified young men remaining in competition, at least 1600 will be selected to begin their naval careers next September.

The NROTC college training program is also open to enlisted men on active duty with the Navy and Marines. A separate

quota is established for applicants within these services.

Application forms are available at high schools, Navy Recruiting Stations or from the Chief of Naval Personnel, Department of the Navy, Washington 25, D. C.

#### PINCKNEY DISPATCH Thursday, September 22, 1960

A decline in the number of casualties is expected with the normal decrease in water sports activities as summer ends.

Last year 325 persons drowned and another 179 were injured in 457 reported water accidents in Michigan.

### Bright Future in Fashion

Wood furniture is taking a fling with color this season. Jessie Marion, home furnishings specialist at Michigan State University, reports that some manufacturers are offering Early American styles painted in gay colors as well as in the regular

maple finish. The new finishes, chests and bed room pieces painted in vivid shades of red, yellow, blue and brown. Homemakers are expected to choose most of their furniture in the regular wood finish, then spike it with one or two colored pieces.

Miss Marion notes that gay colored pieces will naturally become prominent bits of interest in a room and should be chosen with this in mind. She cautions against buying too much of any high-fashion furniture that may lose its appeal in a short time.

The trend to colored furniture suggests a do-it-yourself decorating idea. Homemakers may buy the less expensive unfinished furniture and brush on a bright color. Or they may add the style note by painting an older chair or chest they already have.

### 80 Year Old Weed Seeds Still Grow

Three species of weed seeds, buried 80 years ago on the Michigan State University campus and dug up last spring, have germinated, according to G. P. Steinbauer and H. T. Darlington of the department of botany and plant pathology at M. S. U.

Dr. W. J. Beal, M.S.U. botany professor in the late 1800's, buried 20 species of weeds to begin what is now the oldest buried weed seed experiment in the world.

Periodically, some of the seeds have been dug up and tested to see if they will germinate. Although just three still do, the life expectancy curve of one of the weeds—moth mullein—indicates that the seeds will very likely be alive for over a century.

The Western Pine Association recommends that lumber used in the bathroom should be carefully treated on all surfaces—hidden and exposed—with a good commercial sealer before installation. If the home-owner wishes to use a stain, a color finish, or a clear finish, this may be applied over the sealer.

There is considerable variety in the western pine region species. The natural color is very light in woods such as Idaho white pine and Engelmann spruce and colors run up to the dark toned species such as the reddish incense cedar and inland red cedar.
