Committeemen Have Serious Duties To Perform, Says ASC Committee Chairman

ASC farmer - committeemen who will soon be elected by their neighbors for the coming year, have important program responsibilities, according to Jacob Bontekoe, Chairman, Livingston County ASC Committee.

"This makes it all the more important that representative farmers be elected to the job, he declared.

ASC Committees have charge of the local field administration of such national farm programs as acreage allotments, marketing quotas, commodity loans, the

feed gain program, the Sugar Act program, the National Wool program, the Agricultural Conservation Program, the Conservation Reserve program, and the farm storage facility loans.

Other duties are assigned to the committees by the Secretary of Agriculture as the need arises.

The chairman explained that each year, farmers who are taking part in one or more of the farm programs which the committees administer elect a community committee from among

their own number. The chairman and vice chairman of this committee also serve respectively as delegate and alternate delegate to a county convention, where the county ASC committee is elected.

In Livingston County, the farmers who are eligible to vote for the community committee and for delegates to the county convention will cast their ballots by mail. Ballots were mailed to all known eligible voters on September 8. Ballots must be returned to the ASCS County Office located at 304 E. Grand River Ave., Howell, Mich., by September 20.

Any eligible farmer not receiving a ballot for his Township may obtain one at the Livingston County ASCS Office at 304 E. Grand River, Howell, Michigan.

Above is shown the Michigan Department of Agriculture's new mobile unit for calibrating accuracy of bulk milk tanks, of which there are estimated to be about 12,000 in use on farms of the state. The Department's Foods & Standards division is in charge of weights and measures work.

Constitutional convention for Michigan is rapidly taking on overtones of a "city folks versus the farmers" battle.

Partisan politics are to blame for much of this. Both Democrats and Republicans have been quick to seize on slogans and catch-phrases aimed at making the other side look bad.

Thus the Democrats are calling for an end to "representation of stumps and wilderness" while the GOP wants to "keep the Senate from becoming a caucus club for Southeastern Michigan."

Both the appeals are based on sound, if totally different, government philosophies, and both reflect what the political scientists call the "rural-urban dichotomy." Put simply, this means city folks tend to think their interests oppose to a great degree those of the rural dwellers, and vice-versa.

There are differences of opinion and suspicion between the farmers and city laborers.

But if pure partisanship is removed from the scene, the differences are harder to find. For example, much of the Democratic party tends to favor development programs of one kind or another which are directed from the state (or federal) level in an attempt to solve major problems such as delinquency, urban renewal and the like, which are chiefly city burdens.

And the Democratic strength lies in the cities.

Republicans, on the other hand, generally tend to favor a greater extent of local control in government affairs. The GOP draws its votes from wider areas, and consequently recognizes a greater dissimilarity in the needs of people and places.

Party emphasis on the rural-versus-urban question creates uneasiness among city Republicans and country Democrats.

Partisan harmony may be difficult to come by, but agree-

ment among the good citizens of Michigan, whether they live in the cities or the villages, can, if given a chance, transcend the political differences.

Especially this is true in so vital an undertaking as the writing of a new basic law for Michigan.

The chief manifestation of the rural-urban split as it applies to Constitutional Convention is in the hassle over whether, or how, to reapportion the Legislature, particularly the Senate. Maneuvering for simple partisan advantage could work against the best interest of all the people of Michigan, if it is pegged to a fight over whether people or people plus territory should be the most important consideration for solving the apportionment problem.

Genial Clarence W. Lock, Michigan's revenue commissioner, has compiled quite a record of national recognition in his chosen field.

Most recent achievement for the director of the state revenue department, which handles the tax collecting for Michigan, was his election as a member of the Board of Directors of the National Tax Association.

Earlier this year, Lock was named to the Advisory Council of Tax Institute, Inc., and elected secretary of the National Association of Tax Administrators. Lock, who took over as Revenue Commissioner after serving many years as deputy to Louis Nims, now retired, has demonstrated by his activities at the national level that Michigan is still among the leading states in government organization and operation.

This, despite the desperate cash crisis of 1959 and attendant tax and financing troubles.

State officials are again looking into the wage and fringe benefit picture for Michigan's 31,000 classified employees to see if they are being short-changed in comparison with people doing comparable jobs in private industry.

PINCKNEY DISPATCH

Wednesday, Sept. 20, 1961

In November, and will be used by the Civil Service Commission to see if there should be any changes in state employment practices.

John Downes, chief of the wage and salary section of the Civil Service Department, is directing the study.

Chief items in the survey are interviews with workers in some 37 public agencies in Michigan, 22 states and the federal government, and a mail survey of wages paid by 370 private employers.

It will be up to the four-member Civil Service Commission to evaluate findings of this year's study in comparison with surveys done in other years to determine whether state employees are compensated too generously, or not generously enough.

The recent 3 percent wage hike and institution of group insurance programs has grown out of similar studies in the past.

Some 9,500,000 young pine trees were placed on sale this week by the Conservation Department to encourage reforestation of private lands in Michigan.

White pine and red pine seedlings and transplants, jack pine plants, and Austrian pine are being offered to private landowners who need stock for fall reforestation plantings to halt soil erosion, create farm windbreaks, and establish native pine stands for future wood production.

Terms of the Department's tree sales provide that stock may not be resold or otherwise used commercially with roots attached. Blanket orders are not accepted from agencies or organizations that intend to redistribute stock to landowners.

Official stock price lists and order blanks may be obtained from the Department's forestry division in Lansing or locally at offices of district foresters and county extension agents. All orders must be sent directly to the division's Lansing office.

Stock will be shipped from the Department's nurseries at Roscommon, Manistique, and Howell until October 31, weather permitting.

Notes of 25 Years Ago

Mr. and Mrs. Bert VanBlaricum will be honored at an open house, given by their children, in honor of their golden wedding anniversary next Sunday.

A. B. Horine has purchased 80 acres of land of the Floyd Reason estate adjoining his farm, formerly a part of the Stickle, Jackson and Welsh farms.

James Howard, 18, of Stockbridge, who was sought in connection with the knife-wounding of Lee Osborne on Sept. 14, gave himself up after a two-day search. He is in county jail awaiting hearing later this week.

The hi-jackers who invaded the Pleasant Lake Country Club Friday night carried off all the slot-machines. State police and fingerprint experts are on the case.

Two real estate changes took place here last week. Lee Lavey and C. H. Kennedy sold their creamery building to the tenants, the Rebel Creamery of River Rouge, who have occupied it for the past year. Lucius Doyle has purchased the double Teeple house on Putnam street.

Miss Constance Darrow and Miss Margaret Curlett are taking post graduate courses in Detroit this term.

The Rocco Lupo family who have been living on Mrs. Mark Swarthout's farm have moved to the Floyd Reason house on Putnam street.

Jane Johnson, daughter of Mr. and Mrs. Roy Johnson of Gregory and Jack Kellenberger, son of the Henry Kellenbergers, were united in marriage at Mason on Sept. 16. They were attended by Mr. and Mrs. Royal Kellenberger of Pinckney.

Fall To Start Officially Next Saturday Morning at 1:43

Autumn will begin officially at 1:43 a.m. Saturday, Sept. 23, when the night becomes longer than the day, a University of Michigan astronomer says.

"At this time, the sun on its way south will cross the equator, and will be said to enter the autumnal equinox," explains Associate Prof. Hazel M. Losh.

"Since June 21, the sun has been steadily dropping southward. This crossing of the equator marks the opening of the fall season in the Northern Hemisphere and spring in the southern," she notes.

On Sept. 23, the sun will rise and set almost exactly at the east and west points, and the day and night will be said to be equal, hence the name, equinox.

Strictly speaking, however, this is not true, Professor Losh adds.

"Due to the apparent 'lifting' of the sun by the earth's atmosphere, the hours when the sun is actually visible on this day slightly will exceed the time when the sun is out of sight by as much as eight minutes."

Equal day and night will not really come until Sept. 26, the U-M astronomer says.

Small Growers Face Serious Decisions in Wheat Program

Most of Michigan's small wheat producers under the 1962 Wheat Program would likely find it most profitable to plant the maximum acreage allowable without marketing quota penalties, says John Ferris, Michigan State University agricultural economist.

"On many Michigan farms, wheat acreage has been less than 15 acres but more than the allotment," Ferris says. "This year the farmer can plant up to his largest planted acreage of the past three years, but not over 13.5 acres, without penalty."

"But farmers will not be eligible for supports unless they stay within their 1962 allotments," Ferris says.

On the first 10 per cent of wheat land diverted, farmers will receive payment equal to 45 per cent of their normal yield times the county support price.

The payment rate increases to 60 per cent on additional diversion.

Maximum diversion, including the first 10 per cent, is 40 per cent of wheat acreage of 10 acres, whichever is the larger. For the small wheat producer, diversion is based on the highest planted acreage in the last three years.

"Those whose highest planted acreage is between 13.5 and 15 must cut back to 13.5 but may divert as much as 10 acres, Ferris says. "Those whose highest planted acreage is under 13.5 can divert as much as 10 acres or their highest planted acreage, whichever is the smaller."

"Each farmer must compare his own payment rate with his expected net return from planting the acres rather than diverting them. If his net return, after covering variable costs, is greater than the payment, he could elect to plant the wheat."

"To figure this out, he has to know his payment rate, expected yield, variable costs and his probable market price. Market prices on 1962 wheat will probably average about \$1.90 a bushel."

Ferris says that most Michigan farmers would likely find minimum diversion the most profitable, especially if they have their own equipment and have normal and expected yields of 30 bushels or more.

Farmers should contact their county ASCS office if they have questions about the program or to sign for participation.

The problems of rebuilding export markets later will be greater if production is curtailed sharply next year, the economist concluded.

PINCKNEY

By RUSS ENGELHARDT, Manager

FIFTY YEARS AGO about 250 people met in Boston—birthplace of the telephone—to form the Telephone Pioneers of America. It's an organization dedicated to promoting ideals in the telephone business, and serving communities where Pioneers live.

This fall nearly a quarter of a million active and retired members of this international organization—all having at least 21 years of telephone service—will celebrate the Pioneers' 50th Anniversary across the United States and Canada. The 6,000-member Michigan Wolverine Chapter will mark the occasion in special observances at nine state points. We salute the Pioneers on 50 years of accomplishment.

TO EACH HER OWN PRINCESS! Like to surprise the lady of your life with something lovely as a princess, yet practical as a telephone? Well, you can, easily and economically with the Princess phone! Mother, teen-ager or grandmother will love the Princess. It's little, it's lovely, and the dial lights up in the dark! Comes in five regal colors, too. Order hers from our business office today.

MICHIGAN REACHED A MILESTONE in its communications history on September 14. Michigan Bell installed its 3,000,000th telephone—an outdoor public phone—at a safety rest area on Interstate Highway 94, seven miles west of Ann Arbor. It took 65 years to reach our first 1,000,000th telephone, back in 1942. In 1952 we put in the 2,000,000th. Only seven countries outside the United States have more telephones than the 3,000,000 we serve here in Michigan. We're proud indeed to contribute to the progress of our State by serving its growing communications needs.

Local Items

Birthday greetings go today to Velma Bennett, Jeanne Devine, Bessie Hodgins and Pat Stillwell. Tomorrow John Emery, Denice Mowers and May Shirley will celebrate their birthdays, while John Moon and Jim Crank will have to wait 'til Friday. On Sunday, September 24, Mary Morris, Albert Mohler and John Blake will be another year older on Sept. 25, Herbert Sheldon and Trinket Lamb; on September 26 David Wooten and Cathy Reason.

Mr. and Mrs. Wayne Wagner and Mr. and Mrs. Bruce Coleman attended the funeral of Mr. Coleman's aunt, Mrs. Isabelle Fuester, 86, at Bad Axe.

Pinckneyites who were hospitalized in recent days at McPherson Health Center included Mrs. Barbara Coffey, William Bova, Anthony Urbany, Neoma Blaha, Bernice (Dolly) Baughn, and Orville Nash.

"BRING 'EM BACK ALIVE!"

A TIP FROM THE AAA AND THIS NEWSPAPER

Notes of 48 Years Ago

This issue contains a long letter from Charles Grimes, a former Pinckney boy, to Editor Caverly. Mr. Grimes at this time was Superintendent of the schools of Gillette, Wyoming, a frontier town of 1000 people in ranch and range country where cattle and sheep are counted by the thousands. Mr. Grimes describes the modern new school building, "with running water, drinking fountains and a fine new gymnasium." He also describes the new frontier home he and Mrs. Grimes built during the summer with a breathtaking view of Pine Ridge, the lost range of the Rockies.

Mr. and Mrs. Fred Wylie are the parents of a son, born September 3.

Liam Ledwidge who has been racing his horse at Ithaca and Mt. Pleasant came home Friday. He carried off third money at both places.

Miss Mary D. Eaman of Garden City, Kansas, is home from a recent trip around the world. She is now visiting here at the home of her grandmother, Mrs. E. W. Martin.

Born to Mr. and Mrs. Glenn

Gardner of Stockbridge, former Pinckney residents, a twelve pound son.

Wells Bennett has accepted a position with a hardware firm at the "Soo" and will move there this fall.

S. W. Swarthout and wife, the P. H. Swarthouts and son, Don, spent Sunday in Brighton.

T. Birkett has discontinued farming and is selling his 15 head of cattle and 6 horses this week.

There are rumors again that an electric line will be built to run from Detroit to Lansing, passing through Brighton, Howell and Fowlerville.

E. J. Briggs is moving away and will sell his stock and household goods at auction on Saturday.

We wish to express our deepest appreciation for your kind expressions of sympathy, the floral offerings and assistance in so many ways during our recent bereavement.

Norma Shehan Married Saturday in Ann Arbor

A wedding of interest to readers in this area took place on Saturday, September 9, at the First Methodist church in Ann Arbor.

Norma Ann Shehan became the bride of Gary Ross Hoard in a ceremony performed by the Reverend Eugene Ransom.

The bride is the daughter of Mrs. Harold Farley of Whitmore Lake and Rolland Shehan of Platt road, former Pinckney residents.

Miss Pamela Jeanne Shehan was her sister's maid of honor.

Mrs. Gordon Van Amburg of Whitmore Lake, Mrs. Gerald Barnett of Pinckney and Mrs. Robert Killham of Gregory were the bridesmaids.

The newlyweds will live in South Lyon.

The bride is the granddaughter of Mrs. Arthur Shehan of Pinckney.

WILLIAM BOVA

William Bova, aged 73, died on Sept. 13 at the McPherson Community Health Center. Funeral services were held at the Keehn funeral home in Brighton and burial was at the Fairview cemetery near Brighton, on Saturday. He resided with his wife Dorothy, who survives him, at Rushview Drive, Rush Lake, for the past nine years.

The Rev. Luther Kriefall, St. Paul's Lutheran church officiated at the funeral services for Mr. Bova.

Voting was very tight throughout the county. In Putnam only 190 voters went to the polls to make Putnam the only township in the county to go Democratic. Jenkins and Curby were elected here by good majorities.

Dr. Hannah, as 14th senatorial district delegate and Sharpe as representative district delegate will be among the 144 elected delegates who will hold their first meeting at Lansing on October 3.

It is expected that many months of hard work face the convention which will have the task of drawing up a new state constitution to be submitted to the voters possibly at the 1962 November election.

Pirates Win First Football Game of Season at Hartland

The P.H.S Pirates moved in and plundered Hartland for a 13-0 victory in the first football game of the season for both teams Friday night.

Hartland, dedicating its new lighted field, tried hard for a victory to complete its big evening.

Both the Eagles and the Pirates played good football for an opener.

Pinckney got off to a 7-0 lead in the first quarter as J. Biery blocked a Hartland punt and landed on the ball on the Hartland eight yard line. Mike Manns dashed into the end zone on the first play and Bob Williams kicked the extra point.

A seventeen - yard pass play in the last part of the third period from Fullback Terry Rowell to left half Williams brought the score to 13-0.

The Pirates will travel to Manchester for their second game Friday. Kick-off time is 7:30 p.m.

About 300 local fans attended the game at Hartland.

Bell Telephone Installs 3 Millionth Phone Last Week

Michigan Bell Telephone Company, growing at a rate of more than a million phones a decade, marked the installation of its 3,000,000th telephone last week (Sept. 14).

The public telephone was installed in the new Ann Arbor Safety Rest Area alongside Interstate Highway 94, which was dedicated by the State Highway Department as part of a double ceremony.

William M. Day, Michigan Bell president, told a gathering of public officials and community leaders that it took 65 years after the first telephone in Michigan was installed to reach the first million mark. "That was in 1942 but only 10 years later that company installed the second millionth in the farm home of the late Clifford Pond near Mason," Day said. "Now, nine years later, we commemorate the installation of the 3,000,000th telephone."

Day said 210 countries of the world have less than 3,000,000 phones. Only seven other countries outside the United States have more. He said Russia has only a little more than 4,000,000 compared with nearly 71 million in this country.

Day commented that the telephone industry, in meeting the communications needs of a free

people in a dynamic, growing state, has become a major segment of Michigan's economy. He said Michigan Bell operations alone enrich that economy by a quarter of a billion dollars a year, not the least of which is a payroll to more than 23,000 employees.
