

# Pinckney Dispatch

VOLUME 84 — No. 10

PINCKNEY, MICHIGAN — WEDNESDAY, MARCH 17, 1965

SINGLE COPY 10c

## JayCee's Celebrate Charter Night

PINCKNEY KIWANIS PRESIDENT, Gary Eichman, extends congratulations to the Jaycee Chapter. Shown here left to right are Eichman, John Ware, Jaycee Secretary; James Lavey, Jaycee Treasurer; Donald Wiltse, Jaycee vice-president, and President Schenden.

JOHN JEFFREYS presented an official Jaycee gavel to President Schenden to be used at future meetings. Jeffreys is a Howell Past Jaycee President and extension chairman.

RUDY WETGER, National Director of Jaycees, presented the Junior Chamber International Charter to President Schenden.

Nearly 250 persons attended the very successful and well organized Smorgasbord-dinner-dance at Anchor Inn Saturday night when the local chapter of the Pinckney Jaycees became an officially chartered organization. They are now affiliated with United States Chamber of Commerce and the Michigan State Jr. Chamber of Commerce.

Such dignitaries as State Representative Thomas Sharpe, Livingston County Prosecutor, Charles Gatesman, national and state officers, and past officers of Jaycee organizations, including Jaycee presidents from Chelsea, Brighton, Milan, Saine, Dexter, Howell and Ann Arbor.

Paul "Pete" Baldwin, a Past President, and resident of Howell was Master of Ceremonies. The Rev. Gerald Bender of the Pinckney Community Congregational Church gave the invocation.

Presentation of the official Charter made to Pinckney Jaycee president Herb Schenden in behalf of the Pinckney Chapter, was made by Dan Maroney, District vice-president.

Rudy Wetger, National Director of Jaycees, presented the Jaycee International Charter to the local Jaycees. President Schenden accepted this Charter, also.

John Jeffreys, a Past Howell Jaycee President, and extension chairman, presented President Schenden with an official Jaycee gavel to be used at meetings in the future.

Pinckney Kiwanis Club president, Gary Eichman was on hand to congratulate the newly chartered organization. In behalf of the Kiwanians Gary pledged support and cooperation for any civic movements that might arise in the future.

Keynote speaker for the evening was United States vice-president of Jaycees, Richard Y. St. John. He complimented the local chapter on the progress they have shown to date, and urged them "not to slow down," or "take a back seat in the community, but continue to move ahead."

United States vice-president of Jaycees, Merritt Martin, a Saine resident, spoke briefly.

Jaycee membership lapel pins were awarded to local members. President Schenden made the presentations as he introduced each one. Following is a list of those who received pins: Donald B. Wiltse, vice-president; John P. Ware, secretary; James L. Lavey, treasurer; George Roth, director; Thomas A. Wylie, director; Thomas A. Abrass, Richard A. Bennett, Jack R. Bilkovsky, Clement G. Charboneau, Milton E. Charboneau, Richard K. Darrow, Thomas J. Davis, Lynn D. Haines, Richard Harvey, Michael D. Heath, Lonnie F. Huhman, James F. Janowski, David L. Kaercher, Robert S. Lavey, Joseph H. Marhofer, Robert S. Ward, Howard R. White, and Michael A. Winsky.

### Library Grateful For Cash Gifts

The Pinckney Community Library acknowledges, with the greatest of appreciation, the check for \$150 from the Hamburg Township for allowing Hamburg residents the privilege of using the library this year.

The library also appreciates the cash donation from Mrs. Ruth Hammer, books from Mrs. Dorothy Hurtbise, and magazines from Mrs. Fugate, Mrs. H. W. Gilbert, and Mrs. William Austin, Jr.

New books this week include Zarubica, "Year of the Rat" — one of the most intriguing suspense stories of World War II. It is based upon a plot, which may well be the truth, about the allied deception as to the proposed site of the D-Day invasion.

Eden, "Ravenscroft" — a gentle woman's suspense stories of procurers in London, and a young nobleman who is seeking a seat in Parliament on a platform of social reform.

### Brighton Youth Faces Sentence

A 17-year-old Brighton boy admitted last Thursday of putting a knife to the throat of a cab driver on Feb. 11 after being taken to Wilson Township as a taxi fare.

Wesley A. Wilson will be sentenced for felonious assault on April 2.

He was arrested by sheriff's deputies following the attack on the Ann Arbor driver, Ronald Russell, 21, of 514 Forest. Russell was cut slightly. The youth did not say why he committed the act.

## Supervisors Vote Yes For Livingston County Appraisal

### "Top Spellers" of Pinckney Schools

CHRISTINE ASH, a 7th grade student at Hamburg Elementary School, proved to be "top speller" in a school spelling bee held last week. During a bee held previous to last week's, in each room, 5th through the 8th grade, ten "top spellers" were discovered. Those persons competed last week. Shown above, are the four top spellers of the school in the order they remained standing. Last to be standing was Christine, shown at far left, with runners-up Cathy Fisher, Faith Zobel, and Kristi Wagoner. The last three are 8th graders.

"TOP SPELLER" again this year at Pinckney Elementary was Darlene Knapp. This is the third consecutive year for this 8th grade student to claim this title. Darlene stood one hour, 45 minutes, and the winning word was "efficiency." Runner-up was 6th grader, Tom Ehman. Seventh grader, Laura Whitley, and 8th grader, Edna Pesola missed on the same word. Fourth runner-up was 5th grader, Kathy Kourt. The spellers are shown here in the order they remained standing with winner Darlene at the far left.

The Livingston County Board of Supervisors yesterday approved a county-wide appraisal in a vote of 11 to 9. The vote means that all real property will be appraised in the county. Voting no to the motion were Supervisors Conine, Gordon, Roepke, Raddatz, Campbell, Stubbs, Hogan, Seim and Armstrong.

Another motion to approve personal property appraisal was defeated. If the County Allocation Board approves the cost of the appraisal on the annual budget, all real property in Livingston County will be appraised by an outside firm in 1966.

A motion made by Finance Chairman Raddatz that the county social welfare building fund be discontinued, passed unanimously. There is, at present \$160,000 earmarked for county Medicare facilities for the aged. The funds will be transferred to the Welfare Department for use in meeting monthly commitments.

Raddatz explained that in the case of the current budget, it seemed unwise to keep two funds, the city improvement and building funds. He recommended that the building fund be discontinued. Supervisor Armstrong explained that Medicare facilities are still possible in the county and that the county could, with \$160,000 in the building fund, be eligible for matching funds up to 40 percent under the Hill Burton law.

Armstrong also said that it is possible to levy one mill county wide tax to help finance and give the people an opportunity to vote on the Medicare facility.

Sheriff Lawrence Gehring introduced Robert Yates of the Secretary of State's office. Mr. Yates explained that the new cameras for photographing driver's license applicants would be delivered to the county license department in May. The new camera, Yates said, would require the hiring of three additional girls to handle the extra work with no reimbursement from the State. Chairman Clifton Heller asked Yates what would happen if the county decided to drop the photographing program. Yates explained that if possible the state could get another police agency from the county to handle it. If not, he said, Livingston county drivers may have to go to Ingham or Washtenaw counties for licenses.

Heller said, "In other words if we want licenses in the County we have no choice but to accept the cameras and finance the program out of our own money."

Yates replied, "Yes, unfortunately that is true."

Heller retorted, "It seems to me that the county is going to be paying \$6500 per year for cameras that only cost the state \$1100 and I don't think that's much of a bargain."

Both the Mayor of Howell and Brighton have said that neither city can afford to handle the licensing. No decision was made by the Supervisors. Yates could offer no solution to the problem and said that the state had no budget to open a license bureau in the county and no floor space.

Joe Gates, county abstractor, handed in his resignation effective April 1. It was accepted by the supervisors who voted to pay \$8000 to Gates, \$7500 for records, and \$500 for equipment.

The Board also voted to elect Mrs. Loretta Grostie County Abstractor at a salary of \$7800 and Miss Betty Nightingale at a salary of \$4290. A vote was also passed to raise the rates on abstracts. The office will support itself with its fees.

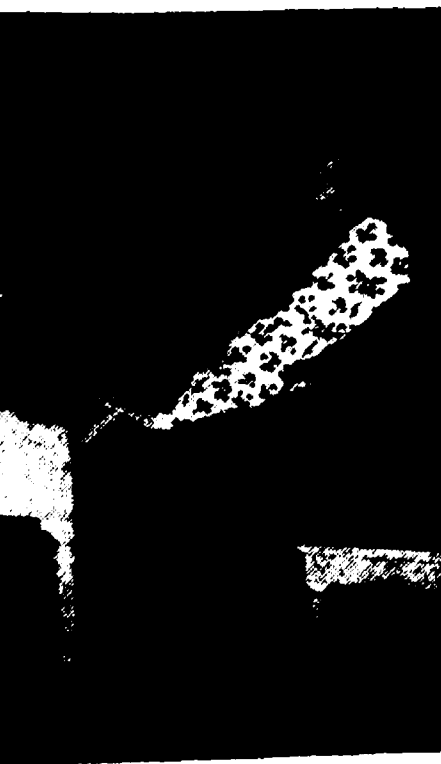

At the suggestion of Supervisor Marshall Cooper of Brighton, the Board appointed three members to the licensing department for the County Electrical Code which was approved by the Board at last month's meeting. They are William Brandt, Detroit Edison contractor; Willard Witte, Pinckney contractor; Robert Gaffney, Brighton contractor. They were appointed to one, two, and three year terms respectively.

Edward Myers was appointed inspector for the county and Lawrence Munsell, secretary of the Board of the County Electrical Code.

### Yearbook Finished

Thursday, March 11, was the day of the completion of the yearbook. After many months of toil the yearbook staff finally came to rest until another year. Now all Pinckney High School students await the arrival of the finished product. All of this was made possible through the co-operation of not just the high school students and faculty, but the whole community. And it is to these people that the yearbook staff would like to say "Thank you." We would also like to issue a special "Thank you" to Mr. Walton Chamberlain, our advisor.

### Talent Winners

Christine Line, daughter of Mr. and Mrs. Thomas Line of 5731 Cedar Lake Road, claimed third place in the recent county-wide 4-H Talent show held in Howell.

Miss Line played a piano solo. According to Mr. Harry Foster, Livingston County Extension agent, she is now first alternate for the State show competition which is scheduled for later this summer.

First place winner was Kathy White of Howell. She did a modern dance number. Second was Miss Kathy Greenway of Howell doing a tap dance number. Fourth place winners were two Hartland girls who called their act a "Baton Twirling Routine."

Miss Line is a member of a 4-H sewing group.

### Accident Takes Resident's Life

Mrs. Betty Lou Hose, age 28, 11100 Cedar Drive, Silver Lake, died March 12 in the University Medical Center, Ann Arbor, from injuries sustained in an automobile accident while enroute to work that morning. Betty has been a Pinckney resident the past eight years.

The accident occurred just off North Territorial on US-23 at about 7:15 a.m. Just as Betty drove out the S. Territorial ramp the auto she was driving skidded into the left lane which was occupied by a tractor and trailer semi-truck. Betty was thrown from the car onto the median.

She was taken to the hospital by ambulance. A passenger, Mrs. Susan Miller of 8690 Rus-side Drive received a possible broken arm, cuts and bruises. She was admitted to U. of M. Medical Center, also.

An obituary for Betty is printed elsewhere in this issue.

DEAN J. GARDNER, JR.

Dean J. Gardner, Jr., age 15 of 2249 Beardsley Rd., died Friday evening at his home from a self-inflicted gunshot wound. He was born Sept. 2, 1949, in Howell, a son of Dean J. and Helen Radonovich Gardner.

He was a ninth grade honor student at Pinckney High School. He is survived by his parents; two brothers, Lawrence and Russell; and two sisters, Judith and Linda, all at home.

Funeral services were conducted Monday in Community Congregational Church of Pinckney, the Rev. Gerald Bender officiating. Burial took place in Pinckney Cemetery.

### Clothing Drive A Success

THE RECENT CLOTHES DRIVE at Hamburg Elementary School was very successful. Student Council officers pose in front of the nearly 50 bags of clothing collected by students that will now be sent overseas to needy children. In the picture, left to right are: Bill Meyers, treasurer; Kristi Wagoner, Student Council president; Christine Ash, secretary; and Tim Jennette, vice-president.

### Parents - Students Spell Tonight At Elementary

This time of year Spelling Bees flames. Vickie Widmayer, Mike Steven, Eddie Baier, Gloria Sockow, Kathy Kourt, Bruce Halliburton, Edna Pesola, Laura Whitley, Becky Michaels, Tom Ehman, and Darlene Knapp.

Should be worthwhile going to hear them! That's 8 p.m. TONIGHT.

Parents will spell against students for the bee. The spelling parents will be Mrs. Edward Baier, Mrs. Thomas Ehman, Mrs. Roy Perry, Mrs. Oils Materson, Mrs. Charles Michaels, Mrs. Wm. Gipson, Mrs. James Whitley, Mrs. Lewis Shirley, Mr. Ernest Botke, Mr. Emmett Widmayer, Mrs. John Colone, Mrs. George Aschenbrenner.

Students in this competition are Karen Rasdon, Mervie Chris Ledwidge, Danny Williams, Cindy Bauer, Debbie Rowell, Terry

### Hollis W. Wylie Appointed Dealer

The appointment of Hollis W. Wylie, 233 S. Mill, Pinckney, as an authorized Mason Shoe Dealer was announced today by the Mason Shoe Manufacturing Company of Chippewa Falls, Wisconsin. He will service Mason Shoe customers in this area. Mr. Wylie's background and business experience qualified him for this franchise.

**Pinckney School News**

**Mrs. Meyer's 8th Grade**

We are having our final tests this week for the third marking period.

Friday Mrs. Meyer showed the class some pictures of the New England states — places she has visited.

Our class has been selling seeds and have reached a total of over \$100. We are allowed to keep 40% of this amount.

We wish to congratulate Darlene Knapp, (a member of our class) for winning the school spelling bee last Thursday.

John Tash is our student teacher. He is explaining and teaching positive and negative numbers to our group.

Mrs. Kellenberger gave us some new books last week and we all enjoy reading them. Thank you, Mrs. Kellenberger!

**Third Grade — Mrs. Henry**

Our class moved to Kalamazoo this week. We hope she likes her new school.

Our girls and boys are gradually returning to school after having measles and the flu.

One of our reading groups put on a play for us today, "What the Old Man Does Is Always Right." Earlier this year they gave a puppet play.

In social studies we are studying the different materials our clothes are made of. We have divided into seven groups and each group is preparing a report on the different materials. We hope to put the reports together into a movie.

We enjoyed making paper-maché whales after reading a story about the Blue Whales. Now we want to build a stockade to show how the early settlers protected themselves from the Indians.

In Arithmetic we are beginning to multiply and divide. The 2's are easy for us.

**The Way We Hear It**  
BY: DOLLY BAUGHN

... spring will begin at 3:05 p.m., Saturday, March 20. Aren't you glad?

... a family desperately looking for their pet dog, Manfred! About two weeks ago he left home which is 3356 Rush Lake Road ... and hasn't returned. They have put an alert out on radio station WHMI. ... they have run ads in various papers ... they have spent many hours driving around the vicinity looking everywhere ... But no Manfred ... He is a large sandy colored, Shepherd and collie mixture ... If you see such a dog ... and really want to take a big lump out of a few persons' throats ... call 878-3657!

... the Village Council agreed to "Mayor Exchange Day" coming up Michigan Week ... Pinckney will change with Mt. Morris. Sounds like a winner ... doesn't it?

... Pinckney fire department has a newly purchased fire truck!

... the floride campaign at Pinckney Elementary was a tremendous success! Some 226 persons have signed for the floride program this summer. According to P.T.A. Floride committee a new extra appointments were requested and persons still wishing to sign may do so by notifying Mrs. Kellenberger at Elementary School. This program includes students, and some pre-schoolers, throughout the Pinckney school district. It is a Pinckney Elementary P.T.A. project.

... Happy St. Patrick's Day ... yesterday! Sorry I'm late!

... you say you didn't hear of ground breaking ceremonies at the site of the new high school? Well, imagine that ... Should have pictures next week of them ... Keep watch!

... 13 Michigan water deaths already recorded this year. State Police said they cannot stress the fact too greatly that parents should alert their children of the dangers of "floating" ice on rivers, lakes, and ponds. At least 13 of the deaths involved persons who broke through ice or fell into water from bridges, banks or docks. Five of them were four years, but less than ten years old. Maybe a word or two now may save much grief later, Mother!

... the restaurant at 126 West Main Street re-opened last Monday under new management ... Mrs. Mildred Ely, a sister to Mrs. Betty Rossiter, will now manage the business. The restaurant will be known as Aunt Betty's Restaurant ... It was formerly Bev's Restaurant ... and when "Bev" closed the doors December 31, 1964, the owners of the building, Mr. and Mrs. John Rossiter, re-decorated ... and Mrs. Ely took over ... Mrs. Ely lives at Whitmore Lake and has two children, one daughter in high school and a son in service.

... a pair of bifocals are being held at the local post office ... Someone dropped them in the outside mail box a couple of weeks ago ... If you know a person who is having trouble seeing these days ... Perhaps the glasses belong to them, and they may have them by inquiring at the P.O.

... Richard Y. St. John, Michigan Jaycee president, was keynote speaker at Pinckney Jaycee charter night ... he was very good ... He advised the local chapter to be "dynamic" ... "carry the ball" ... "take the ball by the horns" ... "be a domestic Peace Corps" ... "Be young men who stand for things" ... rather than an "eat-bury-and-so-home-club" ... "GET OUT AND DO THINGS" ... He went on to say ... the Jaycees in any community have an opportunity to develop leadership in a community ... and to not stand for "wishy-washy" leaders ... those that sit in the middle-of-the-road, and wait ... to get in there, and encourage the leaders to go ahead ... to take a strong stand, and solve problems ... to protect the freedoms we have before they are lost! ...

... for a long, long time, Pinckney has needed to be organized! ... Perhaps an organization of young men who plan to raise families in this community are just the ones to do the organizing! ... to make improvements, moderately so ... but, yet see that the "old home town" stays reasonably ... modern!

... so far the 24 young men who make up the local chapter are Eager Beavers! ... It seems that a group with such enthusiasm as they have shown since last November ... should "really go to town" ... BUT! will they soon wear down because they do not receive full support and cooperation of local residents and organizations? ... This is not the first group to organize with enthusiasm ... There have been many, many more previous to this ... But it seems they do not last long ... the enthusiasm doesn't last long, anyway ... Why is it? ... Who has the answer? ...

**Hamburg Third Grade**

**Fourth Grade News**

We went to see "Mary Poppins" at the Michigan Theater. We took two buses, the drivers being: Mrs. Dett and Mr. Bennett. The first, fourth and fifth grades all went together.

We are having an Annual Clothing Bundle Days in our school.

Our Valentine's party, arranged by Mrs. Miller, was very nice. The refreshments consisted of cupcakes, cookies and candy.

We also have a new boy in our room. His name is Monty Osborn, and he is from Ypsilanti.

By Nancy Zobel

**Fifth Grade News**

In English we are writing tall tales.

In Geography we have been working on units of the Southern States.

In Arithmetic we have been working on adding and subtracting of fractions.

In science we are studying weather, while on T.V. we are learning about magnetism and electricity.

We all have been studying hard for the Detroit News Spelling Bee. Debra Russeau was the winner in our room.

We have a new girl in our room.

She is from Ypsilanti and her name is Betty Osborn.

By Janice Ruggles

**Sixth Grade News**

The sixth grade class is studying for the Detroit News Spelling Bee and hoping to win.

**Pinckney Servicemen**

Arman Apprentice John P. Elliott, USSN, son of Mr. and Mrs. John A. Elliott of 11101 Algonquin Drive, Pinckney, graduated Feb. 10 from the nine-week Aviation Structural Mechanic School at the Naval Air Technical Training Center, Memphis, Tenn.

The curriculum included aviation supply, shop maintenance and safety procedures.

Completion of this course qualifies him for duties with the aviation branch of the Marine Corps.

Navy Commander Leroy A. Heath, son of Mrs. Leroy V. Heath of Pinckney, is serving aboard the attack aircraft carrier USS Independence on a post-overhaul cruise to the Virgin Islands in the Caribbean.

The cruise marks the first extended time at-sea for the Independence since completion of overhaul at Norfolk Naval Shipyard, Portsmouth, Va., where she underwent minor repairs and modifications.

She called at Mayport, Fla., on the first leg of her Caribbean deployment and was scheduled to visit St. Thomas, Virgin Islands the first weekend in March.

The Independence is scheduled to return to her home port at Norfolk, Va., on March 13.

**Pinckney People ....**  
By DOLLY BAUGHN

It's vacation time for two hard-working people! Today, (Thursday) Dottie Gerstler and Shirley Kaiser will board a jet at Metropolitan, and head for San Juan, Puerto Rico for a ten day, jam-packed sight-seeing holiday. The girls live at Portage Lake. Shirley is employed at Coca-Cola Co. in Ann Arbor and Dottie at Ann Arbor Construction.

The two "travelers" were entertained at "going away" dinners the past week. Mrs. Onal LaBelle had dinner in their honor, at her Pinckney home. A second such dinner was at the home of Mr. and Mrs. Logan Bennett of Portage Lake. Mr. and Mrs. Howard Kaiser of Portage Lake also entertained them. An ad Mr. and Mrs. Al Demarest, formerly of Pinckney, but now residents of Ann Arbor. The girls agreed this gave them a real send off!

NO ONE can say the Ona Campbell's didn't celebrate their 50th golden wedding anniversary which fell on February 24, 1965! In a letter from Mr. C. we learn their daughter, Leona, and son-in-law, Carl Lentz, and the Lentz' two children spent two weeks in Luz, Florida, making the celebration complete. According to Mrs. Campbell's letter, on February 23, friends, gained in past years while in Florida, gathered at the trailer court's recreation hall to help the couple celebrate.

Fifty-five persons signed the guest register. The tables were beautifully decorated. They were covered with white linen cloths and an orchid plant and a beautifully decorated cake was the centerpiece at the main table. Leona pinned a corsage of gold carnations on "Mom" and placed a golden boutonniere in "Dad's" lapel.

On February 24, Leona and Carl took the couple out for dinner at the famous "Tennessee". Guests included Mrs. Bertha Tischer, and her daughter, Mrs. Barbara Miller, and Mr. and Mrs. Olin Robinson.

A third party honoring the Campbells was a dinner party given by Mr. and Mrs. Carl Miller at their Tampa, Florida home. Guests included Mr. and Mrs. C., and the Carl Lentz family.

That is a heap of celebrating ... and according to the "thank-you" notice Mrs. Campbell has requested for the classified section of this paper ... their Pinckney friends did not forget!

**Obituaries**  
LOUIS J. BLOXOM

Dexter — Funeral services for Louis J. Bloxom, 64, of 8554 Portage Lake Blvd., Portage Lake, were held at 2 p.m. Monday in the Hosmer Funeral Home of Dexter, the Rev. Millard W. Heron officiating.

Mr. Bloxom died early yesterday at his home.

Burial will be in Forest Lawn Cemetery, Dexter.

Friends may call at the funeral home.

### Development Of Year Contest Open to Farmers

The Livingston County Michigan Week Committee is looking for a county entry in the Agricultural Development-of-the-Year contest. This is a relatively new award in Michigan Week competition. It is designed to focus national attention on Michigan as a leading agricultural producer.

Eligible for the "Michigan Agricultural-Development-of-the-Year" Award are farmers, agricultural and horticultural associations, and all other individuals or groups located in Michigan who are actively engaged in the growing, developing, processing or marketing of agricultural, horticultural and/or animal products. An entry can be a product, a process, or a marketing, production, or research program significant to Michigan agriculture or to farming in any area of the state.

As an example of the wide range of eligible entries in this award category, past Regional winners have included such items as a Christmas tree trimmer, a mechanical cherry harvester, an automated debarker, a boneless roasted turkey roll, a portable bulk fertilizer box, a Techoil controlled atmosphere generator, an onion and bees harvester, Royal Craft cob meal, controlled atmosphere apple storage, a pulpwood operation and storage yard, and plantation-grown Christmas trees.

Entries in this competition should be submitted by April 5 to the County Agricultural Agent. For additional information on the contest contact the Michigan Week Committee or the County Agricultural Agent.

Want to give something different for a birthday or anniversary? How about an Eskimo "wolf scarer" which are now selling as an expensive gift or souvenir. This is a thin piece of whale bone, notched on the edges and attached to a long line of deer sinew. You whirl it around and it has a piercing whine which is supposed to scare the wolves away.

Seen beside streets in Newark, N. J., proclaim: "Drunken Drivers Will Be Filmed." The purpose of taking movies of drunk drivers staggering around the police stations is to discourage them from fighting the charges against them. The films are later shown to the drunks.

For the benefit of its Depositors The Brighton State Bank has again this year joined with most other Michigan Banks who pay the Intangible taxes for all its depositors.

As a result, it will not be necessary for any of our customers to report any of their deposits with us on their Michigan Intangibles Tax return this year. We have paid this tax for our depositors every year since the law came into effect. This is just another service which the Brighton State Bank extends to its customers throughout the year at no charge.

## Parents Warned Against Hazards Of Thinning Ice

With 16 Michigan water deaths already recorded this year, the State Police have issued a seasonal reminder that thawing weather increases the drowning danger for unsupervised youngsters and other persons who fail to follow safety rules in water areas.

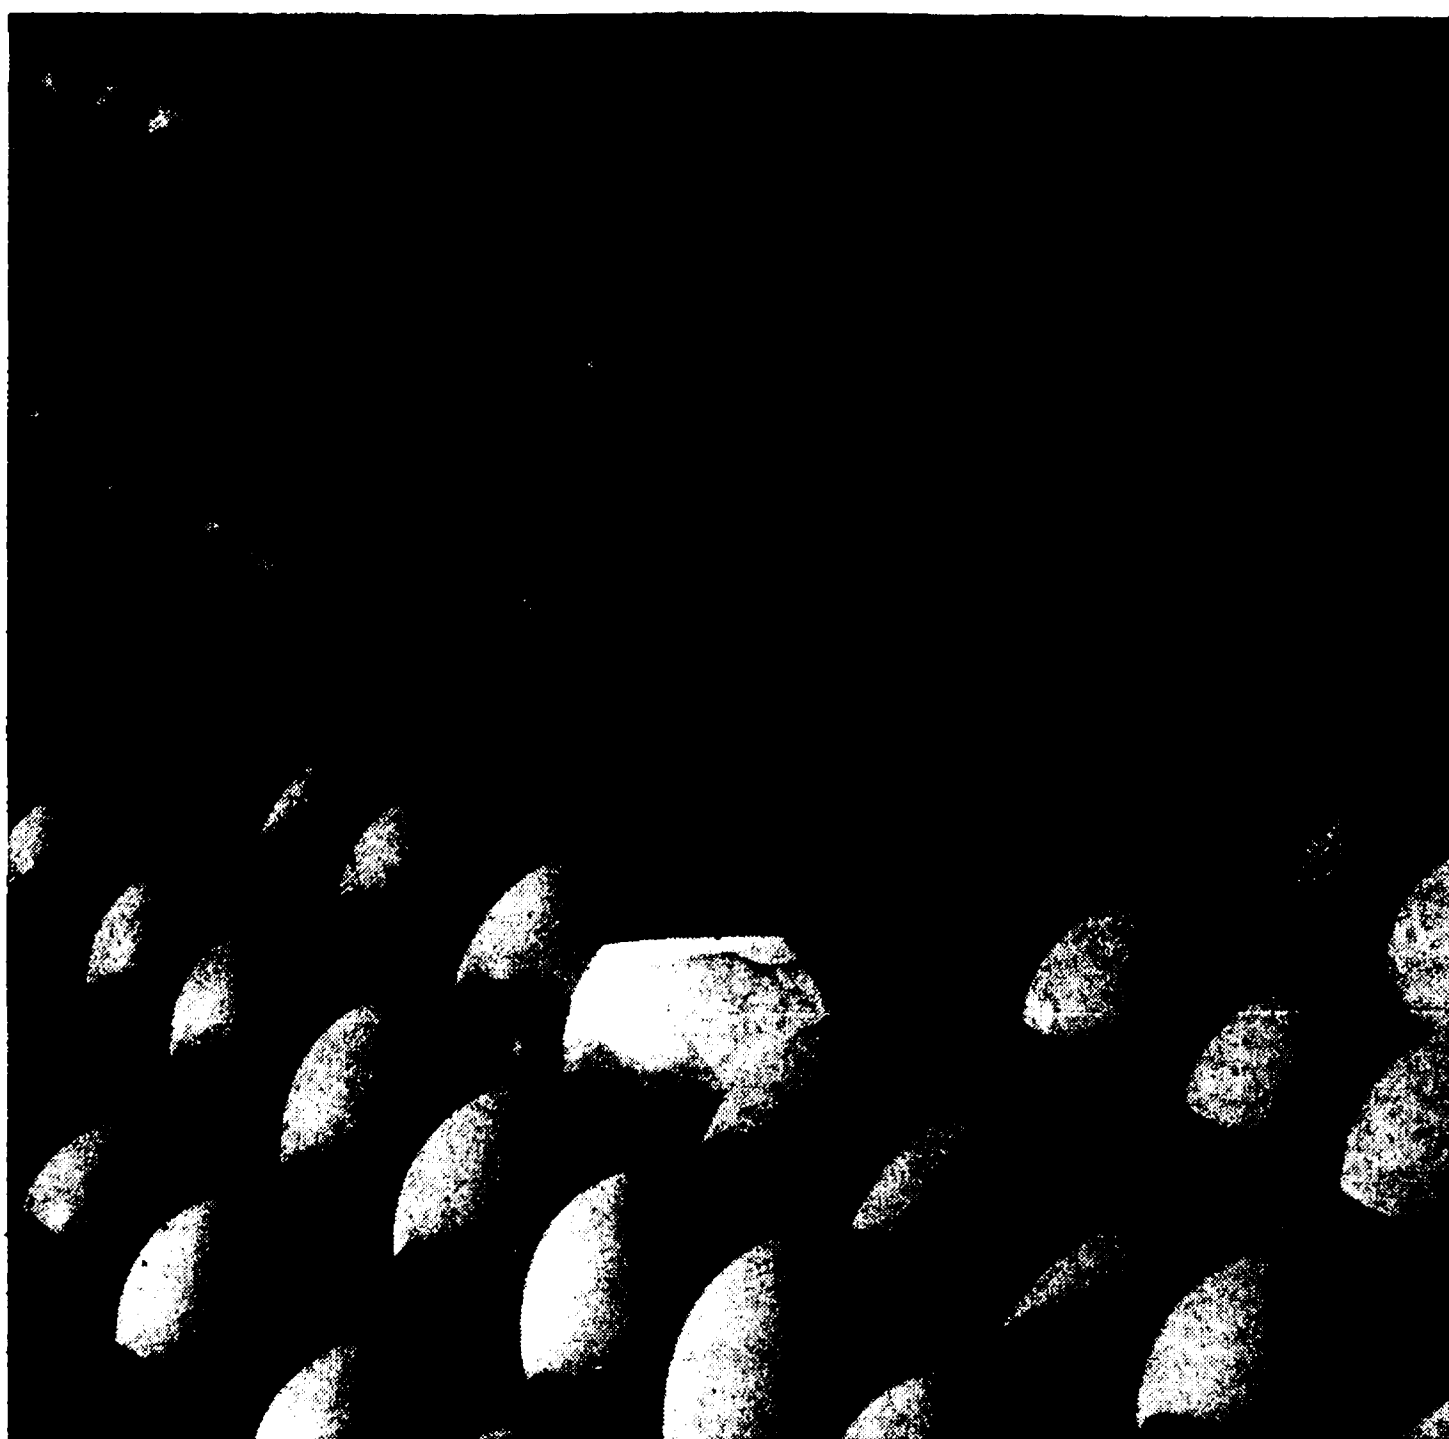

At least 13 of the deaths involved persons who broke through ice or fell into water from bridges, banks or docks. The others included a Scuba diver, a boat operator and a passenger.

Pointing out that five of the victims were youngsters, four less than 10 years old, the State Police urged parents to warn children of the dangers of rotting ice and flood waters. Adequate supervision is advised for youngsters wherever there is water accident danger.

The state's drownings averaged more than one a week so far in 1965, three more than the toll of 13 charged to the first full three months last year.

Accident reports show that several vehicles used by fishermen also have broken through weakened ice. Involved were situations where ice that appeared strong on its surface was weakened from beneath.

# Victory Over a Virus

**MAKING SURE THE CHICK EMBRYOS ARE ALIVE** — Among the measles vaccine safety tests are those carried out in embryonated eggs inoculated via the yolk sac and allantoic cavity. Here, six-day-old eggs are candled to make sure the embryos are living. When the embryos are later removed, washed, minced, and in-

jected with measles virus, records are kept on the source of each egg so that any problems related to the tissue can be traced back to the individual hen or rooster. The entire process is carried out under aseptic conditions comparable to those of a modern hospital operating room.

### THE HISTORY OF MEASLES

(This is the second of four articles depicting medical science's efforts to eradicate a disease which claims more lives each year than there are cases of polio in the United States. This series, prepared by the Michigan State Medical Society, will trace the history of the disease, its effects upon world health, and science's ultimate triumph over this killer of children.)

If it were possible to bring the average mother of 10th century Rome face to face with the average mother of today, we would find that they have many things in common. By far the strongest tie between the two would be their maternal concern over their youngsters' welfare in the event of illness.

While numerous diseases have been eradicated since the 10th century, the Roman mother would have little difficulty indeed in recognizing one of the medical

scourges of her day, a disease that still claims its heavy toll of children's lives more than 1,000 years later — measles.

Known medically as rubella or morbilli, measles as a clinical entity was first defined by Rhazes, the Arabian physician, in about 900 A.D. Previously, both measles and smallpox were thought to be one and the same disease.

Measles has always been a truly universal disease, present on all continents and among all classes of people. The degree of its severity and its occurrence, however, varies from country to country and from time to time.

The disease seems to wait until sufficient numbers of susceptible children are available for its epidemic attacks. A study by the British School Epidemics Committee showed that an outbreak seldom occurs unless the proportion of susceptible children constitutes at least 15 per cent of the class. And, oddly enough, the epi-

demic is more apt to take place if the majority of the susceptibles are boys.

Immunity against the disease after one has had measles, however, is almost absolute. In the measles epidemic of the Faroe Islands in 1946, the survivors of a previous epidemic 65 years before were found to be still immune. It is doubtful that immunity resulting from an attack of any other disease is quite so strong and persistent.

The mortality caused by measles has varied greatly through history, but especially during the past three centuries. In the London epidemics of 1674, the disease caused more deaths in the first six months of the year than smallpox. In the 18th century, measles was a comparatively mild disease; in the 19th century, it again became a major cause of death among children.

Measles, to the present day, continue to have the highest at-

tack rate of any infectious disease. Yet, the death rate has gone down appreciably in the United States, Canada, and some nations of Europe.

In England and Wales at the turn of the century, for example, the measles mortality rate was 318 persons for every million people. Today, although the frequency of measles is much higher, the mortality rate is only two persons for each million of population.

In some underdeveloped African countries, however, measles accounts for as much as 50 per cent of the infant mortality rate.

Although measles was recognized as a dangerous infectious disease more than 1,000 years ago and the idea for inoculation against the disease was spawned some 200 years ago, it was not until 1954 that the first scientific breakthrough was made in man's effort to control rubella.

At that time, Nobel Prize Winner Dr. John F. Enders and his associates at Harvard Medical School succeeded in isolating the measles virus in tissue culture of human and monkey kidney cells.

This milestone provided the scientific basis for the development method of immunization against measles, a feat that was accomplished in 1963 with the introduction of measles vaccine.

I SWAPPED FOR IT THROUGH THE WANT ADS

## Clinic in Howell Next Wednesday

Doctor G. B. Wickstrom, Director of the Livingston County Health Department, announces the monthly immunization clinic which will be conducted on Wednesday, March 24, 1965, at St. John's Episcopal Parish Hall, Walnut and Sibley Streets, across from the Post Office in Howell. The hours will be from 1:00 p.m. to 4:00 p.m.

Parents are invited to take advantage of this opportunity to bring their children up to date. The fourth Wednesday afternoon of each month, throughout the year, is the regular Immunization Clinic Day.

## Howell Lunch Menu

Your Choice

## THE CHURCH FOR ALL

### ALL FOR THE CHURCH

The Church is the greatest factor  
on earth for the building of charac-  
ter and good citizenship. It is a store-  
house of spiritual values. Without a  
strong Church, neither democracy  
nor civilization can survive. There  
are four sound reasons why every  
person should attend services regu-  
larly and support the Church. They  
are: 1. For his own sake. 2. For  
his children's sake. 3. For the sake  
of his community and nation. 4.  
For the sake of the Church itself,  
which needs his moral and material  
support. Plan to go to church regu-  
larly and read your Bible daily.

## Livingston County

# Official Minutes

**Regular Meeting - Feb. 4, 1965**  
A regular meeting of the Livingston Intermediate Board of Education was held in the Court House Annex on February 4, 1965.

The meeting was called to order by President Smith at 8:15 p.m.

Members present: Mr. Allmand, Mr. Baughn, Mrs. Hyne, Mr. Smith, and Mr. Wilkinson.

Others present: Mrs. Porter, Mr. Barker, and Mr. Hampton. The minutes of the January 21st meeting were read and approved.

The following bills were presented:

General Fund \$144.10  
Special Education \$978.87  
Motion by Baughn and seconded by Mrs. Hyne that all

bills be paid as presented except check to Field Enterprises. Said check to be held until the complete shipment of merchandise has been received.

Motion Carried.

Motion by Mr. Allmand and seconded by Mr. Baughn that Seven Thousand Dollars (\$7,000.) be transferred from the McPherson State Bank Special Education Savings Account to the Special Education Fund Checking Account. Motion Carried.

Two minor changes in the Special Education policy were presented. Mr. Baughn moved the revisions be made as submitted. Mr. Wilkinson seconded the motion. Motion Carried.

The remodeling of the new office space was discussed. A motion was made by Mr. Baughn and seconded by Mr. Allmand

that bids be received on the necessary improvements and be submitted at our next meeting. Motion Carried.

Mr. Baughn moved that we purchase two I.B.M. Dictating machines and one Transcriber for the Special Education Department. The motion was seconded by Mrs. Hyne. Motion Carried.

Mr. Barker reported on his meeting with officials from the Howell State Hospital regarding a County program for the trainable mentally handicapped children.

He also reported on the meeting of the Advisory Board with Mr. John Mader, Director of Special Education Washtenaw County. It was the opinion of the Board that publicity should be given all county news media on such meetings.

The board was reminded of the joint meeting on February 26th with a representative from each of the constituent school districts to approve the 1965-66 Intermediate General Fund Budget.

Mr. Smith gave a progress report on the work of The State Committee on School District Reorganization. A meeting of the Livingston Intermediate Committee was announced for February 23rd. An invitation was extended all school board members in the county to hear Bob Smith discuss Act 289 and to hear Duane Girbach and Hans Haugard of the County Extension Department discuss Livingston County's population growth and industrial demands upon the area during the next decade and the impact this will have upon the educational requirements of schools to meet these demands.

Motion to adjourn at 10:30.  
Walter G. Hampton  
Secretary

## Thomas Sharpe Report

The Michigan Senate is presently considering a bill, sponsored by State Representative Russell H. Strange (R-Mt. Pleasant) and co-sponsored by Representative Sharpe (R-Howell), specifying the time for township officials to qualify and take office.

Approved in the House of Representatives by a vote of 81-1, this bill provides that all township officers elected in November of 1964, except justices of the peace, shall take office on April 10, 1965. Justice of the peace will take office for the last time in Michigan history on July 4, 1965.

Rep. Sharpe explained that Michigan's constitution provides that the office of justice of the peace shall be abolished on Jan. 1, 1969 — or earlier by action of the legislature.

"Formerly such township officers as supervisors, clerk, treasurer, and trustee took office within 10 days after their election, on the first Monday in April of odd-numbered years," commented Sharpe.

"Under our new constitution, the election of township officials has been changed to November of even-numbered years, with the provision that the terms of office of those presently serving shall not be shortened. Consequently, it is necessary that the legislature spell out when township officials elected last November will take office, and April 10 appears to be the earliest and most practical date," concluded Sharpe.

## Women's Health

### HOW TO GET LESS AIR IN BABY'S TUMMY

Babies held in an almost vertical position while being nursed or bottle-fed will get less air in their tummies, and suffer less discomfort. Dr. J. H. Hood, of Children's Hospital, Brisbane, Australia, also observes that adults confined to bed, especially after abdominal surgery, will be less uncomfortable if they eat in an erect or semi-erect position. Why? Because they take in more air when reclining.

### TETANUS TAMEABLE!

Do you like to garden? Or walk barefoot on a sandy beach? Do you ever have to change a tire? Do you think you might puncture your skin some day on a thorn, or a baby's diaper pin, or while opening a can?

Your answer to one or more of these questions is likely to be "yes." If it is, there's another question we hope you can answer with a "yes." Have you been inoculated against tetanus?

Tetanus, also known as "lock-jaw," is a killing disease caused by a germ that lurks in dirt. An innocent-looking garden tool, a piece of broken glass, a nail (which doesn't have to be rusty) — any of these can harbor the germ. It can penetrate a tiny skin puncture to do its deadly mischief. Unless you're inoculated against the disease, tetanus can strike. Its victims have only a

60-40 chance of survival.

Despite the fact that a safe, dependable, long-lasting inoculation against tetanus exists, Americans are dying of the disease every year, either because they've never been inoculated or neglected to get their boosters.

Two Harvard researchers, Leo Levine and Louise Wyman, found that many Massachusetts men and women over 30 are not fully protected against tetanus. More women than men over 20 are susceptible to it largely because, the scientists believe, men are routinely inoculated against tetanus when they do their military service.

After 50, though, both men and women seem to be inadequately protected. (Studies by the World Health Organization indicate that immunization of women before pregnancy helps protect newborn infants from tetanus.) Mr. Levine is chief of laboratory and Miss Wyman senior bacteriologist, at the Division of Biologic Laboratories, Massachusetts Department of Health.

natal (from Latin 'natus' meaning birth). Refers to birth. prenatal. Existing or occurring before birth. perinatal. Occurring at or pertaining to the time of birth. neonatal. Pertaining to the first four weeks of life.

## Michigan Flag Gets Internationalized

The Michigan state flag is going "international" this year. The plan to give the flag an international flavor was "unfurled" by Secretary of State James M. Hare, who is chairman of promoting the flag during Michigan Week.

As a prelude to Michigan Week observances in May, Hare said the flag would be planted in several locations in Europe as part of a "peaceful" invasion by top Michigan businessmen, government leaders, and others on a 10-day study tour starting April 22.

Hare said in his opinion "state flags would make ideal and lasting mementos of the trip for European statesmen who will be visited by the touring Michigan contingent."

He said he did not know the types of flags which would be brought over during "Operation Europe" but "I suppose it depends on luggage restrictions as well as what the group decides to do in presenting gifts to heads of state and other European officials."

"Perhaps we will make use of both small desk flag sets as personal gifts as well as larger flags to be presented to heads of government and other persons we will be visiting," Hare said.

"Operation Europe" was spawned as an idea by Western Michigan businessmen as a forerunner to Michigan Week, Hare stated. The tour will be headed by Governor Romney and Hare and will consist of a whirlwind visit to several European countries to study economic conditions and business methods. Hare

bert G. Davenport, Grand Rapids architect and civic leader, is general chairman for the planning committee for the trip.

## Report From Senator G. Dunn

★

My water pollution bill which is designed to help clean up our lakes and streams, has those lobbyists representing certain plant industrial operations busy trying to kill it.

Their reasoning runs like this: It will cost too much money or you Americans must take your choice, jobs or clean water . . . you can't have both.

I can't adopt that line of reasoning. Our lakes and streams are a natural resource that belong to all of us, not just a chosen few. I don't believe that we have reached that point in our life where we have to make this decision that a "few" are asking us to make.

A large number of letters and petitions for a Saturday opening of the deer season in the Lower Peninsula have been sent to me.

Conservation groups, sportsmen of all kinds, factory workers, salaried personnel, businessmen, school teachers, administrators, practically all occupations have acted to let us know that they want such an opening.

The Upper Peninsula has had a Saturday opening for years, and everyone from the hunter to the store owner, is satisfied.

I will introduce such a bill and the debate and public hearings will allow us to examine the total merits of such a proposal.

Here's good health for all the family!

CROSS ONLY AT CORNERS

## ★ MICHIGAN MIRROR ★

### TOBACCO COSTS

Both official and public concern over cigarette health hazards has died down considerably since the 1964 U. S. Surgeon General's report. Some lamented and some were relieved by the change.

The adjustment in official concern involved somewhat of a paradox.

On the one hand the Governor appointed a special group to study the health report. This unit recommended the State Health Department "explore, promote and develop programs for the reduction and the ultimate elimination of cigarette smoking."

Sitting opposite, or perhaps adjacent, were much of state government and the local school districts. They depend in large part on cigarette tax revenues for operating costs.

The study group's recommendations and several made subsequently by the Health Department have not been implemented in any way. The legislature has sidestepped any action in this area.

Cigarette sales are big business in Michigan. Preliminary figures indicated 1964 was the third consecutive year in which more than a billion packages were sold in the state.

In terms of money to operate government units, the sales meant more than \$20 million for local public schools and more than \$48 million for the state. This was in 1963.

Last year the revenue was expected to have increased despite a sharp drop in income during the month immediately following release of the Surgeon General's report.

The tax on cigarettes is now seven cents per package. With two cents of this going into the school aid fund, legislators would be hard pressed to find a replacement for this income if a strong anti-smoking campaign was effective in Michigan.

### YOUNGER VOTERS

Leaders of both political parties have one constitutional change in common on their lists of legislative goals.

This is the lowering of the voting age to 18. If approved by the legislature this year it presumably would be on the ballot at the 1966 general election.

In the past, Democratic gov. ernors and a scattering of legislators have supported such a proposal. It was also considered during the Constitutional Convention but lacked sufficient support.

Strong support for the idea has now been voiced by Gov. George Romney and Democratic legislative leaders.

"Our young people arrive at a peak of public interest at that age," contends Romney. "I am unqualifiedly for the 18-year-olds and above having the right to vote."

Democratic Senate and House leaders Raymond Dzendzel and Joseph Kowalski, both of Detroit, agree. They included it, along with revision of voter registration laws, as one of three major goals in the elections area.

Teenagers in the Central Michigan area formed a campaign group last year urging the legislature to put the voting question on the ballot.

The movement spread to a few other areas through school groups but failed to gain much attention in the quarters where it would count.

Legislative approval of a vote on the question would undoubtedly bring forth formation of a similar group on a statewide basis. Its size and enthusiasm could have great impact on the outcome of a vote.

As surely as Spring arrives in mid-March, so does Michigan Week follow closely behind in May.

The 12th annual brag week has occupied many individuals and committees since the 1964 event ended last May 23.

The format this year will be much the same as in the past. As each of the previous ones, it, too, will be aimed at bigger and better achievement in promoting the state at home and afar.

Each day of Michigan Week, to be observed May 16-22 this year, has a special designation.

"Spiritual Foundation Day" officially starts the observance in church services and other public gatherings across the state.

The mayors' exchange, paired already, is the big feature of "Our Government Day," always set on Monday.

The remainder of the week is set aside daily to turn the spotlight on Michigan's hospitality, means of livelihood, education, heritage and youth.

Again the goal is to make the six to eight months of work fruitful by involving as many of Michigan's populous in the observance as is humanly possible.

If you ever think you are getting to the end of your rope, just tie a knot and hang on.

## Hamburg Township News Notes

JEANNE KNIPPLE

878-9720

Diane Elaine Abend, seven week old daughter of Mr. and Mrs. Willard Abend was baptized a week ago Sunday at St. Paul's in Hamburg. Following the ceremony a dinner was held at the home of Mr. and Mrs. Harold Abend. Guests were Rev. and Mrs. Carl Weiser and family, the Donald Press family, Mr. and Mrs. Robert Stave and three sons, Mr. and Mrs. Ivan Balhoff and daughter, Mr. and Mrs. Marvin Clayton and children Mr. and Mrs. Walter Sager, Kathleen Hachey, her two sons and Diane's three brothers Alan, Jerry, and Steven. Sponsors were Marvin Clayton and Karla Press. Jane Stenke, who is attending the Weaver Airline School in Kansas City, wrote home that she is really enjoying every minute of it.

Mrs. Pete Retinger attended the meeting of the Pinocchio Club No. 1 at the home of Mrs. McIlroy last Thursday.

The Spaghetti Ball sponsored by the Livingston County Democratic Women's Club will be held March 20 at the Howell Armory. Guest will be Rep. Weston Vivian.

Mr. and Mrs. Robert Elm and son Martin were the guests of Mr. and Mrs. Emerick Coppola last Sunday. The occasion being a belated birthday celebration for Mr. Elm, whose birthday was March 10.

Tuesday, March 16, the Democratic Women's Club will meet at the home of Mrs. Janet Sheehan. Senator Gerald Dunn will be guest speaker. His topic will be "Education."

The St. Patrick's Girl Scouts honored their fathers at a breakfast Sunday, March 7. One hundred and fifty fathers and daughters attended. The girls did all the table decorations themselves. Everyone had a wonderful time.

Last Friday evening the Annual Court of Awards was held at the Brighton High School. Winning awards and pins were one hundred and sixty-eight girl scouts from the Huron Valley Area.

Leon Baginski was installed in the Knights of Columbus in Howell last Wednesday evening.

Visiting at the home of her daughter and family, Mr. and Mrs. Jerry DeWolf, a week ago Monday and Tuesday was June Basal from Detroit.

Hamburg Cub Scout Pack 57 attended their monthly roller skating party at the Lakeview Roller Rink Tuesday night. At every fourth party Mr. and Mrs. Farmer generously donate all the admission fees collected to the cub pack.

We're happy to report that Robert Edwards returned home from the hospital a week ago Sunday. Mr. Edwards recently underwent surgery for a ruptured disc.

Forty students from Hamburg School participated in the Champion Spelling Bee last Wednesday. Champion speller is Christine Ash, second place winner, Cathy Fisher, Kristy Wagner is third and Faith Zobel fourth place winner. Congratulations to all the girls, we know they must have studied very hard for this honor.

The Hamburg School has finished their clothing drive. The clothing bags are being sent to the Save the Children Federation in Knoxville, Tenn. The

clothing will be distributed to needy children in the south.

The Hamburg Village League Fashion Show, "The Hamburg Haute Couture," will be held at the Odd Fellows Hall March 24, at 8:00 p.m. Models will be teenagers from Pinckney High School, ladies of the community and ladies from the league. The show will feature fashions from the W. D. Adams Store in Howell. Pres., Barbara Sheperdigan will M.C. the program. Chairman is Mrs. Ann Ayres. Tickets may be purchased from members or at the door. Refreshments will be served before and during the show.

Dinner guests at the home of Mr. and Mrs. Richard Hollenbeck last Saturday were Jean Spencer, Mr. and Mrs. Charles Kneeshaw and family of Flint, the David Hollenbeck family and Jim Hollenbeck on term break from Ferris Institute.

We extend our deepest sympathy to Mrs. Horace Jones on the recent death of her mother Mrs. Pruitt in Fordville, Ky.

Mr. and Mrs. George King returned home a week ago Saturday after spending three weeks in Florida. While on vacation they visited with Mr. and Mrs. Van Valkenburg.

Honorable Gladys B. Lee with Alice Arnot attended the breakfast for the Brighton Business and Professional Women's Club at Haller's Grill a week ago Monday. The breakfast began the club's "Salute to Working Women Week."

Mrs. Nellie Pearson was the dinner guest of Mr. and Mrs. Lester Heiner a week ago Sunday.

Mr. and Mrs. Carl Rowland, daughters Cheri and Laurie, with Mr. and Mrs. J. J. Rousseau of Detroit attended a performance of the Ice Capades a week ago Saturday.

Last Saturday Mrs. Robert Lindsay received an extra special birthday present. Her son First Lt. John R. Lindsay returned home after spending seventeen months overseas. John is the grandson of Mrs. Gladys Kirk.

Visiting with Honorable Gladys B. Lee last week was Helen Packard, postmaster of South Haven.

A week ago Tuesday, Den 6 enjoyed making little turtle boxes at the workshop of Liz Knaggs. Mrs. Knaggs recently donated her time to help the girl scouts make leaf dishes at Pilgrim Hall.

Democratic Women's Day will be observed Saturday, April 3, from 9 a.m. to 4 p.m. at Michigan State University Student Union. On the program will be "Lift Michigan". A special play written by Mrs. Neil Stabler will be presented. There will be many discussions and panel. Guest speakers at the luncheon will be Dr. Lynn Bartlett and Dr. Ernest O. Melby, who is on the staff of Michigan State. This will be an opportunity to meet honored guests, women legislators and wives of senators and representatives. Reservations should be made by March 27. Anyone interested is welcome. For further information contact the co-ordinator for Livingston County, Mrs. Janet Shenhan at UP 8-3336.

Spring vacation in Pinckney starts March 19, school will begin on March 29.

Here is more happy news! The contractor has started building for the new Pinckney High School.

Honorable Gladys Lee bowled in the Ann Arbor City Tournament at Chelsea a week ago Saturday and Sunday.

Happy birthday wishes to Bobette DeWolf who will be two March 17, Mike Carter, five, March 19, Larry Carter, 2, on March 22 and to Denny William, celebrating his birthday March 19.

## Around Bishop Lake

E. C. Schroeder 227-8420

"There was an old lady - Who fell in the ditch - Picked up a penny, and thought she was rich!" Do kids chant that little nursery rhyme these days? Maybe not. Poor kids haven't seen one around here! Wish the County Road Crew would recall it and have the light dawn! "Ditch!" Yup! That's what is missing! No wonder the roads are seas of mud! We forgot the ditches! We built the road between two high banks and for some strange reason the snow collects in them, melts and flows with rushing waters or gleams beautifully like a jewel, reflecting our sodden skies, day after day. Let's all chant - "There was a poor County, who built a deep ditch - Saved so many pennies, we all got rich!"

Little Shelly Rose, infant daughter of Mr. and Mrs. Arthur Glowacki, was baptized at St. Patrick's Church Sunday morning. The christening party was held at the home of her grandparents, Mr. and Mrs. Peter Pierzinski of Rush Lake.

Mr. Ernest Botke, Jr., attended a Concessioner's meeting in Lansing Friday.

Since Pike season closed, ice fishing has dropped off considerably on the area lakes. Men are beginning to eye their fish shanties with concern - one of these March days, the ice is going to go in a hurry and that shanty better be on dry ground.

"A Man Called Peter" was the annual Pinckney High School play this weekend. Our "road" is proud of Don Rose who played the part of Senator Polk in the play.

Keep April 22 in mind. That is Arbor Day here in southern Michigan. Plan to plant a tree to keep Michigan beautiful for our coming generations. The black walnut on this corner of Bishop Lake Rd. and Chilson Rd. is 124 inches in circumference. The white oak is 143". It took them a generation and a half to get that big. We must begin now to replace them when they are gone.

## GM Sales Highest During Feb. 1965

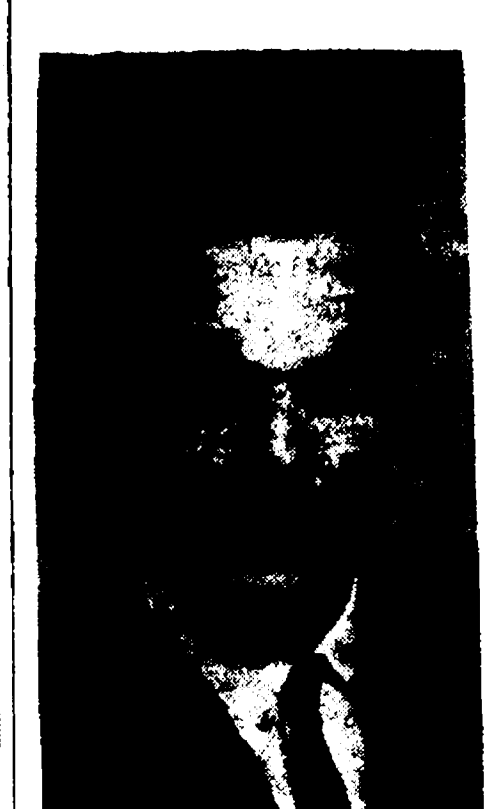

Retail sales of passenger cars and commercial vehicles by General Motors dealers during the month of February surpassed the previous all-time high February sales record established last year, K. E. Slaley, vice president in charge of the Marketing Staff, announced today.

During the month dealers sold 431,426 passenger cars and commercial vehicles, as compared to 379,129 sold in February a year ago.

Passenger car sales by dealers totaled 375,975 for the month, to exceed the previous high of 328,644 sold in the same month last year.

Commercial vehicle sales for the month amounted to 55,451 units as compared to 52,485 last year, the previous high February sales.

## Donald G. Beem Appointed to HCMA Field Landscape Architectural Staff

Donald G. Beem, who was graduated from the University of Michigan with a bachelor of science degree in wildlife management in 1961, has been appointed to the field landscape staff of the

Huron-Clinton Metropolitan Authority.

This was announced today by James W. Smith, field landscape architect for the Authority, a regional park agency serving the counties of Livingston, Macomb, Oakland, Washtenaw and Wayne. Beem will be concerned with the technical phases of forestry, pest control, the tree disease program and similar projects for the Authority at its various parks.

Among the best-known of the eight recreational sites of the Authority are Metropolitan Beach near Mt. Clemens, Stony Creek Metropolitan Park near Rochester, Kensington Metropolitan Park near Milford, Hudson Mills Metropolitan Park near Ann Arbor and Lower Huron Metropolitan Park near Belleville.

Beem recently completed two years of service with the U. S. Navy at Norfolk, Virginia, and has been on military leave from the Authority since January of 1963. He was first associated with the Authority landscape department in the summer of 1960 as a seasonal employee, later hired full-time and was temporarily assigned to the Nature Center of Kensington

Metropolitan Park until he left for military duty in 1963.

Prior to attending the University of Michigan, he made his home in Avondale Estates, Georgia, where he attended both grammar and high school. Later he attended the Georgia Institute of Technology and the University of Georgia.

He will make his headquarters at Kensington Metropolitan Park. Beem resides at 6455 Waterford Terrace, Waterford, and is the son of Mr. and Mrs. George S. Beem, of the same address.

## Sewage - Building

### Permit Rules for Lot Purchasers

Every year many people come to our offices to apply for sewage and building permits only to find that their choice of lots does not meet local restrictions. Following are a few steps which will help a prospective new home owner to save himself time and money.

1. Obtain requirements of state, county, township, municipal or development company rules and restrictions before purchasing a lot.

2. Obtain data concerning soil suitability for sewage disposal and drinking water quality and quantity, if your lot is not served by public water and sewage facilities.
3. Obtain data on your lot concerning its suitability for house construction.
4. Ask your neighboring lot owners for their comments for or against their own lot development.

After these steps have been followed, and your lot purchased, follow these recommendations before you start to build.

1. Test the soil on your lot for its ability to dispose of sewage by means of a septic tank and drain field.
2. Obtain plans and specifications of your home before applying for a building permit.
3. Obtain all necessary building and sewage disposal permits before you start construction.
4. Obtain all necessary zoning and subdivision permits.
5. Either your builder or yourself must notify the proper authorities for all inspections of completed work as noted on each permit.

Answers may be obtained at the Livingston County Building and Health Departments for most of the foregoing statements. David E. Ahrendt, R. S. Sanitarian

## Water Problems Outlined by Hill

Ru-s Hill entertained more than 60 people with his presentation at the Fenton Soil Conservation District Annual Meeting last Thursday evening at the Argentine Methodist Church.

Hill pointed out that everything makes use of water on it's "Journey to the Sea". When the little raindrop falls in the field until it reaches the sea many things happen, some good some bad. Erosion can take place in the field, streams and rivers can be silted and contaminated, floods can take place. Sewage can cause pollution of the rivers and lakes.

Water creates many problems of management on it's way to the sea. All of us live in a drainage basin and we all should be concerned with good water management. We can prevent pollution by proper disposition of sewage. We can use land within it's capabilities. Soils with more organic matter will hold much more moisture. Hill commented, slow water down, let it stay awhile so we can use more of it. We should let water flow away more uniformly by using structures, drop inlets, sodded grass waterways as some examples.

"Rus" continued, there is a sign on a body of water in Minnesota saying the water is safe to drink. The Mississippi River begins at this spot and continues it's long journey and sometimes we are not very proud to see what is happening down below.

After 25 years, the job still isn't done in the Fenton Soil Conservation District. Hill stated that we should continue to manage water by the use of good soil and water conservation. New problems in land-use have shown up in the last few years. The job still isn't done.

Hill also reviewed many past events of the Fenton SCD.

J. Henry Cornell and Frank Atherton were re-elected district directors for a three year term. Vern Anderson, Work Unit Conservationist and Perry Cook, Soil Conservation Technician of the Soil Conservation Service were awarded a Certificate of Merit for outstanding service. Jim Cooper, Area Conservationist at Jackson, presented the award to them at the Fenton SCD annual meeting last Thursday evening.

The Certificate reads: sustained above average performance for providing exceptional assistance to landowners and operators in the Fenton, Northwest Livingston and South Livingston Soil Conservation Districts from Allan J. Collins, State Conservationist of the Soil Conservation Service. The two conservationists also received a cash award with the Certificate.

## Farm Leaders Visit Congress

Fifty farm leaders representing 25 county Farm Bureaus throughout the state of Michigan arrived by jet today at the nation's capital for a first-hand look at their government's legislative process.

Representing this area are: Mr. and Mrs. Clayton Anderson, and Mr. and Mrs. Jack Lucas, of Livestock County Farm Bureau.

During their three-day stay in Washington, D.C., the group will visit with Michigan Congressmen from both political parties to discuss various issues including local reapportionment, lack of export quotas for Michigan white wheat, and other farm-related problems. They will be special guests of Minority Leader, Gerald Ford, and Mrs. Ford at a luncheon Tuesday at the Capitol.

Also included on their full agenda is a "briefing" by staff members of the American Farm Bureau Federation's Washington office regarding current or pending action in Congress and how it may affect the agricultural scene.

The final day will be devoted to a sightseeing excursion of the area's many historical shrines.

The Washington Legislative Air Tour is sponsored annually by the Michigan Farm Bureau Women to offer their "legislative-minded" members an opportunity to observe their national government in action.

Accompanying the group will be the president of the 70,000 farm family member Michigan Farm Bureau, Elton Smith, Kent County farmer, and Farm Bureau's "Legislative Counsel," Dan E. Reed.

## Michigan Intangibles Tax

It is a pleasure to announce that our bank has again elected to assume the Michigan Intangibles Tax liability for all of its depositors. As a result, it will not be necessary for any of our customers to report any of their deposits with us on their Michigan Intangibles Tax return this year.

This tax which we have paid for our depositors every year since it came into effect, is in the amount of \$.50 per \$1,000.00 of deposit. Our bank also pays under the Michigan Intangibles Tax, a sum of \$5.50 per \$1,000.00 on our capital, which brings our total payment under this tax to over \$13,000.00.

This is another one of the McPherson State Bank's services to its customers, many of which go unrecognized, but which result in a saving to its depositors.

## Card of Thanks

I WISH to thank all our friends and relatives for the cards, plants, gifts and visits during my stay at Botsford General Hospital. Your kindness will long be remembered. Thank you.  
Jean W. Lanning 3-17x

I WISH to express my sincere appreciation to the doctors, nurses, Rev. Coffey, friends and relatives who helped to make my stay in the hospital more pleasant. Agnes Cryslar 3-17

BOTH OF US wish our many Pinckney friends and relatives, a very appreciative "thank-you" for the huge shower of cards, flowers and gifts sent to us in observance of our Golden Wedding Anniversary of February 24. It was indeed wonderful for us, after having reached this milestone in our lives. May God bless all of you. Very sincerely,  
Esther and Ona Campbell 3-17p

The last time American and British forces met as enemies on the field of battle was on Jan. 8, 1815, at the Chalmette plantation below New Orleans.

by Claire Parks

### A Lovelier Skin In 7-Days

Near-instant promises for prettier complexions are not new. But Pond's 7-Day Beauty Plan really works because it satisfies a normal skin's basic needs while giving it improving extras to glow over.

The whole point behind the Plan is to keep the skin from slipping into a dull-nothing phase that makes it seem lifeless and somehow uninteresting. This is something that can happen to anyone at any time. And you can tell you're in the throes of it if, for reasons you can't explain, you don't look as pretty as you should. Sort of dimmed out.

Simplicity is the keynote. Every night for a week you treat your skin to two consecutive applications of Pond's Cold Cream. Like so:

First, cover your face generously with cold cream to remove make-up. Close your eyes and swirl it over brows and lashes to dispose of mascara, pencil, liner and even lash glue if you've been wearing fringes. The cream will never irritate the eyes but it will leave them clear of cosmetics. This done, wipe off the cream with several facial tissues.

Apply a lighter, second coat of cream and spend a few minutes massaging it gently but firmly into your skin to deep cleanse, moisturize, smooth and soften. When only a slight film remains, leave it—and sleep on it!

**"ON THE ROAD"**

## NOTICE OF MORTGAGE SALE

Default having been made in the conditions of a certain mortgage made by LAWRENCE JAMES MCCARTNEY and EILEEN J. MCCARTNEY, his wife, of Brighton, Michigan, to NATIONAL HOMES ACCEPTANCE CORPORATION, an Indiana corporation, dated the 10th day of January, 1963, and recorded in the office of the Register of Deeds for the County of Livingston and State of Michigan, on the 10th day of January, 1963, in Liber 386 of Mortgages, on page 553-3, subsequently assigned to STATE OF MICHIGAN, by assignment dated February 9, 1963, and recorded February 14, 1963, in Liber 386, page 216, Livingston County Records, and thereafter assigned to THE CHASE MANHATTAN BANK, a New York corporation, as assignee, dated May 28, 1963, and recorded June 28, 1963, in Liber 424, page 8, Livingston County Records, on which mortgage there is claimed to be due at the date of this notice, the sum of Twenty Thousand One Hundred and thirty-seven and 3/100 (\$21,377.03) Dollars, and the further sum of Seventy Two Thousand Two Hundred and Twelve and 03/100 (\$22,212.03) Dollars, to which amount will be added at the time of sale all taxes and insurance that may be paid by the said mortgagee, and the time also said, and no proceedings at law having been instituted to recover the debt now remaining secured by said mortgage, or any part thereof, whereby the power of sale contained in said mortgage has become operative.

Now Therefore, Notice is hereby given that by virtue of the power of sale contained in said mortgage, and in pursuance of the statute in such case made and provided, the said mortgage will be foreclosed by a sale of the premises hereby given, to be held at public auction, to the highest bidder, at the front door of the court house in the city of Howell, and County of Livingston, Michigan, on the 19th day of May, 1965, at 10:00 o'clock in the forenoon of said day, and said premises will be sold to pay the amount due on said mortgage, with 5 1/2 percent interest, legal costs, attorneys' fees and disbursements, insurance that said mortgagee does pay on or prior to the date of said sale, and said premises are described in said mortgage as follows:

Let No. 145 of the Willow Subdivision No. 2, being a part of the Northwest Fractional Quarter Section 5, Town 1 North, Range 8 East, Green Oak Township, Livingston County, Michigan, as duly laid out, plotted and recorded in Liber 3, Page 33 of Plats, Livingston County Records.

## Fat Would Knock 'Foam' According to Recent Tests

The foam we see blanketing many streams and rivers would disappear if we began to use fat-based detergents instead of synthetic-based ones that are now in use, according to recent findings. Tests show that fat-based detergents are far more biodegradable than the synthetic-based detergents — meaning that the micro-organisms which purify our streams and soils from the wastes of society and industry can decompose fat-based detergents easily, whereas they are less effective against the oil-based substances. Consequences of this are that many streams have collected residues of the material which cause huge buildups of foam and sometimes even pollute water sources so that foam heads build up on glasses of tap water. Most detergents on the market today are made from alkylbenzene-sulfonates (ABS), the agent that causes foaming. The National Association has encouraged experiments with fat-based detergents. From this research have emerged several excellent detergents.

The new detergents are based either on alcohol sulfates or on sulfonated fatty acid esters which are inherently bio-degradable. Both are as good for detergent action as the ABS substances — and, in fact, the alcohol sulfates are even better.

Tests showing the three forms of the sulfates and the three esters have proved that the fat-based detergents are far more biodegradable than the others. In a month of treatment approximating the processes of a normal sewage disposal plant, only 1 or 2 parts per million of the fat-based detergents could be detected in the effluents. However, the ABS detergents averaged three-and-one-half to 11 parts per million, and they ranged up to 17 parts per million.

To determine the comparative rate of decomposition in anaerobic conditions, tests were conducted in which the different types of detergents were put into sludge daily, and later measured. Fat-based detergents steadily disappeared, while the petroleum-based types accumulated in the amounts in which they were added. The ABS-based materials actually appeared to harm the micro-organisms which were supposed to be destroying them.

Researchers recognize that concentration of detergents in saturated soil, or the anaerobic digesters in sewage-treatment plants, normally may not reach levels which are toxic to either the micro-organisms or dangerous to the general population. Still the possibility of increased accumulation of the future dangers makes the development of fat-based detergents imperative.

## Methodists to Meet at MSU

Over 1,000 Methodist laymen and ministers from all parts of Michigan meet on the Michigan State University campus April 3 for their 13th annual All-State Conference. Twenty-five sectional meetings will consider such topics as the pressure for legalized gambling, the morality of traffic safety and the ecumenical movement. They will also deal with science and moral decisions, juvenile problems and Methodist family life.

Relivering the laymen's address will be Alfred W. Storey, EUB layman from Ann Arbor. Speaking for the ministry will be Bishop Dwight Loder of Detroit.

The Michigan and Detroit Conference Boards of Lay Activities, in cooperation with the MSU University Committee on Church Related Program, will sponsor the conference.

## Uncle Sam Wants You - In The Navy

The Navy has announced that it has hundreds of openings for immediate enlistment in a large number of its specialized programs. This is a definite and unlimited opportunity for high school graduates between the ages of 17 to 31 to obtain training in the fields of nuclear power, electronics, aviation and engineering.

Chief Petty Officer E. D. Harvey, Local Navy Recruiter, is available for counseling of any young man, or his parents, on the subject of military obligation and the programs opened to prospective applicants in the United States Navy. For further information concerning your military obligation and the specialized program you may be qualified for contact Chief Petty Officer E. D. Harvey at 220 North Main Street, Ann Arbor, Michigan or call collect 663-5683.

## Tourist Chairman Calls For End to Signing Problems

A major effort to solve signing problems on Michigan highways was urged here Tuesday by the chairman of the Michigan tourist Council.

Addressing the 50th Annual Michigan Highway Conference, Wesley B. Tebeau of Muskegon said a vital concern of the tourist industry is the federal regulation prohibiting business identification and information signs on the right-of-way of federal aid highways.

"If the battle must be fought in Washington to achieve satisfactory solutions, let us fight it together in the best interest of the people of Michigan," Tebeau said. "If it can be solved in Lansing, let us sit down together and solve it there. We both have too much at stake to allow our problems to remain unsolved."

Tebeau said the Tourist Council is encouraged by recent action to develop scenic highways and pledged support of the council for efforts to screen from the traveling public some 400 junkyards which mar Michigan roadways.

He also reported on the council's all-out campaign against litter on beaches, public lands and highways, concluding:

"I am sure that you could find a better use for the hundreds of thousands of dollars spent to clean up the great highway system we have built and I am sure that we would all be pleased with a cleaner state."

Tebeau reported that Michigan's tourist industry grossed nearly one-billion dollars in 1964 placing tourism and agriculture in a tight battle for the number two spot in the state's overall economic race. Manufacturing is first.

As for the industry's future, the council chairman predicted "fantastic" growth, a result of the booming population, increased wages, more leisure time, earlier retirement and longer life spans.

He said the Tourist Council is now engaged in a five-year program to push the annual amount of tourist spending over the billion-dollar mark while adding to the tourist industry work force and upgrading existing tourist facilities.

"Michigan's highway builders and the state's tourist industry are partners in Michigan's progress," Tebeau stated. "For without highways the tourist industry as we know it could not exist."

"More than 90 percent of the recreational travel in Michigan is by automobile, resulting in a staggering number of recreational miles on our highways. This travel makes it mandatory that highways be designed to provide maximum safety and convenience for our visitors."

**Some Helpful Tips**  
**On Your Favorite Summer Chore**

Now is the time for all good men to (re)begin thinking about mowing the lawn.

With spring only a few days away, the weather will soon warm, the grass will grow and the work will begin.

As a prelude to spring, a Minnesota agronomist has a few words of advice for the maul of the species who will soon toil regularly over a hot mower.

First, said J. R. Watson of the Toro Manufacturing Co., Minneapolis mowing the lawn should not be regarded as merely a simple operation for removing excess grass.

It is one which is perhaps the most important single factor contributing to an attractive home landscape, he declared March 12 at a Michigan State University turfgrass conference.

Watson reported that the height at which a given grass can be cut and still survive for extended periods is directly related to its ability to produce sufficient leaf surface for the photosynthetic activity required for its growth.

For example, he recommended that creeping types, such as bentgrass and bermudagrass, when properly fertilized and watered, can be cut as low as 3/16 inch. Kentucky bluegrass and fescue, he said should be cut relatively high, about 1 to 1 1/2 inches.

Concerning the frequency of cutting, Watson advised that at no time should clipping amounts in excess of 1/3 of the total leaf surface be removed at a given mowing.

Some of his other recommendations:

—Young, tender spring grass must be cut with a sharp, well-adjusted mower, and cut often to avoid high-moisture problems.

—Alternate directions of cut will partially control runners of creeping grasses, and will aid in the prevention of grain and thatch.

—Mowing wet grass should be avoided.

—Even terrain should be regraded to prevent scalping of lawn and mower damage.

—Insects, such as earthworms or ants, should be controlled to avoid uneven cuts.

## Corn Bulletins Available Free

Corn is Michigan's most important field crop. And corn growers are becoming more efficient all the time.

In fact, today's corn acreage has increased over 300,000 acres from the 1941-1950 average. Yields during the same period have increased from an average of 36 bushels per acre to over 65 bushels.

Early plantings, new varieties, and better weed and insect control are in part responsible for this remarkable record.

However, some growers have failed to take advantage of new ideas. This has resulted in lower yields and often lower quality grain than their neighbors.

To help this harassed farmer, the Michigan State University Cooperative Extension Service has developed four new publications aimed at helping achieve maximum yields.

"Hybrid Selection and Cultural Practices" are the subjects of a bulletin written by three MSU crop and soil scientists. They explain how to select corn hybrids and compare seed rotation practices, planning dates and many other areas of soil preparation.

MSU crop scientists compared hybrids available to the farmer for many characteristics in all parts of the state, and results of these trials are presented in "Hybrids Compared 1965." "Weed Control" and "Insect Control" were both prepared by MSU crop scientists and entomologists to give the most helpful methods for controlling these problems. Practical tables outlining weeds and insects that affect corn protection — giving

## The Driver's Seat

The pages of popular periodicals reverberate with alarming accounts of the awful crash of cars on city streets.

Writers predict that some day the millennium will arrive: Cars will become wedged into every space on the highways and traffic will grind to the final halt.

The only recourse, they say, will be to pour concrete over those cars and start all over again.

But, hasn't anyone noticed how crowded the sidewalks are?

The most effective way to cope with these — are presented.

The bulletins are available free of charge from the Livingston County Extension Service office located at the Courthouse Annex, Howell.

Just ask for bulletin:

No. 431 Corn Hybrids Compared 1965.

No. 436 Hybrid Selection and Cultural Practices.

No. 438 Michigan Corn Production Weed Control.

No. 439 Michigan Corn Production Insect Control.

It's so crowded on State Street in Chicago during the noon hour that a pedestrian could retract his legs as if they were landing gear and ride to his destination without touching the sidewalk.

On Fifth Avenue in New York, the crowd picks the destination — you just avoid being trampled.

It's so crowded on Sepulveda Boulevard in Los Angeles that only your head gets wet when it rains.

This "horde" environment has produced a new breed of man — Pedestrian Man.

Pedestrian Man has glazed eyes. He seems insensitive to his surroundings.

It is well that he should adapt this way. If he didn't, police would be breaking up fist fights at every downtown street corner.

As it is, pedestrians don't seem to notice the jolt as they bounce off each other. They stride boldly into the packs of people at street corners to be jostled and crushed like the center in a quarterback sneak, only to emerge chatting unconcernedly with their companions.

Even the most nonchalant pedestrian, however, doesn't like the crush. What we really need, he would agree, are four-level sidewalks.

A speaker was lecturing on forest preserves. "I don't suppose," he said, "that there's a person in the house who has done a single thing to conserve our timber resources."

Silence ruled for several seconds, then a meek voice from the rear of the hall timidly retorted, "I once shot a woodpecker."
